3344. COLLINS, HENRY BASCOM, 1899-. Prehistoric art of the Alaskan Eskimo. Smithsonian Institution, 1929. 1 p. l., 52 p. illus., 24 plates. (Smithsonian miscellaneous collections. v. 81, no. 14) Publication 3023.

Description of carved ivory objects mainly excavated by the author on St. Lawrence and Punuk Islands 1928; comparative discussion of the prehistoric cultures represented there, of ancient and modern designs, and remarks on the relationship of ancient Eskimo cultures in Alaska, Canada and Greenland.

Copy seen: DLC.

3345. COLLINS, HENRY BASCOM, 1899-. Prehistoric Eskimo culture in Alaska. (Smithsonian Institution. Explorations and field-work of the Smithsonian Institution in 1929, *pub.* 1930. Publication 3060. p. 147-56, illus.)

Brief account of archeological excavations at Cape Kialegak, St. Lawrence Island and of a trip to the upper Kougaruk River in the interior of Seward Peninsula. Skeletal material was collected at Kialegak, Norton Bay, Imaruk Basin, and Point Hope, and measurements made of Eskimos living at King Island, Shishmareff, Kotzebue, and Point Hope. The skeletal material collected on this trip is described in Dr. Hrdlička's *Catalog of human crania: Eskimo in general*, q.v.

Copy seen: DLC.

3346. COLLINS, HENRY BASCOM, 1899-. Prehistoric Eskimo culture on St. Lawrence Island. (Geographical review, 1932. v. 22, p. 107-119, illus.)

Investigations for the Smithsonian Institution, 1930, at five old villages, with discussion of the cultural sequence they reveal (Old Bering Sea to mod-

ern); descriptions of the artifacts, house-types and skeletal remains, and statement of inadequacy of geographical distribution and simplicity of form as an index of age.

3347. COLLINS, HENRY BASCOM, 1899-. Prehistoric Eskimo harpoon heads from Bering Strait. (Washington Academy of Sciences. Journal, July 15, 1941. v. 31, no. 7, p. 318-24, plate)

Describes four harpoon heads of unusual type collected on Little Diomed Island by Dr. Diamond Jenness in 1926. The same type has been found (but only one example described) at the two oldest sites on St. Lawrence and Punuk Islands and at Ipiutak, Point Hope, indicating that it is one of the oldest forms of the Eskimo harpoon head.

3350. COLLINSON, Sir RICHARD, 1811-1883. Account of the proceedings of H.M.S. *Enterprise* from Behring Strait to Cambridge Bay. (Royal Geographical Society. Journal, 1855. v. 25, p. 194-206, fold. map)

A brief narrative of the activities of the *Enterprise*, 1850-53, on the expedition described under the author's, *Journal of H.M.S. Enterprise* [etc.], 1889. Includes note of ice conditions throughout the voyage across Beaufort Sea to Cape Bathurst, thence north to Prince of Wales Strait and the west coast of Banks Island; the wintering in the strait and the subsequent voyage through Dolphin and Union and Dease Straits to Cambridge Bay on Victoria Island, where the second wintering took place; the sledge journeys from the ship; with remarks on the Eskimos.

Copy seen: DLC.

3351. COLLINSON, Sir RICHARD, 1811-1883. Journal of H.M.S. *Enterprise*, on the expedition in search of Sir John Franklin's ships by Behring Strait. 1850-55. By Captain Richard Collinson, commander of the expedition. With a memoir of his other services. Ed. by his brother, Major-General T. B. Collinson, London, S. Low, Marston, Searle, & Rivington, Ltd., 1889. xi, [1] 531, [1] p. col. front., ports., 6 fold. maps.

The *Enterprise* and *Investigator*, under command of Collinson, sailed Jan. 1850, via Magellan Strait, to pursue the Franklin search from Bering Strait eastward through the Canadian arctic waters. The *Enterprise*, delayed, finally reached and explored the waters around Banks Island, and wintered in Prince of Wales Strait, 1851-52; sailed through Dolphin and Union and Dease Straits to winter in Cambridge Bay and explore by sledge around the east of Victoria Island, 1852-53; returned westward to winter in Camden Bay, Alaska, 1853-54, and thence home by the same route.

In a prologue Collinson gives an ab-

stract of the Franklin search to 1850, the state of arctic knowledge in the region of search, the books consulted, Admiralty orders, and list of officers and crew; a chapter on the visit to Port Clarence including the death of Lt. J. J. Bernard, killed by Indians during a visit to Nulato, on the Yukon River.

Journal entries throughout record the course of the expedition, give information on currents, ice, dust and stone on ice, coasts, equipment for sledge parties, distances traversed, meteorology, animals encountered, and appearance and customs of the Eskimos; include descriptions of Walker Bay in Prince of Wales Strait, and Cambridge Bay, Victoria Island; a brief list of Eskimo names for places from Pt. Barrow to the Mackenzie River; and notes on signal balloons, carrier pigeons, and effects of cold on sound, light, scent, and freezing of liquids; and summaries of the Franklin search as a whole.

Appendix consists of notes to the journal, drawn from many sources, including effect of Mackenzie River on Beaufort Sea, and its driftwood; auroras; details of sledges and sledge traveling; arctic winter aboard ship; health (scurvy); polar ice, breaking up and resetting; Eskimos; and use of gunpowder for blasting ice.

Concludes with a biographical memoir of Sir R. Collinson.

Copy seen: DLC.

3352. COLLINSON, Sir RICHARD, 1811-1883. Notes on the state of the ice and on the indications of open water, &c, from Behring to Bellot Straits, along the coasts of arctic America and Siberia, including the accounts of Anjou and Wrangell. (In: Royal Geographical Society. Arctic geography and ethnology, 1875. p. 105-62)

Account, with emphasis throughout on ice conditions and open water, of various expeditions from the 17th century to about 1854 (*Investigator* and *Enterprise*). Includes voyages to Bering Strait, thence westward to the Kolyma River, and eastward to Bellot Strait; land expeditions in northern Canada, descent of the Mackenzie, Coppermine and Back Rivers; coastal trips by boat or canoe along Canadian arctic shores. Includes (p. 129-30) a list of

Eskimo names for places between the Mackenzie River and Point Hope, Alaska. *Copy seen:* DLC; NNS Stef.

3353. COLLIS, Mrs. SEPTIMA MARIA (LEVY) 1842-1917. A woman's trip to Alaska; being an account of a voyage through the inland seas of the Sitkan archipelago, in 1890. By Septima M. Collis (Mrs. General C. H. T. Collis). Illustrated by American Bank Note Co., New York. New York, Cassell Publishing Co. [c1890] 7 p. l., 194 p. illus. (part col.) fold. plate, ports., map. *Copy seen:* DLC; NNS Stef.

3354. COLLISON, WILLIAM HENRY, 1847- In the wake of the war canoe; a stirring record of forty years' successful labour, peril and adventure amongst the savage Indian tribes of the Pacific coast, and the piratical head-hunting Haidas of the Queen Charlotte Islands, B. C., by the Venerable W. H. Collison . . . with an introduction by the Lord Bishop of Derry. New York, E. P. Dutton & Co., [1916] 351, [1] p. 25 plates (incl. map).

Describes experiences of the author as a missionary, chiefly among the Haida Indians of Queen Charlotte Islands, B. C. Includes detailed descriptions of Haida material culture and customs, and of the olachan ("candle-fish") fishing in the Tsimshian territory on the Nass River, B. C., with some notes on Old Metlakatla, the Tsimshian Indian community near Fort Simpson.

Maps of British Columbia and southeastern Alaska sketching location of some places mentioned in text.

3362. CONGRÈS INTERNATIONAL POUR L'ÉTUDE DES RÉGIONS POLAIRES. 1st, BRUSSELS. 1906. Congrès international pour l'étude des régions polaires tenu à Bruxelles du 7 au 11 septembre 1906, sous le haut patronage du gouvernement belge. Rapport d'ensemble. Documents préliminaires et compte rendu des séances. Bruxelles, Hayez, Impr. des Académies Royales de Belgique, 1906. 311, [71] p., 1 l., [2] p. fold. plan. *Title tr.*: International Congress for the study of the polar regions held at Brussels September 7 to 11, 1906, under the patronage of the Belgian government. General report. Preliminary records and proceedings of meetings.

This congress originated in a resolution passed by the World Congress of Economic Expansion, Mons, 1905. Its purpose was to obtain international agreement on various disputed questions of polar geography, also to co-ordinate efforts to reach the Poles, to organize expeditions, and draw up work for the different countries in connection with these expeditions. The congress' name was changed, Sept. 11, 1906, to International Polar Commission, q.v., for subsequent sessions.

This general report, etc., includes ten "notices" by various authors, on plans, projects, and suggestions for arctic research.

Account of the first Conway expedition, during which Conway and Garwood made three crossings between Advent Bay and Klok Bay, from Klok to Sassen Bay, and from Sassen Bay to Agardh Bay and return, June-Aug. 1896; with descriptions of the physical features, notes on a boat trip around the north end of West Spitsbergen, and side trips of other members of the party.

Maps: 1. Topographic sketch map of part of Spitsbergen, 77°50'-78°30'N. 15°30'-19°05'E. 2. Topographic sketch map of the mountains along the shores of Wijde Bay, 78°10'-79°55'N. 14°30'-17°30'E., including Dickson Bay (off Ice Fiord). *Copy seen: DLC.*

3378. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. The first crossing of Spitsbergen; being an account of an inland journey of exploration and survey, with descriptions of several mountain ascents, of boat ex-

peditions in Ice Fjord, of a voyage to North-Eastland, the Seven Islands, down Hinloopen Strait, nearly to Wiches land, and into most of the fjords of Spitsbergen, and of an almost complete circumnavigation of the main island. By Sir William Martin Conway . . . with contributions by J. W. Gregory, D.S.C., A. Trevor-Battye, and E. J. Garwood; together with eight coloured plates reproduced in facsimile from sketches by H. E. Conway, two maps, and about one hundred full-page and text illustrations from photographs and sketches. London, J. M. Dent & Co.; New York, C. Scribner's Sons, 1897. xii, 371 p. illus., 58 plates (8 col., incl. front.) 2 fold. maps.

The author spent the summers of 1896 and 1897 exploring the interior of West Spitsbergen. This volume is an account of the first season's voyage to the island, and the trips there during which Conway, Gregory, Trevor-Battye, Garwood, and H. E. Conway crossed overland from Advent Bay to Bell Sound, thence northward to Sassen Bay, and from there to Agardh Bay on the east coast and returned to Advent Bay. They made in all thirteen mountain ascents, produced a survey sketch of about 600 square miles of central West Spitsbergen, almost completed a circumnavigation of the main island, and made valuable geologic and natural history collections.

Includes: Report on Ekman and Dickson Bays, by A. Trevor-Battye.

The ascent of Mt. Hedgehog, or Hornsunds Tind, by E. J. Garwood.

Appendix: Nomenclature of Spitsbergen. (Notes on 137 place names of Svalbard).

List of 16 early maps of West Spitsbergen.

3379. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. How Spitsbergen was discovered. (Geographical journal, Feb. 1903. v. 21, p. 142-50, 2 sketch maps)

Brief review of Willem Barendsz' (and others') voyage of discovery, Barendsz' death, etc., drawn from De Veer's journal. *Copy seen: DLC.*

3380. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. Hudson's voyage to Spitsbergen in 1607. (Geographical journal, Feb. 1900. v. 15, p. 121-30, 3 sketch maps)

Analysis, with extensive quotations, of the journal of John Playse, one of the ship's company on the voyage of the *Hopewell* under Henry Hudson; also notes on Barendsz' discoveries 1596, and on the Barendsz and Hondius charts.

Copy seen: DLC.

3381. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. Joris Carolus, discoverer of Edge Island. A forgotten arctic explorer. (Geographical journal, June 1901. v. 17, p. 623-32, 3 sketch maps)

Examination of the claim of an early 17th century Netherlands pilot to have reached 83°N.; based on late 15th and early 16th century maps and writings, with discussion of early Dutch and British exploration, and maps.

Copy seen: DLC.

3382. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. No Man's Land, a history of Spitsbergen from its discovery in 1596 to the beginning of the scientific exploration of the country. Cambridge, University Press, 1906. x p., 1 l., 377 p. 11 plates, 13 maps incl. 2 inside cover.

Results of research over a period of nine years, begun as preliminary studies to the author's expeditions, 1896-97. A well documented account of the discovery of Svalbard, its walrus hunting and whaling history, the international contest over whaling and its settlement; famous winterings on West Spitsbergen, the era of Russian trappers, and national expeditions to the archipelago. List of principal voyages recorded 1847-1900; bibliography of the history and geography of Svalbard (269 items); the cartography with a chronological list of maps, 1598-1820 (56 items), and a history of Svalbard nomenclature before the 19th century.

Copy seen: DLC.

3383. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. The political status of Spitsbergen. (Geographical journal, Feb. 1919, v. 53, p. 83-96, 2 plates)

Historical sketch of national rivalries for West Spitsbergen from the 16th to 19th centuries, including the old whaling, sealing and hunting activities and the more recent coal mining development; with a discussion by others, p. 91-96.

Copy seen: DLC.

3384. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. Some unpublished Spitsbergen Mss. (Geographical journal, June 1900, v. 15, p. 628-36, illus.)

Three 17th century Mss. of Capt. Lancelot Anderson and a Mr. Gray, concerning the bay fishery for whales, in the Bell Sound waters of West Spitsbergen.

Copy seen: DLC.

3385. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. Spitsbergen. (Geographical journal, June 1907. v. 29, p. 661-63)

Note on Netherlands government activities concerning old Netherlands whalers' graves, and further notes on the course of Willem Barendsz in his voyage of discovery.

Copy seen: DLC.

3386. CONWAY, WILLIAM MARTIN CONWAY, Baron, 1856-1937. With ski & sledge over arctic glaciers. London, J. M. Dent & Co., 1898. vi p., 2 l., 240 p. 14 plates.

This volume is to be regarded as an appendix to the author's *The first crossing of Spitsbergen*, 1897, q.v. Together, they comprise an account of his exploration of the interior of West Spitsbergen undertaken during the summers of 1896 and 1897, in the company of E. J. Garwood, whose photographs illustrate this book. The text is a narrative of the explorations during 1897, when Conway and Garwood with two companions, ascended (from Klaas Billen Bay) the Nordenskiöld Glacier; proceeded by boat to King's Bay; from there they sledged and skied along King's Highway Glacier (Kongsvegen) into the Pretender Pass-Osborne Glacier region, and eastward into James I Land. Returning to King's Bay they sailed southward to Horn Sound and climbed Hedgehog Mt. to the east. Includes a chapter on skiing, and discussion of the nature of West Spitsbergen's glaciers.

Appendix contains an account of Gustaf Nordenskiöld's traverse from Horn Sound to Bell Sound in 1890.

3387. COOK, FREDERICK ALBERT, 1865-1940. The conquest of Mt. McKinley, (Harper's magazine, May 1907. v. 114, p. 821-37, illus. (incl. sketch map) plate)

Account of the author's attempt in 1906 to ascend Mt. McKinley, Alaska.

Copy seen: DLC; NNS Stef.

3388. COOK, FREDERICK ALBERT, 1865-1940. The Greenlanders. (*In*: Walsh, H. C., and others. Last cruise of the *Miranda*, 1896. p. 172-79)

General notes on physical, psychological and moral traits and customs of West Greenland Eskimos.

Copy seen: DLC; NNS Stef.

3389. COOK, FREDERICK ALBERT, 1865-1940. My attainment of the Pole: being the record of the expedition that first reached the boreal center, 1907-1909, with the final summary of the polar controversy. New York, Polar Publishing Co., 1911. xx p., 1 l., 604 p. front., illus., 31 plates, ports., sketch map, facsimils., diags.

Other editions without notable change of text, and same plates were published in New York and London by M. Kennerley, 1912 and 1913.

Narrative of Cook's sledge journey with Eskimo companions from Etah, across Ellesmere Island to Axel Heiberg, thence, he claimed, northward to the Pole; his return journey, wintering on North Devon Island, to Etah. Includes chapters on the Polar Eskimos, their hunting and ways of life; descriptions of ice and snow in polar regions; a new sledge design; also discussion of the controversy over the validity of Cook's claims to have reached the North Pole.

3411. COOPER, WILLIAM SKINNER, 1884- . Additions to the flora of the Glacier Bay National Monument, Alaska 1935-36. (Torrey Botanical Club. Bulletin, Oct. 1939. v. 66, p. 453-56)

Based on work carried on in continuation of the author's ecological survey of the region, begun in 1916. A list, with habitats, of thirty-one species, and a list of sixty-seven species of plants collected by D. Brink, from the west flank of the Fairweather mountain near Lake Crillon.

Copy seen: DA; NNS Stef.

3412. COOPER, WILLIAM SKINNER, 1884- . The forests of Glacier Bay — present, past, and yet unborn. (Journal of forestry, Jan. 1924. v. 22, p. 16-23, sketch map)

Description of plant succession following the most recent recession of the glacier, and of the vegetation during interglacial periods, as shown by deposits along the Bay.

Copy seen: DA.

3413. COOPER, WILLIAM SKINNER, 1884- . A fourth expedition to Glacier Bay, Alaska. (Ecology, Apr. 1939. v. 20 p. 130-55, illus., tables, 2 sketch maps, diags.)

Report on changes observed during the Field Expedition to Alaska in 1935 in the quadrats set by the author on previous trips. Descriptions of the vegetation cycle on the foreland east of this Bay and on the eight quadrats along the shores, with discussion of interglacial forests. *Copy seen:* DA.

3414. COOPER, WILLIAM SKINNER, 1884- . The problem of Glacier Bay, Alaska: a study of glacier variations. (Geographical review, Jan. 1937. v. 27, p. 37-62, illus., 4 sketch maps, fold. map)

Result of the author's observations during four visits, over a period of

nineteen years, "to trace the glacial history of the bay and its surroundings from the last glacial maximum of the Pleistocene to the present." Detailed illustrations from photographs, and description of the moraines, deposits, and glaciers, and discussion of advances and recessions (based in part on tree-ring counts) and of the causes and manner of these movements.

Copy seen: DLC.

3415. COOPER, WILLIAM SKINNER, 1884- . The recent ecological history of Glacier Bay, Alaska: I-III. (*Ecology*, Apr.-Oct. 1923. v. 4, p. 93-128 223-46, 355-65, illus. fold. map, diagrs.)

Based on a reconnaissance of all inlets and most ice-fronts, 1916, and a resurvey of these quadrats and study of the vegetation of the Muir Inlet region, 1921.

Contents: 1. The interglacial forests of Glacier Bay. (Brief climatic analysis, description of the region, its areal geology and glacial history; full discussion of earlier vegetation, its soils, and mosses)

2. The present vegetation cycle. (Areal ecology, list of twenty-nine plants, plant communities, primitive and present habitats)

3. Permanent quadrats: an initial report upon a long-period study. (Comparison of state of vegetation between 1916 and 1921)

Copy seen: DA.

3416. COOPER, WILLIAM SKINNER, 1884- . The seed-plants and ferns of the Glacier Bay National Monument, Alaska. (Torrey Botanical Club. Bulletin, May 1931. v. 57 p. 327-38)

Based on visits in 1916, 1921, and 1929, to carry out an ecological survey of the region, a list, with habitats, of two hundred thirty-two species.

Copy seen: DA; NNStef.

3417. COOPER, WILLIAM SKINNER, 1884- . A third expedition to Glacier Bay, Alaska. (*Ecology*, Jan. 1931. v. 12, p. 61-95, illus., tables, 3 sketch maps, diagrs.)

A party of four under the author's direction, continued the study of ecological history and made botanical collections in the Glacier Bay, Stikine River and Davidson Glacier regions, summer 1929. He reports here on the differences found in the quadrats, between visits of 1916, 1921 and 1929:

gives detailed discussion of the plant successions, various stages, succession and erosion, interglacial forests, and the foreland east of the bay.

Copy seen: DA.

3418. COOPER, WILLIAM SKINNER, 1884- . Vegetation of the Prince William Sound region, Alaska; with a brief excursion into Post-Pleistocene climatic history. (*Ecological monographs*, Jan. 1942. v. 12, p. 1-22, illus., 3 sketch maps)

Results of observations made during the author's collaboration with the Field Expedition to Alaska, 1935. Notes on the geography, glacial history and climate, on the forests, tundra and inter-relations of bog, heath, and forest; a description of the vegetation of the fiord complex with remarks on paleoclimate, and a bibliography (51 items).

Katalog over litteratur vedrørende polaromraadernes og verdenshavenes, opdagelse og udforskning, hval- og sælfangst, personalhistorie, tidsskrifter, aarsskrifter og andre periodica . . . Udarbejdet af . . . H. A. O. Bistrup. København, Levin & Munksgaard, 1933. xvi, 390 p. *Title tr.:* Catalogue of literature concerning the discoveries and the explorations of the polar environs and the oceans, whale- and seal fisheries, biography, periodicals, annuals and other periodical papers.

This is v. 1 of a two-volume catalog of the Danish Navy Library. v. 2 pub. 1936 is: Naval, nautical and technical literature. Yearly supplement (Aarligt tillæg) issued since 1933, covers both sections of the catalog.

The Library of the Danish Navy includes a main, and eight smaller collections in institutions under the direction of the Ministry of Marine.

This catalog lists works by region with subject subdivisions. The regional sections include a record of expeditions and their published results. Each volume and supplement is indexed. Includes Greenland, north polar region (circumpolar other than Greenland and Iceland) and a section on whaling and sealing.

Detailed description of a variety, based on one specimen collected at Churchill, 1885.

Copy seen: DLC.

3459. COX, PHILIP. Results of the Hudson Bay Expedition, 1920. II. The Gasterosteidae. (Canada. Biological Board. Contributions to Canadian biology, 1921, pub. 1922. p. 149-53)

Report on, and discussion of the distribution of three species of sticklebacks from fifteen stations around the edges of James and Hudson Bays, in ponds and pools of the beaches and rivers, and from the sea surface.

Copy seen: DLC; DSI-M.

3460. CRABB, EDWARD DRANE, 1890-. A note on the economic status of the bald eagle in Alaska. (Auk, July 1923. v. 40, p. 419-23)

A plea against the extermination of this bird in Alaska, and suggestion for limiting the application of the 1918 bounty law; includes notes on stomach contents of the birds.

Copy seen: DSI-M.

3461. CRAHMER, WILHELM. Bericht über ethnographische Arbeiten in Lappland. I. (Tornelappmark, Enare-See, Kola) 1912. II. (Tornelappmark) 1913. (Zeitschrift für Ethnologie. Berlin, 1913-1914. v. 45, p. 532-44; v. 46, p. 785-823, illus.) **Title tr.:** Report on ethnographic work in Lappland. I. (Torne Lappmark, Lake Inari, Kola) 1912. II. (Torne Lappmark) 1913.

Part 1 outlines the travels of Crahmer and Planert in Lappland from March to October, 1912. Living with Lapps, they started from Kiruna, traveled in northern Sweden, Norway, and Finland, studied the Lapps along Lake Inari and the Varanger and Neiden Fiords, visited Lake Imandra in the Kola Peninsula, and ended their journey at the White Sea. Includes discussion of degree to which the native cultures have been replaced by European.

Part 2, based upon more intensive studies in 1913 of the nomadic Lapps of northern Sweden, gives detailed description of the ethnography of these people. Emphasizes activities associated with reindeer. Includes numerous pictures of dwellings and of reindeer travel activities.

Copy seen: DLC.

3462. CRAHMER, WILHELM. Über Lappen und Samojeden. (Zeitschrift für Ethnologie. Berlin, 1912. v. 44, p. 105-116, illus.) **Title tr.:** On the Lapps and Samoyeds.

Contains summary of physical and cultural characteristics of the Lapps and Samoyeds. Includes pictures of six Lapps and six Samoyeds. An address at the Northland Expedition, Nov. 6, 1911.

Copy seen: DLC.

3463. CRAIG, JOHN DAVIDSON, 1876- Canada's arctic islands, log of Canadian expedition, 1922, with an appendix, Aviation in the Arctic, by R. A. Logan. Ottawa, King's Printer, 1923. 27 p. illus. maps (incl. 1 fold.)

Report (by the officer in charge) on an expedition organized by the Canadian Dept. of Mines and Resources, Northwest Territories Branch, to establish police posts, custom houses and post offices at various points throughout the North.

Contains notes on personnel, brief account of the voyage of C. G. S. *Arctic* (Captain Bernier) July 17-Sept. 23, 1922, by Davis Strait and Baffin Bay to Lancaster Sound region; the establishment of posts, etc., at Craig Harbour on Ellesmere Island, and at Pond Inlet on Baffin Island, and a reconnaissance of Dundas Harbour on North Devon Island; the return, visiting at Godhavn, Disko; with remarks on Bylot Island, on ice conditions, especially in Eclipse, Lancaster and Jones Sound regions; on Royal Canadian Mounted

Police works; possibilities for aviation in the region, the Eskimos of West Greenland, etc. **Appendix:** Aviation in the Arctic, a reconnaissance of flying conditions in the Eastern Arctic Archipelago 1922, by R. A. Logan.

3468. CRANZ, DAVID, 1723-1777. Historia om Grönland, deruti landet och dess inbyggare etc., i synnerhet Evangeliska bröda-församlingens . . . mission . . . beskrifwas; af David Cranz på tyska författad . . . på svenska öfversatt . . . Stockholm, J. G. Lange, 1769. 2 v. fold. plates, 2 fold. maps. **Title tr.:** History of Greenland in which the land and its inhabitants, especially the mission of the congregation of Evangelical Brethren, . . . are described.

Swedish translation of *Historie von Grönland*, 1765; to which a third volume was added: Forsättning af Historien om Grönland, i synnerhet af Evangeliska bröda-församlingens där warande missioners förrättningar i Ny-Herrnhut och Lichtenfels ifrån år 1763 til 1768, jemte betydeliga anmärkningar och tilökningar, rörande landets natural-historia, af David Cranz . . . Stockholm, J. G. Lange, 1770. 8 p. l., 380, [18] p. **Title tr.:** Continuation of the history of Greenland, especially of the missionary activities of the Congregation of Evangelical Brethren at New Herrnhut and Lichtenfels from the year 1763 to 1768, together with considerable annotations and additions concerning the natural history of the country. **Copy seen:** DLC.

3469. CRANZ, DAVID, 1723-1777. Historie van Groenland behelzende eene nauwkeurige beschrijvinge van's landsligging, gestaltheid, en natuurlijke zeldzaamheden; den aart, zeden en gewoonten der inwooneren aan de westzijde bij de Straate Davis; s'lands aloude en nieuwe geschiedenisse; en in't bijzonder de verrichtingen der missionarissen van de broeder-kerk, door welken twee gemeeten van bekeerde heidenen aldaar gesticht zijn. Alles in eigen perzoon onderzocht en opgesteld door David Cranz. Haarlem, C. H. Bohn; Amsterdam, H. de Wit, 1767. 3 v.: xxxiv, 356; 282; 382, [2] p.; 14 fold. plates (incl. maps) **Title tr.:** History of Greenland containing an accurate description of its situation, geographic position and peculiarities of nature; the nature, manners and customs of the inhabitants on the west coast on Davis Strait; the country's old and new history and, in particular, the missionary activities of the brethren's church through which two congregations of converted heathen have been established there. All this per-

sonally investigated and set down in writing, by David Cranz. Dutch translation of *Historie von Grönland*, 1765.

Contents described under the English translation.

Copy seen: CST; RPJCB.

3470. CRANZ, DAVID, 1723-1777. Historie von Grönland, enthaltend die Beschreibung des Landes und der Einwohner, &c., insbesondere die Geschichte der dortigen Mission der Evangelischen Brüder zu Neu-Herrnhut und Lichtenfels. Barby, H. D. Ebers; [etc., etc.] 1765. 2 v.; 19 p. l., 5-1132, [26] p. fold. plates, 2 fold. maps.

Translated into English as *The history of Greenland: containing a description of the country and its inhabitants*, 1767, q.v. Also published in German, 1779, with earlier text abridged, and added material covering the period 1763-1769.

Copy seen: DLC (1765, 1779).

3471. CRANZ, DAVID, 1723-1777. The history of Greenland: containing a description of the country, and its inhabitants: and particularly, a relation of the mission, carried on for above these thirty years by the Unitas Fratrum, at New Herrnhuth and Lichtenfels, in that country. By David Crantz; tr. from the High-Dutch . . . London, Printed for the Brethren's Society for the Furtherance of the Gospel among the Heathen, and sold by J. Dodsley [etc.] 1767, 2 v.: 405; 498 p. fold. plates, fold. maps. Edited and in part translated by John Gambold.

Contains a description of the geography, ice and weather conditions, minerals, sea and land vegetation, mammals, birds and fishes; the Eskimos, their customs, habits, religious beliefs, etc.; health conditions and mentality; language; the Norse colonies; Christianity in Greenland; the origin of the Eskimos; past history; the trade; difficulties of the mission in its early days; establishment of the first Herrnhut or Moravian mission in Greenland, 1733; smallpox epidemic; lack of supplies; famine; gradual success; the first 30 years of missionary work by the German Moravians at New Herrnhut and Lichtenfels. Includes as appendices (v. 2, p. 446-74), letters by Greenlanders, and the autobiography of the missionary Frederic Boenish (died 1763); also index (v. 2, p. 475-97).

Copy seen: DLC.

"Based on field work in 1923 (on the Selenga River), and in 1937 under the auspices of the 17th International Geological Congress (south of Krasnoyarsk) and the Northern Sea Route Administration (north of Krasnoyarsk)." A geographic sketch of the Yenisey River region and its settlements, transportation, peoples, physical characteristics, climate, agriculture, and development; with a diagrammatic, sectional presentation of information at the end, and with a bibliography (15 items).
Copy seen: DGS; DLC.

3477. CRESSWELL, SAMUEL GURNEY. A series of eight sketches in colour (together with a chart of the route) by Lieut. S. Gurney Cresswell, of the voyage of H. M. S. Investigator (Captain McClure), during the discovery of the North-West Passage. London, Day and Son [etc.] 1854. 1 p. l., 4 p. 8 col. plates, map. 61x45 cm.

Eight colored lithographs, with explanatory text, showing the *Investigator* in ice, coastal features of "Baring Island" (Cape Baring, Victoria Island), Banks Island, sledge party, etc. Chart indicates pack ice along route, also the state of knowledge of Canadian Arctic Islands at the time of the expedition, 1850-54, of McClure, q.v.

3478. CRISSEY, WALTER F., and others. Waterfowl populations and breeding conditions—summer 1949, with notes on woodcock and Wilson snipe. Washington, 1949. 3 p. l., 242 p. sketch maps, diagrs. (U. S. Fish and Wildlife Service. Special scientific report: Wildlife no. 2)

Issued jointly with Canadian Dominion Wildlife Service. The third in a planned series of reports on breeding ground investigations of Alaska, Canada and northern United States.

Contents include: SMITH, R. H., and C. H. LAWRENCE. Waterfowl breeding ground survey in the far North, 1949.

NELSON, U. C., and others. Waterfowl breeding ground survey in Alaska, 1949.

EKLUND, C. R., and L. D. COOL. Waterfowl breeding ground survey in the Ungava Peninsula, Quebec, 1949.

HANSON, H. C., and others. 1949 Perry River Expedition. Each of these papers appears in this Bibliography under the author's name.

Copy seen: CaMAI; DF.

3479. CRITCHELL-BULLOCK, JAMES CHARLES, 1898- . An expedition to sub-arctic Canada, 1924-1925. (Canadian field naturalist, 1930-31. v. 44, p. 53-59, 81-87, 111-17, 140-45, 156-62, 187-96, 207-213; v. 45, p. 11-18, 31-35).

An expedition made by the author and John Hornby across the Barren Grounds from Great Slave Lake to Artillery Lake, Casba and Thelon Rivers, thence to Baker Lake and Chesterfield Inlet. *Contents:* Itinerary. Travelling conditions in the northern treeless plains in winter, and the navigability of Thelon River. Physiological conditions. Weather. Trapping. Musk-ox. Barren Ground caribou. Barren Ground wolf, Hudson Bay wolverine, red fox, white fox, Keewatin arctic hare, Parry ground squirrel, Richardson collared lemming, Back lemming, Drummond meadow mouse, arctic white-footed mouse, shrew. Birds. Game conservation. Fish. List of Lepidoptera. List of insects. List of plants collected between Sifton Lake and Aberdeen Lake.

Copy seen: DLC.

3480. CRITCHELL-BULLOCK, JAMES CHARLES, 1898- . Field work in the lower arctic zone. Canadian field naturalist, Nov. 1925. v. 39, p. 181-83)

Remarks on the difficulties of survival in the Barren Grounds, and a plea for its investigation and for wildlife conservation.

Copy seen: DLC.

3481. CRITCHFIELD, HOWARD J. Seward Peninsula, threshold of the hemisphere. (Economic geography, Oct. 1949. v. 25, p. 275-84; illus., sketch map)

Sketch of physiography, climate vegetation, population and settlement, Nome, villages, the reindeer industry, furs and crafts, and mining.

Copy seen: DLC.

3482. CROAL, JAMES P. Water crossings on Exercise Musk Ox — spring

1946. (Engineering journal (Montreal), Oct. 1947. v. 30, p. 475-77, illus.)

Detailed account of the advance party of this Canadian Army winter exercise in Northwest Territories, which solved the transportation problem during spring breakup of the rivers. Includes information on corduroy road over rotting river ice, methods of building rafts for heavy vehicles, and technique in ferrying them.

3483. CROFT, ANDREW. Polar exploration. London, A. & C. Black, 1939. x p., 1 l., 268 p. 8 maps, 7 plates, diagr. (Epics of the xxth century)

An account of the exploratory (rather than scientific) work of the more prominent expeditions of this century, with emphasis on the progress of the leaders, their techniques and contributions towards the general trend of polar exploration. *Contents* include: Pt. 1. The arctic regions, p. 1-144: historical introduction and chapters on expeditions to the North Pole by Peary; to North Greenland by Mylius-Erichsen, Mikkelsen and Rasmussen; Canadian Arctic Expedition 1913-18 under Stefansson; British expeditions under Wordie, Watkins, Lindsay, Binney, Glen; arctic flights of Andrée, Nagurski, Amundsen, Ellsworth, Wilkins, Nobile, Eckener, Schmidt, Papanin, Chkalov, Gromov and Levanevskii.

Copy seen: DLC.

3484. CROFT, ANDREW. Polar exploration. 2d ed. London, A. & C. Black, 1947. x, 268 p. 16 plates, 8 maps. Also published by the MacMillan Co., N. Y. 1947.

Second edition with a new preface "certain additions and alterations in the text" and additional illustrations; also "brief reference . . . to Sub-Inspector Larsen's recent voyages through the North-West Passage and to the Canadian Exercise "Musk Ox", which [the author] accompanied as the British observer".

Copy seen: DLC.

3485. CROFT, ANDREW. West Greenland sledge dogs. (Polar record, Jan. 1937. No. 13, p. 68-81)

Based on the author's experience buying and handling the dogs for a number of British expeditions. Introductory remarks, describing Cape York and Jakobshavn dogs, and discussion of purchasing, team formations, dog-driving, the behavior, treatment and feeding of dogs, dog equipment (harness, dog-boots, whips) and sledges; concluding with a brief note on the British Trans-Greenland Expedition, 1934.

Copy seen: DLC.

3486. CROFT, ANDREW, and BRIAN B. ROBERTS. Notes on the selection and care of polar footwear. (Polar record, Jan. 1940. No. 19, p. 235-67, 309-26, illus.) The authors' interpretation and analysis of replies (representing varying viewpoints) to a request for information on footwear from polar workers.

Contains (pt. 1) descriptions and discussion, with some instructions for the making of sea, climbing, ski, and other boots, moccasins, mukluks, native footwear, puttees and leggings, and duffles; (pt. 2) a continuation, on boots and crampons, skis and snowshoes.

3487. CROMMELIN, ROBERT DANIEL. A sedimentary petrological investigation of a number of sand samples from the south coast of Greenland between Ivigtut and Frederiksdal. København, C. A. Reitzel, 1937. 32 p. illus., fold. map. (Meddelelser om Grønland. Bd. 113, nr. 1)

Based on samples sent to the Geological Laboratory, Agricultural University, Wageningen, Holland, by Dr. C. E. Wegmann, working under Lauge Koch, summer 1936, during the Geological East Greenland Expedition. Results of a macroscopic and microscopical examination of a group of sands consisting of local material, and a group in

which moraine material plays an important part. Minerals found include among others, eudialite, astrophyllite, aenigmatite, and one new mineral piemontite. The newer abyssal rocks appear to be of the potassiumsuit of the alkali series. No indications were found of more than the three known nepheline syenite masses. The sands examined come from local moraines and no single indication for a regional moraine, with a more or less constant composition, was found. It appeared that hypersthene has a more regular distribution in the area than would be expected. Bibliography (19 items).

3514. CURTIS, MARION. Stricken village. (Public health nursing. Dec. 1948. v. 40, p. 578-82, illus.)

Account of the care of natives of Old Harbor, Kodiak Island, Alaska, by a U. S. Navy doctor and Alaska Health Dept. nurse, during an outbreak of pneumonia, tuberculosis, meningitis and influenza in 1947.

Copy seen: DLC.

3515. CUSHING, HENRY PLATT, 1860-1921. Notes on the areal geology of Glacier Bay, Alaska. (New York Academy of Sciences. Transactions, Oct. 1895. v. 15, p. 24-34, fold. map)

Contains a description of the general geology and petrographical notes, with a comparison to other Alaskan sections, based on explorations of 1890 by the author, and on rocks collected by H. F. Reid's explorations, 1892.

Copy seen: DGS.

3516. CUSHING, HENRY PLATT, 1860-1921. Notes on the Muir Glacier region, Alaska, and its geology. (American geologist, Oct. 1891. v. 8, p. 207-30, plate, fold. map)

Based on observations made during the Expedition to Muir Glacier, 1890. Descriptions of the glacier's tributaries, recent recession, glacial deposits, and buried forest, of the disintegration of rocks around it, surface features produced by it, and its erosive power.

Copy seen: DGS.

CUSHING, HENRY PLATT, 1860-1921, *see also* Russell, I. C. Origin of gravel deposits beneath Muir Glacier. 1892.

3517. CUSHMAN, JOSEPH AUGUSTINE, 1881- . Arctic foraminifera. Sharon, Mass., 1948. 79 p. 8 plates (Cushman Laboratory for Foraminiferal Research. Special publication no. 23)

Taxonomic list (with data on known arctic distribution, descriptions and synonymy) of one hundred eighty-two species, based on collections made by R. A. Bartlett, 1925-32, in the Greenland and Canadian Arctic Seas, and Hudson Bay, also on earlier records of forms from the arctic regions.

Copy seen: DGS.

3518. CUSHMAN, JOSEPH AUGUSTINE, 1881- . Foraminifera. Ottawa, King's Printer, 1920. 13 p. incl. plate. (Canadian Arctic Expedition, 1913-1918. Report. v. 9: Annelids, parasitic worms, protozoans, etc., Pt. M.)

List, with locations and notes on synonymy and distribution, of twenty-six species from the waters between Bering Sea and Bernard Harbour, N.W.T.

Copy seen: DSI-M.

3519. CUSHMAN, JOSEPH AUGUSTINE, 1881- . Fresh-water Crustacea from Labrador and Newfoundland. (U. S. National Museum. Proceedings, 1908. v. 33, p. 705-13, 5 plates)

Taxonomic list of nine (including one new, fully described) species, with notes on the specimens collected (1906) and their localities, mainly St. Mary's River, and fresh-water pools in the vicinity of Battle Harbour, Labrador.

Copy seen: DLC.

3520. CUSHMAN, JOSEPH AUGUSTINE, 1881- . New arctic Foraminifera collected by Capt. R. A. Bartlett from Fox Basin and off the northeast coast of Greenland. Washington, Smithsonian Institution, 1933. 1 p. l., 8 p. 2 plates. (Smithsonian miscellaneous collections. v. 89, no. 9)

Descriptions of ten new species from bottom samples obtained 1925-32, "published in advance of a larger paper (containing forty-six genera and nearly one hundred species of foraminifera) which will carry full station data for these species."

Copy seen: DLC.

3521. CUSHMAN, JOSEPH AUGUSTINE, 1881- . Results of the Hudson Bay Expedition, 1920. I. The Foraminifera. (Canada. Biological Board. Contributions to Canadian biology, 1921, pub. 1922. p. 133-47)

Based on specimens from bottom samples of Hudson and James Bays. Shows that the foraminifera there are more closely allied to regions eastward than westward of this longitude, furthermore that definite species are developed in arctic regions. Includes a station list with species found at each, and a classified, annotated list with synonyms, references and localities, of thirty-two species.

Copy seen: DLC; DSI-M.

3522. CUSHMAN, JOSEPH AUGUSTINE, 1881- . Some fossil Foraminifera.

fera from Alaska. (Cushman Laboratory for Foraminiferal Research. Contributions, 1941. v. 17, no. 227, p. 33-38, 2 plates)

"Specimens from a submarine beach about a mile north 60° west of Nome," in a list, with notes, of eighteen (including, with description, one new) species.

Copy seen: DLC.

CUTLER, DONALD WARD, *see* Russell, R. S., & others. Physiological & ecological studies. 1940.

3523. CUTTING, PERCY JAMES, 1902-, and **KATHRYN ECKROTH**. Hell in God's country. (Alaska life, Aug. 1943. v. 6, no. 8, p. 3-14, illus.)

Account of the experiences of survivors of an airplane crash in Jan. 1943, in which Harold Gillam and one passenger lost their lives.

Copy seen: DLC.

3524. CYRIAX, RICHARD JULIUS. Captain Hall and the so-called survivors of the Franklin Expedition. (Polar record, July 1944. No. 28, p. 170-85)

Analysis of the two main categories of misleading stories which the Eskimos told Capt. C. F. Hall during his second expedition, 1864-69, and which caused him to think survivors of the Franklin Expedition were still alive; with bibliographic footnotes.

Copy seen: DLC.

3525. CYRIAX, RICHARD JULIUS. Sir James Clark Ross and the Franklin Expedition. (Polar record, July 1942. No. 24, p. 528-40)

A résumé of the Franklin search, through the year 1849, when the *Enterprise* and *Investigator*, under Capt. James Ross, returned from their unsuccessful voyage.

Copy seen: DLC.

3526. CYRIAX, RICHARD JULIUS, and **J. M. WORDIE**. Centenary of the sailing of Sir John Franklin with the *Erebus* and *Terror*. (Geographical journal, Nov.-Dec. 1945. v. 106, p. 169-97, 4 plates, sketch map, 2 fold. maps)

Contents: 1. Cyriax, R. J. Sir John Franklin's orders considered in the light of geographical knowledge when he sailed, 1845.

2. Wordie, J. M. The North West Passage since the last Franklin Expedition. (Chronological survey of expeditions, 1848/49-1944, with maps showing routes).

3575. DALL, WILLIAM HEALEY, 1845-1927. Alaska and its resources. Boston, Lee & Shepard, 1870. xii, 627 [1] p. front., illus., 12 plates, fold. map.

The author headed the scientific corps of the Western Union Telegraph Co. Expedition, 1866-68, exploring and studying the Yukon River, the surrounding territory and inhabitants from Nulato to Bering Sea, especially Norton Sound. Pt. 1 of this book is a chronicle of Dall's numerous journeys by boat and dog sledge in this region, during that period. It includes a detailed account of the country, traveling conditions, food and hunting, sledges, the natives and their living conditions, customs and treatment by the Russians. Pt. 2 (based on observation and research) describes the geography, history, inhabitants, and resources of Alaska (including climate and agriculture, geology and mineral resources, fisheries and fur trade).

Appendices: A. Glossary. B. Population (Russian, creole and natives). C. Statistics of the fur trade, 1786-1862. D. Meteorology (temperature mean and extremes for limited periods in various localities). E. Latitude and longitude of important points. F. Vocabularies (Aleut, West Alaska Eskimo, Tlingit, Tinneh (Ingalik) East Siberian tribes). G. Natural history (lists of mammals, fishes, birds, insects, and useful plants, with Latin and common names). H. List of works (177 items).

3576. DALL, WILLIAM HEALEY, 1845-1927. Alaska as it was and is: 1865-1895. (Philosophical Society of Washington. Bulletin, 1895-99, pub. 1900. v. 13, p. 123-62)

The annual presidential address to the Society, Dec. 1895. Gives an account of (1) the work of the scientific corps of the Western Union Telegraph Co. Expedition to Alaska, 1865-68, under Robert Kennicott till his death in May 1866, then under the author who, with F. Ketchum and others, continued the exploration of the upper Yukon and the borders of Norton Sound, 1866-67; and (alone) investigated the Yukon delta, 1867-68. Describes also (2) the U. S. Coast Survey explorations, 1871-80 (under the author's direction) in the same region. Includes a bibliography of the resulting papers.

Copy seen: DLC.

3577. DALL, WILLIAM HEALEY, 1845-1927. Catalogue of shells from Bering Strait and the adjacent portions of the Arctic Ocean, with descriptions of three new species. (California Academy of Sciences. Proceedings, 1873-74, pub. 1875. v. 5, p. 246-53)

Catalog based on previous explorers', on the author's, and on whalers' collections, ranging from the North Alaskan coast to the Aleutians, and including the Siberian side of Bering Sea. Includes three tunicates, two brachiopods, and one hundred sixteen molluscs.

Copy seen: DLC.

3578. DALL, WILLIAM HEALEY, 1845-1927. The Chukches and their neighbours in the northeastern extremity of Siberia. (Royal Geographical Society. Proceedings, Sept. 1881. New ser. v. 3, p. 568-70)

Communication to the Society in reply to one (p. 365) from a member of the *Vega* Expedition, who disagreed with Dall on the distinction he made between Innuit and Chukchi tribes. Dall supports his views here with notes on the customs and language of the two peoples.

Copy seen: DLC.

3579. DALL, WILLIAM HEALEY, 1845-1927. A critical review of Bering's first expedition, 1725-30, together with a translation of his original report upon it . . . By William H. Dall. Lecture delivered by the "National Geographic Society" at Washington, February 7, 1890 . . . [Washington, D. C., 1890] 59 p. fold. map. Published in the National geographic magazine, v. 2, p. 111-69.

Contains notes on Bering's instruments and methods of scientific observation; the author's sources of information; a translation of Bering's report, his list of geographical positions, the itinerary of the expedition, annotated synopsis of the voyage compiled from all accessible data, and a comparative table of geographical positions; with a résumé of the results of the expedition. *Supplement:* Baker, Marcus. On the alleged observation of a lunar eclipse by Bering in 1728-9.

Copy seen: DGS.

3580. DALL, WILLIAM HEALEY, 1845-1927. Descriptions of new forms of mollusks from Alaska contained in the collections of the National Museum. (U. S. National Museum. Proceedings, 1878, pub. 1879)

Five genera of chitons represented by specimens taken from waters off the Aleutian Islands. *Copy seen:* DLC.

3581. DALL, WILLIAM HEALEY, 1845-1927. Descriptions of new species of Mollusca from the coast of Alaska, with notes on some rare forms. (California Academy of Sciences. Proceedings, 1873-74, *pub.* 1875. v. 5, p. 57-62)

Contains remarks on the Shumagin Islands as the farthest west extension of the Oregonian fauna, on the marine mollusks found between those islands and Unalaska Island; list, with descriptions of four new species and one variety, of marine mollusks and remarks on four others ascribed to Sitka, but belonging to the Aleutian fauna.

Copy seen: DLC.

3582. DALL, WILLIAM HEALEY, 1845-1927. Descriptions of new species of Mollusca from the North Pacific Ocean in the collection of the United States National Museum. (U. S. National Museum. Proceedings, 1919, *pub.* 1920. v. 56, p. 293-371)

Descriptions of 222 new forms, including many from waters off the coasts and islands of Alaska and a few from the Arctic Ocean. *Copy seen:* DLC.

3583. DALL, WILLIAM HEALEY, 1845-1927. Descriptions of new species of Mollusca from the northwest coast of America. (California Academy of Sciences. Proceedings, 1868-72, *pub.* 1873. v. 4, p. 302-303)

Includes two marine species from the Aleutian and Shumagin Islands.

Copy seen: DLC.

3584. DALL, WILLIAM HEALEY, 1845-1927. Descriptions of new species of mollusks of the family Turritidae from the west coast of America and adjacent regions. (U. S. National Museum. Proceedings, 1919, *pub.* 1920. v. 56, p. 1-86, 24 plates)

Descriptions of some two hundred (including one hundred eighty-one new) species of gastropods, of which several have range in Aleutian waters, Bering Sea and Strait and Arctic Ocean, all represented by specimens in the U. S. National Museum.

Copy seen: DLC.

3585. DALL, WILLIAM HEALEY, 1845-1927. Descriptions of sixty new forms of mollusks from the west coast

of North America and the North Pacific Ocean with notes on others already described. (American journal of conchology, 1872. v. 7, p. 93-160, plates 13-16)

Descriptions and notes on about a hundred species from various sources, but especially based on collections made by the author in Aleutian waters (off Sitka and Kodiak Islands), Plover Bay (Chukchi Peninsula) and off Kamchatka, while he was with the Western Union Telegraph Co. Expedition.

Copy seen: DLC.

3586. DALL, WILLIAM HEALEY, 1845-1927. Descriptions of three new species of Crustacea, parasitic on the Cetacea of the N.W. coast of America. (California Academy of Sciences. Proceedings, 1868-72, *pub.* 1873. v. 4, p. 281-83)

Includes one species of whale-louse from a whale of Bering Strait.

Copy seen: DLC.

3587. DALL, WILLIAM HEALEY, 1845-1927. Diagnoses of new species of marine bivalve mollusks from the northwest coast of America in the collection of the United States National Museum. (U. S. National Museum. Proceedings, 1916, *pub.* 1917. v. 52, p. 393-417)

Descriptions of about one hundred new species including several, of which specimens were taken from waters off Sitka, the Aleutian and Pribilof Islands, and other Alaskan localities.

Copy seen: DLC.

3588. DALL, WILLIAM HEALEY, 1845-1927. The discovery and exploration of Alaska. (*In:* his, and others: History, geography, resources, Harri-man Alaska series, 1902. v. 2, p. 185-204, illus., nine plates)

This paper covers the activities of various countries (Russia, Britain, the U. S., etc.,) during the 18th and 19th centuries, in the opening up of Alaska, with special mention of the Russian-American Co. *Copy seen:* DLC.

3589. DALL, WILLIAM HEALEY, 1845-1927. Explorations in Russian America. (American journal of science, Jan. 1868. Ser. 2, v. 45, p. 96-99, illus.)

A letter to the editor from St. Michael, Alaska, describing Dall's observations during a trip on the Yukon

River from Fort Yukon to the sea in 1867, during the Western Union Telegraph Co. Expedition to Alaska, 1865-68.
Copy seen: DLC.

3590. DALL, WILLIAM HEALEY, 1845-1927. Explorations in the Aleutian Islands and their vicinity. (American Geographical Society, Journal, 1874. v. 5, p. 243-45)

A letter to the General Secretary of the Society, dated San Francisco, Dec. 5th, 1873, from the author as leader of the Alaska Survey, being carried out by the U. S. Coast Survey. It gives a brief description of the kind of work done by Dall's party: hydrographic, geodetic, and topographical surveys of harbors and their vicinity.

Copy seen: DLC.

3591. DALL, WILLIAM HEALEY, 1845-1927. Geographical notes in Alaska. (American Geographical Society, N. Y. Journal (Bulletin), 1896. v. 28, p. 1-20, illus. (incl. 2 maps))

General descriptions of the coast, the Indians, and (in rather more detail) the harbors along the south coast of Alaska, seen and visited during the summer of 1895. *Copy seen:* DLC.

3592. DALL, WILLIAM HEALEY, 1845-1927. Harbors of Alaska and the tides and currents in their vicinity. (U. S. Coast and Geodetic Survey. Annual report, 1872, pub. 1875. Appendix no. 10, p. 177-212, tables)

Contains account of the work done in Sept. 1871-Oct. 1872 at Captains Bay, Unalaska Island and in the Shumagin Islands; notes on the North Pacific currents, the Alaska current, the tidal currents of Unalaska, and the circular current of Bering Sea; notes on the meteorology of Unalaska; tides of Iliuliuk Bay (in which is Dutch Harbor); notes on the Shumagin Islands (geology, harbors).

Tables: Meteorological abstract. Current observations (San Francisco to Unalaska; between Unalaska and the Shumagins). Tides of Iliuliuk Bay.

Copy seen: DLC.

DALL, WILLIAM HEALEY, 1845-1927, and others. History, geography, resources. 1902, see HARRIMAN ALASKA EXPEDITION, 1899. Harriman Alaska series, v. 2.

3593. DALL, WILLIAM HEALEY, 1845-1927. Land and fresh water mollusks. (*In:* Harriman Alaska Expedition, 1899. Harriman Alaska series, 1904. v. 13, p. 1-171, illus., 2 plates) Reissued without change, by the Smithsonian Institution, 1910.

"A synoptic manual of the boreal land and fresh water mollusks of the western hemisphere," which contains lists and remarks on the synonymy and distribution of hundreds of species from the following area: Asia (Siberia, Kamchatka, Chukotsk Peninsula, and the Commander Islands), Alaska (including Aleutian Islands, Mackenzie District), Hudson Bay (Keewatin District, northern Ontario and Quebec), Labrador (including Ungava Peninsula) and regions south to 49°N. lat. parallel.

Copy seen: DLC.

3594. DALL, WILLIAM HEALEY, 1845-1927. Mollusks, list of shells obtained by Mr. Ludwig Kumlien, naturalist to the Howgate Expedition 1877-78, at points in Cumberland Sound, Arctic Regions, West from Baffin's Bay. (*In:* Kumlien, L., and others. Contributions to the natural history of Arctic America. Pub. in U. S. National Museum. Bulletin, 1879. No. 15, p. 145-46)

List of twenty-four species.

Copy seen: DLC.

3595. DALL, WILLIAM HEALEY, 1845-1927. Mollusks, recent and Pleistocene. Ottawa, King's Printer, 1919. 29 p. 3 plates. (Canadian Arctic Expedition, 1913-1918. Report. v. 8: Mollusks, echinoderms, coelenterates, etc., Pt. A)

List of one hundred (mainly marine) species, including seven new species fully described, arranged by collecting stations in waters between Teller, Alaska and Bathurst Inlet; appended is a list of thirty Pleistocene fossil species from the coast of Yukon and Northwest Territories.

Copy seen: DSI-M.

3596. DALL, WILLIAM HEALEY, 1845-1927. Neozoic invertebrate fossils; a report on collections made by the expedition. (*In:* Emerson, B. K., and others. Geology and paleontology. Harriman Alaska series, 1904. v. 4, p. 97-122, 2 plates)

List, with descriptions, of one sponge and thirty-two (including ten new)

molluscan Tertiary fossil species from Chicagof Cove, Alaska Peninsula; list, with localities, of thirty-one (including, with descriptions, seven new) molluscan and one annelid Miocene fossil species from Shumagin Islands; and a list of nineteen fossil invertebrates from Pleistocene deposits on Douglas Island, Southeast Alaska.

Copy seen: DLC.

3597. DALL, WILLIAM HEALEY, 1845-1927. Neuere Forschungen auf den Aleuten. (Deutsche geographische Blätter, 1878. Jahrg. 2, p. 38-43, 84-101, fold. map) *Title tr.:* New research on the Aleutians.

Based on the author's observations as director of a hydrographic survey in the Aleutian Islands and Kodiak Island waters, 1871-74, by the U. S. Coast Survey. Notes (in brief) on early exploration, the survey of 1871-74, the physical geography, geology, flora, fauna, structure, volcanoes, and natives of the Islands, and on general relationships of the Bering Sea, its fur-bearing animals and fisheries.

Copy seen: DLC.

3598. DALL, WILLIAM HEALEY, 1845-1927. New or specially interesting shells of the Point Barrow expedition. (U. S. National Museum. Proceedings, 1884, *pub.* 1885. v. 7, p. 523-26)

List of fourteen species with notes on specimens, and descriptions of three new species.

Copy seen: DLC.

3599. DALL, WILLIAM HEALEY, 1845-1927. Notes on an original manuscript chart of Bering's Expedition of 1725-1730, and on an original manuscript chart of his second expedition; together with a summary of a journal of the first expedition, kept by Peter Chaplin, and now first rendered into English from Berk's Russian version. (U. S. Coast and Geodetic Survey. Annual report, 1890, *pub.* 1891. Appendix no. 19, p. 759-74, fold. map)

The summary of the journal describes the first expedition in the *Gabriel*, which sailed north from Kamchatka, thru Bering Strait, and return.

Copy seen: DLC.

3600. DALL, WILLIAM HEALEY, 1845-1927. Notes on *Chrysodomus* and other mollusks from the North Pacific Ocean. (U. S. National Museum. Proceedings, 1918, *pub.* 1919. v. 54, p. 207-234)

The notes include some discussion of the author's revision of the classification of the *Chrysodomoid* whelks, with references to forms found in Alaskan waters.

Copy seen: DLC.

3601. DALL, WILLIAM HEALEY, 1845-1927. Notes on pre-historic remains in the Aleutian Islands. (California Academy of Sciences. Proceedings, 1868-72, *pub.* 1873. v. 4, p. 283-87, 1 plate in back of volume)

Describes excavations and cave explorations by Dall on Amaknak Island, Captains Bay, Unalaska. Includes mention of Aleut artifacts, mortuary remains, and associated faunal remains.

Copy seen: DLC.

3602. DALL, WILLIAM HEALEY, 1845-1927. Notes on some Aleut mummies. (California Academy of Sciences. Proceedings, 1873-74, *pub.* 1875. v. 5, p. 399-400)

Contains a brief description from Capt. E. Hennig, Alaska Commercial Co., of twelve mummies and associated artifacts, well-preserved, collected by him in a dry cave on one of the Islands of the Four Mountains, Aleutian Islands. The mummies and artifacts dated from the historic period.

Copy seen: DLC.

3603. DALL, WILLIAM HEALEY, 1845-1927. Notes on some recent brachiopods. (Academy of Natural Sciences of Philadelphia. Proceedings, 1891. p. 172-75, plate)

Includes description of one species from southeastern Alaska.

Copy seen: DLC.

3604. DALL, WILLIAM HEALEY, 1845-1927. Notes on the avifauna of the Aleutian Islands, especially those west of Unalashka. (California Academy of Sciences. Proceedings, 1873-74, *pub.* 1875. v. 5, p. 270-81)

List, with notes on habits, eggs, distribution and localities, of forty-five species of birds, collected on the U. S. Coast Survey explorations, 1873.

Copy seen: DLC.

3605. DALL, WILLIAM HEALEY, 1845-1927. Notes on the avi-fauna of the Aleutian Islands, from Unalashka eastward. (California Academy of Sciences. Proceedings, 1873-74, *pub.* 1875. v. 5, p. 25-35)

List, with notes on their habits, eggs, distribution and locality, of fifty-four

species of birds, collected during the U. S. Coast Survey explorations, 1871-72.

Copy seen: DLC.

3606. DALL, WILLIAM HEALEY, 1845-1927. Notes on the species of the molluscan subgenus *Nucella* inhabiting the northwest coast of America and adjacent regions. (U. S. National Museum. Proceedings, 1916. v. 49, p. 557-72, 2 plates)

General notes based on a series of these shells in the U. S. National Museum, with detailed descriptions of species and forms represented by specimens taken from waters off the coasts of Alaska, Kamchatka and North Pacific islands.

Copy seen: DLC.

3607. DALL, WILLIAM HEALEY, 1845-1927. On climatic conditions at Nome, Alaska, during the Pliocene, and on a new species of *Peecten* from the Nome gold-bearing gravels. (American journal of science, June 1907. Ser. 4, v. 23, p. 457-58)

Remarks on evidences of warmer climate fauna, and description of one new clam.

Copy seen: DLC.

3608. DALL, WILLIAM HEALEY, 1845-1927. On further examinations of the Amaknak Cave, Captain's Bay, Unalashka. (California Academy of Sciences. Proceedings, 1873-74, pub. 1875. v. 5, p. 196-200, illus.)

Contains description of further archaeological excavations made by Dall in 1873, with detailed location map, floor plan, and cross section sketches of the cave. Large quantities of skeletal remains and artifacts, from two district levels, are mentioned.

Copy seen: DLC.

3609. DALL, WILLIAM HEALEY, 1845-1927. On new parasitic Crustacea, from the N.W. coast of America. (California Academy of Sciences. Proceedings, 1873-74, pub. 1875. v. 5, p. 254-55)

Descriptions of two species of whale-lice (parasitic amphipods) taken from a right-whale at Kodiak Island.

Copy seen: DLC.

3610. DALL, WILLIAM HEALEY, 1845-1927. On some Hydrocorallinae from Alaska and California. (Biological Society of Washington. Proceedings, 1882-84, pub. 1885. v. 2, p. 111-15)

Includes descriptions of three new species of living corals from the waters of the Aleutian Islands.

Copy seen: DLC.

3611. DALL, WILLIAM HEALEY, 1845-1927. On some Tertiary fossils from the Pribilof Islands. (Washington Academy of Sciences. Journal, 1919. v. 9, p. 1-3)

List of forty-seven (including three new) species of molluscan fossils from St. George and St. Paul Islands.

Copy seen: DSI-M.

3612. DALL, WILLIAM HEALEY, 1845-1927. On the parasites of the cetaceans of the N.W. coast of America, with descriptions of new forms. (California Academy of Sciences. Proceedings, 1868-72, pub. 1873. v. 4, p. 299-301)

Descriptions of four new barnacles from whales, ranging from Bering Strait to California.

Copy seen: DLC.

3613. DALL, WILLIAM HEALEY, 1845-1927. On the remains of later prehistoric man obtained from caves in the Catherina Archipelago, Alaska Territory, and especially from the caves of the Aleutian Islands. Washington, Smithsonian Institution, 1878. 2 p. l., 40 p. 10 plates. (Smithsonian contributions to knowledge. v. 22, art. 6) Smithsonian Institution publication 318.

Comparison of Eskimos and Aleuts, discussion of mortuary customs based on the author's experience in Alaska; with description of the contents of a burial cave discovered in the Aleutian Islands and presented to the U. S. National Museum, by the Alaska Commercial Co. of California.

Copy seen: DLC.

3614. DALL, WILLIAM HEALEY, 1845-1927. Pliocene and Pleistocene fossils from the arctic coast of Alaska and the auriferous beaches of Nome, Norton Sound, Alaska. (In: U. S. Geological Survey. Shorter contributions to general geology, 1919. Professional paper, 1920. No. 125, p. 23-34, 2 plates)

Contains description of the late Tertiary geology of the Colville River region and the Nome elevated beaches; discussion of geologic climate and migration of fauna; lists of fossils from various stations near Nome, Pt. Bar-

row, Colville River, and Camden Bay; descriptions of twenty-four new species (mostly molluscs, two brachiopods, one polyzoan).

Copy seen: DGS.

3615. DALL, WILLIAM HEALEY, 1845-1927. The Pteropoda [etc.] with description of a new species from the North Pacific. (Canadian Arctic Expedition, 1913-1918. Report, 1925. v. 8: Mollusks, echinoderms, coelenterates, etc., Pt. B, p. 9-12, illus.)

Includes two arctic species (one described) from stations between Bering Strait and Dolphin and Union Strait.

Copy seen: DSI-M.

3616. DALL, WILLIAM HEALEY, 1845-1927. Report of geographical and hydrographical explorations on the coast of Alaska. (U. S. Coast and Geodetic Survey. Annual report, 1873, pub. 1875. Appendix no. 11, p. 111-22, fold. map)

Contains account and tabular results of determinations of positions and magnetic declinations, and of the heights of mountains in the Aleutian Islands, with descriptions of the harbors on Attu, Bouldyr (Buldir), Kiska, Amchitka, Adak, Atka, Amlia, Agashagok (Bogoslof) and Unalaska Islands.

Copy seen: DLC.

3617. DALL, WILLIAM HEALEY, 1845-1927. Report on Bering Island Mollusca collected by Mr. Nicholas Grebnitzki. Contributions to the natural history of the Commander Islands, no. 6. (U. S. National Museum, Proceedings, 1886, pub. 1887. v. 9, p. 209-219)

Annotated list of some forty species collected in waters off Bering Island, and Kamchatka, supplementing W. H. Dall's *Report on the Mollusca of the Commander Islands collected by Leonard Stejneger*, 1885, q.v.; with a faunal summary listing seventy-four species collected by Stejneger in 1882-83, by Grebnitzki (Russian governor of the Commander Islands) and by the *Vega* Expedition 1878-80, and indicating range of occurrence.

Copy seen: DLC.

3618. DALL, WILLIAM HEALEY, 1845-1927. Report on coal and lignite of Alaska. (U. S. Geological Survey. Annual report, 1895-96, pub. 1896. v. 17, pt. 1, p. 763-908, 11 plates (incl. 7 fold. maps))

Contains the results of an examination made by the author in 1895 as a member of the U. S. Geological Survey's party under G. F. Becker; descriptions of the coal fields around Kootznahoo Inlet in the Alexander Archipelago, along the coast to Cook Inlet (Lituya and Yakutat Bays), in Cook Inlet (Port Graham, Kenai plateau and Kachemak Bay), Cape Douglas, Kodiak Island, Chignik and Herendeen Bays, the Shumagin Islands, Aleutian Islands, northern Alaska (Nunivak Island, Yukon Territory, Cape Beaufort, Wainwright Inlet in the Pt. Barrow region); economic conditions, analyses and tests of coals of Alaska; general notes on the Tertiary geology of Alaska (including ground ice formations); notes on the Yukon valley; notes on paleontology of Alaska (Silurian, Devonian, Carboniferous, Mesozoic); and paleobotany.

Appendices: 1. KNOWLTON, F. H. Report on the fossil plants. 2. SCHUCHERT, CHAS. Report on Paleozoic fossils. 3. HYATT, ALPHEUS. Report on the Mesozoic fossils. Each appendix appears in this Bibliography under the author's name.

Maps include: Sketch of part of Alexander Archipelago. Cook Inlet and vicinity. Shelikof Strait and vicinity. Herendeen Bay coal field. Part of Shumagin Islands. Sketch of Zachareffskaya Bay, Unga Island; Shumagins, showing lignite beds.

Copy seen: DGS.

3619. DALL, WILLIAM HEALEY, 1845-1927. Report on Mount St. Elias, Mount Fairweather, and some of the adjacent mountains. (U. S. Coast and Geodetic Survey. Annual report, 1875, pub. 1878. Appendix no. 10, p. 157-88)

Results of measurements of altitude made in 1874 by a U. S. Coast Survey party under the author's leadership, with discussion (in full) of the data, methods, etc. and with tables of geodetic data and computations for St. Elias, Fairweather, Crillon, Cook and Vancouver Mts.

Copy seen: DLC.

3620. DALL, WILLIAM HEALEY, 1845-1927. Report on the Brachiopoda of Alaska and the adjacent shores of northwest America. (Academy of Natural Sciences of Philadelphia. Proceedings, 1877, p. 155-70)

List (with descriptions, synonymy, distribution, and habitat) which in-

cludes seven species from the waters of the Aleutians, southern and southeastern Alaska. *Copy seen: DLC.*

3621. DALL, WILLIAM HEALEY, 1845-1927. Report on the currents and temperatures of Bering Sea and the adjacent waters. (U. S. Coast and Geodetic Survey. Annual report, 1880, *pub.* 1882. Appendix 16, p. 297-340, plate, fold. chart) Extracts from this report were published as Dall's *Notes on Alaska and the vicinity of Bering Strait*. American journal of science, 1881. v. 21, p. 104-111. A German translation was published as *Hydrologie des Bering-Meeres und der benachbarten Gewässer*, in Petermanns geographische Mitteilungen, 1881. Bd. 27, p. 361-80, 443-48.

Contains discussion (based on the U. S. Coast Survey party's observations in 1880, and on the (then) available literature) of the currents, including those of neighboring North Pacific and Chukotsk Peninsula waters (with chart which includes pack ice limits); and the surface temperatures and ice conditions of Bering Sea (with vertical and horizontal isotherms for Bering Strait).

Copy seen: DLC.

3622. DALL, WILLIAM HEALEY, 1845-1927. Report on the limpets and chitons of the Alaskan and arctic regions, with descriptions of genera and species believed to be new. (U. S. National Museum. Proceedings, 1878, *pub.* 1879. v. 1, p. 281-344, illus.)

Discussion of the comparative morphology and nomenclature of the chitons, and a systematic list, with descriptions, synonymy, habitats and distribution, of twenty-nine species of chitons and nineteen (including one new) species of limpets, ranging from Pt. Barrow waters to southeastern Alaskan waters and Okhotsk Sea. Includes circumpolar distribution and species outside Alaskan waters.

Copy seen: DLC.

3623. DALL, WILLIAM HEALEY, 1845-1927. Report on the Mollusca of the Commander Islands, Bering Sea; collected by Leonhard Stejneger in 1882 and 1883. Contributions to the natural history of the Commander Islands, no. 3. (U. S. National Museum. Proceedings, 1884, *pub.* 1885. v. 7, p. 340-49)

List of forty-five species from the coastal and inland waters of Commander Islands, particularly Bering Island, and Avacha Bay, Kamchatka; with notes on the specimens, their localities, etc.; also a faunal summary indicating distribution of these species in arctic and North Pacific regions.

Copy seen: DLC.

3624. DALL, WILLIAM HEALEY, 1845-1927. Report on the mollusks. (*In:* International Polar Expedition, 1882-1883. Report of the international polar expedition to Point Barrow, Alaska, 1885. p. 177-84, illus., plate)

Systematic annotated list, with localities, of sixty-one species of molluscs and one brachiopod, obtained from beach and dredging near Point Barrow, Franklin Point, and Norton Sound, with three snails from tundra moss near Point Barrow.

Copy seen: DLC.

3625. DALL, WILLIAM HEALEY, 1845-1927. Report on the mollusks collected by L. M. Turner at Ungava Bay, north Labrador, and from the adjacent arctic seas. (U. S. National Museum. Proceedings, 1886, *pub.* 1887. v. 9, p. 202-208)

Annotated list of a couple of dozen species, indicating synonymy, and distribution in arctic regions, with localities of specimens collected by Turner mainly in pools and rivers in the Fort Chimo region and in Ungava Bay, and in waters off the Labrador coast, 1882-84; also full description of one new genus and species. *Copy seen: DLC.*

3626. DALL, WILLIAM HEALEY, 1845-1927. A subtropical Miocene fauna in arctic Siberia. (U. S. National Museum. Proceedings, 1893, *pub.* 1894. v. 16, p. 471-78, plate 56)

Note on the Gulf of Penjinsk (guba Penzhinskaya) and Okhotsk Sea as then known, and annotated list of fossil mollusks based on a collection made at Coal Bay in the Gulf of Penjinsk, on the western side of Kamchatka Peninsula by Wm. Stimpson in 1855, during the Ringgold and Rodgers exploring expedition; also some remarks on their beds.

Copy seen: DLC.

3627. DALL, WILLIAM HEALEY, 1845-1927. Supplementary notes on some species of mollusks of the Bering Sea and vicinity. (U. S. National Mu-

seum. Proceedings, 1886, *pub.* 1887. v. 9, p. 297-309, plates III-IV)

Notes on about twenty-four species with remarks on the specimens.

Copy seen: DLC.

3628. DALL, WILLIAM HEALEY, 1845-1927. Travels on the Yukon and in the Yukon Territory. (*In his, and others:* The Yukon Territory, 1898. p. 1-242, illus., 10 plates)

Narrative of the author's sledge and boat journeys, during the Western Union Telegraph Co. Expedition 1866-68, in the Norton Sound-Nulato-St. Michael region, and up the Yukon River as far as Fort Yukon; with detailed material on the culture of the West Alaska Eskimo and notes on the Koyukon Indians.

Copy seen: NNS Stef.

3629. DALL, WILLIAM HEALEY, 1845-1927. Tribes of the extreme Northwest. (*In:* *Contributions to North American ethnology*, issued by U. S. Dept. of the Interior. U. S. Geographical and Geological Survey of the Rocky Mountain Region, Washington, U. S. Govt. Print. Off., 1877. v. 1, pt. 1, p. 1-156, illus., 10 plates, fold. map.)

Contents: 1. On the distribution and nomenclature of the native tribes of Alaska and the adjacent territory, with a map. (List of Eskimo, Aleut, and Indian tribes and their clans, with notes on their names, area and approximate population).

2. On succession in the shell-heaps of the Aleutian Islands (human and animal remains and artifacts, etc., as evidence of prehistoric population).

3. Remarks on the origin of the Innuits. (Dall's remarks on theories of H. Rink and C. R. Markham.)

Appendix: Linguistics. Furuholm, J. Notes on the natives of Alaska (on Tlingit, Aleut, and Eskimo dialects).

Dall, W. H. Terms of relationship used by the Innuits.

Gibbs, G., and Dall, W. H. Comparative vocabularies (of various clans of the Tlingit, Tsimshian and Haida Indians).

Copy seen: DLC.

3630. DALL, WILLIAM HEALEY, 1845-1927, and others. The Yukon Territory. The narrative of W. H. Dall, leader of the Expedition to Alaska in 1866-1868. The narrative of an exploration made in 1887 in the Yukon District, by George M. Dawson. Ex-

tracts from the report of an exploration made in 1896-1897, by Wm. Ogilvie . . . London, Downey & Co., Ltd., 1898. xiv, 438 p. illus., 22 plates. Introduction by F. M. Trimmer.

Each of the three parts appears in this Bibliography under the author's name. The volume includes an index for all parts.

Copy seen: NNS Stef.

3631. DALL, WILLIAM HEALEY, 1845-1927, and G. D. HARRIS. Correlation papers; Neocene, Washington, U. S. Govt. Print. Off., 1892. 349 p. 3 fold. maps, diagrs. (U. S. Geological Survey. Bulletin no. 84)

Contents include: Alaska (notes on rocks, lignitic beds of the Aleutians, descriptions of formations, distribution of fauna, ground ice formations (Kotzebue Sound), and their origin, etc.) p. 232-68, with fold. map.

Copy seen: DGS.

3632. DALL, WILLIAM HEALEY, 1845-1927, and H. M. BANNISTER. List of the birds of Alaska, with biographical notes. (Chicago Academy of Sciences. Transactions, 1869. v. 1, pt. 2, p. 267-310) "First paper on the results of the Russo-American Telegraph Expedition".

Contains an account of the Western Union Telegraph Co. Expedition to Alaska 1865-68, and a list (with notes on the method of their collection, their use by the natives, and their localities) of two hundred twelve birds from many parts of Alaska and from the Chukotsk Peninsula. *Copy seen:* DLC.

3633. DALRYMPLE, A. J. Winged travelers of the sub-Arctic. The forbidding shores of Hudson Bay provide adventure and strange sights. (Forest and outdoors, Jan. 1935. v. 31, p. 749-50, 754, illus.)

Popular account of birds in the region of Churchill. *Copy seen:* DA.

3634. DALY, CHARLES PATRICK, 1816-1899, and others. Arctic meeting at Chickering Hall, January 31, 1878. Reception of the Earl of Dufferin. Paper by Captain Howgate, on his plan for the exploration of the arctic region. Addresses by Chief Justice Daly, William Cullen Bryant, Bayard Taylor, Lord Dufferin, and Dr. Isaac I. Hayes. (American Geographical Society, N. Y. Journal, 1878. v. 10, p. 276-98)

H. W. Howgate's paper: *Plan for the exploration of the Arctic Regions*, appears in this Bibliography under his name. *Copy seen:* DLC.

3635. DALY, CHARLES PATRICK, 1816-1899, and others. Arctic meeting at Chickering Hall, October 28th, 1880. Reception of Lieut. Frederick Schwatka and his associates of the Franklin search party of 1878, 1879 and 1880. (American Geographical Society, N. Y. Journal, 1880. v. 12, p. 237-96, 2 fold. maps)

Contents: Daly, C. P. Introductory address. (Brief account of the origin of the expedition, and information derived from Eskimos, 1878.)

SCHWATKA, J. Address. (Report on the expedition.)

Hayes, J. J. Remarks. (Concern the Franklin Expedition, the search expe-

ditions, and arctic exploration in general.)

Appendices: 1. Thomas F. Barry's statement. (A seaman who reported Eskimo statements, concerning the Franklin party, which Schwatka was sent to investigate.)

2. Joseph Eberling's (Esquimaux Joe) statement. (A native of Repulse Bay who accompanied C. F. Hall to King William Island during his expedition, 1864-69.)

3. Letter of Admiral Sir Leopold McClintock to the British Admiralty, 19th December, 1877. (Concerns the Barry statement, voicing doubts of its importance and advising against British action.)

4. Letter of Dr. John Rae to the British Admiralty, 15th December, 1877. (Rae's opinion that the Barry report was "a mistake in all its important particulars".)

5. Letter from the British Admiralty, Jan. 18, 1878. (Presumably to the American Geographical Society.)

6. HALL, E. F. Synopsis of the Franklin Search.

7. Nourse, J. E. English and American Franklin search expedition. (1) From the west through Behring's Straits, (2) from the east through Baffin's Bay, (3) land expeditions, and (4) Private expeditions. (From the *Narrative of the second arctic expedition made by Chas. F. Hall, 1879.*)

The papers by J. Schwatka and E. F. Hall appear in this Bibliography under their names. *Copy seen:* DLC.

3636. DALY, REGINALD ALDWORTH, 1871- . The geology of the northeast coast of Labrador. (Harvard University. Museum of Comparative Zoology. Bulletin, 1902. v. 38 (Geol. ser. v. 5, no. 5) p. 203-270, illus., 13 plates incl. 3 maps) Results of the author's work with the Brown-Harvard Expedition to Nachvak, Labrador, 1900.

Contents: Topography and bed-rock geology (from Belle Isle to Nachvak Bay including Kaumajet and Tornat Mountains), p. 209-236. Surface geology (glacial and postglacial), p. 236-66. *Copy seen:* DLC.

DALY, REGINALD ALDWORTH, 1871- , see also Delabarre, E. B. Report Brown-Harvard Exped. Labrador 1900. 1902.

3637. DAMAS, DÉSIRÉ, 1877-. The oceanography of the Sea of Greenland. A résumé of the observations made during the expedition of the Belgica, in 1905. (Smithsonian Institution. Annual report, 1909, pub. 1910. p. 369-83. illus., 2 plates.) Translated from La Géographie, Paris, June 15, 1909. v. 19, no. 6.

A brief review of the route of the Duc d'Orléans' cruise from West Spitsbergen to Greenland and along the coast, and of observations made on ice, temperature and salinity with comparative data from other exhibitions. The scientific results of this cruise were published in full as Orléans' Croisière océanographique . . . 1905, q.v.

Copy seen: DLC.

3638. DAMAS, DÉSIRÉ, 1877-, and E. KOEFOED. Le plankton de la Mer du Grönland. (In: Orléans, L. P. R., Duc d'. Croisière océanographie accomplie à bord de la Belgica dans la Mer du Grönland 1905, pub. 1907. p. 345-453, 10 sketch maps, tables) *Title tr.*: The plankton of Greenland Sea. (Oceanographic cruise on board the Belgica in Greenland Sea, 1905)

Contains a qualitative study of the zooplankton (especially *Calanus*), (1) of the surface layers, (2) of intermediate layers, and (3) as indicators of currents in Greenland Sea.

Tables include station list of fifty-one species of phytoplankton, and seventy-five species of zooplankton, with depth and abundance indicated; distribution of two selected species of pteropods in northern seas (including Barents Sea) based on ten different expedition reports.

3641. DANBO, JOHANNES MARIUS, 1880-. Om Grønlands areal. I. Arealmaaling af kommunerne i de vestgrønlandske kolonidistrikter Ritenbenk, Godhavn, Jakobshavn og Christianshaab. København, C. A. Reitzel, 1936. 12 p. tables. (Meddelelser om Grønland. Bd. 118, nr. 5) *Title tr.*: On the areal of Greenland. I. Areal survey of communes in the West Greenland colonial districts of Ritenbenk, Godhavn, Jakobshavn and Christianshaab.

Results of planimetric survey, with tabular breakdown of communes within the four administrative districts, and of each commune, with notes on the Danish Geodetic Survey mapping project.

Copy seen: DSI-M.

3642. DANBO, JOHANNES MARIUS, 1880-. Om Grønlands areal. II. Arealmaaling af Østgrønland mellem 73° og 76°N. br., mod vest til meridianen 32° vest for Greenwich. København, C. A. Reitzel, 1939. 24 p. incl. tables, sketch map. (Meddelelser om Grønland. Bd. 125, nr. 6) *Title tr.*: On the areal of Greenland. 2. Areal survey of East Greenland between 73° and 76°N. west to 32°W.

Contains tabular results for Hold with Hope, Ymer Island, Petermanns Mt., Hvidbjørns Nunatak, Wollaston Foreland, Clavering Island, Ole Rømers Land, Wilkins Nunataks, Hochstetter Foreland, King Wilhelm's land, Carlsbergfondet Land.

Copy seen: DSI-M.

3643. DANENHOWER, JOHN WILSON, 1849-1887. Lieutenant Danenhower's narrative of the "Jeannette". Boston, J. R. Osgood & Co., 1882. x p., 1 l., 102 p. front. (port.) illus., plate, double-face map.

The brief synopsis of the cruise of the *Jeannette*, 1879-81, and (in more detail) the ship's party's retreat afoot and by boat from the wrecked ship 77°15'N. 155°E. in East Siberian Sea

to the Lena delta; revised and corrected from the dictated narrative which appeared in the *New York Herald*, 1882.

Copy seen: DLC; NNSStef.

3644. DANENHOWER, JOHN WILSON, 1849-1887. The polar question. (United States Naval Institute, Proceedings, 1885. v. 11, p. 633-99 fold. map)

Paper prepared to be read and discussed, Oct. 9, 1885. Notes on problems of climate, food, and ice presented by routes to the Pole via West Spitsbergen, Franz Josef Land, East Greenland, Baffin Bay—Smith Sound and Bering Strait; discussion of ice, currents and tides of the Arctic Basin; and concluding remarks on international research.

Copy seen: DLC; NNSStef.

3645. DANENHOWER, SLOAN, 1885-
The arctic submarine *Nautilus*. (In: Wilkins, Sir G. H. Under the North Pole, 1931, p. 233-73, illus., plates)

Description (by its commander) of the submarine, its operation, reconditioning and various features incorporated in its design for arctic service, by Simon Lake.

3665. DANMARK-EKSPEDITIONEN TIL GRØNLANDS NORDOSTKYST, 1906-1908. [Beretninger] København, 1912-1917. 6 v. illus., plates (part col. part fold.) ports., maps (part fold.) tables, diagrs. (Meddelelser om Grønland. Bd. 41-46) *Title tr.*: Reports of the *Danmark Expedition* to the north-east coast of Greenland 1906-1908.

The expedition was under the leadership of Mylius-Erichsen, and had for its chief task the charting of the unknown stretch of coast from the northernmost point reached by Koldewey, in the tract around Cape Bismarck (about 77°N.), to the terminal points of Peary's expeditions, Navy Cliff and the east coast of Peary Land (about 82°N.) For history of the expedition see G. C. Amstrup, *Report on the Danmark Expedition* (etc.), 1913.

Contents: Bd. 1 (M. O. G. Bd. 41, pub. 1913)

No. 1. AMDRUP, G. C. Report on the *Danmark Expedition*.

No. 2. TROLLE, A. Hydrographical observations.

No. 3. BISTRUP, H. A. Ø. Tidal observations in Danmarks Havn.

No. 4. LINDHARD, J. Health conditions.

No. 5. AMDRUP, C. G. Mylius-Erichsen's report on the non-existence of Peary channel.

Bd. 2. (M. O. G. Bd. 42, pub. 1914, in German)

No. 1. WEGENER, A. L. Kite and captive balloon ascents.

No. 2. LÜDELING, G. Measurements of atmospheric electricity.

No. 3. WEGENER, A. L. Meteorological observations during the cruises 1906 and 1908.

No. 4. WEGENER, A. L. Meteorological fixed-hour observations made at Danmarks Havn.

No. 5. BRAND, W. Hourly observations of atmospheric pressure and temperature at Danmarks Havn.

No. 6. BRAND, W. Meteorological observations at the Pustervig Station.

No. 7. BRAND, W. The temperature in the crow's-nest on the main-mast of the *Danmark*.

No. 8. BRÜCKMANN, W. Magnetic observations. 1914.

Bd. 3. (*M. O. G. Bd. 43, pub. 1911-17*)

No. 1. OSTENFELD, C. E. H. List of vascular plants.

No. 2. JOHANSEN, F. The insects.

No. 3. BORGESEN, F. Freshwater algae.

No. 4. KOLDERUP-ROSENVINGE, J. L. A. On the marine algae.

3667. DANSKE GEOGRAFISKE SELSKAB. Det festlige møde i anledning af Dr. Fridtjof Nansens expedition. (Geografisk tidsskrift, København, 1890. Bd. 10, p. 53-56) *Title tr.:* The festive meeting in honor of Dr. Fridtjof Nansen.

Description of the meeting, May 25, 1889, in honor of the first crossing of Greenland by Nansen, 1888-89, and Nansen's speech dealing chiefly with the inland ice. *Copy seen:* DLC.

3668. DANSKE GEOGRAFISKE SELSKAB. Nordenskiöldfesten. (Geografisk tidsskrift, København, 1880. Bd. 4, p. 25-38) *Title tr.:* The celebration in honor of Nordenskiöld.

Account of the Danish Geographical Society meeting in Copenhagen, April 16, 1880, in honor of Nordenskiöld en route to Stockholm in the *Vega*, with texts of speeches. *Copy seen:* DLC.

3669. DARBISHIRE, OTTO V. Lichens collected during the 2nd Norwegian Polar Expedition in 1898-1902. Kristiania, A. W. Brøgger, 1909. 68 p. 3 plates (Norske videnskaps-akademi, Oslo. Report of the Second Norwegian Arctic Expedition in the *Fram*, 1898-1902, v. 3 (no. 21))

Descriptions of eight new species of lichens collected by the Second *Fram* Expedition in northwest Greenland, Ellesmere Island and adjacent islands; and list, with synonymy and references to literature, of about five hundred species from arctic America, Greenland, West Spitsbergen and Iceland; also list of localities with species found on the Second *Fram* Expedition; bibliography, p. 7-8. *Copy seen:* DLC.

3670. DARLING, T. A. There she blows! (Alaska sportsman, May 1937. v. 3, no. 5, p. 13-17, 19-20, illus.)

Description of modern whaling, the Akutan whaling station, methods of processing the carcass, and morphology of the whales. *Copy seen:* DLC.

DASSOW, JOHN, see Ellson, J. G., & others. Report Alaska Exploratory Fishing Exped. 1948. 1949.

3671. DATSKII, N. G. Ĭzhnyi predel rasprostraneniâ vechnoi merzloty v Mezenskom raione Severnogo Kraia. (Akademiâ nauk SSSR. Komissiiâ po izucheniiu vechnoi merzloty. Trudy, 1937. T. 5, p. 5-93, 35 tables, 42 illus.) *Title tr.:* The southern limit of permafrost in the Mezen district of the far North.

Contains results of field work of the expedition of the Academy of Sciences U.S.S.R. in 1933, to the lower reaches of the Mezen River. Description of the area includes data on soils (cross sections), ground temperature, duration of seasonal freezing, granulometric composition. Similar data is given for the peat-covered areas and tundra with information on its fauna; also description of sunken lakes and peat mounds with permanently frozen ground at their foundation. Summarizing, the author states that permafrost reported as existing in 1837 no longer exists in this

area, and the remains of it under the peat mounds testify to the general process of degradation, which was caused by the change in the climatic conditions of the area, and hastened by human activity. Bibliography (9 items).

3672. DATSKII, N. G. Puchiny na zheleznykh dorogakh v usloviakh vechnoi merzloty. (Akademiâ nauk SSSR. Komissiiâ po izucheniiu vechnoi merzloty. Trudy, 1935. T. 4, p. 171-87) *Title tr.:* Ground swelling along railways under permafrost conditions.

Contains discussion of frost-swelling of railway beds and possible counter measures, hitherto inadequate because of need for greater study. Such study was made on two sections of a railway (about 100 miles each) in the permafrost region and statistical results are given on the distribution of various types of frost-swelling (classified according to size) on various portions of the railway bed (flat, cut, fill). Observations on the rate of appearance, growth and degradation of swellings during the various months of the year indicate that the most dangerous months in this locality are November, December, January, April and May, when the fluctuations of the road beds are sharpest. Data on climate and rain and snow fall are added and integrated into the study of the development of swellings. Bibliography (8 items).

Copy seen: DLC; NN.

3673. DATSKII, N. G. Vechnaia merzlotâ i uslovia stroitel'stva v Usinskom raione. (Akademiâ nauk SSSR. Sovet po izucheniiu proizvoditel'nykh sil SSSR. Trudy. Seriiâ severnaia, 1934. Vyp. 2, p. 45-142, 58 illus., charts, diagrs.) *Title tr.:* Permafrost and construction conditions in the Usa River region.

Contains (in pt. 1) data, based on numerous test pits, on the geographical distribution of permafrost in the basin of the Usa River, its thickness, thermal régime, soil composition, and moisture content at various depths; cross sections of several peat mounds (with tables and temperature curves); observations on the character of permafrost distribution under various conditions of micro-relief and the influence of permafrost degradation on relief (thawing of subterranean ice, dis-

integration of frost mounds, solifluction); and indications of the general characteristics of the ground and their interrelationship with permafrost.

Pt. 2. Analyses of building deformations and their causes as part of the general conclusions regarding construction practices in this region (houses, water supply, roads, railways, etc.) The importance of granulometric composition of the ground, its plasticity and other characteristics are discussed, together with the influence of separate mineralogical factors on construction practices. Specific examples of difficulties in railway buildings and roads are given together with some practical instructions.

Arctische Expedition des Grafen Hans Wilczek im Sommer 1872. Pola, 1874. 63 p. incl. tables, 2 fold. maps. (Austro-Hungarian Monarchy. Hydrographisches Amt. Mittheilungen aus dem Gebiete des Seewesens, 1874. Bd. 2, Beilage no. 1) *Title tr.:* Voyage from Tromsø to Spitzbergen, Novaya Zemlya and Russia on the yacht *Isbjörn*. Arctic expedition of Count Hans Wilczek in summer 1872.

Narrative of a six-man party which, aboard Count Wilczek's yacht *Isbjörn*,

accompanied Weyprecht and Payer on the *Tegetthof* on the first part of the Austro-Hungarian Expedition of 1872-1874, to lay a coal and provision depot on Cape Nassau, Novaya Zemlya, for the *Tegetthof* party. Describes the voyage to Horn Sound, West Spitsbergen, then to Novaya Zemlya where Count Wilczek and Prof. Höfer carried out geological work; the *Isbjörn's* trip southward to the mouth of the Pechora, the Wilczek party's journey from the Pechora overland to Moscow, Sept.-Oct. Appended (p. 37-63) is a nautical journal, June 21-Sept. 2, giving three-or-four-times daily observations of air pressure, air and sea-surface temperature, humidity, wind direction and force, weather, sea-water density, and state of sea, with navigational notes.

3687. DAVID, LORE R., and HOWARD R. HILL. Alaskan fishes caught in shrimp trawls. (Southern California Academy of Sciences. Bulletin, 1938, pub. 1939. v. 37, p. 141-45)

Annotated list of forty species of fishes taken in offshore waters of southeastern Alaska.

Copy seen: DGS.

3688. DAVIDSON, CARL E. The farmers will come. (Alaska life, Jan. 1945. v. 8, no. 1, p. 22-28, illus.)

General discussion of the short season, soil, climate, crops, and transportation difficulties as factors in the Alaskan agricultural situation.

Copy seen: DLC.

3689. DAVIDSON, DANIEL SUTHERLAND, 1900- . Snowshoes. Philadelphia, 1937. x, 207 p. incl. tables. illus., 15 maps. (American Philosophical Society. Memoirs, v. 6)

Comprehensive study of the significance of the snowshoe in history, its traits and distribution, variation in construction, comparisons and correlation; with a tribal index to snowshoe traits, and a bibliography (118 items).

Appendix: Notes on snowshoe construction and netting techniques.

Copy seen: DLC.

3690. DAVIDSON, FREDERICK AL-EXANDER, 1897- , and others. Factors influencing the upstream migration of the pink salmon (*Oncorhynchus gorbuscha*). (Ecology, Apr. 1943. v. 24, p. 149-68, diagrs.)

This salmon was studied by the author in two southeastern Alaskan creeks found from the Columbia River to Bering Sea. He gives data on the similar physiographic and physicochemical characteristics of the two streams, with the conclusion that the difference in migrations may be due to inherent or instinctive behavior.

3697. DAVIDSON, GEORGE, 1825-1911. Lynn Canal and Taiyá Inlet. (Geographical Society of Philadelphia. Bulletin, 1900, v. 2, p. 108-114, plate)

General description of the physiography of Lynn Canal and Dyea Inlet and the regional climate.

Copy seen: DLC.

3698. DAVIDSON, GEORGE. 1825-1911, and others. Report relative to the resources and the coast features of Alaska Territory. (U. S. Coast and Geodetic Survey. Annual report, 1867, pub. 1869. Appendix no. 18, p. 187-329, 3 fold. charts, 1 map, tables) Report of the U. S. Coast Survey geographical reconnaissance party, on the U. S. Revenue Cutter *Lincoln*, July 21-Nov. 18, 1867, which surveyed Sitka Harbor, St. Paul Harbor (Kodiak Island) and Iliuliuk and Captains Bays (Unalaska Island).

Contains account (by Davidson) of the activities of the party, descriptions of the south and southeastern coasts, the ocean current system of the North Pacific and Bering Sea, the climate of the regions visited, their products, inhabitants, and (in detail) the harbors, bays, etc.

Appendices: A. Geographical positions of four hundred twenty-four places (chiefly from Russian authorities).

B, C, D. Davidson, G. Aids to navigation in Sitka Sound, approaches to St. Paul Harbor (Kodiak), and to Unalaska Bay.

E. BLAKE, T. A. General topographical and geological features of the northwestern coast of America, from the Straits of Juan de Fuca to the parallel of sixty degrees North latitude.

F. HARFORD, W. G. W. Zoology collections.

G. Vocabulary of the languages of the natives of Kodiak, Unalaska, Kenai, and Sitka (from Lisianskii's voyage round the world, 1803-06).

H. I. J. K. Meteorological records: Sitka (1847-62); Iliuliuk (1825-34, 1866-67); Makuskin volcanic ascent (Sept. 7-11, 1867); daily records Sitka (May 1-Sept. 29, 1867).

L. M. KELLOGG, A. Botany (text and list).

N. Comparative vocabulary, upon the plan adopted by the Smithsonian Institution (English, Spanish, French, Latin, Alaskan).

Charts: Sitka Harbor, St. Paul Harbor, Iliuliuliuk and Captain's Harbors.

The papers by Blake, Harford, and Kellogg appear in this Bibliography under the authors' names.

Copy seen: DLC.

3699. DAVIDSON, GEORGE, 1825-1911. The tracks and landfalls of Bering and Chirikof on the northwest coast of America, from the point of their separation in latitude 49°10', longitude 176°40' west, to their return to the same meridian, June, July, August, September, October, 1741. (Geographical Society of the Pacific. Transactions and proceedings, 1902. Ser. 2, v. 1, p. 1-44, front (port.) fold. chart)

Contains notes on the political situation in Russia (1730-1741) about the time of the Bering voyages, the building of the vessels, the subsequent voyages of the *St. Paul* and *St. Peter*, Bering's explorations and survey of Shumagin Islands, and the disaster to Chirikov's boats and men; with comment throughout on the differences of opinion, by subsequent explorers, on the actual tracks and landfalls.

3701. DAVIDSON, GORDON CHARLES, 1884-1922. The North West Company. Berkeley, 1918. xi, 349 p. 5 fold maps (incl. front.) California. University. Publications in history. Issued also as Ph.D. thesis to the University of California, 1916.

History of the Northwest Co. from its formation (1779-83) as a pool of fur trading companies and individuals with headquarters in Montreal, till its absorption by the Hudson's Bay Co. in 1821. Account of explorations by its wintering partners and employees, the fur trade, trading methods, competition with the Hudson's Bay Co. Based largely on original manuscript and obscure pamphlet sources, represented in extracts appended to the text, and in the bibliography (86 items). Includes general index to geographic names.

3723. DAWSON, CARL ADDINGTON. The new North-West. Arctic survey. 6. (Canadian journal of economics and political science, Nov. 1945. v. 11, p. 578-600) Reprinted (with 2 maps) in: Dawson, C. A., ed., The new North-West, 1947, pt. 11, p. 283-311.

In the summer of 1944, the author surveyed the region north from Peace River to the Arctic Ocean, and from a line between Waterways and Coronation Gulf on the east, to the Alaska Highway on the west; also that part of Alaska served by the Alaska Railroad and highway network between Fairbanks and Anchorage. In this paper he discusses the potentialities for settlement of this region, treated in sections: (1) Alaska Highway and adjoining territory, including subsidiary agriculture, (2) the Mackenzie Basin (new industrial towns, gold mining at Yellowknife, oil at Norman Wells; agriculture and lumbering) (3) agriculture in Matanuska Valley; and brief mention of Indians in the whole region. *Copy seen:* DLC.

3724. DAWSON, CARL ADDINGTON, editor. The new North-West. Toronto, Univ. of Toronto Press, 1947. x, 341 p. illus., 20 plates, 37 sketch maps.

The results of a survey in 1944, of Northwest Territories, and (to a lesser extent) Yukon Territory, sponsored by the Canadian Social Science Research Council.

Contents: Pt. 1. LINGARD, C. C. Administration of the northland.

*Pt. 2. TAYLOR, G. A Mackenzie domesday: 1944. (Originally pub. 1945).

*Pt. 3. TAYLOR G. A Yukon domesday: 1944. (Originally pub. 1945).

Pt. 4. BRUCE, E. L. Mineral industry of the North-West.

Pt. 5. ROBINSON, W. J., and J. L. ROBINSON. Fur production in the North-West. (Originally pub. 1946).

Pt. 6. DICKSON, W. Northern agriculture.

Pt. 7. HEWETSON, H. W. Transportation in the North-West.

*Pt. 8. WHERRETT, G. J. Health conditions and services in the North-West. (Originally pub. 1945).

*Pt. 9. MOORE, A. Education in the Mackenzie District. (originally pub. 1945).

Pt. 10. URQUHART, J. A. Eskimos

of the Canadian western Arctic. (Originally pub. 1937).

*Pt. 11. DAWSON, C. A. The new North-West. (Originally pub. 1945).

Pt. 12. MITCHELL, E. A. Bibliography of the Canadian North.

*These five parts were originally published in the Canadian journal of economics and political science, 1945, as *Arctic Survey*; two other parts, elsewhere, and five published here for the first time. Each of these papers appears in this Bibliography under its author's name. *Copy seen:* DLC.

3725. DAWSON, GEORGE MERCER, 1849-1901. The extinct northern seacow, and early Russian explorations in the North Pacific. (Canadian field naturalist, Jan. 1894. v. 7, p. 151-61)

Historical sketch of the Russian opening of the Aleutian Islands, their fur trade practices, and extermination of *Rytina stelleri*. *Copy seen:* DLC.

3726. DAWSON, GEORGE MERCER, 1849-1901. Extracts from the Report on an exploration made in 1887 in the Yukon District N.W.T. and adjacent northern portion of British Columbia. (*In:* Dall, W. H., and others. The Yukon Territory, 1898. p. 243-381, illus., 10 plates)

A party under the author's leadership, ascended the Stickine River, traveled overland to Dease Lake, down Dease River to the Liard, thence via Liard and Frances Rivers to Frances Lake, which they mapped; made a portage to the upper Pelly, descended that river to the Lewes, ascended it, crossed Chilcoot Pass and reached the coast at the head of Lynn Canal.

These extracts are notes on geology, ore deposits, the Indians, and (in detail) the physical geography of the region traversed. *Copy seen:* NNSf.

3727. DAWSON, GEORGE MERCER, 1849-1901. Geological notes on some of the coasts and islands of Bering Sea and vicinity. (Geological Society of America. Bulletin, Feb. 1894. v. 5, p. 117-46)

Based on the author's observations made incidentally, while a member of the British commission of the Bering Sea fur seal dispute. Brief information, largely of a physical geographic nature, on some of the Aleutian Islands, the Commander Islands, Kamchatka,

Pribilof, Nunivak, St. Matthew, Hall, Pinnacle, and St. Lawrence Islands, Cape Vancouver (Nelson Island), and Plover Bay (Chukotsk Peninsula); with general remarks on the Bering Sea. *Copy seen: DLC.*

3728. DAWSON, GEORGE MERCER, 1849-1901. Notes on the geology of Middleton Island, Alaska. (Geological Society of America. Bulletin, 1893. v. 4, p. 427-31)

Results of a study of the rock specimens provided by J. M. Macoun, who visited the island in 1892, and who submitted a written description of the island (quoted herein), with remarks on its probable geologic history. *Copy seen: DGS.*

3729. DAWSON, GEORGE MERCER, 1849-1901. Notes on the occurrence of mammoth-remains in the Yukon district of Canada and in Alaska. (Geological Society of London. Quarterly journal, Feb. 1894. v. 50, p. 1-9)

Remarks on the discovery of remains of mammoth in the Yukon River valley, and discussion of the limits of occurrence, the origin of ground ice and the probability of a land bridge between Asia and America in ancient time. *Copy seen: DGS.*

3730. DAWSON, GEORGE MERCER, 1849-1901. Notes on the ore-deposit of the Treadwell mine, Alaska. (American geologist, Aug. 1889. v. 4, p. 84-88)

Description of a gold deposit on Douglas Island, visited by the author, 1887. *Copy seen: DGS.*

3731. DAWSON, GEORGE MERCER, 1849-1901. Note to accompany a geological map of the northern portion of the Dominion of Canada, east of the Rocky Mountains. Montreal, Dawson Brothers, 1887. 62 p. fold. col. map. (Canada. Geological Survey. Annual report, 1886. Pt. R)

Contents: Introductory notes on the geological formations as a whole, p. 1-13. Mackenzie River region, p. 13-29. Arctic coast and adjacent lands east of the Mackenzie to Hudson Bay (including Ungava Peninsula and Baffin Island), p. 29-42. The arctic archipelago, p. 42-51. Ellesmere Land, Grinnell Land and neighboring coast of North Greenland, p. 51-56. Direction of ice movement in the glacial period, p. 56-58. List of principal works consulted in preparation of the map, p. 59-62.

The map is a systematic compilation from the then available sources, interpreted on a uniform plan, rather than the result of the Geological Survey's field work alone.

Copy seen: DLC.

3732. DAWSON, GEORGE MERCER, 1849-1901. On some of the larger unexplored regions of Canada. (Canadian field naturalist, May 1890. v. 4, p. 29-40, fold. map)

Paper read before the Ottawa Field Naturalists' Club, showing the area of the (then) unexplored regions.

Copy seen: DLC.

3733. DAWSON, GEORGE MERCER, 1849-1901. Report on an exploration in the Yukon district, N. W. T., and adjacent northern portion of British Columbia. 1887. Montreal, Dawson Brothers, 1888. 277 p. front., illus., 5 plates, 4 fold. maps. (Canada. Geological Survey. Annual report, 1887. Pt. B)

Results of the Canadian Yukon Expedition, 1887, under G. M. Dawson, for exploration and survey in the Yukon district, and for determination of the point at which Yukon or Pelly River crosses the 141st meridian. Summary of the expedition's organization, itinerary, and work; orography and general features (including nomenclature, size, discharge, etc.) of Pelly and Lewes Rivers and tributaries, navigability and routes, climate, flora, fauna, mining and minerals, fur trade, and economic importance; general geology (including results of glaciation and volcanic action); upper Liard River; Frances River and Lake; country between Frances Lake and Pelly River; upper Pelly River (including Hoole canyon, Ross River, Glenyon River, Macmillan River); confluence of the Lewes and upper Pelly; Lewes River (including Little Salmon River, Big Salmon River, Teslinto (Newberry) River, Lake Labarge, Tahkeena River, Lake Marsh, Tagish, Bennett and Lindeman Lakes); exploration and prospecting on the Lewes, and gold mining in upper Yukon basin.

Appendices: 1. Distribution of trees and certain shrubs in the Yukon. 2. The Indian tribes. 3. Macoun, J. List of plants collected by Dr. G. M. Dawson in the Yukon (two hundred one species). 4. Zoology. Fletcher, James. List of diurnal Lepidoptera; Bean, T. H.

Fishes; Merriam, C. H. A new red-backed mouse. 5. Adams, F. D. Lithological character of some of the rocks. 6. Meteorological observations (made en route). 7. Summary of astronomical observations, employed in construction of the map. *Copy seen:* DLC.

3734. DAWSON, GEORGE MERCER, 1849-1901, and R. G. McCONNELL. Report of an exploration in the Yukon district, N. W. T., and adjacent northern portion of British Columbia, 1887, by George M. Dawson, with extracts relating to the Yukon district from Report on an exploration in the Yukon and Mackenzie basins, 1887-88, by R. G. McConnell. Ottawa, Printed by S. E. Dawson, 1898. viii, 244 p. illus., 8 plates (incl. front) 3 fold. maps.

Contains a reprint (without appendices) of Dawson's *Report on an exploration in Yukon district [etc.] 1887*, q.v. p. 1-183; and extracts relating to the Porcupine and Pelly Rivers, from McConnell's *Report on an exploration in the Yukon [etc.] 1887-88*, q.v. p. 185-244.

Map in three sheets includes additions from surveys made between 1887 and 1898. *Copy seen:* DGS.

A letter dated Fort Norman, Sept. 5, 1837, to the governor of the Hudson's Bay Co., who communicated it to the Society. It contains notes on the Eskimos, the natural history, the ice conditions, and the nature of the coast from Mackenzie delta to Point Barrow, as observed during a boat trip as far as "Cape George Simpson," 71°3'N. 154°26'W., during the summer of 1837.

Copy seen: DLC.

3751. DEBENHAM, FRANK, 1883- . Bering's last voyage. (Polar record, July 1941. v. 3, p. 421-26, plate)

To mark the bicentenary year of the voyage, the author recounts the hardships and difficulties experienced by

Bering and makes some remarks on Steller's notes. *Copy seen:* DLC.

3752. DEBENHAM, FRANK 1883- . The future of polar exploration. (Geographical journal, Mar. 1921. v. 57, p. 182-204, illus.)

Paper read before the Royal Geographical Society, Dec. 1920, giving a general discussion of arctic and antarctic problems, remarks on exploration already completed, on methods, equipment, and on the need for international cooperation. *Copy seen:* DLC.

3753. DEBENHAM, FRANK, 1883- . Place-names in the polar regions. (Polar record, July 1942. v. 3, p. 541-52)

Discussion of the origin of place names, the difficulties of laying down rules for them, and problems arising from the simultaneous use of different names for the same geographic feature. *Copy seen:* DLC.

3754. DEBENHAM, FRANK, 1883- . The polar regions. London, E. Benn, Ltd., 1930. 80 p. (Benn's sixpenny library. No. 150)

Contains notes on ice, temperatures, scenery, traveling (means of transportation, food, etc.) plants and animals, and the future of north and south polar regions. *Copy seen:* NNStef.

3755. DEBENHAM, FRANK, 1883- . Retrospect: The Scott Polar Research Institute, 1920-45. (Polar record, Jan. 1945. v. 4, p. 223-35, 4 plates)

History of the founding and subsequent activities of the Institute. *Copy seen:* DLC.

3756. DEBENHAM, FRANK, 1883- . The Scott Polar Research Institute, Cambridge, England, its history and aims. (Arctica, 1933. No. 1, p. 67-74) *Copy seen:* DLC.

3757. DEBENHAM, FRANK, 1883- . Some aspects of the polar regions. (Scottish geographical magazine, Sept. 1935. v. 51, p. 273-83)

Presidential address to Geography Section, British Association for the Advancement of Science, 1935. Remarks on the economic aspects, the healthfulness and the peculiar problems for science, of the arctic and antarctic. *Copy seen:* DLC.

DEBENHAM, FRANK, 1883- , *see also* Bertram, G. C. L. Use of fuel in sledge travel. 1939.

3758. DEBETS, G. F. K antropologii chukchei (Akademiia nauk SSSR. Institut étnografii. Kratkie soobshcheniia, 1946. Vyp. 1, p. 63-65) *Title tr.:* Anthropology of the Chukchi.

Contains material, obtained in 1945, on the physical anthropology of the Reindeer Chukchis and some Tungus of the Malyy Anuyuy River. The author's data differs markedly from that of Bogoraz on the form of the nose, the presence of the epicanthus, and the occurrence of thick lips. According to the author, these characteristics point to the connection with the peoples of central and south-eastern Asia and not North America as Bogoraz suggested. *Copy seen:* DLC; NN; NNStef.

3759. DEBETS, G. F. K antropologii éskimosov. (Akademiia nauk SSSR. Institut étnografii. Kratkie soobshcheniia, 1947. Vyp. 3, p. 59-61) *Title tr.:* Notes on the physical anthropology of the Eskimos.

Contains results of a field investigation in the extreme northeast of Asia and on the Diomed Islands, where 191 male and 85 female Eskimos were measured. This preliminary report recorded a less frequent occurrence of the epicanthic fold (44 percent for men and 64 percent for women) and placed them between Siberian Mongoloids and American Indians. The Americanoid features present cannot be due to admixture with the Europeans. Some comparative data with the Chukchis are given. *Copy seen:* DLC; NN.

3760. De COSTA, BENJAMIN FRANKLIN, 1831-1904. Arctic exploration. (American Geographical Society, N. Y. Journal, 1880. v. 12, p. 159-92, illus.)

(Akademie der Wissenschaften, Berlin. Physikalisch-mathematische Klasse. Sitzungsberichte, 1930-1936. 1930, p. 230-35; 1931, p. 345-59; 1936, p. 232-42, illus., 2 double-face maps. *Title tr.*: Report on the oceanographic observations of the Meteor in Denmark Strait and Irminger Sea, 1-3.

A study based on observations made during short periods, 1929-30, 1933 and 1935 in the waters southeast of Greenland. Contains discussion of the dynamics of the East Greenland cold current and the Irminger, a warm Atlantic current; the bathymetry and the depths of water layers; a bibliography and index charts showing work of other expeditions in the area of Davis Strait, as well as those mentioned above.

Copy seen: DGS.

3767. DEFANT, ALBERT, 1884-. Der Einfluss der Reflexionsvermögens von Wasser und Eis auf den Wärmeumsatz der Polargebiete. Berlin, Borntraeger, 1942. p. l, 7 p. diags. (Deutsche wissenschaftliche Institut zu Kopenhagen. Veröffentlichungen. Reihe I: Arktis. Nr. 5) *Title tr.*: The influence of the reflection capacity of water and ice upon heat exchange of the polar region.

Theoretical, mathematical discussion in general of reflection and absorption of radiation by any water surface, in its relation to the high latitudes where diffuse radiation is of great importance; with a brief note on the greater penetration of radiation into ice.

Copy seen: DN-HO.

3768. DEFANT, ALBERT, 1884-. Ergebnisse der "Meteor"-Fahrten in die isländisch-grönländischen Gewässer 1929 und 1930. (Deutscher Geographentag. Verhandlungen und wissenschaft-

liche Abhandlungen, 1931, *pub.* 1932. Bd. 24, p. 216-30, diags.) *Title tr.*: Results of the *Meteor* Expeditions, 1929-1930 in the waters between Iceland and Greenland.

The German survey ship *Meteor* made annual research voyages, beginning 1928, to study the waters and meteorology between Iceland and Greenland, where the East Greenland Polar Current and Irminger Current (of warm Atlantic water) meet. This paper discusses and presents in diagrams and profiles, data on the bathymetry, temperature, salinity, density, and currents, for the waters off southeastern Greenland. *Copy seen:* DLC.

3769. DEFANT, ALBERT, 1884- . Die Gezeiten des Atlantischen Ozeans und des Arktischen Meeres. (Annalen der Hydrographie und maritimen Meteorologie, 1924. Jahrg. 52, p. 153-66, 177-84, 2 fold. diags.) *Title tr.*: The tides of the Atlantic Ocean and arctic seas.

Contains discussion of the Atlantic basin and bordering shallow arctic seas as a whole, with details on width and depth relations and tidal oscillations in the area, including Baffin Bay and Davis Strait; also technical discussion of the semi-diurnal and diurnal tides, including co-tidal diagrams for Greenland Sea and Baffin Bay-Davis Strait. *Copy seen:* DLC.

3770. DEFANT, ALBERT, 1884- . Konvektion und Eisbereitschaft in polaren Schelfmeeren. (Geografiska annaler, 1949. Arg. 31, p. 25-35, diags.) *Title tr.*: Convection and probability of ice in polar shelf areas.

Theoretical discussion of convection and heat exchange between sea water and atmosphere as they relate to formation of ice. *Copy seen:* DLC.

3771. DEFANT, ALBERT, 1884- . Oscillations of the atmospheric circulation over the North Atlantic Ocean in the 25-year period, 1881-1905. (U. S. Weather Bureau. Monthly weather review, Aug. 1924. v. 52, p. 387-93, diags., tables)

The mean monthly pressure distribution and various types of pressure anomalies over the North Atlantic are discussed. *Copy seen:* DLC.

3772. DEFANT, ALBERT, 1884- . Die ozeanographischen Arbeiten des

Vermessungsschiffes "Meteor" in der Dänemarkstrasse und Irmingersee während der Fischereischutzfahrten 1929, 1930, 1933, und 1935. Berlin, E. S. Mittler & Sohn, 1936. 152 p. incl. 123 p. of tables. 5 sketch charts, tables, fold. chart. (Berlin. Universität. Institut für Meereskunde. Veröffentlichungen. Neue folge, Reihe A, Heft 32) *Title tr.*: The oceanographic work of the survey ship *Meteor* in Denmark Strait and Irminger Sea during the fisheries research voyages 1929, 1930, 1933 and 1935. *Other authors:* G. Böhnecke and H. Wattenberg.

Report of the German naval vessel's work in Aug. 1929, Aug. 1930, Mar-Apr. 1933, and Mar. 1935, on five sections extending eastward from the coast of Greenland between Cape Farewell and about 61°N., in that part of Denmark Strait where the cold East Greenland Current and the warm Irminger Current mingle. It includes a narrative of the voyages, and discussion of the bathymetric chart, the instruments and the methods.

Tables: 1-2. Temperature, salinity, density and oxygen for surface and at depths from 0 to bottom (4250 meters deepest). 3. Values (of the same properties) interpolated for normal depths. 4. Chemical analyses: phosphate and nitrate, ammonia, hydrogen-ion concentration, catalytic effect. 5. Plankton determinations: quantitative and qualitative for various depths. *Copy seen:* DF.

3787. De GEER, GERARD JAKOB, *Friherre*, 1858-1943. Om Spetsbergens natur i Sveagruvans omnejd. (Ymer, 1919. Årg. 39, p. 240-77, illus., fold. **Title tr.:** On the nature of Spitsbergen in the "Svea Mine" region.

Contains description of the location and operation of the Swedish coal mine "Sveagruvan" at inner Van Mijen Bay, West Spitsbergen; also discussion of the discovery and exploration, the surveying, topography, geology, and climate, the plant and animal life of the region.

Copy seen: DLC.

3788. De GEER, GERARD JAKOB, *Friherre*, 1858-1943. Rapport om Den svenska geologiska expeditionen till Isfjorden på Spetsbergen sommaren 1896. (Ymer, 1896. Årg. 16, p. 259-66) **Title tr.:** Report of the Swedish Geological Expedition to Ice Fiord, West Spitsbergen.

Report on the work of this expedition under the author's leadership in 1896; its voyage (with Andrée's party) to West Spitsbergen; its topographical, geological and glaciological investigations in the Ice Fiord region and the trip home.

Copy seen: DLC.

3789. De GEER, GERARD JAKOB, *Friherre*, 1858-1943. Some leading lines of dislocations in Spitsbergen. (Geologiska föreningen. Förhandlingar, 1909, pub. 1910. Bd. 31, p. 199-208, map)

Discussion of dislocations of Silurian and Devonian rocks on West Spitsbergen, parallel with the oldest main tectonic lines; remarks on evidence of uplifts in the area. Summary in Swedish.

Copy seen: DGS; DLC.

3790. De GEER, GERARD JAKOB, *Friherre*, 1858-1943. Den svenska Spetsbergsexpeditionen år 1908. (Ymer, 1908. Årg. 28, p. 341-44) **Title tr.:** The Swedish Expedition, 1908.

Summary account of this expedition.

Copy seen: DLC.

3791. De GEER, GERARD JAKOB, *Friherre*, 1858-1943. Den svenska Spetsbergsexkursjonen, 1910, för delta-gare i den 11:te internationella geolog-kongressen i Stockholm. (Ymer, 1910. Årg. 30, p. 305-310) **Title tr.:** The Swedish Spitsbergen Excursion, 1910, for the members of the Eleventh International Geological Congress in Stockholm.

Account of the trip to Ice Fiord, West Spitsbergen and to glaciers in the Ice Fiord region.

Copy seen: DLC.

3792. De GEER, GERARD JAKOB, *Friherre*, 1858-1943. Swedish Spitsbergen maps until the end of 1908. (In: Nathorst, A. G. Swedish explorations in Spitzbergen, 1758-1908, pt. 3. pub. in: Ymer, 1909. Årg. 29, p. 78-99, also in separate issue)

Contains annotated list of sixty maps, published since 1862.

Copy seen: DLC.

3793. De GEER, STEN, 1886-. Hafsvattnets slamhalt inom Spetsbergens Isfjord ur geografisk synpunkt. (Ymer, 1913. Årg. 33, p. 148-57, illus., map) **Title tr.:** The contents of mud in Ice Fiord, Spitsbergen, from the geographical point of view.

Discussion of observations of the transparency of fiord water made by the Swedish Spitsbergen Expedition, 1908.

Copy seen: DLC.

3794. DEGELIUS, GUNNAR BROR FRITIOF, 1903-. Lichens from southern Alaska and the Aleutian Islands, collected by Dr. E. Hultén. (Göteborgs botaniska trädgård. Meddelanden, 1937, pub. 1938. T. 12, p. 105-144, illus., 4 plates)

Revision of Dr. Hultén's collection made in 1932, of nearly five hundred specimens comprising one hundred thirty species (five new) with notes and localities.

Copy seen: DA.

3795. DEGELIUS, GUNNAR BROR FRITIOF, 1903-. Das ozeanische Element der Strauch- und Laubflechten-

flora von Skandinavien. Uppsala, Almqvist & Wiksell, 1935. xii, 411 p. illus. (incl. sketch maps) 4 plates. (Acta phytogeographica suecica. 7) Inaugural-Dissertation, University of Uppsala. **Title tr.:** The oceanic element in fruticose and foliaceous lichens of Scandinavia.

A study of the species of lichens which may belong to the oceanic element (flourishing in damper, warmer climate), the distribution of such species in Scandinavia and Finland; the distribution-types of mosses and vascular plants found with such lichens, and the factors involved in the distribution of the lichen species, based on use of phytogeographic maps and study of habitats; with a bibliography (nearly 800 items). **Copy seen:** DLC.

3796. DEGELIUS, GUNNAR BROR FRITIOF, 1903- . Über die Flechtengattung *Pseudoleptogium* Müll. Arg. (Svensk botanisk tidskrift, 1943. Bd. 37, häfte 1, p. 65-71) **Title tr.:** On lichen genus *Pseudoleptogium* Müll. Arg.

Contains some critical notes on various species of lichen genus *Pseudoleptogium* and allied genera, including Latin diagnosis of *Collema leptogioides*, occurring in Torne Lappmark and in Tromsö region of northern Norway.

Copy seen: MH-A.

3797. DEGELIUS, GUNNAR BROR FRITIOF, 1903- . Uppgiften om *Lichina confinis* (Müll.) Ag. i Kuusamo-området. (Svensk botanisk tidskrift, 1946. Bd. 40, häfte 4, p. 447-48) **Title tr.:** Report on *Lichina confinis* (Müll.) Ag. in Kuusamo region.

Contains the author's statement that *Lichina confinis*, a lichen reported to be found in Kuusamo region in Finland, is probably a new species of the genus *Lemphollemma*, occurring also in Torne Lappmark. Summary in German.

Copy seen: MH-A.

3798. DEGELIUS, GUNNAR NILSSON. Bemerkungen über *Cyphelium notarisi* (Tul.) Blomb. et Forss. und *C. tigillare* Ach. (Botaniska notiser, 1930, häfte 2, p. 105-128, illus., text maps) **Title tr.:** Notes on *Cyphelium notarisi* (Tul.) Blomb. et Forss. and *C. tigillare* Ach.

Contains a comparative study of taxonomy and geographic distribution of

two Scandinavian lichens—*Cyphelium notarisi* and *C. tigillare*, the first distributed in southern Norway and the second native to Swedish Lapland and arctic Norway (Finnmark and Varanger); bibliography (45 items).

Copy seen: MH-A.

3799. DEGELIUS, GUNNAR NILSSON. *Cetraria norvegica* (Lynge) DR. in Fennoskandia. Eine Übersicht anlässlich der Auffindung der Art in Schweden. (Svensk botanisk tidskrift, 1928 pub. 1929. Bd. 22, häfte 4, p. 515-27, text map) **Title tr.:** *Cetraria norvegica* (Lynge) DR. in Fennoskandia. A revision on account of the discovery of this species in Sweden.

Contains data on the history of systematics of this lichen previously known only from Norway; and detailed data on its areal, 58°15'-69°20'N.; bibliography (31 items).

Copy seen: MH-A.

3800. DEGELIUS, GUNNAR NILSSON. Lavar från Moskenesøy. Ett bidrag till kännedomen om lavfloran i yttersta Lofoten. (Nytt magasin för naturvidenskapene, 1938. Bd. 78, p. 269-93, illus.) **Title tr.:** Lichens from Moskenesøy. A contribution to the knowledge of the lichen flora of the outer Lofoten Islands.

Contains an investigation of lichen flora of Moskenesøy, the outermost of the Lofoten Islands, northern Norway, carried out by the author in the summer of 1937, with a systematic list of about one hundred lichens with localities and data on habitat; bibliography (20 items). Summary in German.

Copy seen: MH-Z.

3801. DEGELIUS, GUNNAR NILSSON. Några lavar från Helgeland i Nordland. (Nytt magasin för naturvidenskapene, 1931. Bd. 70, p. 289-95) **Title tr.:** Lichens from Helgeland and Nordland.

Contains a list of one hundred eight lichens collected by the author in 1926, in Helgeland and Nordland regions of Norway.

Copy seen: MH-Z.

3802. DEGELIUS, GUNNAR NILSSON. Ett sydberg i Kebnekaise-området och dess lavflora. (Botaniska notiser, 1945, häfte 4, p. 390-412, illus.) **Title tr.:** A southern mountain in Kebnekaise region and its lichen flora.

Contains a list of two hundred ten lichens known from Kebnekaise region, Torne Lappmark, critical notes on about thirty-five noteworthy species and Latin descriptions of *Lecidea circumnigrata* H. Magn. and *Rinodina soredicola* Deg. n. spp., the first native to Torne Lappmark and the latter to Swedish Lapland and Finnmark, Norway; bibliography (49 items).

Copy seen: MH-A.

3803. DEGELIUS, GUNNAR NILSSON. Über *Dermatocarpon rivulorum* (Arn.) DT. et Sarnth. und *D. Arnoldianum* Degel. n. sp. (Nytt magasin for naturvidenskapene, 1936. Bd. 75, p. 151-61, plate 1) **Title tr.:** On *Dermatocarpon rivulorum* (Arn.) DT. et Sarnth. and *D. Arnoldianum* Degel. n. sp.

Contains Latin diagnosis of *Dermatocarpon Arnoldianum* n. sp., a lichen native to Finnmark, Norway, and *D. rivulorum*, collected in Nuolja, Torne Lappmark, Sweden, with data on taxonomy, ecology and distribution of both species, and their relation to four related species of the same genus.

Copy seen: MH-Z.

3804. DEGELIUS, GUNNAR NILSSON. Zur Kenntnis der Flechtenflora um den See Virihaure in Lule Lappmark (Swedisch-Lapland). (Botaniska notiser, 1943, häfte 1, p. 75-113, illus.) **Title tr.:** A contribution to the knowledge of lichen flora around Virihaure Lake in Lule Lappmark (Swedish Lapland)

Contains a general description of this region and its lichen flora, with historical notes on its botanical exploration and a systematic enumeration of two hundred ninety-two lichens collected by the author during his trip in 1941, including a Latin diagnosis of *Pannaria isidiata* n. sp. (occurring also in Torne Lappmark, Sweden, and Tromsø and Finnmark, Norway); bibliography (50 items).

Copy seen: MH-A.

3805. DEGERBØL, MAGNUS, 1895- Animal bones from the Norse ruins at Brattahlid. (In: Nørlund, P., and M. Stenberger. Brattahlid, appendix 1. Pub. in: Meddelelser om Grønland, 1934. Bd. 88, nr. 1, p. 149-55)

Notes on bones of seal, walrus, bear, dog, etc., from Eric the Red's home-

stead on West Greenland, with comment on Norsemen's domestication of animals, hunting, etc.

Copy seen: DLC.

3806. DEGERBØL, MAGNUS, 1895- Animal bones from the Norse ruins at Gardar. (Meddelelser om Grønland, 1930. Bd. 76, p. 181-92 incl. tables)

Descriptions of animal bones excavated at the medieval episcopal seat at Gardar (now Igalliko, Julianehaab District, West Greenland) by the Archaeological Expedition to South Greenland, 1926.

Copy seen: DLC.

3807. DEGERBØL, MAGNUS, 1895- Animal remains from the West Settlement in Greenland, with special reference to livestock. København, C. A. Reitzel, 1936. 54 p., 1 l. incl. illus., tables. plate. (Meddelelser om Grønland. Bd. 88, nr. 3)

Discussion (with list, measurements, etc.) of bones of whales, horse, sheep, etc., excavated in 1930-34, on the site of the Norse colony "Vesterbygden" (in the present Godthaab District) under direction of P. Nørlund and A. Roussell; the relation of the bones to Norse culture and comparison with those found in "Østerbygden" (the East Settlement); bibliography, p. 53-54.

Copy seen: DLC.

3808. DEGERBØL, MAGNUS, 1895- A contribution to the investigation of the fauna of the Blossville Coast, East Greenland, with special reference to zoogeography. København, C. A. Reitzel, 1937. 36 p. 2 maps (1 fold.) (Meddelelser om Grønland. Bd. 104, nr. 19)

Results of the Scoresby Sound Committee's Second East Greenland Expedition in 1932 to King Christian IX's Land. Exceptional sailing conditions permitted landing on Cape Dalton as early as July 10th, which gave time for investigation of the coast, previously almost unvisited. Author discusses the factors determining Blossville Coast as the location of several zoogeographical boundaries: climate, character of the flora, nature of the soil, large glaciers coming down to the sea, steep coast lines; shows that the climate is conditioned to some extent by the submarine ridge across Denmark Strait, affecting ocean currents and ice cover, temperature and rainfall; discusses

the occurrence and sparsity of individual species of land and marine mammals and insects, and remarks on the history of migration; bibliography (32 items).

Copy seen: DLC.

3809. DEGERBØL, MAGNUS, 1895- . The former Eskimo habitation in the Kangerdlugssuak district, East Greenland. København, C. A. Reitzel, 1936. 47, [1] p. illus. (incl. plans) maps (1 fold.) (Meddelelser om Grønland. Bd. 104, nr. 10)

Results of the Scoresby Sound Committee's Second East Greenland Expedition in 1932 to King Christian IX's Land. Description of houses, kitchen midden and graves at Mikis Fjord, 68°10'N., and of graves of woman and child, and two houses at Kangerdlugssuak; with a bibliography (10 items).

The finds from these localities are described and discussed by T. Mathiasen, in *Eskimo finds from the Kangerdlugssuak region*, 1934, q.v.

Copy seen: DGS; DSI-M.

3810. DEGERBØL, MAGNUS, 1895- . Om 3 tilfælde af dobbelte stødtænder hos hvalrossen (*Odobenus rosmarus* L.) (Dansk naturhistorisk forening. Videnskabelige meddelelser, 1930. Bd. 88, p. 286-92, illus.) *Title tr.*: On three cases of double tusks on the walrus (*Odobenus rosmarus* L.).

Description of double tusks observed on walrus crania from West Greenland waters.

Copy seen: DLC.

3811. DEGERBØL, MAGNUS, 1895- . The osseous material from Austmannadal and Tungmeralik, West Settlement, Greenland. (In: Roussel, A. Farms and churches in the mediaeval Norse settlements of Greenland, Appendix. *Pub.* in: Meddelelser om Grønland, 1941. Bd. 89, nr. 1, p. 345-54)

Discussion and lists of animal bones, found by A. Roussel during his archaeological investigations 1937, on the site of the Norse colony "Vesterbygd" (in the present Ameralik Fiord region in Godthaab District).

Copy seen: DLC.

3812. DEGERBØL, MAGNUS, 1895- , and others, editors. Zoology of East Greenland. København, C. A. Reitzel, 1937-48. 17 no. illus., plates, maps. (Meddelelser om Grønland. Bd. 121-122) *Other editors:* A. S. Jensen, R. Späreck, and G. Thorson.

Collection of papers bringing together accounts of various animal groups investigated and collected by Danish and other expeditions, and recorded in previously published literature.

Contents: Bd. 121, nr. 1 (*pub.* 1937). WESENBERG-LUND, E. Gephyreans. Nr. 2 (*pub.* 1938). HAMMER, M. S. J. Collemboles.

Nr. 3 (*pub.* 1939). JESPERSEN, P. Copepods.

Nr. 4 (*pub.* 1940). POULSEN, E. M. Freshwater Entomostraca.

Nr. 5 (*pub.* 1940). WESENBERG-LUND, E. Brachiopoda.

Nr. 6 (*pub.* 1941). HEEGAARD, P. E. Decapod crustaceans.

Nr. 7 (*pub.* 1941). LEMCHE, H. M. Gastropoda Opisthobranchiata.

Nr. 8 (*pub.* 1943). STEPHENSEN, K. Pycnogonida.

Nr. 9 (*pub.* 1943). STEPHENSEN, K. Marine Ostracoda, parasitic and semi-parasitic Copepoda and Cirripedia.

Nr. 10 (*pub.* 1943). STEPHENSEN, K. Leptostraca, Mysidacea, Cumacea, Tanaidacea, Isopoda and Euphausiacea.

Nr. 11 (*pub.* 1943). KRAMP, P. L. Hydroida.

Nr. 12 (*pub.* 1943). KRAMP, P. L. Medusae, Siphonophora, and Ctenophora.

Nr. 13 (*pub.* 1944). THORSON, G. Marine Gastropoda Prosobranchiata.

Nr. 14 (*pub.* 1944). STEPHENSEN, K. Amphipoda.

Nr. 15 (*pub.* 1946). BRAENDEGAARD, J. Araneina.

Bd. 122, nr. 1 (*pub.* 1946). HAMMER, M. S. J. Oribatids.

Nr. 2 (*pub.* 1948). MADSEN, F. J. Octocorallia.

Each of these papers appears in this Bibliography under the author's name.

Copy seen: DGS; DSI-M.

3813. DEGERBØL, MAGNUS, 1895- , and F. W. BRÆSTRUP. The geographical variation of the Greenland hares. (Dansk naturhistorisk forening. Videnskabelige meddelelser, 1934. Bd. 98, p. 197-206, illus.)

Discussion of variation in cranial measurements, and recognition of only two races in Greenland: *groenlandicus* and *porsildi*.

Copy seen: DSI-M.

3814. DEGERBØL, MAGNUS, 1895- , and N. L. NIELSEN. Biologiske iagt-

tagelser over og maalinger af hvidhvalen (*Delphinapterus leucas* (Pall.)) og dens fostre. (Meddelelse om Grønland, 1930, pub. 1931. Bd. 77, p. 117-44 incl. illus., diags., tables) *Title tr.*: Biological observations and measurements of the white whale (*Delphinapterus leucas* (Pall.)) and its fetus.

The discussion includes also occurrence of the white whale off West Greenland and means of capturing the whales in a small fiord near Sukkertoppen. Summary in English, p. 143-44.

Copy seen: DGS.

3815. DEGERBØL, MAGNUS, 1895- , and PETER FREUCHEN. Mammals. Copenhagen, Gyldendalske boghandel, 1935. 2 p. l., 278 p. illus., photos., 1 fold. map, tables. (Thule Expedition, 5th, 1921-1924. Report. v. 2, no. 4-5)

Contents: Pt. 1, (p. 1-67). Degerbøl, Magnus. Systematic notes (with bibliography, 33 items). Pt. 2, (p. 68-278). Freuchen, Peter. Field notes and biological observations (with an extended description of the Eskimo dog, p. 141-87).

These papers are notes on mammalian material collected on the tundras west of Hudson Bay and Fox Channel, mainly from Melville Peninsula.

3827. DELABARRE, E D M U N D BURKE, 1863- Report of the Brown-Harvard Expedition to Nachvak, Labrador in the year 1900. (Geographical Society of Philadelphia, Apr. 1902. v. 3, no. 4, p. 65-212, illus., front., 10 plates (incl. maps), fold., col. map)

Record of an expedition with personnel from Brown and Harvard Universities, the cruise of the *Brave*, and the twelve-day visit at Nachvak Fjord (59°N. 64°W.) on the northern Labrador coast. Includes descriptions of the overland trips, notes on meteorology, the ascent of Mt. Faunce, scenery of

the Atlantic coast of Labrador, the Eskimos and the medical mission.

Scientific reports include: Botany (with list showing locations) p. 167-201. Bigelow, H. B. Ornithology, p. 202-206. Daly, R. A. Geology, p. 206-212.

The reports by Bigelow and Daly are summaries of full reports, which appear in this Bibliography under the authors' names. *Copy seen: DLC.*

3823. De LAGUNA, FREDERICA, 1906-. An archeological reconnaissance of the middle and lower Yukon valley, Alaska. (American antiquity, July 1936. v. 2, no. 1, p. 6-12)

Summary of the results of an expedition in 1935, by the author and Dr. A. J. Eardley, sponsored by the University of Pennsylvania Museum, to investigate the possibilities of finding ancient human remains in Yukon valley. No remains of geological antiquity were found, but many pre-historic Indian sites were located, especially between Nulato and Holy Cross, and pottery was found at the mouth of the Tanana, 500 miles beyond its former known limit.

Copy seen: DSI-E.

3829. De LAGUNA, FREDERICA, 1906-. The archaeology of Cook Inlet, Alaska. With a chapter on skeletal material by Bruno Oettking. Philadelphia, Pub. for the University Museum by the University of Pennsylvania Press, 1934. 5 p. l., 7-263., 5 illus., 72 plates incl. 4 maps.

The results of surveys and excavations carried out in the summers, 1930-32, under auspices of the University Museum, Philadelphia. Description of numerous archeological sites visited around Cook Inlet, with notes on finds at each, and with detailed description of the extensive excavations at Yukon Island and Cottonwood Creek, Kachemak Bay. Includes description of artifacts, animal remains, and human skeletal material; discussion of the stratigraphic sequences,

starting with basal Thule-like materials; summary of the Kachemak Bay culture and its affiliations; and description of ancient and modern house types, red hematite rock paintings, and (Appendix II) analyses of hearth ashes suggesting aboriginal use of soft coal. Bibliography, p. 232-34.

Maps of Cook Inlet and of Kachemak Bay, with archeological sites; large scale maps of Yukon Island and Cottonwood Creek sites.

Plates include detailed vertical sections of the two main excavations, views of sites, and pictures of artifacts, rock paintings, and skeletal remains.

Copy seen: DLC.

3830. De LAGUNA, FREDERICA, 1906-. A comparison of Eskimo and Paleolithic art. (American journal of archaeology, 1932-33. v. 36, p. 477-511; v. 37, p. 77-107, 12 plates)

Discusses previous theories and author's reformulation of the problem, in which only ancient Eskimo art is utilized for comparison, leading to the conclusion that "it is impossible to prove that Eskimo art is more closely related to that of the Paleolithic than are other arts of comparatively simple content. Yet I am not sure this negative conclusion is final."

Copy seen: DSI-M.

3831. De LAGUNA, FREDERICA, 1906-. Eskimo lamps and pots. (Royal Anthropological Institute of Great Britain and Ireland. Journal, 1940. v. 70, pt. 1, p. 53-76, 2 plates, 9 illus.)

Description of different forms of Eskimo stone and pottery lamps and of cooking pots (stone and pottery). Distribution and relative antiquity of the different types in Eurasia and America are discussed, and the origin and paths of diffusion traced.

Copy seen: DSI-M.

3832. De LAGUNA, FREDERICA, 1906-. History of the ever useful reindeer; man's sub-arctic ally. (Frontiers; a magazine of natural history, Dec. 1938. v. 3, p. 48-54, 64, illus.)

A popular presentation of the origin of the reindeer, the nomadic tribes which use him, his taming, herding, and harnessing, also the recent introduction of herds into Alaska and Labrador.

Copy seen: DLC.

3833. De LAGUNA, FREDERICA, 1906- . Indian masks from the Lower Yukon. (American anthropologist, 1936. New ser., v. 38, p. 569-85, illus., 4 plates)

Descriptions and discussion of a collection of dance masks from Ingalik Indians, and of ceremonies reported in Chapman, J. W., *Notes on the Tinnch tribe of Anvik, Alaska*, 1907, q.v.

Copy seen: DLC.

3834. De LAGUNA, FREDERICA, 1906- . Mummified heads from Alaska. (American anthropologist, 1933. New ser., v. 35, p. 742-44, plate)

Description of unusual cache of Tlingit remains.

Copy seen: DLC.

3835. De LAGUNA, FREDERICA, 1906- . The prehistory of northern North America as seen from the Yukon. Menasha, Wis., 1947. ix, 360 p. 30 plates, 33 illus. (Society for American Archeology. Memoirs, v. 12, no. 3, pt. 2)

Comparative and analytical discussion of the origin and relationships (American and Asiatic) of prehistoric Eskimo and Indian cultures in northern North America, based on the author's field investigations in the Ingalik Indian country in the Tanana and Yukon valleys, between Nenana and Holy Cross, conducted for the University of Pennsylvania Museum in 1935.

Contains introductory conclusions; chapters on the Tena and their neighbors; archeological sites; disposal of the dead; houses, kashims (ceremonial rooms), and caches; archeological collections from Tena sites; pottery from Indian and Eskimo sites; analysis of archeological types; final conclusions.

Appendix: Analysis of Yukon potsherds, by Donald Horton; bibliography p. 291-99.

The chapters of introductory and final conclusions discuss stages of development of Indian and Eskimo cultures, the present status of Eskimo archeology, northeastern Indian archeology, and Japanese archeology, the last because of a postulated connection with south Alaska.

3839. DE LONG, GEORGE WASHINGTON, 1844-1881. The voyage of the Jeannette. The ship and ice journals of George W. De Long, lieutenant-commander U.S.N. and commander of the Polar expedition of 1879-1881. Ed. by his wife, Emma De Long, with two steel portraits, maps and many illustrations on wood and stone . . . Boston, Houghton Mifflin & Co., 1884. 2 v.: xii, 1-440 p.; xii, 441-911 p., illus., 16 plates incl. ports., 7 maps (2 fold.)

Edited by Emma De Long, widow of the author, based on De Long's private papers, the editor's own recollections and notes, and on public and private testimony from survivors of the expedition.

Narrative of an expedition made under the authority of the U. S. Navy

Dept., and financed by J. G. Bennett; the voyage of the *Jeannette*, from San Francisco, July 8, 1879, calling at a number of places in Bering Sea, clearing Bering Strait, visiting Cape Serdze Kamen and going adrift in the ice near Herald Island, Nov. 1879; the drift thence north and west for nineteen months, till the ship was crushed and finally sank, June 12, 1881, at 77°14'57"N. 154°58'45"E., northeast of the New Siberian Islands. Account of the subsequent search for the thirty-three men who left the ship, of whom twenty-five reached the Lena delta, where De Long and eleven others perished. Includes information on ice, animal life, the drift in the Siberian arctic seas, health of the crew, red snow, auroras, and storms, Bennett Island, New Siberian Islands, and the Lena delta.

For another account of this expedition see G. W. Melville: *In the Lena Delta*, 1884.

Analysis and classification of stresses responsible for ice flow, upon which are based the concepts that (1) rates of flow within an ice sheet are at a maximum under and downstream from the névé line, which is generally near the periphery, (2) areas of accumulation on extensive ice sheets are generally closer to the ice sheet margins than to the centers, and movement and erosion take place only under the marginal and near-marginal parts of an ice sheet, (3) the configuration of the Greenland ice sheet is most likely due to subsurface topographic control, (4) ice sheets generally originate by growth and expansion of piedmont glaciers formed at the base of glaciated highland areas, and (5) difference between shrinking ice sheets in the Antarctic and Greenland result from differences in the cause of shrinkage; in Greenland increased ablation, particularly at low altitudes causes shrinkage.—From the author's abstract.

3863. DENMARK. GRØNLANDS STYRELSE. Beretninger og kundgørelser vedrørende kolonierne i Grønland for aarene . . . København, J. H. Schultz A/S, 1882-1948. *Title tr.:* Proceedings and communications concerning the colony in Greenland for the years . . .

Basic official administrative documents, published 1882-1908 by Director of the Royal Greenland Trade (Direktoret for den Kgl. Grønlandske Handel), then by the office of the Greenland Administration in Copenhagen. Issued

from time-to-time (4-5 times) during the year, with title-pages and (usually) indexes for binding in (usually) five-year periods, e.g. (file seen at NN) 1923-27, p. 591-870; 1928-32, xx, 1060 p.; 1933-37, 1172 p.; 1938-45, 1032 p. The volumes include maps (part fold.), plans, diagrs. and other illustrative matter.

The documents comprise instructions to officials, proposed laws, and laws, regulations, etc., enacted; proceedings of the colonial council of South Greenland to 1938, in Greenlandic; also of the joint sessions of the colonial councils of South and North Greenland, 1940-43, 1945-48, in Danish and Greenlandic. The laws, proceedings, official announcements, statistical data, financial statements, etc., concern various interests and phases of life in Greenland: navigation, schools, the church, conservation of wildlife, fire and insurance, population, health and diseases, mining and fishing industries, trade, radio and telegraph, etc.

The volume (1032 p.) covering 1938-45 includes numbers (1942-45) containing statistical data issued as Denmark. Grønlands styrelse. *Sammendrag af oplysninger om Grønland*, q.v. A cumulative index 1913-37 was published as: *Registre til Beretninger og kundgørelser vedrørende Grønlands styrelse*, 1913-37, og *Tjenestemeddelelser vedrørende Grønlands styrelse*, 1925-37. København, J. H. Schultz, 1939. 66 p. (copy in NN).

Its Communications (*Kundgørelser*) are issued separately, beginning with 1938, and appear in this Bibliography under Denmark. Grønlands styrelse. *Kundgørelser*. Its South Greenland Council Proceedings (*Landsraads Forhandling*) are issued separately, beginning with 1938, and appear in this Bibliography under Greenland. Landsraad.

Files available: DLC (1909-); NN (1923-); ICU (1902-).

3864. DENMARK. GRØNLANDS STYRELSE. *Kundgørelser vedrørende Grønlands styrelse.* København. J. H. Schultz A/S. 1938- (in progress). *Title tr.:* Communications concerning Greenland administration. Published as part of its *Beretninger og kundgørelser*, before 1938.

Contains notification, with text or excerpts, of regulations on local and

Greenlandic affairs, international agreements, etc.; e.g. the entire issue nr. 2 for 1947, comprising p. 91-111, is a consolidation of laws and regulations for Cape York and Thule stations, 1930-47; nr. 3, 1947, East Greenland.

File seen: NN (1938-).

3865. DENMARK. GRØNLANDS STYRELSE. Sammendrag af statistiske oplysninger om Grønland. København, Arnskovs bogtr.; J. H. Schultz A/S, 1942-1945. 5 pt.: p. 383-776, 995-1032, diags., maps, tables. (*Its*: Beretninger vedrørende Grønlands styrelse, 1942, nr. 1; 1943, nr. 1; 1944, nr. 1; 1945, nr. 1-2, 5) **Title tr.:** Summary of statistical information about Greenland.

Basic reference work. A statistical abstract prepared from official sources by Knud Oldendow, and issued as parts 1-5 and index, as numbers (noted above) of the annual proceedings of the Greenland Administration.

Contains data on the geography, climate, ice conditions, vegetation, wildlife, population, administration, courts of justice, public funds, social benefits, shipping, navigation, mining activities, cattle raising, fur production, transportation, implements for sealing, etc., sealing industry, whaling, hunting of land mammals and birds, fisheries, postal and telegraph facilities, fish oil production, ship building, public buildings, scientific investigations, trade and interchange of commerce between Denmark and Greenland. Pt. 5 is a conspectus of the work of the Commission for Scientific Investigation in Greenland, including tabular record of expeditions noting leaders, finances, published results, fields of interest, etc.

Copy seen: NN.

3866. DENMARK. GRØNLANDS STYRELSE. Tjenestemeddelelser vedrørende Grønlands styrelse. København, J. H. Schultz A/S, 1945-1947. 1945, no. 5, p. 189-96; 1946, no. 1-7, p. 197-340; 1947, no. 1-4, p. 79-92, tables. **Title tr.:** Official communications concerning Grønlands styrelse (Administration of Greenland).

Re-publication of ordinances and regulations issued in limited editions during the war years 1940-45 (nr. 5, 1945); publication of appointments in Greenland; transfers; shipping and navigational matters; coal, oil and food provisions for Greenland; recent in-

structions and regulations; retirements, etc.

3867. DENMARK. KOMMISSIONEN FOR VIDENSKABELIGE UNDERSØGELSER I GRØNLAND. Bemaerkninger till kaartet fra Tiningnertok til Julianehaab fra 62°18' til 60°30' N. B. paa Grønlands vestkyst. (Meddelelser om Grønland, 1892, pub. 1893. 7. hefte, p. 145-62 incl. map, tables, plate IX (fold. map)) **Title tr.:** Remarks on a map of the west coast of Greenland from Tiningnertok to Julianehaab (62°18'-60°30'N.)

The map, which shows colonies, trading posts, settlements and altitudes, was drawn by J. A. D. Jansen during the Expedition to Frederikshaab District in 1877 (62°18'-61°20'N.), and (61°20'-60°30'N.) by J. C. D. Bloch during his trip in that region in 1890.

Includes report by Bloch describing his trip, the geography of Frederikshaab Iceblink and the region surveyed, also tables of altitudes and magnetic variations for several points.

3874. DENMARK. METEOROLOGISKE INSTITUT. Isforholdene i de Arktiske Have. The state of the ice in the arctic seas, 1900-1939, 1946. København, 1901-1940, 1948. 40 nos. 5 charts in each no., tables. (*In its*: Nautisk-meteorologisk aarbog. Nautical meteorological annual, 1900-1939) Text (in Danish and English) prepared, 1900-1908, by V. Garde; 1909-1934, by C. I. H. Speersneider; 1935- , by H. Thomsen.

Information from the numbers for 1935-38 was also published by the U. S. Army Air Forces. Directorate of Weather, *Summary of ice Arctic seas 1935-38*, 1942, q.v. Based on reports sent to the Danish Meteorological Institute by ships' "captains, scientists and others who have been in touch with the arctic regions", including scientific institutions and government agencies in various countries.

Text summarizes reports, giving information for all years on the region of Baffin Bay-Davis Strait, Hudson Strait, Greenland Sea, Svalbard waters, and Barents Sea, and for some years on seas eastward from Novaya Zemlya, mainly Bering Strait and Sea. *Charts* for each year, Apr.-Aug., indicate state of the ice (unbroken polar ice, landfloe, open ice, etc.) and observed limits between open sea and ice, supposed ice but no information, and average limits over twenty-five years. *Tables* are appended listing ships with observers, localities and time period for each. Issues for the years 1940-45 in preparation; 1939 not located.

3895. DERŪGIN, KONSTANTIN MIKHAILOVICH, 1878-1938. Fauna Kol'skago zaliva i usloviā eia sushchestvovaniā. Petrograd, 1915. ix, 929 p. illus., 14 plates, 14 maps (part col., fold., or sketch maps), tables, diagrs. (Akademiā nauk SSSR. Mémoires. Sér. 8, Classe physico-mathématique. v. 34, no. 1) *Title tr.:* The fauna of Kola Inlet and the conditions of its existence.

A detailed study of Kola Inlet and its fauna, largely based on the author's work in August, 1908, and in the summer of 1909 aboard a schooner specially built for the Murmansk Biological station.

Contains the following: Part I (p. 1-280): The methods of investigation and the material.

Topographic sketch of Kola Inlet. Survey of the investigations of the fauna in Kola Inlet before 1908. The schooner *Aleksandr Kovalevskii* and its equipment. The general course of the investigations of Kola Inlet in 1908-09, and a survey of the literature on that expedition published in 1909-11. The hydrographic work in 1908-09. The journal of the zoological work of 1908-09, with lists of species by stations.

Part II (p. 281-610): The fauna and flora of Kola Inlet.

A systematic, annotated list of protozoans, sponges, coelenterates, worms, bryozoans, brachiopods, hemichordates, echinoderms, crustaceans, arachnids, molluscs, tunicates, fishes, (49 species; list based largely on earlier work of Murmansk Biological station) and mammals (based on literature). This list gives localities and some synonyms, of over one thousand species, about two

hundred and fifty new for Kola Inlet, many new for Russian waters, and "a few species and one genus" new to science. The flora (one hundred and thirty-nine species) of Kola Inlet.

Part III (p. 611-929): Ecology and biogeography.

Climatic sketch of the region of Kola Inlet. The geological past of Kola Inlet, and the general characteristics of its bottom sediments. Relief of the sea-floor and the distribution of sediments. The hydrological characteristics of Kola Inlet (depth, temperature, salinity, specific gravity, chemical analysis, transparency, color, and currents at 23 stations). Zoogeographical regions. The composition of the sea-floor, zones of Kola Inlet. Plankton (182 species). Catherine Harbor and its fauna. General character of the fauna of Kola Inlet and its past. Comparison of the fauna of Kola Inlet, with the fauna of neighboring seas. Biological and biogeographical phenomena. Cosmopolitanism and the bipolar theory. Bibliography (about 520 items, Russian and foreign).

Contains a general review of faunal work carried out in 1908 (pt. I) and in 1909 (pt. II), in Kola Bay, on board the *Aleksandr Kovalevskii*, a schooner of Murman Biological Station; with lists of marine animals collected each year, determined by various specialists: Flagellata, by V. A. Dogel'; Spongia, by L. L. Breitfus (1909) and W. Lundbeck; Hydroidea and Schizopoda, by A. K. Linko; Annelides, by B. S. Lukash; Bryozoa, by G. A. Klūge; Gephyrei, by G. Gadd; Amphipoda, by E. E. Briuggen; Pantopoda, by V. A. Dogel' and V. M. Shimkevich; Tunicata, by V. V. Redikortsev and R. Hartmeyer; Mollusca, by N. M. Knipovich; the rest, by the author. Summary in German.

3902. DERŪGIN, KONSTANTIN MIKHAILOVICH, 1878-1938. Novaiā forma treski iz oz. Mogil'nogo (os. Kil'din). (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1920. T. 51, vyp. 1, p. 26-28, 46-49) *Title tr.*: A new form of cod from Lake Mogil'noye (Kildin Island).

Contains an ichthyological study of a peculiar form of cod, *Gadus calliaris kildinensis*, n. subsp., living in lower, salt-water levels of the relict lake,

Mogil'noye on Kildin Island, off the Murman coast; a table of dimensions of ten specimens of this form and comparison with White Sea and Baltic forms. The author proposes a new name, *Gadus calliaris maris albi*, for White Sea cod which he considers a distinct race (no description). Text in Russian and German.

Contains chapters on the discovery of Hudson Bay, the Hudson's Bay Co., the North-West Co., Hudson Bay and Strait, with discussion of the Hudson Bay Route and the political history, geologic features and natural resources of the Bay region; in addition to chapters on the region lying west of Hudson Bay watershed and south of the 60°N. parallel; bibliography (71 items). *Copy seen*: DLC; NNSf.

3920. DEUTSCHE GRÖNLAND-EXPEDITION ALFRED WEGENER, 1929 und 1930-1931. Wissenschaftliche Ergebnisse, herausgegeben im Auftrage der Notgemeinschaft der deutschen Wissenschaft von dr. Kurt Wegener. Leipzig, F. A. Brockhaus, 1933-40. 7 v. illus. (incl. ports., plans) fold. plates, maps (1 fold.) diags. *Title, etc., tr.*: German Greenland Expedition of Alfred Wegener, 1929 and 1930-31, scientific results published under auspices of the German Science Foundation by Dr. Kurt Wegener.

Other editors: A. Defant, E. von Drygalski, and E. Kohlschütter.

The expedition was planned by Alfred L. Wegener who led the preliminary expedition in 1929, and the main expedition of 1930-31 until his death, Nov. 1930. His brother, Dr. Kurt Wegener, went to Greenland and assumed the leadership in July 1931. The main objectives were to carry out meteorological, glaciological, seismic, and geodetic research. Three stations served as headquarters, 1930-31: West Station (main station) was on the ice of West

Greenland northeast of Kamarujuk, about 71°12'N. 51°05'W.; East Station was on the ice of the west coast of Jameson Land about 71°10'N. 24°15'W., Scoresby Sound; and the Mid-ice Station on the inland ice, 400 km. distance from the main station, in approximately the same latitude.

The narrative of the expedition of 1930-31, was published as Wegener, Else, *ed. Alfred Wegeners letzte Grönlandsfahrt*, 1932, q.v. (Translation in English, *Greenland journey*, 1939).

Contents tr.: Bd. 1. WEGENER, K., and others. Account of the Expedition. 1933.

 . Supercooling and ice formation in open waters. (Ice studies, 1) Oslo, Grøndahl & Søn, i Cammermeyer, 1942. cover-title, 10 p. diagrs. (Geofysiske publikasjoner. v. 13, no. 8)

Discussion of the transient part played by supercooling of water in static ice formation (in still or slowly moving water) and of the lasting part it plays in dynamic ice formation (in running turbulent water). "It is emphasized that the state of supercooling is a stable one, the formation of ice crystals being dependent upon the existence of nuclei in the water, or of solid boundary surfaces from which crystallization will start and the liberated heat of crystallization will flow. The process of thermal conduction necessarily needs time, and thus a state of supercooling may be retained outside the crystal boundary surface, which passes more or less slowly into the adjacent medium as the freezing process goes on."—Introduct.

3973. DITHMER, ELISABETH. Nobile-Bjørnson. (In her: *Sandheden om Nobile*, 1932. p. 59-64) Translation in English as Chap. 4 in her, *The truth about Nobile*, 1933.

Contains an appeal for justice in judging Nobile, mentioning the attack upon him by R. Amundsen, and memorializing Bjørnstjerne Bjørnson the Swedish writer and fighter for justice in the Dreyfus case.

Copy seen: DLC.

3974. DITHMER, ELISABETH. Da Nobile blev reddet. København, V. Thaning & Appel. 1929, 32 p. port. *Title tr.:* The rescue of Nobile. Translation in English was published as Chap. 1, of the author's *The truth about Nobile*, 1933, (from the Danish, *Sandheden om Nobile*, 1932)

Contains (in two parts: Frantisek Behounek, and Umberto Nobile) a reaffirmation of Swedish respect for Behounek, Nobile, and for Finn Malmgren, in the face of world-wide criticism of Nobile; recapitulation of the main facts concerning the rescue of the *Italia's* leader. *Copy seen:* DLC.

3975. DITHMER, ELISABETH. Sandheden om Nobile. Bjørnstjerne Bjørnson in memoriam. København, V. Thanning & Appel, 1932. viii, 65 p. illus. (port.) *Title tr.:* The truth about Nobile. The first three articles are reprints of her: *Da Nobile blev reddet*, 1929; *Andrée-Nobile*, 1930; and *Forord til Nobiles bog: Roma-Nordpolen-Amerika*, 1931, q.v. Translation in English was published as her, *The truth about Nobile*, 1933.

Contents tr.: 1. The rescue of Nobile.
2. Andrée-Nobile.
3. The foreword to Nobile's book: Rome-North Pole-America.
4. Nobile-Bjørnson.

Each of these papers appears separately in this Bibliography.

3977. DITLEVSEN, HJALMAR, 1864-. Annelids. I. Copenhagen, B. Luno, 1917, 1 p. l., 71 p. 1 l. illus., 6 plates, table. (Ingolf-expedition, 1895-1896. [Reports] v. 4, pt. 4)

Based on collections of the cruiser *Ingolf* and other Danish collections, from Davis and Denmark Straits and Greenland Sea between Jan Mayen and Iceland. List, with synonyms, references, detailed location lists, depths, and some descriptive notes, of sixty-seven (including with full descriptions, ten new) species of polychaete worms; and a bibliography (56 items).

Copy seen: DSI-M.

3978. DITLEVSEN, HJALMAR, 1864-. Annelids from the *Danmark Expedition*. Danmark-ekspeditionen til Grønlands nordøstkyst, 1906-1908. Bd. 5, nr. 9. (Meddelelser om Grønland, 1911, pub. 1912. Bd. 45, p.409-432, plates XXVII-XXXI)

Contains a list, with localities, synonymy, and some descriptive notes, of forty-three (including with full description, one new) species of polychaetous, annelid worms, from the waters of Danmarks Havn, Dove Bay, East Greenland; also bibliography.

Copy seen: DLC.

3979. DITLEVSEN, HJALMAR, 1864-. Annulata Polychaeta. Kristiania, A. W. Brøgger, 1909. 22 p. 3 plates. (Norske videnskaps-akademi, Oslo. Report of the Second Norwegian Arctic Expedition in the *Fram*, 1898-1902, v. 3, (No. 15))

List, with synonymy, locations, discussion and some descriptions of forty-four species of worms found on Ellesmere Island.

Copy seen: DLC.

3980. DITLEVSEN, HJALMAR, 1864-. Cestoder. (In: Conspectus faunae groenlandicae. 3. del, nr. 11. Pub. in: Meddelelser om Grønland, 1914. 23. hefte, p. 119-40)

List, with references to literature, hosts and localities, of forty-two parasitic flatworms, occurring in mammals, man and fishes in Greenland; bibliography, p. 1138-40.

Copy seen: DLC.

3981. DITLEVSEN, HJALMAR, 1864-. Free-living marine nematodes from Greenland waters. (In: Conspectus faunae groenlandicae. 3. del, nr. 23. Pub. in: Meddelelser om Grønland 1928. 23. hefte, suppl. p. 199-250, illus.)

List, with localities, many descriptions and remarks, of thirty (including fourteen new) species of round worms; bibliography, p. 248-50.

Copy seen: DLC.

3982. DITLEVSEN, HJALMAR, 1864-. Free-living nematodes. Copenhagen, B. Luno, 1926. 2 p. l., 41, [1] p. 15 plates, table. (Ingolf-expedition, 1895-1896. [Reports] v. 4, pt. 6)

Based on collections of the cruiser *Ingolf* from Davis and Denmark Straits and Greenland Sea between Jan Mayen and Iceland. A list, with localities and notes, of thirty-three (including with full descriptions, twenty-six new) species of roundworms; bibliography (34 items).

Copy seen: DSI-M

3983. DITLEVSEN, HJALMAR, 1864-. Free-living nematodes from Greenland, land and fresh water. (In: Con-

spectus faunae groenlandicae. 3. del. nr. 22. *Pub.* in: Meddelelser om Grønland, 1927. 23. hefte, suppl., p. 157-98, illus.)

List, with localities, some descriptions and remarks, of twenty-two species of roundworms from West Greenland; bibliography, p. 196-98.

Copy seen: DLC.

3984. DITLEVSEN, HJALMAR, 1864-. The Godthaab expedition, 1928. Polychaeta. København, C. A. Reitzel, 1937. 64 p. incl. illus., incl. maps, tables. (Meddelelser om Grønland. Bd. 80, nr. 4)

List, with synonymy, localities and remarks, of eighty-three species of polychaete worms collected in the waters west of Greenland.

Copy seen: DLC.

3985. DITLEVSEN, HJALMAR, 1864-. A marine *Dorylaimus* from Greenland waters, *Dorylaimus maritimus*, n. sp. Danmark-ekspeditionen til Grønlands nordøstkyst, 1906-1908. Bd. 3, no. 15 (Meddelelser om Grønland, 1913, pub. 1917. Bd. 43, p. 427-30. plate XVIII)

Description of a new nematode worm from Stormbugt, Dove Bay region, East Greenland.

Copy seen: DLC.

3986. DITLEVSEN, HJALMAR, 1864-. Polychaete annelider. (*In:* Conspectus faunae groenlandicae. 3. del. nr. 7. *Pub.* in: Meddelelser om Grønland, 1914. 23. hefte, p. 659-741)

List, with references to literature and localities, of one hundred sixty-eight annelid worms from the Greenland coasts; bibliography, p. 738-41.

Copy seen: DLC.

3987. DITLEVSEN, HJALMAR, 1864-. Trematoder. (*In:* Conspectus faunae groenlandicae. 3. del. nr. 12. *Pub.* in: Meddelelser om Grønland, 1914. 23. hefte, p. 1141-51)

List, with references to literature, hosts and localities, of twenty species of internal, parasitic flatworms occurring in East and West Greenland; bibliography, p. 1152.

Copy seen: DLC.

3988. DITMAR, B. P. Zabytoe imîa. (Zemlevedenie, 1936. T. 38, vyp. 1, p. 127-34) *Title tr.:* Forgotten name.

Story of efforts of Mikhael Sidorov (1823-1887), wealthy Russian trader

and pioneer miner in the Turukhansk region, to encourage navigation through Kara Sea to the mouth of the Yenisey; the successful voyage of the *Diana* (Captain Wiggins) in 1874.

3989. DITMAR, KARL von, 1822-1892. Ein paar erläuternde Worte zur geognostischen Karte Kamtschatka's. (Akademii nauk SSSR. Bulletin, 1856. Sér. 2, t. 14, p. 241-50, map) *Title tr.:* Some explanatory remarks on the geognostic map of Kamchatka.

Notes on the geology and physical geography of the peninsula to accompany a geologic map, drawn by the author from observations made during three visits, 1851-53.

Copy seen: DLC.

3990. DITMAR, KARL von, 1822-1892. Pojezdki i prebyvanie v Kamchatkë v 1851-1855 gg. Chast' pervaja. Istoricheskii otchet po putevym dnevniki. . . . Sanktpeterburg, 1901. x, 756 p. illus., plate, 2 maps (1 fold.) *Title tr.:* Travels and sojourn in Kamchatka, 1851-55. Part 1, Account drawn from the journal.

Russian translation from the German original, *Reisen und Aufenthalt in Kamtschatka in den Jahren 1851-1855, Theil I. Historischer Bericht nach dem Tagebüchern*, 1890, q. v.

Copy seen: DLC.

3991. DITMAR, KARL von, 1822-1892. Reisen und Aufenthalt in Kamchatka in den Jahren 1851-1855. St. Petersburg, 1890-1900. 2. v. (p. l., x, 865 p.; viii, 273 [1] p.) illus. plate, 2 maps (1 fold.) (Beiträge zur Kenntniss des russischen Reiches, Folge 3, Bd. 7-8) *Title tr.:* Travels and sojourn in Kamchatka, 1851-55.

The author was sent on this trip by Prince Maximilian von Leuchtenberg, to study the geography and especially the geology and mineralogy of Kamchatka. During the five-year residence on the Peninsula, von Ditmar spent many months in Petropavlovsk and traveled extensively on both coasts and in the interior of Kamchatka.

Original plans for publication of the results were interrupted by the author's death. Only part one and the first section of part two, were finished by Ditmar, and subsequently edited by L. von Schrenck and C. J. Maximovich.

Russian translation of part one was published as *Poezdki i prebyvanie v Kamchatke v 1851-1855 gg.* St. Petersburg, 1901, q.v.

Contents tr.: v. 1. Account drawn from the journal.

1. Journey from St. Petersburg to Petropavlovsk.

2. Travels 1851-52. To hot springs; around Avacha Bay, to Avacha Volcano; to Nizhne Kamchatsk; winter in Petropavlovsk.

3. Boat trip along the east coast of Kamchatka from Petropavlovsk to Nizhne Kamchatsk and return via Kamchatka valley.

4. Journey to Gizhiga and the Tai-gonos Peninsula; to Tigil; and along the west coast of Kamchatka.

5. Journeys during the summer 1854. In Avacha Bay and Kalakhtyrka; Paratunka and Avacha Volcano.

6. Voyage from Kamchatka to Amur Land and return to St. Petersburg.

v. 2. General description of Kamchatka. (Boundaries, size, topography, hydrology, climate, phytogeography, animals, history, and geographic names).

Copy seen: DLC (v. 2); DGS (v. 1)

3992. DITMAR, KARL von, 1822-1892. Ueber die Eismulden im östlichen Sibirien (Nakipni der Sibirischen Russen). (Akademiia nauk SSSR. Bulletin, 1853. Sér. 2, t. 11, p. 305-16) *Title tr.:* On the "taryn" in eastern Siberia ("nakipni" in Siberian-Russian language).

Description of the phenomenon of naled' as found in many places in Yakutia, where ice forms on the surface of the ground near streams, due to the effect of permanently frozen ground on drainage. *Copy seen:* DLC.

3993. DITMAR, V. G. Geologicheskoe issledovaniia v verkhov'iaakh r. Vil'fua. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1934. T. 66, vyp. 1, p. 26-68, maps (incl. 1 fold.) diags.) *Title tr.:* Geological investigations in the upper Vilyuy River basin.

Description of the route (partly on rivers) of the Vilyuy River Geological Expedition, 1931-32, general geological description of the region 61°10'-66°05' N. and 103°-117°E., with notes on mineral resources and a geological map, 1:1,500,000. *Copy seen:* DLC.

3994. DITMAR, V. G. Raboty Chukotsko-Vankaremskoï geologicheskoi eks-

peditsii 1936-37 goda. (Problemy Arktiki, 1938, no. 2, p. 195-98) *Title tr.:* The work of the Chukotsk-Vankarem Geological Expedition, 1936-37.

Note on the work of the expedition in the area 66°30'-68°30'N., 180°E.-173°30'W. of the Chukotsk National District, with some description of the region. *Copy seen:* DLC.

3995. DİUBİUK, A. F. Pol'usy i obshchaya tsirkulatsiia atmosfery. (Meteorologiya i gidrologiya, 1937. No. 6, p. 46-51, diags.) *Title tr.:* Poles and general circulation of the atmosphere.

The general circulation over the polar region is discussed and illustrated. *Copy seen:* DLC.

3996. DIXON, ANNIE. The Protozoa of some East Greenland soils. (Journal of animal ecology, May 1939. v. 8, p. 162-67, table) Based on soil samples collected by the British East Greenland Expedition in 1936, from Kangerdlugssuak, (68°30'N.) and from Angmagssalik.

Contains description of the samples, and the number and species of Protozoa found in each, showing that (1) highest number of species occurred in soils producing the richest vegetation, (2) unusually large number of testaceous Rhizopoda occurred in non-peaty soils, and (3) a large population was present in soils frozen for nine months of the year. *Copy seen:* DA.

Note concerning the collection of eighty-two (including five new) species, with remarks on eighteen of them. *Copy seen:* DLC.

3998. DIXON, HUGH NEVILLE, 1861-. Note on a form of *Pottia heimii* from Greenland. (Bryologist, Sept. 1922, v. 25, p. 92-93)

Descriptive note and remarks on a moss from West Greenland, about 70°N. *Copy seen:* DLC.

3999. DIXON, HUGH NEVILLE, 1861-. Notes on the mosses of the Oxford University Expedition to West Greenland, 1928. (Bryologist, Jan. 1929. v.

32, p. 1-3) *Reprinted as Oxford University Exploration Club, Greenland and Spitsbergen papers*, 1934, no. 5.

Contains a list, with habitats and notes, of eleven (including with full description, one new) species all from the vicinity of the camp on Godthaab Fiord, representing the more interesting mosses from a collection of over one hundred and fifty species.

Copy seen: DLC.

4000. DIXON, HUGH NEVILLE, 1861-. Spitzbergen mosses. (*Bryologist*, Sept. 1924. v. 27, p. 69)

Note on seven species, among the collection of the Merton College Expedition to Spitsbergen, 1923.

Copy seen: DLC.

4001. DIXON, HUGH NEVILLE, 1861-. Supplementary note on the mosses of Prince Charles Foreland, Spitzbergen. (*Botanical Society of Edinburgh. Transactions*, July 1910, *pub.* 1912. v. 24, p. 93-94)

List of eight species, collected by Dr. W. S. Bruce, 1906-07, two of which were not included in J. Hagen's list, 1908, q.v.

Copy seen: DLC.

4002. DIXON, JOSEPH SCATTERGOOD, 1884-. Birds & mammals of Mount McKinley National Park, Alaska. Washington, U. S. Govt. Print. Off. [1938] xii, 236 p. illus. sketch map, plate. (U. S. National Park Service. Fauna ser. No. 3)

Based on a survey by the author and G. M. Wright, sponsored cooperatively by the U. S. National Park Service and the Museum of Vertebrate Zoology, University of California, summer 1926 and 1932. Brief notes on the geology, climate, life zones, habitats, and fluctuations in animal population of the region, itineraries of the two trips and description of localities; check-lists followed by descriptions, and notes on habits and distribution, of one hundred twelve species of birds, and thirty-four species of mammals.

Copy seen: DSI-M.

4016. DNEVNIKI CHELIUSKINTSEV. Leningrad, Goslitizdat, 1935. 567, [4] p. illus., plates, ports., diagr. *Title tr.:* Diaries of the members of the Cheliuskin Expedition. O. Shmidt's chapter is reprinted from *Pokhod Cheliuskina*.

Narratives and diaries of scientists and crew dealing with the Cheliuskin's attempt to sail along the Northern Sea Route from Leningrad to Vladivostok (1933-1934). The events leading to the sinking of the ice-breaker in the Chukchi Sea on Feb. 13, 1934, the life of the participants in a temporary camp on the drifting ice, and their rescue by air two months later are given in detail. Chapter by O. Shmidt, the leader of the expedition, indicates the scope of the work.

This first chapter (by Shmidt) appears in English translation in *The voyage of the Cheliuskin*, 1935, q.v. Otherwise these two works (both purporting to be drawn from the expedition's members' own records) differ somewhat, *Dnevnik Cheliuskintsev* including rather more general, and *The voyage of the Cheliuskin* rather more scientific information.

Copy seen: DLC.

4017. DOBBS, C. G. Note on larger fungi of Spitsbergen. (Journal of botany, May 1942. v. 80, p. 94-102, sketch map)

A list of sixteen species (collected in 1936, mostly at Bruce City and Ebba

Valley, inner Ice Fiord, at Bock Bay and King's Bay) is compared with previous records; notes on distribution in relation to wet ground, the presence of woodland species in a tree-less country and the concentration of agarics near human settlements; bibliography (12 items). **Copy seen:** DA.

4018. DOBBS, C. G. The vegetation of Cape Napier, Spitsbergen. (Journal of ecology, 1939. v. 27, p. 126-48, 2 plates, 2 sketch maps, diags.)

A reinvestigation and detailed study was made in 1936, of a small area back of this cape in Klaas Billen Bay, described and surveyed by J. Walton in 1922, and reported in his, *A Spitsbergen saltmarsh*, 1922, q.v. Dobbs gives results of ring sampling and frequency studies, description of the plant complexes and communities on shingle beach, salt marsh, and wet tundra, a comparison with Walton's zones, and a list of ten plants found on Mt. Campbell at about 2000 ft. **Copy seen:** DA.

4027. DOBROWOLSKI, ANTONI BOLESŁAW, 1872- . Historia naturalna lodu . . . Warszawa, 1923. 2 p. l., xxvi, 940 p. illus. *Title tr.:* Natural history of ice.

Text in Polish; preface and table of contents are given here (p. 921-40) in Polish, and French, and in English in the author's *Glaciers: structure and movement theories*, 1948, q.v. Basic work, a comprehensive treatise on the physical properties, formation, and crystallization of snow, frost (including permafrost) and ice, and on the structure and movement of glaciers.

Chapters on: Conditions of the congelation of water; Conditions of the congelation of water-vapour; General conditions of the growth of atmospheric ice; Crystallography of ice; Crystalli-

zation of water-vapour in a free space; Crystallization of water-vapour on the surface of solids; Congelation of drops; Congelation of still waters; Congelation of troubled waters; Congelation of ground-water; The snow cover—its physical properties; Snow cover—description; Glaciers—structure; Glaciers—movement; Atmospheric ice-crystals and the phenomenon of halos. Bibliography, p. 903-905. Index of investigators' names, p. 906-916.

Copy seen: DLC.

4027A. DOBROWOLSKI, ANTONI BOLESŁAW, 1872- . Glaciers; structure and movement theories. Reprint of chapters XIII and XIV of the author's *Historia naturalna lodu* (Natural history of ice) pub. . . 1923, with a foreword by the author and an annex containing the table of contents and preface to the complete work. Warsaw [1948] x, 191 p. illus. (Polskie towarzystwo geograficzne. Biuletyn, 1939-48. Pt. 16, suppl. no. 1)

In the foreword (p. v-viii) Dobrowolski states that this is a "translation [by Prof. B. W. A. Massey, University of Poznań, Poland] without any changes or additions designed to bring it up to date, apart from a supplement on the snow line and on recrystallization at low temperatures taken from chapter XII ('Snow cover—descriptive'), and the omission of the introduction with its classification of glaciers, and of a whole comprehensive subsection on the geometry of glacier movement." He indicates how his work, mainly completed in 1916, is still a fundamental study and how other geologists and glaciologists have advanced knowledge of the subject.

The translated chapters 13-14 (p. 1-159) deal with perpetual snow-cover, granular structure of glacier ice, stratification of firn and the structure of the glacier-tongue, glacier movement (causes, essence of their plasticity) and attempts at a mathematical and physical theory of glacier-movement. The "annex" (p. 169-91) provides a comprehensive and detailed outline of the original publication. Bibliography: about 320 items from the original (1923) publication.

4064. DOROFEEV, S. V. Vliianie ledovykh uslovii na poredenie grenlandskogo tiulenii. (Zoologicheskii zhurnal, 1939, T. 18, vyp. 5, p. 748-61, illus.) *Title tr.*: The effect of the ice conditions on the behavior of harp seals.

Discussion on the ecology of the harp seal in the White Sea in relation to the ice régime. Description of the seals' course in migrating to breeding and moulting grounds (by large channels through the ice field); choice of thick, hummocky ice for breeding. Change in locations and distribution of rookeries in recent years is shown to be related to changes in ice conditions and channels available. Effect of changes in rookeries on hunting enjoins a study of ice conditions by sealers. Illustrations (from photographs) show seals, breathing holes, and (from airplane) rookeries. Bibliography (18 items). Summary in English.

An economic study of these industries throughout the U.S.S.R., especially in the Russian Republic, with sections on production, trade balance, home con-

sumption and political-economic aspects. Includes notes on history and production (as of 1928) of fisheries in the Murman, White Sea, Yenisey, Yakut, and Kamchatka regions, and a bibliography (312 items). *Copy seen:* DLC.

4083. DOUTT, J. KENNETH, 1905- . The expedition to Hudson Bay. (Carnegie magazine, Jan. 1939. v. 12, p. 227-36, illus. sketch maps)

Narrative of a trip in Jan.-Aug. 1938, to investigate the occurrence of (fresh-water) seals in Lower Seal Lake (northwest of Clearwater Lake), northern Quebec, sponsored by the Carnegie Museum, Pittsburgh, the author (mammalogist) and A. C. Twomey (ornithologist) participating. Description of the equipment and the journey from Moose Factory on James Bay, to Richmond Gulf on the east coast of Hudson Bay, thence inland to Seal Lake; the capture of seal specimens, the return trip to Belcher Islands with remarks on flora and fauna, Eskimos and Indians of the region. *Copy seen:* DLC.

4084. DOUTT, J. KENNETH, 1905- . A review of the genus *Phoca*. (Pittsburgh. Carnegie Institute, Museum. Annals, 1942. v. 29, p. 61-125, illus., 14 plates, incl. 2 maps, 1 fold.)

Based on the Carnegie Museum Expedition to Hudson Bay 1938. Description of geography, geology, life zones, previous exploration and biology of the seals of Seal Lake region, northern Quebec (about 56°-57°N. 73°30'-76°W.); discussion of the new race of *Phoca vitulina* from Seal Lake, description and keys for identification of the four northern species of *Phoca*; discussion of methods of age determination, and a list of recognized races of *Phoca vitulina*; with a bibliography (38 items). *Maps* include reconnaissance survey map from Little Seal Lake to Clearwater River.

4114. DREVER, H. I., and D. F. LIVINGSTONE. Some basaltic rocks from West Greenland. (Royal Society of Edinburgh. Proceedings, 1948. Sect. B., v. 63, p. 97-114, illus., plate, sketch map)

Based on collections made by the author during the Wordie Arctic Expedition to North-West Greenland and the Canadian Arctic in 1937, from Nugssuaq Peninsula and Disko Island. Field notes on the dyke-swarm and volcanic center on southeast Nugssuaq and on the lavas of Nugssuaq and Disko (Godhavn); description of the basalts and results of their chemical analyses; a discussion of their petrogenetic relationships; and a bibliography (36 items).

4115. DREVER, H. I., and D. M. CARMICHAEL. The Cambridge Expedition to West Greenland, 1938. (Geographical journal, Nov. 1939. v. 94, p. 388-401, illus. (sketch map) 4 plates)

Account of an expedition organized by D. M. Carmichael, at the suggestion of H. I. Drever, to carry out a petrological survey of Ukekndt Island (the base), to study the psychology of culture contacts among Umanak natives, and to continue the botanical and high altitude balloon work begun by the Wordie Expedition in 1937. Authors give a physiographic sketch of Ube-

kendt Island, remarks on the native population, an outline of the geologic, botanical, and ethnologic work in the region and a description of the Umanak and Igdlorssuit settlements.

Appendix: CARMICHAEL, D. M. Psychology and ethnology.

This paper appears in this Bibliography under the author's name.

4116. DREVÈR, H. I., and P. M. GAME. The geology of Ubekendt Ejland, West Greenland. Part 1. A preliminary review. København, 1948. 34, [1] p. illus., 8 plates (Meddelelser om Grønland. Bd. 134, nr. 8)

Results of the Cambridge West Greenland Expedition, 1938, and the St. Andrews University West Greenland Expedition, 1939.

The two expeditions' main object was to examine its massive and banded gabbro of Ubekendt Island (71°2'-19'N. 53°20'-54°W. between the Svartenhuk and Nugssuaq Peninsulas), to collect specimens, and to obtain evidence sufficient to establish the petrogenesis of important rock types, and to map geologically as much of the island as possible. The geological survey is not yet finished. The authors give a description of the island's situation and topography, the distribution of rocks and the geologic structure, the lavas, flow-breccias, tuffs, and dyke-swarm, major and minor intrusions, time sequence, and volcanic history; bibliography (17 items).

Appendix: George, F. Note on the survey at Sarqa. (Geodetic survey of small area on south side of the island).

Murray, 1857. xvii p., 1 l., 428 p. front., illus., plates, maps, charts.

Published in three editions in London, 1857, and from time to time thereafter in London, New York and (in French translation) in Paris. Some American editions bore title: *A yacht voyage, letters from high latitudes* [etc.] French editions, Paris, 1860, 1882, bore title: *Lettres écrites des régions polaires* [etc.] Account of the yacht's cruise in Greenland Sea, along the west coast of West Spitsbergen to 80°N., and return to Norway, during June-Aug. 1856.
Copy seen: DLC; NNStef.

4174. DUFFIELD, WARREN L. Greenland health conditions. (New York state journal of medicine, May 1, 1934. v. 34, p. 403-404)

Based on statements of Godthaab doctors, brief remarks on incidence of various diseases among West Greenland Eskimos.
Copy seen: DLC; NNStef.

4175. DUFRESNE, FRANK, 1895- . An Alaska angler speaks out. (Alaska sportsman, Jan. 1935. v. 1, no. 1, p. 7-9, 26, 28-30, illus.)

Discussion of the abundance, variety, and occurrence of game fish in Alaskan inland waters.
Copy seen: DLC.

4176. DUFRESNE, FRANK, 1895- . Alaska's animals & fishes. West Hartford, Vt., Countryman Press [1946] xvi p., 1 l., 297 p. incl. col. front., illus. 12 col. plates, map on lining-papers.

Limited edition of 475 copies was signed by author and artist; trade edition was published in New York by A. S. Barnes & Co., 1946.

The author as miner, free-lance writer, and agent for the U. S. Biological Survey and Alaska Game Commission, observing Alaska's wildlife since

1920, "has brought together in concise form his wealth of information" on wildlife of the ice age, big game, fur trade, rodents, shrews and bats, seals, whales, porpoises, and fishes, etc.

Illus. by Bob Hines, consist of thirteen colored plates and numerous sketches. **Copy seen:** DF; DLC.

4177. DUFRESNE, FRANK, 1895- . Dog mushing in Alaska. (Alaska sportsman, Mar. 1936. v. 2, no. 3, p. 14-17, 24, 26, *illus.*)

Account of the author's experiences of dog driving in the Nome region and central Alaska, with historic notes on mail delivery by dog sledges.

Copy seen: DLC.

4178. DUFRESNE, FRANK, 1895- . The game and fur belong to all the people. (Alaska sportsman, Apr. 1944. v. 10, no. 4, p. 16-18, 21, *illus.*)

Discussion of the Alaska Game Commission and its work.

Copy seen: DLC.

4179. DUFRESNE, FRANK, 1895- . Grouse of Alaska. (Alaska sportsman, Dec. 1935. v. 1, no. 6, p. 8, 25, *illus.*)

Notes on occurrence and localities of the seven species of grouse (including ptarmigan) ranging from Ketchikan to Point Barrow.

Copy seen: DLC.

4180. DUFRESNE, FRANK, 1895- . Mammals and birds of Alaska. Washington, U. S. Govt. Print. Off., 1942. 1 p. l., 37 p. *illus.* (incl. 14 sketch maps) tables. (U. S. Fish and Wildlife Service. Circular no. 3)

Brief guide to the game animals land fur bearers, marine and predatory animals, and to the migratory, native upland game birds, birds of prey and song birds; with notes on protection, and sketch diagrams showing distribution of fourteen of the mammals.

Copy seen: DF.

4181. DUFRESNE, FRANK, 1895- . Spotting poachers; Alaska game protection goes modern. (Alaska life, Mar. 1941. v. 4, no. 3, p. 11, 27, *illus.*)

General account of up-to-date radio-phone, airplane, scientific knowledge and regulatory methods now safeguarding Alaska's wildlife.

Copy seen: DLC.

4182. DUFRESNE, FRANK, 1895- . What of tomorrow? (Alaska sportsman, Apr. 1937. v. 3, no. 4, p. 9, *illus.*)

General discussion of Alaska Wildlife Conservation, by a game commissioner.

Copy seen: DLC.

4183. DUGRÉ, ADÉLARD. Les Oblats dans l'extrême Nord. Montréal, Oeuvre des Tracts, 1922. 16 p. (No. 41) **Title tr.:** The Oblates in the far North.

Brief sketch of missionary work in the "old Northwest" of Canada in the Yukon and Mackenzie District.

4187. DUNAEVSKII, N. Polharnyi khod-faktor osvoeniia Severa (Sovetskii Sever, 1932. T. 3, no. 6, p. 51-60, illus.)
Title tr.: Arctic cold as a factor in the conquest of the North.

Report to the Committee of the North on a method said to be invented by Bargeaux, a Canadian engineer, to utilize the difference in temperatures of the air and water under the ice in lakes, rivers, and seas for obtaining electric power in arctic regions. Indicates need for further study of the scheme.

Copy seen: DLC.

4188. DUNBAR, MAXWELL JOHN, 1914-. The Arctic Institute of North America. (*In:* Polunin, N. V. Arctic unfolding, 1949. p. 290-93)

Outline of the Institute's organization, objects and program of scientific research.

Copy seen: DLC.

4189. DUNBAR, MAXWELL JOHN, 1914-. The breeding cycle in *Sagitta elegans arctica* Aurivillius. (Canadian journal of research, Sept. 1941. v. 19, sec. D, p. 258-66)

Based on material collected by the author on the Canadian Eastern Arctic Patrols, of the *Nascope* 1939-40, in the waters of Baffin Bay, Hudson Strait, and Labrador Sea.

Copy seen: DSI-M.

4190. DUNBAR, MAXWELL JOHN, 1914-. *Calanus*, new arctic research vessel. (Arctic, May 1949. v. 2, p. 56-57, illus., diags.)

Description, with ship's plans, of the new ketch built in 1948 for the Fisheries Research Board of Canada.

Copy seen: CaMAI; DLC.

4191. DUNBAR, MAXWELL JOHN, 1914-. Common cause in the North. (International journal, Oct. 1946. v. 1, p. 358-64)

Discussion of the mutual problems in geography, oceanography, biology and anthropology, health of natives, administration, etc. which Canada and Denmark share in Greenland and the Canadian Arctic, with suggestions for international research to solve the problems.

Translation in Danish appeared as *Grønland og Kanada. Fælles problemer paa den kulturelle og videnskabelige front*, in *Grønlandsposten*, 1947, Aarg. 6, nr. 1, p. 18-21.

Copy seen: CaMAI; DLC.

4192. DUNBAR, MAXWELL JOHN, 1914-. Greenland—an experiment in human ecology. (Commerce journal, Mar. 1947. p. 69-109, tables, sketch map, diag.)

The author, professor of zoology at McGill University and formerly Canadian Consul in Greenland, gives here an ecological sketch of the economy of contemporary Greenland, especially West Greenland, with information on (1) the population and its distribution; (2) climatic changes due to hydrographic conditions; (3) the sealing industry and its shifts, with notes on walrus and whales; (4) the fisheries; (5) sheep-farming; (6) cryolite; (7) other resources: sea-birds, caribou, polar bear, fox farming and trapping, cattle and poultry, vegetable gardening, and coal; (8) the native mind and its education; (9) health; (10) administration policy: background, wartime administration, post-war developments; (11) scientific exploration; (12) Greenland's strategic position.

Appendix mentions publications on government policy which appeared in 1946 (after the author's completion of this paper).

Copy seen: CaMAI.

4193. DUNBAR, MAXWELL JOHN, 1914-. Marine macroplankton from Canadian Eastern Arctic. 1. Amphipoda and Schizopoda. 2. Medusae, Siphonophora, Ctenophora, Pteropoda, and Chaetognatha. (Canadian journal of research, 1942. v. 20, sec. D. p. 33-46, 71-77)

Based on collections made by the author during the Canadian Eastern Arctic Patrols, 1939-40, in the regions

of Prince Regent Inlet, Admiralty Inlet (Lancaster Sound), Eclipse Sound, west side of Baffin Bay and Davis Strait, Cumberland Sound, Foxe Basin, and Hudson Strait.

Contains taxonomic list, with descriptive notes, synonymy, localities and distribution, of forty-nine species, including one new amphipod, and representing many new records; discussion of the differences between the plankton of the two sides of Baffin Bay, and notes on the hydrography which indicates a high arctic plankton.

Copy seen: DLC.

4194. DUNBAR, MAXWELL JOHN, 1914- . Marine young fish from the Canadian Eastern Arctic. Ottawa, 1947. 11 p. illus. (Canada. Fisheries Research Board. Bulletin no. 73)

Descriptions and notes on distribution of eleven species of pelagic fish larvae taken in the plankton collected during the summers of 1939 and 1940 in coastal waters of Labrador, Baffin Island and Bellot Strait; with a bibliography (21 items).

Copy seen: DSI-M.

4195. DUNBAR, MAXWELL JOHN, 1914- . Note on the delimitation of the arctic and subarctic zones. (Canadian field-naturalist, Jan.-Feb. 1947. v. 61, p. 12-14)

Brief discussion of hydrographic influences in the Greenland and eastern Canada regions, on the faunal zones; with a bibliography (19 items).

Copy seen: DLC.

4196. DUNBAR, MAXWELL JOHN, 1914- . On the food of seals in the Canadian Eastern Arctic. (Canadian journal of research, May 1941. v. 19, sec. D, p. 150-55)

Results of the author's studies while with the Canadian Eastern Arctic Patrols, 1939-40. Description of stomach contents of ringed, bearded, and harp seals of Baffin Island waters, and a discussion of the food habits of the ringed seal in relation to plankton succession in fiord waters.

Copy seen: DSI-M.

4197. DUNBAR, MAXWELL JOHN, 1914- . On the size distribution and breeding cycles of four marine planktonic animals in the Arctic. (Journal of animal ecology, Nov. 1940. v. 9, p. 215-26, tables, diagrs.)

Contains size-distribution histograms for one chaetognath, *Sagitta elegans arctica*, and three schizopods, *Thysanoessa inermis*, *T. raschii*, and *Boreomysis nobilis*, from Atâ Sound, northeast corner of Disko Bay, 69°30'-70°N., West Greenland; report on growth of gonads and ovaries in *Sagitta* and on breeding period and cycles in the schizopods.

Copy seen: DA.

4198. DUNBAR, MAXWELL JOHN, 1914- . The Pinnipedia of the Arctic and subarctic. Ottawa, 1949. 22 p. (Canada. Fisheries Research Board. Bulletin. No. 85)

Information on the classification, range, habits, and present status of the seals and walrus; notes on their relation to Eskimo economy, and a review of physiological and comparative studies of the Pinnipedia, with a bibliography (44 items).

Copy seen: CaMAI; DF.

4199. DUNBAR, MAXWELL JOHN, 1914- . The state of the West Greenland current up to 1944. (Canada. Fisheries Research Board. Journal, Oct. 1946. v. 6, p. 460-71, sketch map, table, diagrs.)

"Temperature records from the mouth of Godthaab fiord . . . during 1942-44, show a cooling of the water over these three years . . . The temperature history of the West Greenland current is traced by means of available records since 1883. It is found that warmer conditions existed during the decade of 1880, followed by a colder period up to about 1920, when the present warm period began. The peak of the present warm period appears to have been reached in the middle 1930's, and it is possible that the cycle is about to return to colder conditions, with a weakening of the Atlantic component of the current."-Abstract.

4200. DUNCAN, A. C. Diet and disease in the subarctic. (Lancet, Dec. 20, 1947. v. 253, p. 919-21)

Based on ten years' practice in Dawson, Yukon Territory, about 1933-43; a discussion of the white man's and Indian's diet, in relation to scarcity of certain diseases, concluding that a meat diet is best.

Copy seen: DLC; NNStef.

4201. DUNCAN, DAVID. Arctic regions, voyage to Davis' Strait, by David Duncan, master of the ship *Dundee*, sailed from London 3rd April, 1826, and returned 25th June, 1827; having been beset by ice more than eight months; during seventy-five days of which, the Sun never rose above the horizon [sic]: with an account of the hardships and dangers sustained by the crew, and many miraculous escapes. London, printed by E. Billings . . . for the author, [etc.] 1827. xv, 126 p. fold. front., errata slip.

Contains a day-to-day record of the voyage; with (p. 19-25) an account of the author's discovery of Sayer's Island (about 68°40'N. 24°30'W.) also Cape Despair, Duncans-by-Head, Gales' Land (on adjacent mainland) and Robison's Island, all of which he named; account of the wreck of the *Harlingen*, of ice conditions and the drift of the *Dundee* in Davis Strait, from about 74°30'N. to about 63°N. 61°30'W. with occasional references to whaling activity.

Contains a report on prospecting activities of the Northern Aerial Minerals Exploration Co. in summer 1930; notes on topography, climate, geology, modes of occurrence on copper, and description of the important ore bodies found (with maps); also discussion, p. 383-89.

Copy seen: DGS.

4203. DUNCAN, PETER MARTIN, 1821-1891, and W. PERCY SLADEN. A memoir on the Echinodermata of the arctic sea to the west of Greenland. London, J. Van Voorst, 1881. vi p., 1 l., 82 p., 6 plates.

Based on collections of the British Arctic Expedition, 1875-76, mostly be-

tween 79°20'N., and 82°27'N., and a few specimens from the *Valorous*' cruise in 1875 between 66°56' and 70°30'N. A list, with synonymy, descriptions, and distribution of thirty species of sea cucumbers, urchins, stars, etc. from Baffin Bay and Smith Sound-Robeson Channel waters.

Copy seen: DSI-M.

4204. DUNCAN, PETER MARTIN, 1821-1891, and W. PERCY SLADEN. Report on the Echinodermata collected during the Arctic Expedition, 1875-6. (Annals and magazine of natural history, Dec. 1877. Ser. 4, v. 20, p. 447-70)

List (with descriptions, synonymy and discussion of distribution) of eighteen (including one new) species from Smith Sound and Kane Basin.

Abridged version appears as Appendix no. 9, in Sir G. S. Nares, *Narrative of a voyage to the polar sea during 1875-6*, etc., pub. 1878, q.v.

4211. DUNIN-GORKAVICH, A. A. Geograficheskii ocherk Tobol'skago siyvera. Vsesoiuznoe geograficheskoe obshchestvo. Izvistiia, 1904. T. 40, p. 78-130, 2 fold. col. maps) Title tr.: Geographical sketch of the northern part of Tobolsk Government.

The author, a forester for thirteen years in the area, had been commissioned by the Ministry of Agriculture and State Properties to study the forests (1898-1903). This paper is one of the results of his exploration in the area, which covers approximately the northern two-thirds of the present Omskaya Oblast'.

Contains (1) definition of the area as including Berezovskii, Surgutskii, and the northern part of Tobol'skii District; its zones; hydrology, and the significance for the population of the fluctuation of the water level in the Ob' valley; climate, and successful attempts at agriculture; temperature, precipitation averages; the times of formation and breaking up of ice on the Ob'; earlier maps of the area.

2. Author's methods of exploration; general characteristics of the terrain and topographical description of the area by regions.

3. The roads, water routes, and railways (past, present, and proposed), and the effect of the distances and costs involved on the commerce of the region, in particular the export of fish.

Map on two sheets of the entire Tobol'sk Government, showing terrain and means of transportation and communication, scale 1:680,000.

Contains a summary of published data dealing with the region, which testifies to the existence of traces of ancient glaciation in the form of fossil ice in the permafrost ground, with laminations of frozen clay and remains of vegetation. A detailed description of the Il'cha River valley is given and the peculiar micro-relief is explained by the action of changes in the underground ice. The growth of permafrost in this region is reconstructed in accordance with the glaciation theory, the origin of which is indicated.

4235. DUROCHER, J. Mémoire sur la limite des neiges perpétuelles, sur les glaciers du Spitzberg comparés à ceux des Alpes, sur les phénomènes diluviens, et les théories ou on les suppose produits par des glaciers. (*In*: Martins, C. F., and others. Voyages de la Commission Scientifique du Nord, en Scandinavie, en Laponie, au Spitzberg, et aux Ferøe, pendant les années 1838, 1839, et 1840, sur la corvette la Recherche. Géographie physique (etc.) 1846. Div. 6, t. 1, pte. 2, p. 237-408, fold. diagr.) *Title tr.*: Memoir on the limit of perpetual snow on the glaciers of Spitsbergen compared with those of the Alps; on the diluvial phenomena,

and the theories according to which one attributes their origin to glaciers.

The author visited the glaciers of the west coast of West Spitsbergen, 1938-39, during the Scientific Commission of the North expeditions on the *Recherche*. This study derives from glaciological knowledge of the period and from observations of snow limits made during the voyages.

Contents tr.: Pt. 1. Perpetual snow. Mean and summer temperature variations and snow limits. Accidental causes and influences on elevation of perpetual snow: wind action, summit altitudes, extent of exposure and massifs, nature of the terrain. General causes determining zones of snow; terrestrial heat, rain, solar radiation, air contact, radiation (rocks, atmosphere and cosmic) and evaporation. Lower limit of snow on Bear Island. Sketch of polar climate. Observations on the snow limit curve.

Pt. 2. Spitsbergen glaciers compared with those of the Alps. (Disposition, formation, growth, form, crevasses, progression, moraines, and color of the ice).

Pt. 3. Observations on diluvial phenomena and objections to theories attributing their origin to glaciers. (Concerns the European area).

4236. DUROCHER, J. Voyages de la Commission Scientifique du Nord en Scandinavie, en Laponie, au Spitzberg et aux Ferøe, pendant les années 1838, 1839 et 1840, sur la corvette la Recherche. Géologie, minéralogie, métallurgie et chimie. Paris, A. Bertrand, 1843-55. 2 p. l., 482 p. (in 2 v.) Atlas of 11 plates incl. 2 fold. maps. (France. Commission Scientifique du Nord. Voyages de la Commission Scientifique du Nord en Scandinavie (etc.) Div. 5) *Title tr.*: Voyages of the Scientific Commission of the North to Scandinavia, Lapland, Spitsbergen and The Faeroes, during 1838-40, in the corvette la Recherche. Geology, mineralogy, metallurgy and chemistry.

Contains in pt. 1 (*pub.* 1843) a study of diluvial phenomena in northern Europe with chapters on northern Norway and Lapland.

Pt. 2 (*pub.* 1855). Report on the author's observations in 1839-40 with the Commission, and in 1845 when he studied the central parts of Scandi-

navia. An orographic sketch of Scandinavia, Finland and West Spitsbergen; description of the primitive rocks, metals and mines of Scandinavia and Finland, including the copper mines of Alten Fjord region, northern Norway; and a brief description of the geology of northwestern West Spitsbergen.

4245. DUSTAN, ALAN G. A trip into the Mackenzie Basin. (Agricultural Institute review, Jan., 1947. v. 2, p. 12-17)

Account by a member of the Canadian Dept. of Agriculture's Division of Entomology, of an air trip in July 1946, from Edmonton to Aklavik, visiting various settlements along Mackenzie River. Includes brief, general and informative notes on the waterways, people, settlements, dogs, climate, and gardens and farms.

Copy seen: DA.

4246. DUTILLY, ARTHÈME A. Bibliography of bibliographies on the Arctic. Washington, [1945] 47 p. sketch map, diagr. (Catholic University of America. Publication no. 1B)

Alphabetical list of about five hundred fifty catalogs, bibliographies, and other publications with bibliographic sections, of (or including) works on the Arctic.

Appendices: 1. Arctic sectors and districts. (Diagram of geographic classification of the Bibliography.)

2. Prominent names in arctic explorations. (List of vessels, with names of explorers and dates of expeditions.)

Copy seen: DLC.

4247. DUTILLY, ARTHÈME A. A bibliography of reindeer, caribou and musk-ox. Contract W44-109-qm-1297. Washington, 1949. x, 462 p. (U. S. Quartermaster Corps. Military Planning Division. Report no. 129) Mimeographed. Issued by U. S. Dept. of the Army, Office of the Quartermaster General, Military Planning Division, Research and Development Branch, Environmental Protection Section.

"Will supplement the more general 'Arctic Bibliography' which is being compiled by the Arctic Institute of North America under sponsorship of the Office of Naval Research."

List of two thousand four hundred and twenty-two papers in periodicals and documents, books, and references to sections of books. Non-English titles

are given in English and many items are annotated. Includes an index and guide to the periodicals, etc., glossary of vernacular names for the animals, list of scientific names for the various species (including extinct and fossil species) and indication of east-west range of each species and variety.

Copy seen: CaMAI; DLC.

4248. DUTILLY, ARTHÈME A. A list of insects of the Mackenzie River Basin. (Canadian field-naturalist, Mar.-Apr. 1946. v. 60, p. 35-44)

Based on collections made by Father Dutilly of Catholic University of America, during botanical collecting trips, Chipewyan to Aklavik, 1934 and 1940. A list with localities of one hundred twenty-eight species (also one hundred two undetermined).

Copy seen: DLC.

4249. DUTILLY, ARTHÈME A. Le "Pie XI" des Esquimaux. Quebec, Imprimerie Provinciale Enr., 1936. 190 p. incl. front. (port.) illus., 11 plates incl. map. *Title tr.:* The Pius XI of the Eskimos.

Account of a cruise in the schooner *Pius XI*, July-Aug. 1933, from Nova Scotia northward along the coast of Labrador, through Hudson Strait, to Chesterfield Inlet, Eskimo Point and Churchill on Hudson Bay. The vessel, constructed for the Oblates of Mary Immaculate, was delivered to their mission for use in Hudson Bay. Description of the vessel is included.

4258. DYER, WILLIAM SPAFFORD, 1894-1941. Fire clay deposits of the Moose River (geology and field notes). (Canadian Ceramic Society. Journal, 1932. v. 1, no. 1, p. 32-39)

Contains an "outline of the geology of the fire clays and a description of their occurrences" on the Abitibi, Mattagami, Missinaibi, and Moose Rivers.

Copy seen: DGS.

4259. DYER, WILLIAM SPAFFORD, 1894-1941. Geology and economic deposits of the Moose River basin. (Ontario. Dept. of Mines. Annual report, 1928. v. 37, pt. 6, p. 1-79, illus., 3 plates, fold. map)

Contents: Introduction (transportation, agriculture and climate, water power, forests, game and fish), p. 1-11. Topography, p. 11-14. Stratigraphy and paleontology (including structural geology), p. 15-38. Economic geology (gypsum, lignite and peat, oil and gas possibilities, clay and shale, sand and gravel, limestone, iron ore), p. 39-69. Index (for all pt. 6), p. 121-28.

Appendix: Foerste, A. F. Devonian cephalopods from the Moose River basin, p. 70-76.

Map: No. 37p (scale 1:506,880) Moose River basin, District of Cochrane, showing geologic formations, and economic deposits along the Moose,

French, Abitibi, Mattagami, and Missinaibi Rivers.

Copy seen: DGS.

4260. DYER, WILLIAM SPAFFORD, 1894-1941. The lignite deposit at Onakawana, Moose River basin, Ontario. (Canadian Institute of Mining and Metallurgy. Transactions, 1930. v. 33, p. 450-72, 6 fold. diagrs.)

Contents: Progress in exploration (on Abitibi River). Geology of the field. Description of the lignite seam. Quality of the seam. Prospective methods of mining and fields of utility. Logs of drill holes no. 1-50 (showing deposits from the surface to about 200 ft.)

Copy seen: DGS.

4261. DYER, WILLIAM SPAFFORD, 1894-1941. Paleozoic geology of the Albany River and certain of its tributaries. (Ontario Dept. of Mines. Annual report, 1929, *pub.* 1930. v. 38, pt. 4, p. 47-60, illus. (incl. map))

Contains notes on the routes and transportation, general features of the country, geologic formations, and the economic possibilities of petroleum and natural gas, clays and stone.

Copy seen: DGS.

4262. DYER, WILLIAM SPAFFORD, 1894-1941. Stratigraphy and oil and gas prospects of Moose River basin. (*In:* Hume, G. S. *Oil and gas in eastern Canada*, *pub.* in: Canada. Geological Survey. Economic geology ser., 1932. No. 9, p. 89-103, illus. (map, diagrs.))

Contains description of the formations of the Onakawana lignite field on the Abitibi River, structural basins on Mattagami and Abitibi Rivers, and a discussion of the oil and gas prospects of the region.

Copy seen: DGS.

4263. DYER, WILLIAM SPAFFORD, 1894-1941. Stratigraphy and structural geology of the Moose River basin, northern Ontario. (Royal Society of Canada, Transactions, 1931. Ser. 3, v. 25, sec. 4, p. 85-99, fold. sketch map, fold. diagr.)

Description of the formations, based on the log of drill hole "A", made in 1930 to penetrate the sedimentary section, at Onakawana lignite field near the Abitibi River; notes on structural basins, and folds on Mattagami, Abitibi and Moose Rivers.

Copy seen: DGS.

4264. DYER, WILLIAM SPAFFORD, 1894-1941, and A. R. CROZIER. Lignite

and refractory clay deposits on the Onakawana lignite field. (Ontario. Dept. of Mines. Annual report, 1933. v. 42, pt. 3, p. 46-87, illus. (incl. map) tables, diagrs. (part fold.))

Contains results of the new drilling (since 1929) in the lignite field on the Abitibi River, (subsequent to those reported in Dyer, W. S. *Lignite deposits of Onakawana*, etc. 1930); detailed description of the geological formations and of the results of glaciation; descriptions of the refractory clay deposits; a bibliography of (the then) published reports on geology and economic resources of the Moose River basin referring to lignite or fire clay. Includes index for all of pt. 3, p. 102-109.

Appendix: Montgomery, R. J. Laboratory classification of refractory clays, p. 79-87. **Copy seen:** DGS.

4265. DYER, WILLIAM SPAFFORD, 1894-1941, and A. R. CROZIER. Refractory clays of northern Ontario. (Canadian Institute of Mining and Metallurgy. Transactions, 1933. v. 36, p. 238-52, illus. (incl. sketch maps))

Contains "a description in summary form of recent information," 1929-1933, on the geology and general characteristics of (1) fire-clay deposits of the Onakawana lignite field (Abitibi River), and (2) the refractory clay deposits of the Missinabi and Mattagami Rivers; includes logs of some of the drill holes. **Copy seen:** DGS.

4279. DZERDZEEVSKII, BORIS L'VOVICH, 1898- . K materialam meteorologicheskikh nablūdenii v ėkspeditsii na l/p "Cheliūskin" i v lagere Shmidta. (In: Shmidt, O. Iu., and Ia. Ia. Gakkel', editors. Nauchnye rezul'taty rabot ėkspeditsii na Cheliūskine i v lagere Shmidta, 1938. v. 1, p. 141-42) **Title tr.:** The meteorological observations made during the expedition of the ice-breaker *Cheliūskin* and in Camp Shmidt.

Some remarks on the organization of meteorological work in the U.S.S.R. and on the *Cheliūskin*, 1934-35.

Copy seen: DLC.

4280. DZERDZEEVSKII, BORIS L'VOVICH, 1898- . Meteorologicheskaiā sluzhba ėkspeditsii. (Ėkspeditsiā SSSR na Severnyi poliūs. Trudy Dreifuūshchei stantsii "Severnyi poliūs," pub. 1941-45. T. 2, p. 31-63, 2 plates, tables, diagrs.) **Title tr.:** Meteorological service of the expedition. (U.S.S.R. Expedition to the North Pole. Transactions of the Drifting Station "North Pole")

Contents include: General characteristics of the weather in spring, 1937; the weather on the route Moscow-Matohkin Shar-Rudolph Island and back; weather reconnaissance by planes.

The meteorological régimes of the principal Soviet polar stations between Franz Josef Land and Cape Chelyuskin were analyzed in planning the operation of the expedition. Pressure distribution over the Polar Basin. Aerological observations on Rudolph Island, Franz Josef Land during late winter and early spring 1937 were the bases for making weather forecasts for the start of the expedition and for aviators flying between Moscow and the drifting station.

4284. DZERDZEEVSKII, BORIS L'VOVICH, 1898- . Tširkuliatsiā atmosfery v tšentral'nom poliarnom basseine. (Ėkspeditsiā SSSR na Severnyi poliūs, 1937. Trudy Dreifuūshchei stantsii "Severnyi poliūs," pub. 1941-45. T. 2, p. 64-199, plates, tables, diagrs.) **Title tr.:** Circulation of atmosphere in the central polar basin.

A review of literature on atmospheric processes in the Arctic Basin is presented. The distribution of meteorological elements as determined by the observational data of the ice-floe Drifting Station, "North Pole", is compared with that of the *Fram* (1893-96) and the *Maud* (1918-25). Specific synoptic situations (during this and previous expeditions) in which the more complex atmospheric processes have been involved (the generation, movement and deteriorations of fronts and air masses) are analyzed and charted (plates 1-58 p. 427-484). Bibliography (74 items), p. 174-77.

Comment on this work by B. Volovik was published in Royal Meteorological Society. Quarterly journal, April-July, 1946. v. 72, p. 167.

Results of a research project carried on for the U. S. Public Roads Administration in the winter of 1943-44. Discussion of phenomena of icing, occurrence, causes, permafrost as a factor therein, methods of prevention and control. *Copy seen*: CAMAI; DLC.

4288. EAKIN, HENRY MINER, 1883-1936. The Cosna-Nowitna region, Alaska. Washington, U. S. Govt. Print. Off., 1918. 54 p. illus., 8 plates (part fold,

incl. 2 maps, in pocket) diagr. (U. S. Geological Survey. Bulletin 667)

Contains the report of field work, 1915, in the area lying between 63°30'-65°N. 151°-154°40'W. Descriptions of the topography, climate, forests, routes, etc.; the stratigraphy, structure, geologic history and geomorphology, with notes on mineralization, and suggestions concerning the rather unfavorable gold prospecting.

Maps: Reconnaissance geologic and topographic maps contour interval 200 ft., scale 1:250,000, showing the Nowitna and the headwaters of the Cosna, Chitanana, Kuskokwim, North Fork, Titna, Sethkona, Telsitna, Sulukna, and Lost Rivers. *Copy seen*: DGS.

Contains the report on that part of the Yukon-Tanana region lying between the two rivers, west of 150°W., surveyed in 1911. Descriptions of the geography, stratigraphy, and economic geology, with sections on gold mining, 1911, in the Rampart and Hot Springs districts, and mention of tin occurrences.

Maps: Reconnaissance geologic and topographic maps, contour interval 200 ft., scale 1:250,000. *Copy seen*: DGS.

4290. EAKIN, HENRY MINER, 1883-1936. The Iditarod-Ruby region, Alaska. Washington, U. S. Govt. Print. Off., 1914. 45 p. 6 plates (incl. 4 fold. maps) diagr. (U. S. Geological Survey. Bulletin 578)

Report on field work, 1913, in an area of west-central Alaska between the mining settlements on Iditarod River and those on the Yukon at Ruby. Descriptions of the geography, general geology, veins and mineralization, geologic history, and (in detail) the gold deposits of the Iditarod, Innoko, and Ruby districts.

Maps: 1. Reconnaissance map of the lower Yukon and middle Kuskokwim region (contour interval 200 ft., scale 1:500,000). 2. Reconnaissance map. 3. Geologic reconnaissance map of the Iditarod-Ruby region (contour interval 200 ft., scale 1:250,000)

4294. EARDLEY, ARMAND JOHN, 1901- . Ancient Arctica: reply to remarks. (Journal of geology, May 1949. v. 57, p. 319-20)

Acknowledgement of W. Maync's supplementary remarks to the author's

paper, *Ancient Arctica*, 1948; and note on a more recent addition to knowledge of East Greenland geology.

Copy seen: DGS.

4295. EARDLEY, ARMAND JOHN, 1901- . Ancient Arctica. (Journal of geology, Sept. 1948. v. 56, p. 409-436, illus. (6 sketch maps) 2 fold. maps)

"To the lands and seas of the north polar region of the geologic past the name 'Ancient Arctica' is given." Conclusions based on a survey "of the shields that face and partly surround the arctic sea, of the intra-shield orogenic belts that extend into and under the sea, of the troughs of deposition and orogenic belts of Alaska, and of the topography of the arctic sea floor," viz.:

1. The region is underlain by continental crustal material chiefly of shield character.

2. Appreciable changes have occurred in the distribution of land and water by epeirogenic and orogenic movements of the crust.

3. The present deep basin of the arctic sea began to sink in Carboniferous time.

4. The Alaska-northeastern Siberia region was one of nearly constant land connection during Mesozoic and Cenozoic and probably also during the Paleozoic.

5. The crust of the North Atlantic and Greenland Sea underwent movements in Tertiary time sufficient to provide land bridges for migration of animals and plants.

Includes a note on petroleum possibilities especially in the Canadian Arctic Islands, also a bibliography (28 items).

Copy seen: DGS.

4304. EATON, STEPHEN W. Bird distribution along the Peace, Slave, and Little Buffalo Rivers in Canada. (Auk, July 1948. v. 65, p. 345-52, plate, sketch map, table)

Results of observations made during a canoe trip, June-July 1940, from Peace River, Alberta to Great Slave Lake. Notes on seven species, and tables showing distribution of over eighty species, of which thirty-one are recorded for the Little Buffalo River, Mackenzie District.

Copy seen: DSI-M.

4305. EAVENSON, HOWARD NICHOLAS, 1873- . Map maker & Indian traders; an account of John Patten, trader, arctic explorer, and map maker; Charles Swaine, author, trader, public official, and arctic explorer; Theodorus Swaine Drage, clerk, trader, and Anglican priest. [Pittsburgh] University of Pittsburgh Press, 1949. xvii, 275 p. 2 fold. maps, facsimis.

Account, based on considerable research in archives and libraries in the U. S., Canada, England, and France, of the life and various activities of Patten, Swaine, and Drage, including note on two voyages in the *Argo* from Philadelphia to Labrador (en route to search for the Northwest Passage)

Mar.-Nov. 1753, and May-Oct. 1754, with Swaine in command and Patten aboard as draftsman and mineralist; also on Swaine's participation in a voyage to Hudson Bay in 1746-47. Discusses Swaine's probable authorship of anonymous books *The great probability of a Northwest Passage*, 1768 (which includes an account of the 1753 voyage), and *An account of a voyage for the discovery of a North-West Passage by Hudson Straights* . . . 1746 and 1747, in the ship *California*, 1768, the latter having been attributed erroneously to Drage. Appended are texts of supporting documents and extensive bibliography of sources.

Copy seen: DLC.

4306. EBBLEY, NORMAN. Oil seepages on the Alaskan arctic slope. (Mining and metallurgy, Sept. 1944. v. 25, p. 415-19, illus., sketch map)

Based on a U. S. Bureau of Mines investigation in 1943, of the north coast of Alaska from Cape Simpson, eastward to the boundary, north of the Brooks Range. Descriptions of the country, natives, living conditions, clothes, and transportation, followed by notes on areas where seepage occurs.

Copy seen: DLC.

4307. EBBLEY, NORMAN, and WILFORD S. WRIGHT. Antimony deposits in Alaska. [Washington] 1948. 41 p. 23 figs. on 25 plates (diagrams, 7 sketch maps). (U. S. Bureau of Mines. Report of investigations. 4173)

Contains description of mines and deposits, locations, character of the ore, results of sampling and analyses, and general geology. The more important deposits described here, occur in the Kantishna region (63°43'30"N. 150°24'W.) central Alaska, My Creek (64°14'N. 143°18'W.) in the headwater region of Fortymile River, Tok River (63°15'N. 143°48'W.), and Caamaño Point (55°31'N. 131°59'W.) Southeast Alaska.

4355. EFIMOV, A. I. Glubokoe promerzanie gruntov i rezhim nadmerzlotnykh vod pod teplymi zdaniiami (Akademiia nauk SSSR. Institut merzlotovedeniia. Trudy, 1944. T. 4, p. 205-226, 4 tables, 11 diagsr.) *Title tr.:* The deep freezing of grounds and the régime of supra-permafrost waters under heated buildings.

Contains results of special observations on the behavior of supra-permafrost waters, and some experiments on two building plots. Detailed geological description of the plots is given, the type of permafrost encountered there, seasonal freezing and thawing, and temperature régime under heated buildings. Considerable attention is devoted to the hydrology of the area of the plots, chemical content of water, amount of water pressure (graphs and diagrams).

The alternate increase and decrease of moisture in the active layers is the prime cause of building deformation. The most effective counter-measure suggested is the construction of a circular drainage system combined with frozen belts around the buildings to create a barrier for excessive water.

situation, luft, temperament og beskaffenhed. Kjøbenhavn, Trykt hos J. C. Groth, 1741. 6 p. l., 131 p., 1 l. 11 plates, fold. map. *Title tr.*: New survey of old Greenland, or Natural history and description of the situation, climate and characteristics of old Greenland.

Enlarged edition of a work originally published in 1729; published in English as *A description of Greenland*, 1745; also published in French and German. Basic historical work by "Pastor Egede" who started Danish colonization of Greenland and Christian mission work among Eskimos, living with his family in West Greenland from 1721 to 1736.

Contains discussion of the geography and history of Greenland (including the rise and decline of the old Norse colonies) the natural conditions of Greenland, its plants, minerals and rocks, the weather, animals of land and sea and how the Eskimos hunt them; the occupations, implements and tools of the Eskimos; their physical characteristics, manners and customs, clothing, food, family relationships, mortuary customs, games, language, religion, beliefs, mental attitudes, etc.

4366. EGEDE, HANS POULSEN, 1686-1758. Omstændelig og udførlig relation, angaaende den grønlandske missions begyndelse af forsættelse, samt hvad ellers mere der ved landets recognoscering, dets beskaffenhed, og indbyggernes væsen af leve-maade vedkommende, er befunden. Kjøbenhavn, Trykt hos J. C. Groth, 1738. 10 p. l., 408 p. *Title tr.*: Detailed and full relation regarding the beginning and continuation of the Greenland mission; in addition to other things observed concerning the reconnaissance of the country, its nature and the manners and way of life of its inhabitants.

Egede's annual reports, (consisting of his journals) 1721-36, published after the author's return to Denmark, with text (especially of the early relations) much abbreviated. Includes introductory chapter on events, 1708-21, leading to the establishment of the Greenland mission, Egede's appointment, as its first incumbent and his trip thither 1721. His activities as missionary to the Eskimos and founder of the first Danish colony in Godthaab; daily events in the colony, trips to outlying districts, notes on the weather, customs, occupations, etc., of the Eskimos.

4414. EINARSSON, HERMANN. Euphausiacea. 1. Northern Atlantic species. Copenhagen, C. A. Reitzel (for the Carlsberg Foundation), 1945. 185 p. incl. tables, illus., diagrs. (Carlsberg-fondets oceanografiske ekspedition omkring jorden, 1928-1930. Dana-report no. 27)

This report of the Carlsberg Foundation's Oceanographical Expedition round the World in the *Dana*, 1928-30, and previous *Dana* expeditions, covers collections of the euphausiid crustaceans

from *Dana* cruises 1924-39, also from the *Godthaab* expedition to West Greenland waters 1928, and those in Copenhagen Zoological Museum from West and East Greenland waters. Includes chapters on larval development, and on six species as adults (including a key); sections on distribution including Norwegian (East Greenland) Sea, Icelandic coastal waters, Irminger Sea, Denmark Strait and the East Greenland Current, East Greenland coastal waters, and West Greenland waters; also sections on distribution by species. Discussion of factors in distribution, of age and growth, variation in size of larval stages, food, parasites, etc. Bibliography (255 items).

1882-1949. The ecological relations of
the Polar Eskimo. (Ecology, Apr. 1921.
v. 2, p. 132-44, illus.)

Contains discussion of the racial
status, the historic perspective, the
physical surroundings (edaphic fac-
tors), the animals and plants (biotic
factors), and the climatic factors in
the environment of the Eskimos of
North Greenland; also remarks on their
group organization, travel, family,
home, dress, food and fuel, occupations
and character as responses to the en-
vironment.

Descriptions of five species of fresh-water crustaceans (one new), collected from two lakes, and discussion of twelve species previously found. Bibliography, p. 16. *Copy seen:* DLC.

4467A. **EKMEN, VAGN WALFRID, 1874-**. Om jordrotationens inverkan på vindströmmar i hafvet. (Nytt magasin for naturvidenskapene, 1902. v. 40, p. 37-63) *Title tr.*: Influence of the earth's rotation on wind currents in the ocean.

Nansen observed during the drift of the *Fram* that wind-propelled currents at the ocean's surface had a systematic deviation in direction from the wind direction by 20 to 40 degrees to the right. He explained this as due to the influence of the earth's rotation; further, he reasoned that any layer of the ocean would influence the layer below it not unlike the wind influences the sea surface, and hence the deviation of the current direction from the wind

direction must increase with the depth of the layer below the water surface. He suggested a theoretical investigation of these conclusions, which Ekman carried out under a number of far-reaching simplifying assumptions and reported in this fundamental paper. He assumed that the surface of the ocean is plane, that at all points of a plane parallel to this surface, the velocity is the same, and that the coefficient of apparent (turbulent) friction is constant throughout the ocean. A pair of differential equations is deduced and a complete solution for the case of a steady wind is given. The solution essentially bears out Nansen's observations and reasoning, giving a current velocity direction at the surface 45° to the right of the wind direction and a velocity distribution changing from the surface downward like the steps of a narrowing spiral stairway ("Ekman's spiral"). For the case of a wind suddenly starting after calm (and then remaining steady an approximate solution of the problem is given. The result indicates that in arctic waters 12 to 24 hours after the start of the wind, the velocity distribution is virtually as in the steady case (i.e. as if the wind had always been present), while at lower latitudes this time lag increases in indirect proportion to the sine of the latitude.

4468. **EKMEN, VAGN WALFRID, 1874-**. On dead water: being a description of the so-called phenomenon often hindering the headway and navigation of ships in Norwegian fjords and elsewhere, and an experimental investigation of its causes etc. [Christiana [etc.] J. Dybwad, 1906] x, 152 p. illus., 17 plates (incl. chart, diagrs., part fold.) tables. (Nansen, Fridtjof, ed. Norwegian North Polar Expedition 1893-96. Scientific results. v. 5, no. 15) Includes preface by Prof. Vilhelm Bjerknes.

Basic work on the phenomenon observed by Nansen in the *Fram*, and others. Contains accounts of mariners' experiences (in brief), theoretical discussion and results of Ekman's laboratory experiments (in detail) with mathematical treatment. Deals with the interface wave generated by ship motion on the interface between two layers of heavier (saltier) and lighter (or fresh) water. Ekman shows that if the ship is

unable to outrun the natural propagation of this interface wave, it will require a great amount of energy to proceed at all.

4468A. EKMAN, VAGN WALFRID, 1874- . On the influence of the earth's rotation on ocean-currents. 52 p. plate, diagrs. (Archiv för matematik, astronomi, och fysik, 1905. Bd. 2, no. 11).

Here (as well as in numerous later papers of the author and his students) the results published in the paper of 1902 are reexamined, followed up and improved upon. In the present paper the arbitrary assumption of an infinite ocean surface is omitted, that is methods are shown for examining the influence of continents and of neighboring currents: in particular the case of a straight coast and an "enclosed sea" are studied. The author also investigates how a more realistic law of friction could be introduced instead of the arbitrary assumption of a constant coefficient of apparent friction. A brief note on a laboratory experiment of C. A. Bjerknes is added.

4470. EKSPEDITSIYA BRATEV KUZNETSOVYKH NA POLIARNYI URAL, 1909. Résultats scientifiques de l'Expédition des frères Kuznecov à l'Oural Arctique en 1909, sous la direction de H. Backlund. St.-Petersbourg, 1911-16. 18 v. in 1. illus., plates (part fold), maps (part fold.), tables. (Akademiia nauk SSSR. Mémoires. Sér. 8, classe physico-mathématique, vol. 28, nos. 1-15, 17, 19-20) *Title tr.:* The scientific results of the Kuznetsov Brothers Expedition to the arctic Ural in 1909, under the command of H. Backlund.

Russian title supplied: Nauchnye rezultaty ekspeditsii brat'ev Kuznetsovykh na poliarnyi Ural v 1909 g., pod nachal'stvom O. O. Baklunda. Series titles in Russian and French. Text of the papers in German, Russian, French, or Latin. No. 16, 18, and any numbers after no. 20 are not located, or known to have been published.

The expedition was initiated and financed by the brothers Nikolaï Grigor'evich and Grigorii Grigor'evich Kuznetsov, and was "under the protection" of the Academy. H. G. Backlund, geologist and the leader, was accompanied by N. A. Grigor'ev, topographer, V. N. Sukachev, botanist, V. G. Mukhin, geologist, O. T. Ivanovich, ethnographer, F. A. Zaitsev and D. Ia. Vardropper, zoologists. The purpose of the expedition was to explore the arctic Ural to Baydaratskaya Bay, from the natural science point of view (May-Oct. 1909).

Contents tr.: 1. BACKLUND, H. G. A general survey of the activities of the Kuznetsov Brothers' expedition to the arctic Ural in the summer of 1909.

Microsporaes.

Contains: Complete synonymy of the species and forms of green fresh-water algae (Microsporaes) with citations of literature, illustrations and specimens; original diagnoses (Russian and Latin) of new species and forms; general geographical distribution; detailed bibliographical data on distribution in the U.S.S.R., including many arctic regions, and a list of literature in Russian and other languages, p. 37-39. A continuation of Elenkin, A. A., *Sistematicheskii spisok . . . Oedogoniales*, 1936, q.v. Summary in French.

Copy seen: MH-A.

4515. ELENKIN, ALEKSANDR ALEKSANDROVICH, 1873-1942. Zametka o patologicheskikh vidoizmeneniïakh novago vida, *Lithothamnion murmanicum* Elenkin. (Leningradskoe, obshchestvo estestvoispytatelei. Trudy, 1906. T. 37, vyp. 1, p. 64-69, 84) **Title tr.:** Note on pathological deformities of a new species, *Lithothamnion murmanicum* Elenkin.

Contains notes on pathologic deformities of a new species of marine algae, *Lithothamnion murmanicum* native to the Murman coast, Barents Sea; Latin diagnosis of this species and discussion of its priority over *L. vardoense* n. sp., probably identical with Elenkin's species, described by M. H. Foslie, *Lithothamnion vardoense*, a new alga. Norske videnskabers selskab, Trondheim. Skrifter, 1905. No. 2, (4 p.) native to Varanger Fiord.

Includes a new subspecies of *Putorius vison melampeplus*, subsp. nov., a mink from Kenai Peninsula.

Copy seen: DSI-M.

4540. ELLIOTT, HENRY WOOD, 1846-1930. An Alaskan legend. Kay-gamiyak: its mummies. (Continent, July 12, 1882. v. 2, no. 1, p. 5-8, illus.)

A legend heard in connection with the search for Aleutian mummies in the Unalaska region, 1874.

Copy seen: DLC; NNS Stef.

4541. ELLIOTT, HENRY WOOD, 1846-1930. The fur-seal industry on the Pribilof group, Alaska. (In: Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1887. Section 5, v. 2, p. 321-93, 10 plates (2 maps) tables, 6 sketch maps)

Contains descriptions of the islands, the rookeries (with sketches), the fluctuation in seal-life, the value, manner of take, caring for and shipping, statistics of catch, 1796-1866 (for Commander Islands, 1862-68), the organization of companies, and the protective laws and legislation. Copy seen: DF.

4542. ELLIOTT, HENRY WOOD, 1846-1930. The habits of the fur seal. (In: Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1884. Section 1, p. 75-113, 7 plates)

Contains detailed descriptions of habits, appearance and rookery organization on Pribilof Islands.

Copy seen: DF.

4543. ELLIOTT, HENRY WOOD, 1846-1930. Letter from the Secretary of the Treasury, transmitting, in response to the House resolution of the 22nd instant, a copy of the report of Henry W. Elliott on the condition of the fur-seal fisheries of Alaska, together with all maps and illustrations accompanying said report. January 27, 1896 . . . ordered to be printed. Washington, U. S. Govt. Print. Off., 1896. 240 p. 48 plates, 14 maps (part fold.). (U. S. 54th Cong., 1st sess. House. Doc no. 175) Published also in U. S. Treasury Dept. Special Agents Division. Seal and salmon fisheries and general resources of Alaska . . . Washington, 1898.

Contains "Report upon the present condition of the fur-seal rookeries of the Pribilof Islands of Alaska": comparative data on the rookeries, hauling ground, method of taking fur seals, selection of skins, condition of natives, native labor and pay, as in 1872-74 and 1890; also recommendations for protection and preservation of fur seals and trade interests on Pribilof Islands.

Appendix contains the author's daily field notes May-Aug. 1890, and general memoranda.

Maps show area and position of hauling grounds and breeding rookeries in 1872-74, and in 1890.

Copy seen: DLC.

4544. ELLIOTT, HENRY WOOD, 1846-1930. A monograph of the seal-islands of Alaska. Reprinted, with additions, from the Report on the fishery industries of the Tenth Census. Washington, U. S. Govt. Print. Off., 1882. 4 p. l., 3-176 p. illus., 29 plates, 2 fold. maps. (U. S. Commission of Fish and Fisheries. Special bulletin 176)

Reprinted without index (and presumably with minor changes of text) from the author's *Report on the Seal Islands*, 1884, q.v., prepared for the 1880 Census.

Copy seen: DLC.

4545. ELLIOTT, HENRY WOOD, 1846-1930. Our arctic province, Alaska and the Seal Islands. New York, C. Scribner's Sons, 1886. xv, 473 p. front., illus., 48 plates, 5 maps (1 fold.) Reprinted in 1906.

A comprehensive work for general readers, telling of the history, geography, peoples, and wildlife, particularly the seals, and (in less detail) the sea otters, sea lions, the morse (or walrus), etc.

Copy seen: DLC; NNS Stef.

4546. ELLIOTT, HENRY WOOD, 1846-1930. Report on the seal islands of Alaska. (*In:* U. S. Census Office. 10th census, 1880. Census reports. Washington, 1884. v. 8, 2 p. 1., 3-188 p. illus., 29 plates, 2 double-face.

Results of the author's observations at seal rookeries on Pribilof Islands in 1872-74 (of which a digest on the economic aspect was published in his *Report upon the condition of affairs in Alaska*, 1875, q.v.), and in 1876, also later on Commander Islands, during his investigations into the life and habits of the fur seal.

Contains a brief sketch of the Pribilof Islands, the inhabitants, their sealing industry, the Alaska Commercial Co.; detailed description of life and habits of the fur seal, sea lion and walrus of Bering Sea; methods of taking, treatment of skins, etc.; review of U. S. official reports on the seal islands (especially of Lieut. Washburn Maynard's work); supplemental notes on Commander Islands, on mammals, birds, fishes, invertebrates, plants, on Veniaminov's account of the Pribilof Islands.

Copy seen: DLC.

4547. ELLIOTT, HENRY WOOD, 1846-1930. A report upon the condition of affairs in the Territory of Alaska. Washington, U. S. Govt. Print. Off., 1875. 277 p.

Report, by a special agent of the U. S. Treasury Dept., on investigations made in 1872-74, on "the present condition of the seal-fisheries of Alaska; the haunts and habits of the seal; the preservation and extension of the fisheries as a source of revenue to the United States, with like information respecting the fur-bearing animals of Alaska generally; the statistics of the fur-trade; the condition of the people or natives, [etc.]." *Contains* chapters on the character of the country; the natives or people of Alaska; the duty of the government; trade, traders, stations; the sea-otter and its hunting; condition of affairs on the seal islands,

the Pribilof group; habits of the fur seal; fish and fisheries.

Includes as chapter 9 (p. 168-212), *Ornithology of the Pribilof Islands*, by Elliott Coues.

Copy seen: DLC.

4548. ELLIOTT, HENRY WOOD, 1846-1930. The sea-lion hunt. (*In:* Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1887. Section 5, v. 2, p. 467-74, 4 plates)

Contains detailed description of the method of hunting, killing, cutting up, and uses of this eared seal, by the Aleuts who live around the Bering Sea.

Copy seen: DF.

4549. ELLIOTT, HENRY WOOD, 1846-1930. The sea-otter fishery. (*In:* Goode, G. B., and others. The fisheries and fishery industries of the U. S., 1887. Section 5, v. 2, p. 483-91, plate)

Contains notes on its limited distribution in Bering Sea and Kamchatkan coast, its early abundance and rapid disappearance, its habits, appearance, and the Aleut methods of capture.

Copy seen: DF.

Summary of a lecture, read before the society, which was an abstract of a chapter prepared for Winsor's *Narrative and critical history of America*. Includes notes on the founding of the Company, the literature relating to its history, and the circumstances surrounding the surrender of its rights to the crown.

Copy seen: DLC.

4556. ELLIS, HAZEL R. Northward bound for godwits. (Audubon magazine, May-June 1948. v. 50, p. 154-59, illus.)

Account of an ornithological trip to Churchill, Manitoba in 1947 or 1948, and the author's observation from June 14 to July 7, of the nest of a Hudsonian godwit, *Limosa haemastica*, the nesting locality of which had been hitherto unproven.

Copy seen: DLC.

4557. ELLIS, HUBERT I. Dawson, Nome and Fairbanks. (Engineering and mining journal, Mar. 1915. v. 99, p. 517-20)

Historical sketch of these three placer mining camps, description of the gold gravels, and discussion of influences affecting their prosperity.

Copy seen: DGS.

4558. ELLIS, MINA BENSON HUBBARD, formerly Mrs. LEONIDAS HUBBARD, Jr. Labrador, from Lake Melville to Ungava Bay. (American Geographical Society, N. Y. Bulletin, 1906. v. 38, p. 529-39, 6 plates, fold. map)

Account of the Second Hubbard Expedition, 1905, from Northwest River Post, Lake Melville, via Naskaupi River, Lake Michikamau, and George River, to Ungava Bay, with description of the country through which the canoes passed.

Copy seen: DLC.

4559. ELLIS, MINA BENSON HUBBARD, formerly Mrs. LEONIDAS HUBBARD, Jr. A woman's way through unknown Labrador; an account of the exploration of the Nascaupsee and George Rivers, by Mrs. Leonidas Hubbard, Junior. London, J. Murray, 1908. xvi, 338 p. incl. front, 50 plates, fold. map in pocket. Also published in New York by McClure Co., 1908 (305 p.), without introduction by Cabot or index.

Contains an introduction by W. B. Cabot (p. 1-29) giving a general sketch of the physical and ethnological features of Labrador Peninsula. An account by Mrs. Hubbard (in brief, p. 33-50) of her husband's life and trip in 1903 to explore the Labrador interior by the river (called Northwest) route from Lake Melville to Lake Michikamau and the George River flowing to Ungava Bay, in the course of which he died; and (in detail, p. 50-237) of her own trip, June-Aug. 1905, to complete his work. She describes her journey from Lake Melville by Grand Lake, Naskaupi River, Seal and Michikamau Lakes, and George River, to Ungava Bay, during which the two rivers are said to have been roughly mapped for the first time. Includes notes throughout on topography, geology, flora, fauna and Indians.

Appended (p. 239-85) is the diary kept by Leonidas Hubbard, of his experiences from his landing in Labrador till shortly before his death, July-Oct. 1903; also (p. 286-333) an account by George Elson (Hubbard's companion) of the latter part of the expedition and

his conveyance of Hubbard's body to U.S.A., Oct. 1903-May 1904. Hubbard's trip was chronicled by his other companion, Dillon Wallace, in *Lure of the Labrador wild*, q.v.

4560. ELLIS, NED ROYCE, 1894- . Livestock production. (In: U. S. Agricultural Research Administration. Report on exploratory investigations of agricultural problems of Alaska, 1949, p. 165-85)

Contains notes on the history and present status of livestock production, feed supply problem, beef cattle raising, dairy industry, sheep, goat, swine and poultry raising, and fur-farming problems.

Copy seen: DA.

4561. ELLIS, NED ROYCE, 1894- , and others. The vitamin content of lichens. (Journal of nutrition, Sept. 1933. v. 6, p. 443-54) Other authors: L. J. Palmer and G. L. Barnum.

"This study has formed a part of a cooperative investigation on nutrition problems relating to reindeer and muskoxen by the Bureaus of Biological Survey and Animal Industry of the U. S. Department of Agriculture." It contains results of experimentation in the nutrition laboratories of U. S. Bureau of Animal Industry, on the vitamin A, B-complex, and D factors of samples supplied from the Alaska reindeer experiment station.

Copy seen: DLC.

4562. ELLS, S. C. Alaska Highway. (Canadian geographical journal, Mar. 1944, v. 28, p. 104-19, incl. 7 p. of illus., map)

Discussion (in general) of the objectives, legal agreements, supervision, construction plans, routes, possible economic importance, design, and maintenance problems, of the highway.

Copy seen: DLC.

4563. ELLSBERG, EDWARD, 1891- . Cruise of the *Jeannette*, illus. by Gerald Foster. New York, Dodd, Mead, 1949. 275 p. illus.

"A retelling for young readers of author's 'Hell on ice'," 1938, q.v.

Copy seen: DLC.

4564. ELLSBERG, EDWARD, 1891- . The drift of the *Jeannette* in the arctic sea. (American Philosophical Society. Proceedings, 1940. v. 82, p. 889-96)

Paper read before the Society's Symposium on American Polar Exploration, Feb. 1940, giving a sketch of the *Jeannette* Expedition, 1879-81, commanded by Lt. G. W. DeLong, which proceeded through Bering Sea, was frozen in the ice north of Siberia, and finally lost.

Copy seen: DLC.

4565. ELLSBERG, EDWARD, 1891- . Hell on ice; the saga of the "Jeannette." New York, Modd, Mead & Co. 1938. x p., 1 l., 421 p. 2 illus. (incl. map), map on lining-papers.

On the basis of his reading and research Ellsberg describes the drift, the party's trip over ice to Lena delta, etc. "as it might have been told about thirty years ago by" G. W. Melville, chief engineer of the *Jeannette* expedition, 1879-81; a vivid and informative, albeit second-hand account.

4566. ELLSON, J. G., and others. Report of Alaska Exploratory Fishing Expedition, fall of 1948, to northern Bering Sea. Washington, 1949. 25 p. incl. 6 plates, illus., 7 plates (6 charts). (U. S. Fish and Wildlife Service. Fishery leaflet 342) Other authors: Boris Knake and John Dassow.

Remarks on need for fishery exploration in Alaskan waters; description of the motor vessel *Washington*, a new U. S. Fish and Wildlife Service ship; and account of results of trawls made from Nome southward to Kodiak waters, Aug.-Oct. 1948, showing depths, gear and kind of catch, with list of fish and shellfish species mentioned.

Copy seen: DF.

4567. ELLSWORTH, CLARENCE EUGENE, 1882- , and others. A water-power reconnaissance in south-central Alaska, by C. E. Ellsworth and R. W. Davenport, with a section on south-eastern Alaska, by J. C. Hoyt. Washington, U. S. Govt. Print. Off., 1915. 173 p. illus., 22 plates (incl. 6 fold maps) diags. (U. S. Geological Survey. Water-supply paper 372)

"Results of the first systematic study of the water-powers of South-central Alaska," made May 5-Nov. 25, 1913.

Contains introductory notes on methods, water-power rights, and climate; descriptions of the features, mineral resources, timber, gaging stations, etc., and data on gage height and discharge

for the Bering River basin in the Controller Bay region, the basin of lower Copper River (Klutina, Kotsina basin), and its principal tributary, the Chitina (Nizina, Lakina, Gilahina, Kuskulana, and Tiekkel River basins) McKinley Lake district, Power Creek basin, Prince William Sound region (including developed water power) the eastern part of Kenai Peninsula (Kenai River basin and certain creeks) and the Willow Creek district; a water-power reconnaissance in southeastern Alaska, with descriptions of topography, geology, climate, general conditions of runoff, and power possibilities.

Copy seen: DGS.

4568. ELLSWORTH, CLARENCE EUGENE, 1882- , and R. W. DAVENPORT. Surface water supply of the Yukon-Tanana region, Alaska. Washington, U. S. Govt. Print. Off., 1915. 343 p. illus., 12 plates (incl. 4 fold. maps) diags. (U. S. Geological Survey. Water-supply paper 342)

Contains results of investigations, 1907-12, on stream flow of the Yukon basin (including Fortymile, Mission, Seventymile, Birch, Beaver, Hess, and other creeks), the basins of Tanana, Salcha, Chena, and Tolovana Rivers, Minook, Goldstream and Baker Creeks, with remarks on the minimum discharge, and water power, relating throughout to the Circle, Fortymile, Fairbanks, and Rampart mining districts.

4577. ELTON, CHARLES SUTHERLAND, 1900- . Aphids and hover-flies in North-East Land (Spitsbergen) in 1924; an additional note. (Entomologi-

cal Society of London. Proceedings, Dec. 1929. v. 4, pt. 2, p. 76-77) Issued also as Oxford University Exploration Club, *Greenland and Spitsbergen papers*, 1934. No. 23.

Supplement to an earlier paper by the same author *The dispersal of insects to Spitsbergen*, 1925, q.v., giving a further discussion of the unusual occurrence of the two insects in such northern latitudes as Hope Island and Northeast Land, with a reference to the mention of the same aphid found by W. E. Parry a century earlier, and the conclusion that they were, in both instances, wind borne.

Copy seen: DLC.

4578. ELTON, CHARLES SUTHERLAND, 1900- . The biology in relation to the geography. The Oxford University Arctic Expedition, 1924. (Geographical journal, Aug. 1925. v. 66, p. 111-14) A preliminary report, concerning several fiords, but especially Reindeer Peninsula in Liefde Bay, north Spitsbergen.

Contents: 1. Ecological survey. (Climatic zones of Svalbard). 2. Ornithology. 3. Relict lagoons and dispersal of animals.

Copy seen: DLC.

4579. ELTON, CHARLES SUTHERLAND, 1900- . Coleoptera and Lepidoptera from Spitsbergen. Results of the Oxford University Expedition to Spitsbergen, 1924. (Annals and magazine of natural history, Sept. 1925. Ser. 9, v. 16, p. 357-59, 432) Issued also as Oxford University. *Spitsbergen papers*, 1929. v. 2, no. 16.

List, with notes on habitat and location, of three beetles and one moth from West Spitsbergen.

Copy seen: DSI-M.

4580. ELTON, CHARLES SUTHERLAND, 1900- . The dispersal of insects to Spitsbergen. (Entomological Society of London. Transactions, 1925. p. 289-99) Issued also as Oxford University. *Spitsbergen papers*, 1929. v. 2, no. 11.

Based on observations made on the Oxford University Expeditions to Spitsbergen, 1921, 1923-24, discussion of the scantiness of Svalbard insect fauna, and the methods of its dispersal, by wind, or flight, or both, by driftwood, drift-ice, ships, and birds, with reference to West Spitsbergen, North-

east Land, Hope Island, and Prince Charles Foreland. Includes an account of a remarkable swarm of aphids and hover-flies which reached Northeast Land on the wind from northern Europe, in August 1924.

An additional note on this was published as the author's *Aphids and hover-flies in North-East Land*, etc., 1929, q.v.

Copy seen: DLC.

4581. ELTON, CHARLES SUTHERLAND, 1900- . Epidemics among sledge dogs in the Canadian Arctic and their relation to disease in the arctic fox. (Canadian journal of research, Dec. 1931. v. 5, p. 673-92)

Results of an inquiry carried out by the author for Hudson's Bay Co., particularly in Baffin Island, Hudson Strait, and Hudson Bay regions. Notes on epidemic reports in both animals from many posts and a discussion of cycles in number of arctic foxes, with a bibliography (15 items).

Copy seen: DSI-M.

4582. ELTON, CHARLES SUTHERLAND, 1900- . Marine animals collected by Mr. A. W. Moore at Etah, North-West Greenland, during the Oxford University Ellesmere Land Expedition, 1934-35. (Annals and magazine of natural history, Oct. 1937. Ser. 10, v. 20, p. 432-34)

List of species dredged in Foulke Fiord, at 20-70 ft., including one sponge, one sea-urchin, three brittle stars, four gastropods, ten crustaceans and three fish of tentative identification.

Copy seen: DSI-M.

4583. ELTON, CHARLES SUTHERLAND, 1900- . The nature and origin of soil-polygons in Spitsbergen. (Geological Society of London. Quarterly journal, Apr. 1927. v. 83, p. 163-94, 3 plates) Issued also as Oxford University. *Spitsbergen papers*, 1929. v. 2, no. 6.

Results of Oxford University Arctic Expedition, 1924. Relates mainly to Reindeer Peninsula and Liefde Bay region.

Copy seen: DGS.

4584. ELTON, CHARLES SUTHERLAND, 1900- . Notes on the mammals of the upper Liard and Frances Rivers. (Canadian field naturalist, Oct. 1935. v. 49, p. 120-23)

Notes based on an unpublished letter of Robert Campbell, a Hudson's Bay

Co. factor, who established in 1840, the post at Frances Lake, abandoned 1851. Campbell's descriptions of marmots, chipmunks, and a muskrat are amplified, and the animals identified in extensive notes by Dr. R. M. Anderson.

Copy seen: DLC.

4585. ELTON, CHARLES SUTHERLAND, 1900- . Periodic fluctuations in the numbers of animals: their causes and effects. (Journal of experimental biology, Oct. 1924. v. 2, p. 119-63 incl. diagrs.)

Contains discussion of climatic cycles, and fluctuations in animal numbers which includes lemmings (p. 125-35), showing the effects on arctic foxes, owls, stoats, etc., and suggesting the effects of these fluctuations on evolution.

Copy seen: DA.

4586. ELTON, CHARLES SUTHERLAND, 1900- , and others. The snowshoe rabbit inquiry, 1931-32 to 1942-43. (Canadian field naturalist, 1933-43. v. 47, p. 63-69, 84-86; v. 48, p. 73-78; v. 49, p. 79-85; v. 50, p. 71-81; v. 51, p. 63-73; v. 52, p. 63-72; v. 53, p. 63-70; v. 54, p. 117-24; v. 56, p. 17-21; v. 57, p. 64-68, 136-41; v. 60, p. 67-70, diagrs.)

Reports, prepared by Charles Elton, Director of the Bureau of Animal Population, Oxford University, and G. Swynnerton, D. Chitty, H. Chitty, and M. Nicholson, based on information collected by the Canadian Dept. of the Interior, National Parks Branch.

Reports for 1931-32 to 1934-35, entitled *The Canadian snowshoe rabbit inquiry*, cover the Northwest Territories, Yukon, Labrador and northern Quebec, Ontario and Manitoba. Beginning 1935-36 Alaska also is included. Data shows increase, no change, decrease, and epidemics, forming a quantitative comparison of changes in the snowshoe rabbit population.

4599. EMERTON, JAMES HENRY, 1847-1930. Notes on the spiders collected by Frits Johansen of the "Danmark Expedition" 1906-8 to northeastern Greenland, latitude 76½° to 77° North. (Dansk naturhistorisk forening. Videnskabelige meddelelser, 1919. Bd. 70, p. 143-45)

Notes and localities of three species.

Copy seen: DSI-M.

4600. EMERTON, JAMES HENRY, 1847-1930. The spiders [etc.] (Canadian Arctic Expedition, 1913-1918. Report, 1919. v. 3: Insects, Pt. H, p. 3-9, incl. 3 plates)

List, with some descriptions and notes on habitat and distribution, of thirteen (including three new) species from Alaska and Northwest Territories. *Copy seen:* DSI-M.

4601. EMERY, CARLO, and others. Relazione del materiale zoologico riportato dalla spedizione. (*In:* Filippi, F. de. La spedizione di . . . Luigi . . . duca degli Abruzzi al Monte Sant' Elia (Alaska) 1897. 1900. Appendice D, p. 243-57, double-face plate) *Title tr.*: The zoological material of the expedition.

Contains descriptions of an ichneumon fly, by J. Kriechbaumer, a new spider, by P. Pavesi, and a new oligochaetous worm, by C. Emery, all from Malaspina Glacier; with extensive remarks on J. C. Russell's observations on glacier worms, and mention of a fly and a springtail, both commonly known, from the same locality.

Copy seen: DLC.

4602. EMERY, KENNETH ORRIS, 1914- . Topography and sediments of

the Arctic Basin. (Journal of geology, Sept. 1949. v. 57, p. 512-21, fold. map)

"Based on a compilation of all known soundings, largely from recent Russian expeditions," (since 1930). The author draws tentative conclusions regarding bottom topography, with additional general inferences derived from distribution of Pleistocene glaciers, character of land topography, positions of earthquake epicenters, and sources and composition of bottom sediments; bibliography (45 items).

Copy seen: DGS.

4603. EMMONS, GEORGE THORNTON, 1852- . The basketry of the Tlingit. (American Museum of Natural History, N. Y. Memoirs, 1903. v. 3, (Anthropology v. 2.) pt. 2, p. 229-77, illus. plates 5-18 (part. col.)

Methods of weaving and ornamentation with fifty-one designs are discussed and illustrated; with remarks on the use of spruce root, and grasses in making of baskets, mats, household utensils, cradles, etc.

Copy seen: DLC.

4604. EMMONS, GEORGE THORNTON, 1852- . Conditions and needs of the natives of Alaska. Message from the President of the United States, transmitting a report on the condition and needs of the natives of Alaska. [Washington, U. S. Govt. Print. Off., 1905] 23 p. (U. S. 58th Cong., 3d sess. Senate. Doc. 106)

Describes the existing conditions of the Indians and Eskimos of Alaska, and recommends specific measures, chiefly educational, economic, and medical, to improve conditions. Divides the native peoples, according to their needs, into the "self-sustaining" groups of southeastern Alaska, and the "dependent" groups of the rest of Alaska.

Copy seen: DLC.

4605. EMMONS, GEORGE THORNTON, 1852- . Copper neck-rings of southern Alaska. (American anthropologist, 1908. New ser., v. 10, p. 644-49, illus.)

Discussion of design, significance, and dissemination of neck-rings in region of the Tlingit Indians.

Copy seen: DLC.

4606. EMMONS, GEORGE THORNTON, 1852- . Jade in British Columbia and Alaska, and its use by the natives.

New York, Museum of the American Indian, Heye Foundation, 1923. 53 p. illus., 25 plates (part col.) (Indian notes and monographs. Miscellaneous, no. 35)

Describes specimens of jade artifacts from the Indians and Eskimos of Alaska, and discusses the sources, uses, and methods of manufacture of the jade objects.

Copy seen: DLC.

4607. EMMONS, GEORGE THORNTON, 1852- . Native account of the meeting between La Perouse and the Tlingit. (American anthropologist, 1911. New ser., v. 13, p. 294-98, illus.)

Traditional tale among the Tlingit based on visit of Comte de Lapérouse in Lituya Bay Southeast Alaska in 1786.

Copy seen: DLC.

4608. EMMONS, GEORGE THORNTON, 1852- . Petroglyphs in southeastern Alaska. (American anthropologist, 1908. New ser., v. 10, p. 221-30, illus., 2 plates)

Stone carvings of the Tlingit Indians.

Copy seen: DLC.

4609. EMMONS, GEORGE THORNTON, 1852- . The whale house of the Chilkat. New York, 1916. 1 p. l., p. 1-33 incl. illus., plates. 4 col. plates. (American Museum of Natural History, N. Y. Anthropological papers, v. 19, pt. 1)

Contains outline of the history and social organization of the Tlingit Indians; description of the Chilkat tribes' communal house at their principal village Kluckwan on the Chilkat River; with some account of the mythological significance of its ornamentation.

Copy seen: DLC.

4614. ENENSTEIN, B. S. Application of electro-prospecting by direct current on perpetually frozen ground in the Igarka region. (Akademiia nauk SSSR. Comptes rendus (Doklady), 1940. n.s., v. 26, no. 4, p. 338-41, diags.)

Report on investigation by an expedition in 1939 of the V. A. Obruchev Institute for the Study of Frozen Ground, to find if (1) permanently

frozen ground in Igarka region is conductor of electric current in natural conditions, and (2) elements of occurrence of permanently frozen rock can be determined by direct current method. Gives notes on geological characteristics and permafrost of the region, electrical features of the rocks in different levels; concludes on (1) and (2) in affirmative.

Copy seen: DLC.

4615. ENENSTEIN, B. S. Instruktšiiä po temperaturnym nablüdeniäm v raionakh vechnoi merzloty. (*In:* Akademiia nauk SSSR. Komitet po vechnoi merzlote. Sbornik instruktšii i programnykh ukazanii, 1938, p. 9-40, illus.) *Title tr.*: Instructions for temperature observations in the permafrost region.

Contains detailed instructions for temperature observations during field studies of permafrost; description of types of thermometers and methods of preparing them; instructions on methods of temperature measurements on the surface, in pits, and in cuts, by thermoelements (their preparation, defects, degree of error) and analysis of results; discussion of use of resistance thermometers and their preparation. Bibliography (6 items).

Copy seen: DLC.

4616. ENENSTEIN, B. S. Nablüdeniä nad estestvennymi tokami na vechnoi merzlote v raione g. Igarki. (Akademiia nauk SSSR. Institut merzlotovedeniä. Trudy, 1947. T. 5, p. 89-92, illus., diags.) *Title tr.*: Observations on natural currents (spontaneous polarization) in the permanently frozen ground in the region of the town of Igarka.

Contains results of field work of the V. A. Obruchev Institute for the Study of Frozen Ground in the region of Igarka in 1940, on the natural current existing within the limits of the active layer; description of previous work done; comparison of a map of the equal natural potentials with the map showing the location of the upper limits of permafrost, indicating that a lowering of the latter results in the increase of the potential. Five charts illustrate the special measurements used to check the observations. Includes description of the new design of non-polarized electrodes.

Copy seen: DLC.

4617. **ENENSTEIN, B. S.** Rezul'taty primeneniia elektorazvedki metodom postoiannogo toka v raionakh vechnoi merzloty. (Akademiia nauk SSSR. Institut merzlotovedeniia. Trudy, 1947. T. 5, p. 36-86, illus.) *Title tr.*: The results of the application of electrometric investigation by direct current in the region of permafrost.

Contains in pt. 1, discussion of the conductivity of permanently frozen formations under natural conditions, and results of experiments made to determine the factors which influence it. Experiments were made under laboratory conditions to perfect the field methods.

Pt. 2. Results of a series of geophysical investigations (1) on the River Tolba in the Yakut A.S.S.R., (2) at Nordvik, (3) in the region of Amerderma, (4) the Baykal-Amur railway, (5) in the area of the Bukhachacha coal deposits, (6) in the region of Darasan, (7) in the region of the Tyn-da-Zeya railway; in the Lena-Vitim region, and (8) at Igarka. The last is described in great detail (11 charts). A geological description of the area is given and four layers classified in terms of electrical resistance. Data on soundings and interpretations are given which prove the applicability of this method to determine the thawed zone, the upper and lower limits of permafrost, and the depth of location of basic formations. Fifteen conclusions dealing with electroconductivity of permafrost are given. Bibliography (33 items).

Extract from a letter dated Berlin, 26th February, 1839, with remarks concerning physiographic features of the peninsula, as shown by a new map prepared by the author on the basis of his visit in 1829.

Copy seen: DLC.

4661. ERMAN, GEORG ADOLF, 1806-1877. Reise um die Erde durch Nord-Asien und die beiden Ozeane in den Jahren 1828, 1829 und 1830 ausgeführt von Adolph Erman. Berlin, G. Reimer, 1833-48, 2 v. in 5: lviii, 2793 p., fold. plates, fold. maps, and 2 atlases (in 1 v.) *Title tr.:* Journey around the world through northern Asia and both oceans in the years 1828, 1829, and 1830.

Narrative and results of a journey (by land from Berlin to Okhotsk, thence by sea to Kamchatka and, via Sitka, to San Francisco, South America, England, Berlin) undertaken primarily to make a series of detailed observations on geographic location, elevations, and terrestrial magnetism. Includes incidental observations, many detailed, on zoology, botany, geography, and ethnology. *Contains in part 1* (3 vols.), an historical account of the journey, chronologically arranged, with description of the geography and peoples seen.

v. 1: Berlin to Tobolsk. Includes (p. 528-722) detailed account of a sleigh trip down the Ob River to Salekhard (Obdorsk) and return, Nov. 22 to Dec. 27, 1828, with observations on the depth of frozen ground, the material culture of the Ostyaks and Samoyeds; a 200-word Ostyak vocabulary; and notes on

the geology of the northern Urals obtained on a short side trip. Folded plates include (1) sketches of horse, reindeer, and dog harness, and sleigh; (2) map of Ob River from Tobolsk to the mouth, scale about 1:3,800,000, showing author's route.

v. 2: Tobolsk to Okhotsk. Includes (p. 248-303) observations on the physical geography, geology, and trade of the Yakutsk area, and notes on the Yakut natives, with a Yakut vocabulary of about 500 words.

v. 3: Okhotsk to Petropavlovsk. Includes (1) notes on the geography, geology, climate, and people of Okhotsk and vicinity, with a Tungus vocabulary of 136 words, based upon a sojourn, May 19 to July 28, 1829; (2) notes on weather and soundings during a trip across the Sea of Okhotsk, July 28 to Aug. 10; (3) detailed observations made in Kamchatka, Aug. 10 to Oct. 14, 1829 (p. 135-567). In Kamchatka, Erman traveled from the west coast up the Tigil River to Yelovka, down the Yelovka River, up the Kamchatka River by boat, through the southern part of the peninsula, to Petropavlovsk. En route and on short side trips he made detailed observations on physical geography, geology, and altitudes, particularly of Shiveluch and Klyuchevskaya volcanoes, botany, zoology, meteorology, fishing, gardening and ethnology, including vocabularies of Kamchadal dialects. *Part 2* (2 vols.) gives the methods and mathematical results of Erman's geographic and geomagnetic observations:

v. 1 includes computations and results of observations on latitude (stellar basis), longitude (lunar and chronometric basis), height above sea level (barometric basis), and magnetic declination.

v. 2 includes all geomagnetic inclination and intensity observations, and magnetic observations made at sea (Okhotsk).

Atlas vol. Natural history atlas includes (1) list and description of birds, with some plates; (2) list and description of mammals, especially minute description and plate of a sea otter from Sitka; (3) list, description, and plates of fishes; (4) general description of vegetation distribution in Kamchatka, with annotated list of 149 (including two new) species collected.

and one plate. Geographical atlas contains ten plates of landscape views, chiefly of Kamchatka mountains, and one plate of aboriginal figures including ground plan of a Kamchatka fish trap.

4662. ERMAN, GEORG ADOLF, 1806-1877. Travels in Siberia: including excursions northwards, down the Obi, to the Polar Circle, and southwards, to the Chinese frontier. Tr. from the German by William Desborough Cooley. London, Longman, Brown, Green, and Longmans, 1848. 2 v.: xi, 495 p.; ix, 536 p. fold. map.

Translation of part 1, narrative, of the original Berlin edition of *Reise um die Erde*, etc., 1833-48. The narrative of the portion of the journey from Berlin to Tobolsk is abridged. Part 2, scientific results, and the atlas volume, are omitted. Native vocabularies are omitted. Map of Siberia, showing route of author, is the only illus.

Discussion of river deposits as geomorphological factors in Siberia especially in the Gydan Bay region. Includes reference to permafrost conditions which permit the interlayer of vegetable remains to be cemented by freezing into lenses of considerable size. A large amount of perfectly preserved vegetable and animal remains were found in alluvial deposits of northern Siberia, including fresh-water molluscs and fish and animal bones. The preservation of carbonate salts in the frozen sea and river deposits is also due to permafrost.

4719. ESIPOV, VLADIMIR KONSTANTINOVICH, 1896-, and G. S. SLASTNIKOV. Observations on the juvenes of the char (*Salvelinus alpinus* L.) of Novaya Zemlya in an aquarium. (Arctica, 1934. No. 2, p. 153-59)

Observations on the growth, development and adjustment to changed conditions, of young char, taken from Novaya Zemlya rivers and kept in the aquarium, Sept. 1931-June, 1932. Summary in Russian. *Copy seen:* DLC.

ESIPOV, VLADIMIR KONSTANTINOVICH, 1896-, see also Burmakin, E. V., & others. Rybnyĭ promysel v severnoi chasti Obsoĭ guby. 1940.

4720. ESKIMO: COUNTRY. CUSTOMS, CATHOLIC MISSIONARIES. Churchill, Man. Published by the Oblate Fathers of the Hudson Bay Vicariate, 1945- (in progress). v. 1-18, May? 1945-Dec. 1949 (in progress). illus., maps. Published quarterly (irregular), in English and French editions. First three issues had title: *The link*.

A bulletin of the Oblates of Mary Immaculate in the Canadian Eastern Arctic, "which features articles and stories relating to the life and experiences of [the] missionaries . . . and giving interesting facts about the Eskimos and their country."

File seen: CaMAI.

4721. ESMARK, BIRGITHE. Land and freshwater Mollusca in the arctic regions of Norway. (Tromsø, Norway. Museum. Årshefter, 1882. Bd. 5, p. 93-104)

Notes on occurrence of thirty-five species from many parts of arctic Norway, which are in the collection of the Tromsø Museum.

Copy seen: DLC; DSI-M.

4722. ESSEN, C. L. von. Bidrag till kännedomen om Finlands Cryptinae. (Societas pro fauna et flora fennica. Meddelanden. 1909-1910, pub. 1910. Häfte 36, p. 115-26) *Title tr.*: Contributions to the knowledge of Cryptinae of Finland.

Contains a systematic list of fifty-three species of hymenopterous insects of family Cryptinae with data on

distribution in Finland, including arctic regions.

Copy seen: MH

4723. ESTEP, GERALD A. Chignik (Alaska sportsman, Sept. 1938. v. 4, no. 9, p. 14-15, 18, 20, illus.)

Description of this village on Alaska Peninsula, its people, salmon canneries and traps, and natural beauties.

Copy seen: DLC.

4724. ESTEP, GERALD A. Skeleton on the shore. (Alaska sportsman, Jan. 1940. v. 6, no. 1, p. 10-11, 25, illus.)

Story of the schooner *Joseph Pulitzer*, which carried mail in Alaska waters, 1917-20, and grounded at Chignik on the Alaska Peninsula.

Copy seen: DLC.

4725. ESTRUP, HECTOR FREDERIK JANSON, 1794-1846. Nogle bemaerkninger angaaende Grönlands Österbygd. Kjöbenhavn, Andreas Seidelin, 1824. 60 p. Reprinted from Skandinaviske litteratur-selskab. Skriffter. Bd. 20, p. 243-300. *Title tr.*: Some remarks concerning Greenland's Österbygd.

Notes existence of manuscripts (dealing with Greenland and plans for its rediscovery) of unknown authorship in the Royal Library at Dresden, 1817; connects the mss. with a traitorous scheme of a government official, Paul Juel, for an expedition to rediscover Greenland, to the advantage of a foreign prince; discusses probable situation of Österbygd, (the Norsemen's "east settlement" on the West Greenland coast).

Copy seen: NN.

4726. ETHERIDGE, ROBERT, 1819-1903. Catalogue of pebbles and minerals dredged by Mr. Gwyn Jeffreys. Preliminary report of the biological results of a cruise in H.M.S. "Valorous" to Davis Strait in 1875. (Royal Society of London. Proceedings, June 1876. v. 25, p. 229)

Includes two Davis Strait stations.

Copy seen: DLC.

4727. ETHERIDGE, ROBERT, 1819-1903. Palaeontology of the coasts of the arctic lands visited by the late British expedition under Captain Sir George Nares. (Geological Society of London. Quarterly journal, Aug. 1878. v. 34, p. 568-639, 5 plates, fold. table)

Contains a discussion of general correlation and the American affinities, and descriptions of about ninety fos-

sil, marine invertebrate species, with locations and a table showing geographical distribution arranged by latitude, from the Ellesmere Island coast of Kane Basin north through Robeson Channel. *Copy seen:* DGS.

4728. **ETHERIDGE, ROBERT**, 1819-1903. Remarks on the geological collection made by Captain A. H. Markham. (In: Markham, Sir A. H. A polar reconnaissance, 1879, pub. 1881. Appendix G. p. 349-50)

Notes on the correlation of Carboniferous fossils found on Novaya Zemlya with those of arctic North America, Franz Josef Land and West Spitsbergen.

Copy seen: DLC; NNStef.

4729. **ETHNOGEOGRAPHIC BOARD**, Washington, D. C. Survival on land and sea. Prepared for the United States Navy by the Ethnogeographic Board and the staff of the Smithsonian Institution, with contributions by the Bureau of Aeronautics and Bureau of Medicine and Surgery. United States Navy. [Washington] Publications Branch, Office of Naval Intelligence, United States Navy, 1944. cover-title, iii, 187 p. illus., diagrs. double map on p. 2-3 of cover.

Contents include chapter 7 (p. 132-68), The Arctic, with sections on signal fire, fire making, shelter, carbon monoxide poisoning, cooking, water, food including edible plants, roots, fungi and lichens. *Copy seen:* DLC.

4730. **ETTE, HENRY**. "Argonauternes gyldne skind"; hvordan seksti ishavsgaster robbede 10.000 pelse i Nordishavet paa 5 maaneder; Norges største sael- og hvalfangst-damper "Viking" tog aar 1900, af Henry Ette. 30 aars nordligt liv; Ishavet—Spitsbergen—Østgrønland—Island—Faerøerne. København, Ettes forlag, 1930. 47, [1] p. illus. (incl. facsim.) plates, port. *Title tr.:* "The golden fleece of the Argonauts." How sixty polar seafarers took 10,000 pelts in arctic waters in five months; the trip of the Norwegian sealing and whaling steamer *Viking* in the year 1900. Thirty years' of life in the North. The Arctic Ocean, Spitsbergen, East Greenland, Iceland, The Faroes.

Contains accounts of sealing and whaling expeditions from 1900 to 1930,

in particular the expedition in the *Viking*, 1900, and in the *Samson* (later Byrd's *City of New York*), 1900 and 1908; trips to Iceland, Jan Mayen, East Greenland, West Spitsbergen, etc.; data on seals, whales, sealing methods, catch, prices; reminiscences of thirty years' sailing in arctic waters, with comment on weather, ice, etc.

Copy seen: DLC; NN.

4731. **ETTE, HENRY**. Et dansk havfiskeri. København. Ettes forlag, 1930. 47 p., front., illus., table. *Title tr.:* A Danish deep sea fishery.

Contains the author's reminiscences as a deep sea fisherman, seal and whale hunter; data on the fishery at The Faroes, the species of fish, fish catch and fishing seasons at The Faroes and Greenland; points out necessity of having fishing stations in Greenland waters. Includes criticism of the Norwegian claims to sovereignty over East Greenland and also of Denmark's failure to establish a colony in northeast Greenland, settled by West Greenland Eskimos.

Copy seen: NN.

4732. **ETZEL, ANTON von**, 1821-1870. Grönland geographisch und statistisch beschrieben. Stuttgart, J. G. Cotta, 1860. xiv p., 1 l., 665 p.

A compilation based on the works of H. J. Rink and translated from Danish into German, by Anton von Etzel. The five sections cover history, physical geography, economic geography (the sea, vegetation, animal life and minerals as used by human beings), the people (material culture), and topographic-statistical descriptions (including full lists of plants and animals, minerals, administration, missions, regional geography, and production of all kinds).

Copy seen: DLC; NNStef.

4733. **E U L E R-CHELPIN, ASTRID MARIA (CLEVE)**, 1875- . Beiträge zur Flora der Bären-Insel. I. Die Diatomeen. Stockholm, P. A. Norstedt, 1900. 25 p. (Svenska vetenskapsakademien. Handlingar. Bihang, bd. 26, afd. 3, no. 10) *Title tr.:* Contributions to the flora of Bear Island. I. Diatoms.

List, with synonymy, localities and remarks on the specimens collected during the Swedish Expedition to Bear Island in 1899.

Copy seen: DLC.

4734. **E U L E R-CHELPIN, ASTRID MARIA (CLEVE)**, 1875- . Coscino-

disci et Thalassiosirae Fennosueciae. Eine kritische Übersicht. (Botaniska notiser, 1942, häfte 3, p. 231-78, illus.) **Title tr.:** Species of *Coscinodiscus* and *Thalassiosira* of Fennoscandia. A critical survey.

Contains a critical review of marine and fossil diatoms of the genera *Coscinodiscus* and *Thalassiosira*, based chiefly on material from Baltic Sea, Norwegian coast and White Sea (Kandalaksha), with keys to the sections and species, descriptions of numerous new forms, critical notes and enumerations of forty-two species, including many native to White and Greenland Seas; bibliography (30 items).

Copy seen: MH-A.

4735. EULER-CHELPIN, ASTRID MARIA (CLEVE), 1875- . New contributions to the diatomaceous flora of Finland. Uppsala & Stockholm, Almqvist & Wiksell, 1915. 81 p. 4 plates. (Arkiv för botanik, 1915-1917, pub. 1915. Bd. 4, no. 9)

Contains a systematic enumeration of about two hundred seventy-five species of marine and fresh-water diatoms, most of them fossil species of the Litorina epoch from the Knazhaya and Kuodajäroenpää region in Russian Karelia, near the head of Kandalaksha Bay. Includes descriptions of numerous new species and data on the present-day distribution in the arctic regions.

Copy seen: MH.

4736. EULER-CHELPIN, ASTRID MARIE (CLEVE), 1875- . Skogsträdens höjdgranser i trakten af Stora Sjöfallet. (Svensk botanisk tidskrift, 1912. Bd. 6, häfte 3. p. 496-509) **Title tr.:** The upper limit of the woody vegetation in Stora Sjöfallet.

Contains a study of the upper limit of the woody vegetation in the mountains of Stora Sjöfallet in Torne Lappmark, northern Sweden.

Copy seen: MH.

4737. EULER-CHELPIN, ASTRID MARIA (CLEVE), 1875- . Våra sjöars *Melosira*-plankton. (Botaniska notiser, 1938, häfte 1-3, p. 143-63, plate 1) **Title tr.:** *Melosira* plankton of Swedish lakes.

Contains critical notes on three species and several forms of the diatom *Melosira*, occurring in the fresh-water plankton of Sweden, including *M.*

italica found near Tankapirtti, Finnish Lapland. **Copy seen:** MH-A.

4738. EVANS, ALEXANDER WILLIAM, 1868- . Hepaticae collected by William A. Setchell in northern Alaska. (Zöe, Nov. 1900-Jan. 1901. v. 5, p. 129-32)

Results of the University of California Botanical Expedition to Alaska, 1899, on which collections were made mainly in Unalaska Island, with a few specimens from St. Michael and a few from Cape Nome. Author gives list, with localities, of twenty-three species (two described) of liverworts, bringing the total for Alaska (then) to eighty-five species.

Copy seen: DLC.

4739. EVANS, ALEXANDER WILLIAM, 1868- . List of Hepaticae found in the United States, Canada and arctic America. (Bryologist, Oct. 1940. v. 43, p. 133-38)

List, without indication of locality, of four hundred sixty species belonging to one hundred fourteen genera of liverworts.

Copy seen: DA.

4740. EVANS, ALEXANDER WILLIAM, 1868- . Notes on the Hepaticae collected in Alaska. Papers from the Harriman Alaska Expedition. V. (Washington Academy of Sciences. Proceedings, Oct. 1900. v. 2, p. 287-314, 3 plates) Reprinted, 1904, as *Hepaticae of Alaska*, in Cardot, J., and others. Cryptogamic botany. Harriman Alaska series. v. 5, p. 339-72.

List, with localities, some descriptions, and notes on distribution, of sixty-three liverworts, of which thirty-eight are recorded from Alaska for the first time.

Copy seen: DLC.

4741. EVANS, ALLEN ROY. Meat; a tale of the reindeer trek (1929-1935). London, Hurst & Blackett, Ltd. [1935] 288 p. 8 plates, sketch map. Another edition (without illustrations was published by McClelland & Stewart, Ltd., Toronto, 1935. American edition was published under title: *Reindeer trek*, by Coward McCann, New York, 1935 (5 p. 1, 269 p.)

Journalist's story of the 1800-mile drive of three thousand reindeer from Buckland Bay, Kotzebue Sound across Alaska and the Yukon to the Mackenzie delta region.

Copy seen: CaOM; DLC.

4742. EVANS, EDWARD, and WILSON STURGE. Notes on the birds of western Spitzbergen as observed in 1855. (Ibis, Apr. 1859. v. 1, p. 166-74)

The authors made a natural history, and adventure trip in the summer of 1855, on a Norwegian fishing vessel, and relate here their observations on sixteen species of birds seen en route and on West Spitzbergen.

Copy seen: DSI-M.

Contains: Appeal to apply the Marxist method of dialectical materialism to the study of permafrost.

Copy seen: DLC.

4744. EVE, ARTHUR STEWART, 1862- . Northern lights. (Smithsonian Institution. Annual report, 1936, pub. 1937. p. 145-60, illus., 5 plates)

"A lecture delivered before the Royal Institution of Great Britain . . . Feb. 7, 1936. Reprinted . . . with slight alterations, from the pamphlet of the Royal Institution, and including additions to the text and illustrations published in Nature, v. 137, no. 3472, May 16, 1936."

Contains a general discussion of the auroras in relationship to other physical phenomena in the upper atmosphere.

Copy seen: DLC.

EVERETT, Mrs. DAN, 1869-1929, see WAID, EVA CLARK, 1869-1929.

4745. EVERLING, A. E. Ob otkrytii ostrova Uedineniya kapitanom E. Iogannesenom. (Severnii morskoi put', 1939. No. 12, p. 5-25, map, diagrs.) *Title tr.*: On the discovery of the Uyedineniya Island by Captain E. Johannesen.

An account of the discovery of the island (about 77°28'N. 82°28'E. in Kara Sea) and a discussion of original error in its location on maps.

Copy seen: DLC.

4746. EVERMANN, BARTON WARREN, 1853-1932. Eighteen species of birds new to the Pribilof Islands, including four new to North America. (Auk, Jan. 1913. v. 30, p. 15-18)

Based on field observations of naturalists assigned to the islands by the U. S. Bureau of Fisheries, 1910-11.

Copy seen: DSI-M.

4747. EVERMANN, BARTON WARREN, 1853-1932. The northern fur-seal problem as a type of many problems of marine zoology. (California. University. Scripps Institution of Oceanography. Bulletin, 1919. No. 9, p. 13-26)

Review of the international controversy over Bering Sea sealing, and an analysis of the failures of all tribunals, conferences, and U. S. government control measures to meet the scientific requirements of the problem; with a few notes on the biology of the herds.

Copy seen: DLC.

4748. EVERMANN, BARTON WARREN, 1853-1932. Report on inquiry respecting food-fishes and the fishing grounds. (U. S. Fish and Wildlife Service. Report of the Commissioner of Fisheries, 1904, pub. 1905. p. 81-162)

Contents include: Alaska salmon investigations, p. 87-102 (notes on the salmon, methods of fisheries, canning and salting, value, protection recommendations). Fishes of the Yukon River, p. 102 (nine species found in its headwaters in Yukon Territory).

Copy seen: DF.

4749. EVERMANN, BARTON WARREN, 1853-1932, and E. L. GOLDSBOROUGH. A check list of the freshwater fishes of Canada. (Biological Society of Washington. Proceedings, Dec. 1907. v. 20, p. 89-119)

List, with records of occurrences in all of Canada, of one hundred forty-five species of fishes, and a bibliography (about 80 items).

Copy seen: DSI-M.

4750. EVERMANN, BARTON WARREN, 1853-1932, and E. L. GOLDSBOROUGH. The fishes of Alaska. (U. S. Fish and Wildlife Service. Bulletin of the U. S. Fish Commission, 1906, pub. 1907. v. 26, p. 219-360, 64 text figs., 29 plates) U. S. Bureau of Fisheries documents no. 624.

Based on observations made during an investigation (by a special commis-

sion appointed by the Commissioner of Fisheries) of the salmon fisheries of Alaska, 1903, and on all species previously recorded, as well as on Alaskan specimens in the U. S. National Museum. A list, with notes and locations, of two hundred eighty-eight (including, with descriptions, eight new) species of fishes, taken in waters from Puget Sound to the Arctic Ocean; a table showing distribution in south-eastern and central Alaska, Bering and the arctic seas; with a bibliography.

Copy seen: DF.

4771. EXPÉDITIONS POLAIRES FRANÇAISES. EXPÉDITION ARCTIQUE, 1948. Publications [Paris] 1948-49. 8 v. illus., tables, diagrs. (part fold.)

The French polar expeditions were organized in Oct. 1947 by Paul-Émile Victor for scientific study of the north and south polar regions. One party under A.-F. Liotard went to Adelaide Land, Antarctica, in Nov. 1948. The Arctic Expedition under P. E. Victor spent five months on the Greenland icecap, May-Oct. 1948, as a preliminary expedition in preparation for a two-year project beginning in 1949. The preliminary expedition to Greenland established three camps, one on the inland ice, east of Equip-Sermia, 69°46' N. 50°15'W. where research was carried out in glaciology, geophysics, meteorology, geomagnetism, gravity, and geology; another group studied human geography of West Greenland, particularly in the Disko region.

Description of the new iron mining development in the Labrador-Quebec boundary area, about 55°N. 67°W., the companies, geology of the region, physiography, the various local deposits, physical and chemical analysis of the ore and ore genesis.

Copy seen: DA; DSI-M.

4782. FAESTER, KNUD, 1887- . Effect of the climatic amelioration of the past decade on the autumn change of coat of the arctic fox in Greenland. København, C. A. Reitzel, 1945. 18 p., 2 l. incl. tables. 2 fold. diags. (Meddelelser om Grønland, Bd. 142, nr. 2)

Based on fox skins sent to Denmark from West Greenland (except Thule District), 1919-39, the great majority of foxes having been trapped in the Egedesminde District. During the latter part of this period a constantly increasing number proved to be animals with an imperfect winter pelage ("summer skins"). The author makes analysis of fluctuations founded on graphic consideration of catches, and possible factors causing fluctuation: epizootics, nutrition, precipitation, and temperature.

Editors: 1900-09, Fritz Römer and Fritz Schaudinn; 1910-33, August Brauer and Walther Arndt. *Title tr.:* Arctic fauna; a summary of the arctic faunal forms, especially of the Spitsbergen region, based on results of the German Expedition to the Arctic Ocean, 1898.

The expedition was a private undertaking by Römer and Schaudinn, in the steamer *Helgoland*, June-Sept. 1898, to carry out zoological research in the waters off Svalbard and along the Murman coast. These published results, based on the expedition collections and observations, and on previ-

ously published arctic literature, seek (1) to catalog all known arctic faunal forms, with literature references, (2) to compare the fauna within various arctic regions, in respect to the problem of circumpolarity, and (3) to compare arctic with antarctic forms.

Geologiia i poleznye iskopaemye Severa SSSR. Trudy, 1936. T. 2, Poleznye iskopaemye, p. 196-211) *Title tr.:* Geology of the Verkhoyansk Range.

Report on recent geological investigations of the region: geological sketch, data on orography, tectonics, and igneous rock.

Copy seen: DLC.

4848. FEDORTSEV, V. A. Kigilakhki. (Problemy Arktiki, 1938, no. 1, p. 5-12, illus., map, diagrs.) *Title tr.:* "Kigilakhki".

A description of craggy rock ledges projecting above flat-topped mountains or plateaus in several regions of Yakutia.

Copy seen: DLC.

4849. FEDORTSEV, V. A. Novosti iz fano-indigirskogo kraia. (Vsesoiuznoe

geograficheskoe obshchestvo. Izvestiia, 1935. T. 67, vyp. 5, p. 588-98, map) *Title tr.:* News from the Yana-Indigirka region.

A geomorphological description of the little-known mountain ranges in the Yana and Indigirka River region, based on observations made during a journey in 1933. *Copy seen:* DLC.

4850. FEDORTSEV, V. A. O sledakh drevnego gornogo rel'efa v Indigirskom krae. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1939. T. 71, vyp. 9, p. 1334-38, diagrs.) *Title tr.:* Traces of an ancient mountain relief in the Indigirka region.

Description and discussion of the geological formation at the mouth of the Indigirka River.

Copy seen: DLC.

4851. FEDORTSEV, V. A. O vechnoi merzlotе i naleidiakh v severovostochnoi Iakutii. (Akademiia nauk SSSR. Komissii po izucheniiu vechnoi merzloty. Trudy, 1937. T. 5, p. 93-104) *Title tr.:* Permafrost and naled' in northeastern Yakutia.

Contains results of observations during geological investigations of the state of permafrost in the area north of the Aldan River and east of Lena. Temperature tables of the ground, obtained in two shafts and a deep pit are given. The second part of the work deals with the occurrence of naled' (both ground and river types), elevation as a factor in their formation, conditions of their formation, and a detailed description of one very large naled'.

Copy seen: DLC.

4852. FEDORTSEV, V. A. Rel'ef nizovii Indigirki. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1938. T. 70, vyp. 4-5, p. 549-58, map) *Title tr.:* The relief of the lower Indigirka River.

Geomorphological description of the mountainous region of the lower Indigirka basin, based on the author's explorations of the Polousnyy (69°43'N. 144°20'E.) and Momskiy (65°36'N. 147°16'E.) Ranges, Alazeyskoye Plateau (69°N. 149°E.), Abyiskaya (68°N. 145°E.) coastal lowlands, and adjacent regions. Includes data on the Indigirka river system, its main and secondary tributaries. Bibliography (8 items).

Copy seen: DLC.

Contains data on cedar (*Pinus cembra*, var. *sibirica*), a rare tree for Solovetskiy Islands, with dendrological and phenological notes.

Copy seen: NNA.

4859. FEDULOV, P. E. K voprosu ob organizatsii magnitnykh rabot v Arktike. (Severnyi morskoi put', 1935, No. 3, p. 75-80) *Title tr.:* On the question of the organization of magnetic work in the arctic regions.

General discussion of the need for reorganization of magnetic research in U.S.S.R., problems of training personnel and changes suggested for future work programs. Summary in English.

Copy seen: DLC.

4860. FEDULOV, P. E. Magnitnye nabludeniia v ekspeditsii "Sedova" v 1934 godu. (Leningrad. Vsesoiuznyi arkticheskii institut. Trudy, 1937. T. 83, p. 21-33, 2 illus.) *Title tr.:* Magnetic observations taken by the *Sedov* expedition, 1934.

Report on magnetic observations on Kara Sea taken from fourteen points on land and ice.

Copy seen: DLC.

4861. FEDULOV, P. E. O postanovke magnitnoi informatzii v Arktike. (Severnyi morskoi put', 1937. No. 8, p. 72-76, diagr.) *Title tr.:* On the magnetic information in the Arctic.

Discussion of the necessity of unified information service on magnetic conditions and some features of the preliminary code offered by a commission of the Hydrographic Office of the Chief Administration of the Northern Sea Route.

Copy seen: DLC.

4862. FEDULOV, P. E. Opredelenie elementov zemnogo magnetizma na dreifuushchikh l'dakh. (Severnyi morskoi put', 1937. No. 6, p. 7-11) *Title tr.:* Determination of elements of terrestrial magnetism on the drifting ice.

Discussion of experience, instruments, and possibilities of deriving data from drifting ice.

Copy seen: DLC.

FEILBERG, HENNING FREDERIK, 1831-, see Thalbitzer, W. C., & H. Thuren. Dans i Grønland. 1911.

4863. FEILDEN, HENRY WEMYSS, 1838-1921. Arctic molluscan fauna. (Zoologist, Oct. 1877. Ser. 3, v. 1, p. 435-40)

A reply to remarks on the small number of shells brought back by the British Arctic Expedition, 1875-76, from waters north of Smith Sound. The author, naturalist to the expedition, discusses the collection of other voyages and the probable distribution of Mollusca from Davis Strait to the polar sea.

Copy seen: DSI-M.

4864. FEILDEN, HENRY WEMYSS, 1838-1921. The flowering plants of Novaya Zemlya. (Journal of botany, 1898. v. 36, p. 388-96, 418-36, 468-74)

Contains the botanical results of the author's two visits to Novaya Zemlya and adjacent regions (Vaygach and Dolgiy Islands) during the summers of 1895-96, with a list of one hundred sixty-eight flowering plants with localities and another systematic list of one hundred ninety-five phanerogams and four vascular cryptogams with their zonal distribution from 69° to 77°N.

Copy seen: MH-A.

4865. FEILDEN, HENRY WEMYSS, 1838-1921. List of birds observed in Smith Sound and in the Polar Basin during the Arctic Expedition of 1875-76. (Ibis, Oct. 1877. Ser. 4, v. 1, p. 401-412)

Results of observations and collections made by Nares' British Arctic Expedition between 78° and 83°N. An annotated list of twenty-four species

of birds. Condensed version appears as Appendix no. 3, in Sir G. S. Nares, *Narrative of a voyage to the polar sea during 1875-6*, etc., pub. 1878, q.v.

Copy seen: DSI-M.

4866. FEILDEN, HENRY WEMYSS, 1838-1921. Notes on the birds. (*In:* Markham, Sir A. H. A polar reconnaissance 1879, pub. 1881. Appendix B. p. 333-39)

Annotated list of twenty-six species from Barents Sea and Novaya Zemlya, with complete list (as then known) for Novaya Zemlya and Vaygach.

Copy seen: DLC; NNSStef.

4867. FEILDEN, HENRY WEMYSS, 1838-1921. On the Mammalia of North Greenland and Grinnell Land (Zoologist, Aug.-Sept. 1877. Ser. 3, v. 1, p. 313-21, 353-61)

Observations of the naturalist of the British Arctic Expedition, 1875-76, made while the *Alert* and *Discovery* were frozen in, in the waters of north-east Ellesmere Island. Notes on the appearance, occurrence and habits of fourteen species, including the Polar Eskimo, polar bear, fox, hare, the lemming, musk ox, reindeer, two seals, walrus and two whales. Extended version appears as Appendix no. 2, in Sir G. S. Nares, *Narrative of a voyage to the polar sea during 1875-6*, etc., pub. 1878, q.v.

Copy seen: DSI-M.

4868. FEILDEN, HENRY WEMYSS, 1838-1921. On the zoology of Captain Markham's voyage to Hudson's Bay in the summer of 1886. (Norfolk and Norwich Naturalists' Society. Transactions, 1887. v. 4, p. 344-53)

Based on A. H. Markham's journal of the cruise of the Canadian ship *Alert*. Notes on the localities where observations were made (Big and Digges Islands in Hudson Strait, Churchill, and York Factory); and annotated lists, with localities, of six mammals from the islands, six mammals from the Strait, thirty-eight species of birds from the islands and York Factory, and three fish species.

Copy seen: DGS.

4869. FEILDEN, HENRY WEMYSS, 1838-1921. Some remarks on interglacial epochs, in reference to fauna and flora existing at the present day in the northern hemisphere between the parallels of 81° and 83°N. (Royal Dublin

Society. Scientific proceedings, Oct. 1878. New Ser., v. 2, p. 42-44)

Based on the author's observations in Grinnell Land during the British Arctic Expedition, 1875-76. Discussion of the sharp difference between Ellesmere Island and North Greenland, in regard to glaciation and fauna and flora, indicating that temperature alone, cannot account for the difference, but rather the amount of moisture in the atmosphere and the land-mass as a condenser.

Copy seen: DLC.

4870. FEILDEN, HENRY WEMYSS, 1838-1921. Some remarks on the natural history of Franz-Josef Land. (Norfolk & Norwich Naturalists' Society. Transactions, 1880-81, pub. 1881. v. 3, p. 201-211)

Paper read before the Society Dec. 1880, containing general remarks on the history of exploration, the geology, vegetation, mammals and birds of Franz Josef Land.

Copy seen: DGS.

4871. FEILDEN, HENRY WEMYSS, 1838-1921. A sub-aequeous moraine. (Glaciologists' magazine, Aug. 1894. v. 2, p. 1-5)

Description of the Green Harbour Glacier moraine, visited by the author in 1894.

Copy seen: DGS.

4872. FEILDEN, HENRY WEMYSS, 1838-1921, and C. E. DRANCE. Geology of the coasts of the arctic lands visited by the late British expedition under Captain Sir George Nares. (Geological Society of London. Quarterly journal, Aug. 1878. v. 34, p. 556-67, map)

A discussion of the age of the rocks and of the glacial geology along the shores of Ellesmere Island, from Smith Sound northward, and around to Challenger Mountains.

Copy seen: DGS.

4873. FEILDEN, HENRY WEMYSS, 1838-1921, and J. G. JEFFREYS. The Post-Tertiary beds of Grinnell Land and North Greenland. (Annals and magazine of natural history, Dec. 1877. Ser. 4, v. 20, p. 483-94)

Supplementary remarks to J. G. Jeffreys' paper *The Post-Tertiary fossils*, 1877, q.v.; Feilden here notes the structure and extent of the recent deposits, and the mammalian and other remains found in them; and Jeffreys lists fifteen additional fossil molluscs, and four recent species, another coral and another algae, from the British Arctic Expedition, 1875-76.

Copy seen: DSI-M.

4874. FEILDEN, HENRY WEMYSS, 1838-1921, and T. G. BONNEY. Notes on the glacial geology of arctic Europe and its islands. Part I.: Kolguev Island. (Geological Society of London. Quarterly journal, Feb. 1896. v. 52, p. 52-67)

Contains, by H. W. Feilden, a general description of the island and its geology, based on a ten-day visit in 1895, by a party of five.

Appendix: Bonney, T. G. Report on the erratic boulders from the Kolguev beds.

Copy seen: DGS.

4875. FEILDEN, HENRY WEMYSS, 1838-1921, and T. G. BONNEY. Notes on the glacial geology of arctic Europe and its islands. Part. II. Arctic Norway, Russian Lapland, Novaya Zemlya, and Spitsbergen. (Geological Society of London. Quarterly journal, Nov. 1896. v. 52, p. 721-47, illus.)

Contents include notes by H. W. Feilden on terrace-making in Kolguev Island, glacial geology of Kola Peninsula, general notes on Novaya Zemlya, brief mention of Franz Josef Land and Spitsbergen.

Appendix: Bonney, T. G. Report on specimens collected by Col. H. W. Feilden in arctic Norway, etc.

Copy seen: DGS.

land (N. of 76°N. lat.) collected by the "Danmark Expedition." Danmark-ekspositionen til Grønlands nordøstkyst, 1906-1908. Bd. 3, nr. 5. (Meddelelser om Grønland, 1917. Bd. 43, p. 135-45, plate)

Contains a list, with synonymy, descriptive notes and locations, of sixteen (including one new) species of soil fungi, from the Danmarks Havn region of Germania Land and Koldewey Island.

Copy seen: DLC.

4889. FERGUSON, MALCOLM STUART, 1908-. Notes on the arctic fairy shrimp, *Branchinecta paludosa* (Canadian field naturalist, May 1935. v. 49, p. 86-88)

Discussion of the distribution of this fresh-water crustacean, and identification of specimens from southern Baffin Island and from Churchill.

Copy seen: DLC.

4890. FERGUSON, MALCOLM STUART, 1908-, and N. T. MATTOX. Notes on Some Crustacea from Hudson Bay. (Canadian field naturalist, Mar. 1939. v. 53, p. 36-39)

Distributional notes on five fresh-water species from Nuvuk Islands.

Copy seen: DLC.

4891. FERGUSON, ROBERT, 1855-1935. Arctic harpooner, a voyage on the schooner Abbie Bradford, 1878-1879, by Robert Ferguson, edited by Leslie Dalrymple Stair, illustrated by Paul Quinn. Philadelphia, University of Pennsylvania Press, 1938. x p., 1 l., 216 p. illus. maps on lining-papers.

From the author's diary of a sixteen-month whaling voyage in Hudson Bay and Roes Welcome, during which the ship wintered at Marble Island; with chapters on whaling, hunting ashore, and Eskimo customs.

Copy seen: DLC; NNS Stef.

4892. FERGUSON, ROBERT BURG, 1920-. Observations on some aluminum fluoride minerals. (American mineralogist, May-June 1949. v. 34, p. 383-97)

Detailed descriptions of cryolite, cryolithionite, gearsutite, jarlite, propopite, ralstonite, and websterite from Ivigtut, Greenland; with a bibliography (12 items).

Copy seen: DGS.

FERGUSON, W., see Canada. Experimental Farms Service. Summary reports vegetable growers. 1945.

4893. FERGUSON, STERLING PRICE, 1868-. The aërological soundings. (In: Michigan. University. Greenland expeditions, 1926-1933. Reports, 1931. Pt. 1, p. 39-48, incl. 7 diagrs.)

Contains a statement of the apparatus and methods, and graphs of balloon runs (1926) in horizontal projection.

Copy seen: DLC.

4894. FERGUSON, STERLING PRICE, 1868-. Direction and velocity of the wind from observations of pilot-balloons and from the anemograph at the camp on the Maligiakfjord (Camp Michigan) from July to September, 1926. (In: Michigan. University. Greenland expeditions, 1926-1933. Reports, 1931. Pt. 1, p. 69-70)

Contains table of daily observations made at 66°55'N. 52°40'W.

Copy seen: DLC.

4895. FERGUSON, STERLING PRICE, 1868-. Free atmosphere data from ascensions of balloons sondes at Camp Michigan, 1926. (In: Michigan. University. Greenland expeditions, 1926-1933. Reports, 1931. Pt. 1, p. 241)

Contains results of two ascensions, made in August at the station on Maligiak Fiord, Holsteinsborg District, West Greenland.

Copy seen: DLC.

4896. FERGUSON, STERLING PRICE, 1868-. Heights, azimuths (directions), and velocities of pilot-balloons at Camp Michigan from July 22 to September 3, 1926. (In: Michigan. University. Greenland expeditions, 1926-1933. Reports, 1931. Pt. 1, p. 49-67)

Contains tables of data for a locality (at 66°55'N. 52°40'W.) on Maligiak Fiord.

Copy seen: DLC.

4897. FERGUSON, STERLING PRICE, 1868-. Observations of clouds, in detail, at Camp Michigan, July to September, 1926. (In: Michigan. University. Greenland expeditions, 1926-1933. Reports, 1931. Pt. 1, p. 251-59)

Contains tabular data of daily observations taken at the camp on Maligiak Fiord, Holsteinsborg District, West Greenland.

Copy seen: DLC.

4898. FERGUSON, STERLING PRICE, 1868-. Prevailing kind and total amount of cloud at Camp Michigan, July to September, 1926. (In:

Michigan. University. Greenland expeditions, 1926-1933. Reports, 1931. Pt. 1, p. 245-49)

Contains tabular data of daily observations taken at the camp on Mali-giak Fiord, Holsteinsborg District, West Greenland. **Copy seen:** DLC.

FERGUSON, STERLING PRICE, 1868-, see also Michigan. University. Greenland Expeditions, 1926-1933. Reports. 1931-41.

FERGUSON, STERLING PRICE, 1868-, see also Potter, D. M., & others. Atlas cloud types Mt. Evans. 1931.

4899. **FERNALD, ADELBERT.** Missionary dentistry among the Eskimos. (Harvard dental record, Jan. 1930. v. 4, p. 1-3)

Report to D. B. MacMillan on work done among Labrador Eskimos; with remarks on meat eaters' good teeth and mission Eskimos' poor teeth.

Copy seen: NNStef.

4900. **FERNALD, MERRITT LYN-DON, 1873-1950.** Baffin Land plants collected by the MacMillan Expedition, 1922. (Rhodora, July 1923. v. 25, p. 111-14)

List, with brief field notes, of fifty-seven flowering plants from Bowdoin Harbor, southwestern Baffin Island.

Copy seen: DA.

4901. **FERNALD, MERRITT LYN-DON, 1873-1950.** *Draba* in temperate northeastern America. (Rhodora, July-Nov. 1934. v. 36, p. 241-61, 285-305, 314-44, 353-71, 392-404, 30 plates) Contributions from the Gray Herbarium of Harvard University. no. 105.

Detailed taxonomic study, with keys, distribution, descriptions and field notes, of this genus of herbs which occurs in Labrador, northern Quebec, around Hudson Bay and Baffin Island, with reference throughout to Greenland species.

Copy seen: DA.

4902. **FERNALD, MERRITT LYN-DON, 1873-1950.** Four rare plants from Alaska. (Canadian field naturalist, Sept. 1899. v. 13, p. 149)

Northern European and Asiatic species found in the hills at the headwaters of the Susitna River and along the Kuskokwin River. **Copy seen:** DLC.

4903. **FERNALD, MERRITT LYN-DON, 1873-1950.** Some critical plants

of Greenland. (Rhodora, 1934. v. 36, p. 89-97, illus., plates 279-280, text maps)

Notes on taxonomy, nomenclature and distribution, of six species of flowering plants from North Greenland. These notes were occasioned by the receipt at the Grey Herbarium of specimens from the Crocker Land Expedition, 1913-17.

Copy seen: DA.

4904. **FERNALD, MERRITT LYN-DON, 1873-1950.** Some plants from the northwest shore of Hudson Bay. (Canadian field naturalist, Sept. 1899. v. 13, p. 147-49)

List of thirty species collected by George Comer, 1893-94, at Depot Island (63°55'N.) and Whale Point (64°30'N.).

Copy seen: DLC.

4905. **FERNALD, MERRITT LYN-DON, 1873-1950.** Three *Antennarias* from Greenland. (Rhodora, Nov. 1931. v. 33, p. 222-24)

Description of two new herb species, *A. affinis* and *A. brevistyla*, and notes on *A. labradorica* of West Greenland.

Copy seen: DA.

4906. **FERNALD, MERRITT LYN-DON, 1873-1950, and J. D. SORNBORGER.** Some recent additions to the Labrador flora. (Canadian field naturalist, July 1899. v. 13, p. 89-107)

List, with localities, and description of one new variety, of one hundred two species collected by the Bowdoin College Expedition, 1891, in the lake Melville region, and by J. D. Sornborger, 1892-97, along the coast as far north as Cape Chidley.

Copy seen: DLC.

4907. **FERNOW, BERNHARD EDWARD, 1851-1923.** The forests of Alaska. (American forests, Feb. 1902. v. 8 p. 66-70)

Discussion of the paucity of good timber forest in Alaska as a whole; the composition of the coastal forests; and (in general) the relation of climate to Alaska tree growth, and distribution.

Copy seen: DA.

4908. **FERNOW, BERNHARD EDWARD, 1851-1923.** Forests of Alaska. (In: Dall, W. H., and others. History, geography, resources. Harriman Alaska series, 1902. v. 2, p. 235-56, 9 plates, map)

Discussion of the forest characteristics of the interior and the coasts of Alaska in relation to the soils, physiog-

raphy and climate, and remarks on the economic aspects which then obtained.

Copy seen: DLC.

4909. FERRANDINI, RALPH A. At the end of the harpoon line. (Alaska life, Nov. 1945. v. 8, no. 11, p. 25-29, illus.)

Notes on the history of whaling, and on the present industry in Bering Sea, Gulf of Alaska and Arctic Ocean.

Copy seen: DLC.

4910. FERRANDINI, RALPH A. Harpooned courage. (Alaska sportsman, Mar. 1938. v. 4, no. 3, p. 10-11, 22, illus.)

Detailed account of the taking of a humpback whale in the Gulf of Alaska, by a vessel from Akutan whaling station.

Copy seen: DLC.

4911. FERRANDINI, RALPH A. They sing, dance and play. (Alaska sportsman, Nov. 1941. v. 7, no. 11, p. 8-9, 30, illus.)

Description of the Pribilof Islands Aleuts, their present-day conditions, U. S. Government aid, standard of morals and characteristics.

Copy seen: DLC.

Brief account of the Khibina expeditions organized as a special section of the Northern Scientific and Economic Expedition, 1920-1926, list of members and notes on the work of its different groups.

Copy seen: DLC.

4919. FERSMAN, ALEKSANDR EV-GEN'EVICH, 1883-1945, editor. Khibinskie i Lovozerskie tundry. T. 1: Marshruty. T. 2: Fiziko-geograficheskii ocherk—petrografiia—mestorozhdeniia. Moskva, 1925-28. 2 v. v. 1: 195, [3] p., 3 plates, 2 fold. maps, diagrs. v. 2: iv, 398 p., 4 plates, fold. map, diagrs. (Leningrad. Nauchno-issledovatel'skii institut po izucheniiu Severa. Trudy, vyp. 29 & 39) *Title tr.*: The Khibine and Lovozero Tundras. Part 1: Routes. Part 2: Physico-geographical description. Petrography. Formations.

Pt. 1: General report by the leader of the Khibina Expedition parties of the Northern Scientific and Economic Expeditions, 1920-26, whose purpose was the geochemical investigation of the two alkaline massifs, Umptek and Luyavvurt, in the central part of Russian Lapland. Year-by-year accounts of their work, conditions in the field, routes, index of geographic names, minerals and rocks.

Pt. 2, *contents tr.*: KUPLETSKII, B. A geographic sketch, relief and orography of Khibina and Lovozersk Tundras.

GLADTSYN, I. N. Geomorphological observations in Khibina Tundras.

KUPLETSKII, B. A petrographic sketch of Khibina Tundras.

FERSMAN, A. E., and others. A description of mineral ores in Khibina and Lovozero Tundras.

Maps: Pt. 1: map of Khibina Tundras, with routes of the expeditions 1920-23, contour interval 200 meters; map of Lovozero Tundras, with routes of the expeditions, contour interval 100 meters.

Pt. 2: map of the Khibina Tundras revised according to the work of the expeditions 1920-26, petrographic foundation given by B. M. Kupletskii, contour interval 100 meters. Each paper in Part 2 appears in this Bibliography under its author's name.

4938. FIALA, ANTHONY, 1871-1950. Fighting the polar ice, by Anthony Fiala, commander of the Ziegler Polar Expedition . . . with an introduction by W. S. Champ, and reports by William J. Peters, Russell W. Porter and Oliver S. Fassig. Illustrations from photographs and sketches by the author. Also nine, from paintings in colour by Russell W. Porter and J. Knowles Hare. New York, Doubleday, Page & Co., 1906. xxii, 296, [6] p. 108 plates (part col.) incl. ports., 3 maps (1 fold.). (The geographical library) Issued also in London, by Hodder & Stoughton, 1907.

Narrative of the Ziegler Polar Expedition, 1903-05, financed by William Ziegler, on which a thirty-five man party aboard the ship *America* proceeded to Rudolph Island, northernmost Franz Josef Land, where the ship was lost in the ice. Describes the party's three efforts to reach the North Pole over the ice, using pony and dog sledges; the wintering at Teplitz Bay, and (1904-05) at Cape Flora on Northbrook Island, and on Alger Island. Includes information on weather, ice and travel conditions, use and handling of the animals, and year-round nature of

Franz Josef Land. A closing section gives succinct and detailed notes on organization, planning personnel, equipment, food, clothing, ponies and dogs for expeditions in general.

Appendices: 1. Formation of sledge parties, with rations, etc.

2. Peters, W. J. Report of scientific work done. (gravity, tides, magnetism, aurora, meteorology, bathymetry, astronomy).

3. Porter, R. W. March from Cape Flora to Camp Abruzzi.

4. Fassig, O. S. Trip to the north-east coast of Greenland. (Relief or rescue party sent out from Norway to inspect stores on Shannon Island, left for the Ziegler Expedition, in 1901).

5. Winds and temperatures recorded at Camp Abruzzi, Rudolph Island, Sept. 1903 through Mar. 1904. (Daily mean and extremes.)

1940. FIEANDT, ALVAR von. Fiskarhalföns och on Kildins geologi. Helsingfors, 1912. 98 p. 6 plates, fold. map. (Fennia. 32, no. 7) *Title tr.*: On the geology of Fishery Peninsula and Kildin Island.

This paper represents the author's attempt to complete the research of two earlier geologists (W. Böttlingk and W. Ramsay) and his own observations made in 1909 on Rybachiy Peninsula (69°40'N. 32°40'E.) and Kildin Island, off the north coast of Kola Peninsula. He gives detailed descriptions of the sedimentary formations and their petrography, with a determination of their age, based on comparison with Varanger sediments; discussion of the disconformity which separates these from the Fennoscandia rocks of the mainland, and remarks on their

glacial geology. Summary in German, p. 93-96.

4978. **FINLAND. METEOROLOGISCHEN KESKUSLAITOS.** A magnetic survey of north Finland for the epoch 1915.5. By J. Keränen. Helsinki, 1924. 32 p. incl. tables, diagrs. (*Its:* Maamagneettisia tutkimuksia no. 11)

The results of magnetic measurements made during survey tours in the years 1912-1923 are reduced to the epoch 1915.5. Lines of equal horizontal intensity, isogonic lines and lines of equal vertical intensity are mapped for the epoch.

Copy seen: DLC.

4979. **FINLAND. METEOROLOGISCHEN KESKUSLAITOS.** Results of magnetic observations . . . in northern Finland, by J. Keränen. Helsinki. Published by the Central Meteorological Office of Finland.

Results for the years 1911-15 were issued 1917-18, in an unnumbered series. Results for 1916 were issued in 1921, as its *Maamagneettisia tutkimuksia*, no. 10. Results for 1917, 1918, 1922 and 1923 issued 1925, as its *Maamagneettisia tutkimuksia*, no. 12. 1913-15 contain results of magnetic surveys and field tours by J. Keränen. Isogonic, isoclinic and lines of equal horizontal intensity are mapped for each year. 1916-18, 1922-23 *pub.* 1921, 1925, contain results of irregular measurements during annual tours by J. Keränen in northern Finland. Isogonic, isoclinic and lines of equal horizontal intensity are drawn for 1916.

Meteorological yearbook for Finland.
Title-page and text in Finnish and
German.

Supersedes its: Observations météo-
rologiques, publiées par l'Institut météo-
rologique central de la Société des
sciences de Finlande, 1881/82-1899/-
1900, pub. 1893-97, 1904-10. The annual
volumes (for dates indicated) have
sections as follows:

Pt. 1. Meteorological observations,
1901-37, contains results of meteorologi-
cal observations made three times daily
at several stations north of 65°N., with
monthly and annual résumés.

Pt. 2. Precipitation observations,
1908-35, contains daily precipitation
amounts from the network of stations
north of 65°N., and in addition, 1936-
38, results of five-day snow depth and
density measurements.

Pt. 3. Aerological observations, 1932-
35, includes results of upper wind ob-
servations at two stations in the arctic
region.

File seen: DLC (1901-37, 1938 pt. 2).

4983. FINNIE, RICHARD, 1906-. An
arctic sled journey. (Canadian geo-
graphical journal, Feb. 1933. v. 6, p.
57-67, illus.)

Account (for the general reader) of
a trip along Coronation Gulf from Cop-
permine to the Krusenstern trading
post, during the author's wintering
(1930-31?) among the Copper Eskimos.
Includes a description of the prepara-
tion of sledges, clothing and food, of
dog handling and driving, and of the
building of a snowhouse.

4985. FINNIE, RICHARD, 1906-.
Canada moves north. (Canadian geo-
graphical journal, Nov. 1941. v. 23, p.
254-63 (incl. 2 p. of illus.))

A record of "social and economic
changes in the District of Mackenzie
from the inception of the fur trade to
the recent opening up of oil wells,
radium and gold mines." Contains
notes (in brief) on social welfare ad-
ministration for natives, the growth of
Yellowknife community, air transport,
modern communications, etc., in the
Mackenzie Basin.

Contains ornithological, ecological phenological notes on a northern singing warbler (*Phylloscopus borealis*), a rare bird for this region, found in Inari and Enontekis regions of Finnish Lapland and reported from various localities of Kola Peninsula. **Copy seen:** MH-A.

5002. FINNISH TOURIST ASSOCIATION. Lapland; short guide for tourists. [Helsinki, 1938] 113 p. illus., fold. map.

Contents: general section: chapters on relief, geology, climate, flora, fauna, population and economic life, Petsamo, gleanings from the history of Lapland, the Lapps, Tourist travel section: river trips, canoe routes, fishing, highways, communities and tourist inns, hiking routes, skiing fels, reindeer-travel, tourist routes; also instructions for equipment, clothing, compass deviation, regulations on hunting, fishing, and collecting; with a glossary of Finnish and Lapp topographical terms.

Map: Northern Finland, 65°-70°N., scale 1:1,000,000 shows roads, railroads,

paths, farms, villages, buildings, and national parks. **Copy seen:** CA:MAI.

5003. FINNMARK OMKRING 1700. Aktstykke og over sikter. Oslo, A. W. Brøgger, 1932-45. 3 bd. Bd. 1: ix, 343 p.; bd. 2: [2], p. 51-327, illus., plates IV-XXXVI; bd. 3: 363 [1] p. illus. (Oslo. Universitet. Etnografiske museum. Nordnorske samlinger, 1, 4, 7) **Title tr.:** Finnmark about 1700. Documents and surveys.

Series includes descriptions of population, living conditions, economy, and administration of Finnmark, Norway, based chiefly upon hitherto unpublished materials.

Contents: bd. 1, 1. hefte (p. 1-48). [Brendel] M. B. U. *To jordebøker fra 1694*. (Two land books from 1694):

Contains: 1 (p. 1-32) Knag, Niels, Matricul oc Beschrifvelse ofuer Findmarchen for Anno 1694. (Register and description of Finnmark in the year 1694). Includes brief descriptions of parishes and settlements of Finnmark, with lists of residents; census population summaries by parishes, showing separately the number of Norwegians and of Norwegian, Russian, and Swedish Lapps; and table of distances between localities.

2 (p. 33-48). Joerde-boeg og mandtal ofuer Nordmend og Finner udj Ost og-West Findmarchen Saa og Paa grentzte Finnerme for Anno 1694. (Land book and census of Norse men and Finns of east and west Finnmark on the Finnish borders). Lists and briefly characterizes border administrative divisions and localities, and states to which county taxes are paid by each community.

Hefte 2 (p. 44-140). Brendel, M. B. U., and O. Solberg. *Topografika 1683-1717*.

Contains 1 (p. 49-65). Øst-Finnmarkens beskrivelse. (Description of east Finnmark). Lists and briefly describes numerous localities, with distances from place to place.

2 (p. 66-77). Harøe, Christen Bertelsøn, Findmarchens beschrifvelse saa uit Jeg underschrefne hafner erfahrt A°1683. (Description of Finnmark which I have written in 1683). Lists, describes, locates, and classifies the settlements.

3 (p. 78-118). Westen, Thomas von. *Topographia ecclesiastica. 2. Del: Finnmarkia. 1717*. (Ecclesiastical topography. Part 2. Finnmark 1717). Lists

and classifies the ecclesiastical divisions and subdivisions of Finnmark, and notes the distribution and occupations of the people.

4 (p. 119-33). Ex topographia ecclesiastica Findmarkiae Thomas von Westen 1717. Lists the religious missionary centers, with the number of religious personnel and their stipends, and describes briefly the character of the population in the several centers.

5 (p. 134-40). Olsen, Isak. Finnernis afgudssteder. (Lappish heathen holy places). Lists and locates one hundred twelve holy places of the Lapps ("Finns"). Olsen was a schoolteacher and missionary in Finnmark 1703-1716.

Hefte 3, (p. 141-80). Solberg, O. L. *Lindinow-kommisjonen, 1685*. (The Lindenow Commission, 1685). Summarizes (1) the statements made at hearings held at various localities in Finnmark by the Finnmark Commission under the direction of Lindenow in 1685, dealing with fishing and trade conditions; (2) developments in the economic situation from 1687 to 1690. Includes discussion of salmon fishing and trade on the Tana River.

Hefte 4. Solberg, O. *Henrich Adelaer i Finnmark, 1690*, p. 181-328. Includes information on Finnmark conditions based upon the investigations into economic, administrative and political matters by a new Finnmark commission headed by Adelaer. Includes lists of individuals who appeared at the hearings, tables of fish trading accounts of individuals, lists of bills of goods brought to Finnmark; Sakregister, etc., (p. 329-43) contains indexes of subjects, personal names, place names, and Lappish sacrificial places, etc., in all the papers in bd. 1.

Bd. 2 (hefte 2-4) - 3. Solberg, O. *Lilienskiolds Speculum boreale*. (Lilienskiold's Northern mirror). A detailed description of Finnmark based upon observations and interviews in the field by Hans Hansen Lilienskiold, who in 1684 was appointed chief administrative official of Finnmark, and in 1698 completed the manuscript here published. Includes copies of his illustrations of landscapes, people, plants, and animals of Finnmark.

Contents: Hefte 2 (p. 51-168, 17 illus., 24 plates, incl. maps). *Description of the land and the Norse and Lapp people of Finnmark*, including physical

geography, climate, population statistics, social conditions, economic life, psychological character, beliefs, and superstitions. *Maps:* Two small-scale pictorial maps of northern Finnmark.

Hefte 3 (p. 171-232, 34 illus., 11 plates). *Description of the plant and animal life of Finnmark and adjacent waters*. Includes account of reindeer raising and sea and fresh-water fishing; illustrations of plants and birds; and detailed descriptions of sea-serpents, mermen, and mermaids from "reliable" observers. Determination of plant and animal species has been made by Jens Holmboe and Alf Wollebaek.

Hefte 4 (p. 235-327, plate). *Description of domestic and foreign trading and fishing agreements and regulations, past and present*, including particularly charters and agreements of Bergen and Trondheim companies for trade with Finnmark.

Bd. 3. *Lilienskiolds Speculum boreale II* (363 p., 8 illus., 7 plates).

Contains (1) description of the rivers and the foreign borders of Finnmark, with discussion of trade regulations and military defenses; (2) analysis of tax conditions and problems; (3) description of the whaling industry and salmon fishing in the rivers, including discussion of income and regulations; (4) historical account of the governmental seats and of duties and personnel of the chief administration of Finnmark, and description of Kiolnas Castle. *Copy seen:* DSL.

5004. FINSCH, OTTO, 1839-1917. *Reise nach West-Sibirien im Jahre 1876. Auf Veranstaltung des Vereins für die deutsche Nordpolarfahrt in Bremen unternommen mit Dr. A. E. Brehm und Karl Graf v. Waldburg-Zeil-Trauchburg von Dr. O. Finsch*. Berlin, E. Wallroth, 1879. xxiii, 663, [1] p. illus., 35 plates (incl. front.) 4 maps. *Title tr.:* Journey in western Siberia in the year 1876, undertaken by Dr. O. Finsch with Dr. A. E. Brehm and Karl, Count von Waldburg-Zeil-Trauchburg, under the direction of the Bremen Committee on the German Arctic Expedition.

Narrative of the west Siberian expedition sponsored by the Bremen Geographical Society. The expedition included a trip down the Ob' River, and a one-month trip in July and August from the Ob' delta across the taiga and

tundra northward almost to Kara Bay (Baydaratskaya Guba).

Includes observations on the landscapes, aboriginal and Russian peoples, and plant and animal life, with particularly detailed descriptions of the tundra and of the Ostyak physical characteristics, fishing and reindeer economy, and material culture. *Maps* include (1) region between the Ob' delta and Kara Bay, scale 1:1,000,000, showing route of expedition; (2) general map, scale about 1:27,000,000, showing entire route of expedition in Europe and Asia. List of scientific and other articles published to date on the expedition appears at end of book.

Copy seen: DLC.

5005. FINSCH, OTTO, 1839-1917. Zur Ornithologie Nordwest-Amerikas. (Naturwissenschaftlicher Verein zu Bremen. Abhandlungen, 1873. Bd. 3, p. 17-86) *Title tr.:* On the ornithology of north-west America.

This fully annotated list of one hundred thirteen species of birds is based on the collection in the natural history section of the Bremen Museum. It comprises mainly results of F. H. v. Kittlitz' work during the Litke world cruise in the *Seniavin*, 1827-29. The notes show records of occurrence as reported from the Western Union Telegraph Co. Expedition to Alaska, 1865-68. The area covered is Sitka, Kodiak, south coast of Alaska, especially the southern tip of Kenai Peninsula, the islands of Bering Sea, Aleutian Islands and west coast of Alaska.

5014. FISCHER, WILHELM, 1858-. Gephyreen der arktischen Meere. (Untersuchungsfahrt Reichsforschungsdampfers "Poseidon" in das Barentsmeer im Juni und Juli 1913) (Wissenschaftliche Meeresuntersuchungen, 1922, Neue Folge, Bd. 13, Abt. Helgoland, p. 229-46, illus., table) *Title tr.*: Gephyreans of the Arctic Ocean. (Research expedition of the research steamer *Poseidon* in Barents Sea, June and July 1913).

Based on the collections of Drs. Römer and Schaudinn in the *Olga* and *Helgoland*, 1898, in the Spitsbergen region, as well as those of the *Poseidon*, 1913. A list, with synonymy, localities, extended descriptions, and notes on variations, of the six species of marine worms found by the three vessels in Barents Sea, Svalbard waters and the sea around West Spitsbergen; a list, with circumpolar distribution of thirteen gephyreans known to occur in arctic seas; and a bibliography.

Copy seen: DLC.

5015. FISCHER, WILHELM, 1858-. Die Sipunculiden, Priapuliden und Echiuriden der Arktis. (In: Fauna arctica, 1928. Bd. 5, p. 451-90, illus., plate, table) *Title tr.*: Sipunculida. Priapulida and Echiurida of the Arctic.

Contains remarks on the taxonomic position of these three orders of annelid worms; full descriptions, synonymy, references, and locations (of specimens from stations of the German Expedition to the Arctic Ocean, 1898, also other arctic locations) for nine species of sipunculids, three species of priapulids, and two species of echiurids; a brief summary of distribution in circumpolar seas, and a bibliography (47 items).

5021. FISHER, ALEXANDER. Journal of a voyage of discovery, to the arctic regions, performed between the 4th of April and the 18th of November, 1818, in H.M.S. Alexander. Wm. Edw. Parry, Esq. Lieut. and Commander. By an officer of the Alexander. London [1819] viii, 104 p. diagrs., fold. map. (In: Phillips, Sir Richard, publisher. New voyages and travels. London, 1819-23. v. 1, no. 1) Written by Alexander Fisher, assistant surgeon of the expedition.

Account of the British government expedition under Captain (later Sir) John Ross on the *Isabella* and the *Alexander*, to explore for a Northwest Passage and the North Magnetic Pole, and to make pendulum observations in high latitudes. Describes the voyage up the east side of Davis Strait and Baffin Bay to the entrance of Smith Sound, the Eskimos, sea mammals, ice conditions, coasts, etc.

Appendices: 1. List of officers of both vessels.

2. Copy of the paper committed to the sea on Monday, May 4th, 1818. (drift bottle)

3. Copy of a letter or journal, from Mr. William Baffin to Mr. Sanderson . . . (concerning his voyage, during which Digges Cape and Jones Sound were named)

4. Orders relative to objects of natural history.

5-7. Weather observations, Aug. 1818.

8. Brief sketch of the quadrupeds, birds, and fishes seen. (Four land mammals, fourteen birds, three whales, one seal)

Copy seen: CaO.

5022. FISHER, ALEXANDER. A journal of a voyage of discovery to the arctic regions, in His Majesty's ships Hecla and Griper, in the years 1819 & 1820. London, Longmann, Hurst, Rees, Orme, and Brown, 1821. 2 p. l., [vii]-xi, 320 p. illus., 2 maps (incl. fold. front.)

Four editions were published in London, 1821, without change of text, excepting typographic corrections.

Journal by an officer on Wm. E. Parry's expedition, a full description of which appears in this Bibliography under Parry, Sir W. E. *Journal of a voyage for the discovery of a North-West Passage* [etc.] pub. 1821-24, q.v.

Fisher gives especially useful remarks on natural history, and ice conditions.

Appendices: 1. Lists of officers and ships' companies.

2. List of nautical, astronomical, meteorological, and other instruments.

3. Maximum, minimum, and mean temperature of the air in the shade, and height of barometer; together with latitude and longitude at noon, daily, May 11, 1819–Sept. 30, 1820.

Copy seen: DLC (2d.-4th. ed.); NNNStef (1st ed.)

FISHER, ALEXANDER, *see also* De-faucoupret, A. J. B. Voyage vers pôle arctique 1818. 1819.

5023. FISHER, CHURCHILL. Homer on the Inlet. (Alaska sportsman, Oct. 1938. v. 4, no. 10, p. 14–15, 20–21, illus.)

Description of the country, farming, people and their way of life in the town and vicinity of Homer on Cook Inlet, southwestern Alaska.

Copy seen: DLC.

5024. FISHER, CHURCHILL. Kenai's "Hope." (Alaska life, Jan. 1945. v. 8, no. 1, p. 50–56, illus.)

Description of the village of Hope (about 61°N. 149°45'W.) its gardens, school, history and way of life.

Copy seen: DLC.

5025. FISHER, CHURCHILL. Little red schoolhouse carries on. (Alaska life, July 1943. v. 6, no. 7, p. 45–49, illus.)

General remarks on history, administration, distribution, pupils and teachers of the rural schools of Alaska.

Copy seen: DLC.

5026. FISHER, CHURCHILL. My home is in the valley. (Alaska sportsman, Dec. 1945. v. 11, no. 12, p. 12–13, 28–30, illus.)

Description of Matanuska valley and its inhabitants before the resettlement project beginning in 1935.

Copy seen: DLC.

5027. FISHER, CHURCHILL. Nenana on the Tanana. (Alaska sportsman, Feb. 1943. v. 9, no. 2, p. 10–11, 24–26, illus.)

Account of the author's visit to Nenana, and an explanation of the methods used in the Alaska Ice Pool for determining official time of the break-up of ice on the river.

Copy seen: DLC.

5028. FISHER, CHURCHILL. The pickin's fun. (Alaska life, Aug. 1943. v. 6, no. 8, p. 54–58, illus.)

Notes on berries of Alaska and ways to use them.

Copy seen: DLC.

5029. FISHER, CHURCHILL. Their sun still rises. (Alaska sportsman, July 1938. v. 4, no. 7, p. 10–11, 25–26, illus.)

Nostalgic article on the Matanuska valley and its "early" settlers, before the colonization project of 1935 began.

Copy seen: DLC.

5030. FISHER, CHURCHILL. They give their strawberries away. (Alaska life, v. 7, no. 5, p. 22–26, illus.)

Sketch of one of the pioneer farmers of the Homer region, Alaska, and of the development of that community.

Copy seen: DLC.

5031. FISHER, EDNA MARIE, 1897– A fractured femur of the Alaskan river otter. (Journal of mammalogy, Nov. 1933, v. 14, p. 362–65, illus.)

Detailed anatomical study of a specimen from Yakutat Bay region.

Copy seen: DSI-M.

5032. FISHER, EDNA MARIE, 1897– The sea otter, past and present. (Pacific Science Congress. 6th, 1939. Proceedings, 1940. v. 3, p. 223–36, tables)

History of trade in other furs of the major nations, the animals ranging in waters from northern Japan around the North Pacific coasts of Asia and America to southern California; table of data on skins taken, 1727–1938; and a bibliography (40 items).

Copy seen: DGS.

5033. FISHER, GEORGE. Abstract of experiments to determine the velocity of sound, at low temperature. (*In:* Parry, Sir W. E. Journal of a second voyage . . . 1821–23. Appendix 1825. p. 237–39, incl. table)

Contains tabular data showing weather conditions, length of base, time intervals, and computed velocities, with brief discussion.

Copy seen: DLC.

5034. FISHER, GEORGE. An abstract of the variation, dip, &c. observed on shore at the winter station upon Winter Island, 1821–2 [and] . . . Island of Igloodik, 1822–3. (*In:* Parry, Sir W. E. Journal of a second voyage . . . 1821–23. Appendix, 1825. p. 263–84, incl. tables)

Contains results of daily observations made irregularly, Oct. 1821-June 1822 at 66°32'N.84°W., and Nov. 1822-July 1823 at 69°24'N. 81°49'W.

Copy seen: DLC.

5035. FISHER, GEORGE. On the analysis of the atmospheric air from the polar regions. (*In:* Parry, Sir W. E. Journal of a second voyage . . . 1821-23. Appendix, 1825. p. 240)

Results of laboratory experiments on two bottles of air brought back by the expedition, show a lower oxygen content for arctic air.

Copy seen: DLC.

5036. FISHER, GEORGE. On the atmospheric refraction. (*In:* Parry, Sir W. E. Journal of a second voyage. 1821-23. Appendix, 1825. p. 163-235, incl. 47 p. tables)

Contains discussion of methods and results of determinations of the amount of atmospheric and terrestrial refraction at low temperatures.

Copy seen: DLC.

5037. FISHER, GEORGE. On the effect of cold upon the gases and different substances. (*In:* Parry, Sir W. E. Journal of a second voyage . . . 1821-23. Appendix, 1825. p. 241-62)

Discussion of observations of thirteen gases, the expansion of air, expansion of cast iron, wrought iron, steel, hammered copper, cast brass, and plate brass; the contraction of mercury and alcohol; and the freezing point of distilled mercury and its amalgams of lead, tin, silver and zinc.

Copy seen: DLC.

5038. FISHER, GEORGE CLYDE, 1878-1949. Alpine wild flowers of arctic Lapland. (Natural history, Nov.-Dec. 1924. v. 24, p. 659-64, illus., 8 plates)

General description of plants found in Swedish Lapland.

Copy seen: DLC; NNSStef.

5039. FISHER, JOEL E. Forbes' and Alaskan "dirt" bands on glaciers and their origins. (American journal of science, Mar. 1947. v. 245, p. 137-45, illus., 8 plates)

Description and discussion of theories concerning the origin of the two types of bands appearing on glaciers.

Copy seen: DLC.

5040. FISHER, ROBERT BURNS, 1897- , and others. Paligorskite a possible asbestos substitute. Washington, 1945. 5 p. (U. S. Bureau of Mines. Information circular. No. 7213) Other authors: Robert L. Thorne and H. Corbin Van Cott.

Description of the mineral and of the deposit on Lemesurier Island in the Glacier Bay area of southeastern Alaska.

Copy seen: DGS.

5041. FISHER, WALTER KENRICK, 1878- . Hydrocorals of the North Pacific Ocean. (U. S. National Museum. Proceedings, 1937, pub. 1938. v. 84, p. 493-554, 43 plates on 22 l.)

Based on collection in the U. S. National Museum, and on scattered specimens elsewhere, a general discussion of hydrocorals, their occurrence, etc., and detailed descriptions of some thirty forms, mainly new species. Bibliography, p. 546-47.

Copy seen: DLC.

5042. FISHER, WALTER KENRICK, 1878- . New starfishes from deep water off California and Alaska. (U. S. Fish and Wildlife Service. Bulletin of the U. S. Fish Commission, 1904, pub. 1905. v. 24, p. 291-320)

Of the twenty-four new species described here, three are from the waters of Southeast Alaska.

Copy seen: DF.

5043. FISHER, WALTER KENRICK, 1878- . *Trophodiscus*, a new sea star from Kamchatka. (U. S. National Museum. Proceedings, 1916 pub. 1917. v. 52, p. 367-71, 3 plates)

Description of a new genus and species of star fish from waters off the southeast coast of Kamchatka.

Copy seen: DLC.

5044. FISHER, WARREN SAMUEL, 1878- . A new anobiid beetle from Alaska. (Washington. Academy of Science. Journal, Jan. 1938. v. 28, p. 26-27)

Description of a new species, *Hadrobregmus destructor*, n. sp. from Sitka,

Alaska, where this beetle was damaging wooden articles in the museum.

Copy seen: DSI-M.

5045. FISHER, WILLIAM J. Catalogue of a collection of ethnological specimens obtained from the Ugashagmut tribe, Ugashak River, Bristol Bay, Alaska. U. S. National Museum. Proceedings, 1883, pub. 1884. v. 6, p. 161-65)

List (giving Eskimo and English names) of ninety implements, ornaments, etc., sent to the U. S. National Museum from several Eskimo and Indian settlements on Alaska Peninsula and islands south and eastward.

Copy seen: DLC.

5046. FISK, HARLAN WILBUR, 1869-1932. Isomagnetic charts of the arctic area. (American Geophysical Union. Transactions, 1931. v. 12, p. 134-39, illus.)

Description of the manner in which the Dept. of Terrestrial Magnetism of the Carnegie Institution drew up preliminary charts for the Second International Polar Year research.

Copy seen: DLC.

5047. FITTON, EDITH M. The climates of Alaska. (U. S. Weather Bureau. Monthly weather review, May 1930. v. 58, p. 85-103, illus., diagrs.)

In this study the climatological characteristics have been tabulated and reviewed for four main regions of Alaska: Pacific coast and islands, the Bering Sea coast, the arctic coast and the interior. Bibliography (46 items).

Copy seen: DLC.

5048. FITTON, WILLIAM HENRY. Geological notice on the new country passed over by Captain Back during his late expedition. (*In:* Back, Sir G. Narrative of the Arctic Land Expedition, 1836. Appendix 4. p. 543-62)

Sketch of geologic characteristics of the country from Great Slave Lake to the estuary at the mouth of the Back River, based upon notes by George Back from his expedition of 1833-35 in north central Canada.

Copy seen: DLC.

5049. FITZ, FRANCES ELLA. Lady Sourdough, by Frances Ella Fitz, as told to Jerome Odum. New York, Macmillan Co., 1941. 6 p. 1., 319 p. front., illus. (facsim.) 7 plates, ports.

The story of a stenographer who spent six years in the Nome region, 1900-1906, and successfully mined for gold.

Copy seen: DLC; NNSbef.

5050. FIVEG, M. P., and others. Razvedka kukisvunchorri-üksporskoi linzy. (*In:* Khibinskie apatity, 1932. T. 2, p. 355-64, tables) *Other authors:* S. A. Stupakov and L. P. Antonov. *Title tr.:* Exploration of the Kukisvumchorr and Yukspor lens.

Account of the investigation of the apatite-nepheline ore body in the central part of the Khibina massif by a survey party of the Kola Expedition in 1930. Tables show the phosphorus pentoxide content in samples from various bore holes.

Copy seen: DLC.

5051. FIVEISKII, D. A. Prokhodka i kreplenie shakhtnykh stvolov v vech-nomerzloi tolsheche evropeiskogo severa SSSR. (Akademiia nauk SSSR. Institut merzlotovedeniia. Trudy, 1944. T. 6, p. 86-168, 41 illus., 43 tables) *Title tr.:* Shaft sinking in permanently frozen ground in the northern part of European U.S.S.R.

Contains technical material, based on the author's experiences, intended for the use of mining engineers, relative to the problems of shaft sinking under permafrost conditions in the Vorkuta coal deposit area; information on methods used, rate of progress in various types of ground, influence of ground and air temperature; detailed description of timbering (diagrams, influence of moisture content, granulometric composition of the ground, air temperature, etc.); data on use (in mine construction) of explosives, pneumatic equipment and steam, also of concrete in blocks and for lining (graphs show relationship of ground and concrete temperature); methods of controlling the sliding of thawed ground during summer; series of specific recommendations. *Copy seen:* NN.

5052. FJELDSTAD, JONAS EKMAN, 1894- Contribution to the dynamics of free progressive tidal waves. Bergen. John Grieg, 1929. 80 p. (*Maud Expedition, 1918-1925, Scientific results.* v. 4, no. 3)

Theoretical study, based on observations made by the *Maud Expedition*.

1918-21, and used by the author in his final discussion of the expedition's complete tidal observations, *Results of tidal observations*, 1936, q.v. The author's theory takes into account the influence of the earth's rotation and the eddy viscosity, and treats waves whose periods are of about 12 hours.

Copy seen: DSI-M.

5053. FJELDSTAD, JONAS EKMAN, 1894- . Results of tidal observations. Bergen, John Grieg, 1936. 88 p. incl. tables. 2 sketch charts, diagrs. (*Maud Expedition, 1918-1925. Scientific results.* v. 4, no. 4)

Based on observations at four localities along the Siberian coast, and on hourly soundings and current measurements on the Siberian Shelf. Discussion of results of harmonic analyses, hourly soundings and current measurements; a theory of tidal currents including influence of eddy viscosity, and interval waves. Includes a compilation of all available harmonic constants in arctic regions, with a discussion of the semi-diurnal tides of the Arctic Ocean, and a bibliography (13 items).

Tables: 1. Harmonic constants for the arctic region.

2-5. Extract of observations at Cape Chelyuskin (*Maud Harbour*) Dec. 1918-Mar. (7) 1919; Ayon Island (69°-50'N. 169°E.) Oct. 1919-May 1920; Cape Serdze Kamen (66°53'N. 171°30'E.) Dec. 1920, Mar. 1921, May 1921; and Chetyrekhtolbovoy (Four Pillars) Island, Oct. 1924-Apr. 1925.

9. (Geografiska annaler, 1933. Årg. 15, p. 296-315)

A study of the heat balance of glaciers based on observations made during the sledge journey of the glaciological party of the expedition, and on earlier observations.

Copy seen: DLC.

5055A. FJELDSTAD, JONAS EKMAN, 1894- . Windstrom in einem eisbedeckten Meere. (Zeitschrift für angewandte Mathematik und Mechanik, Okt. 1933. Bd. 13, p. 348-55) *Title tr.:* Wind current in an ice covered sea.

The problem of a wind propelled current is discussed, taking into account the influence of a floating ice crust but otherwise under assumptions similar to those made by Ekman (in his fundamental paper *Om jordrotationens inverkan på vindströmmar i hafvet*, 1902, q.v.) The mathematical theory of the solution is presented in detail, and its result illustrated by a numerical example. For an ice crust of 3 m. thickness the author finds that with a steady wind there results an angle of deviation between wind and wind current of 53.8°, instead of the 45° deviation given by the classic Ekman theory for a free water surface. No attempt is made to resolve the apparent contradiction between the new result and observations at sea, nor to compare the other conclusions obtained from the new theory with available observational data. *Copy seen:* DLC.

5056. FLAHERTY, ROBERT JOSEPH, 1884-1951. The Belcher Islands of Hudson Bay: their discovery and exploration. (Geographical review, June 1918, v. 5, p. 433-58, illus., 5 maps)

Results of the four Sir William Mackenzie Expeditions, 1910-1916, sent out to investigate iron ore deposits on Nastapoka Islands along the eastern coast of Hudson Bay (56°-57°30'N.) Flaherty gives here brief narratives of these expeditions, and (in detail) an account of his exploration of the Belcher Islands carried out (mainly) 1915-16; with notes on topography, lakes, har-

bors and ice conditions, climate, plant and animal life, minerals, and the Eskimos. Includes discussion of early explorations and maps (with reproductions) and extracts from middle 19th century letters of a Hudson's Bay Co. employee concerning the Eskimos of the Belcher Islands. *Copy seen:* DLC.

5057. FLAHERTY, ROBERT JOSEPH, 1884-1951. My Eskimo friends, "Nanook of the North", by Robert J. Flaherty, in collaboration with Frances Hubbard Flaherty. Garden City, N. Y., Doubleday, Page & Co., 1924. 8 p. l., 170 p. col. front., illus., plates (part col.) fold map.

Popular account (in brief) of the author's trip (for Sir Wm. Mackenzie and the Canadian Northern Railway) to explore the possibility of iron ores on Nastapoka Islands off the Quebec coast of Hudson Bay between Little Whale and Leaf Rivers, 1910; and (in more detail) a voyage from Newfoundland (wintering 1913-14 at Amadjuak, Baffin Island) to explore the Belcher Islands in Hudson Bay. Part 3, *Exploration of northern Ungava*, describes his experiences Mar.-July 1912, crossing Ungava Peninsula eastward by Lake Minto and Leaf River, and westward by Payne and Povungnituk Rivers (at about 60°N.). The author discusses mainly travel conditions and conversations with his Eskimo companions. Part 4, *Films*, tells of his filming of Eskimos on south Baffin Island 1913-14, on Belcher Islands, 1914-15, and later, 1920-21, on the east coast of Hudson Bay, the making of his motion picture "Nanook of the North."

5088. FLINT, RICHARD FOSTER, 1902- . Glacial geology and geomorphology. (In: Boyd, L. A., and others. The coast of northeast Greenland, 1948. p. 91-210, illus., tables, diagrs.)

Based on studies made during the Louise A. Boyd East Greenland Expedition, 1937, in the region between about 72°-74°45'N. Contains a general sketch of the morphology; detailed descriptions of glaciers and glaciation of Jan Mayen (South Glacier) the East Greenland Tyroler Fiord district (Copeland and Kløft Glaciers) Clavering Island, Kjerulf Fiord region, and Narhval Glacier; evidences of multiple glaciation on Fraenkel Land; glacial features common to the fiord region; and attempts to determine lithology beneath the inland ice.

Discussion of emerged strandlines and related features in Tyroler Fiord, Young Sound, Strindberg Land, Ymer, Geographical Society, and Ella Islands, and in Kempe and Alp Fiords; with

notes on arctic weathering, mass-wasting, eolian activity and cryoconite.

Summary of the principal facts, in reference to data already established, and indicating areas and problems in which further research is most needed.

—Preface.

Includes chapters on glacier ice, its motion and regimen; form and distribution of existing glaciers; glacial erosion, transport and sculpture of landscapes; glacial drifts, drainage and stratigraphy; extent of glaciation throughout the world during the ice age; Pleistocene chronology; changes in land and sea level, climates, climatic fluctuations, the fossil record. Bibliography (about 900 items).

Contains a critical revision of the willow (*Salix*) flora of Novaya Zemlya, based on the author's exploration on the western coast of that island. Includes data on nine species and fifteen hybrids. Summary in German.

Copy seen: MH-A.

5093. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. Bidrag till kännedomen om Salixfloran i Torne Lappmark. Uppsala & Stockholm, Almqvist & Wiksell, 1908. 53 p. 12 plates. (Arkiv för Botanik, 1909, pub. 1908. Bd. 8, no. 9) *Title tr.:* A contribution to the knowledge of *Salix* flora in Torne Lappmark.

Contains the results of the study of willow (*Salix*) flora of this district of northern Sweden, made by the author in the summers of 1906-08. Includes critical notes on various species, Latin diagnoses of seven new hybrids and data on their habitat.

Copy seen: MH.

5094. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. New Siberian willows. (Svensk botanisk tidskrift, 1936. Bd. 30, häfte 3, p. 386-400, illus.)

Contains Latin diagnoses of eight new species and forms (one hybrid) of willow (*Salix*), including five native to the basins of the lower Yenisey, Lena and Anadyr Rivers.

Copy seen: MH-A.

5095. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. Om Grönlands salices. (Meddelelser om Grönland. 1923. Bd. 63, p. 61-204, illus., 4 plates) *Title tr.:* On the Salicaceae of Greenland.

Based on studies made during the author's trip to West Greenland in 1921, a survey of earlier research, discussion of synonymy and taxonomy and list, with synonymy, descriptions, localities, ecology, etc., of five species of willows and several hybrids.

Copy seen: DLC.

5096. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. On the *Salix* flora of Kamchatka. Stockholm, Almqvist &

Wiksell, 1926. 70 p. illus. plate. (Arkiv för botanik, 1926. Bd. 20A, no. 6)

Contains critical revision of twenty-two species and twelve hybrids of the willows (*Salix*) of the Kamchatka Peninsula, including six new species and seven new hybrids, collected by various members of the Swedish Kamchatka Expedition in 1920-22. Includes detailed data on local distribution and comparison with *Salix* flora of Scandinavia; brief bibliography.

Copy seen: MH.

5097. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. Salices Peninsulae Anadyrensis inter lat. sept. 60°-62° et long. or. 163°-177° a S. Soczava annis 1929-1930 collectae. Stockholm, Almqvist & Wiksell, 1933. 12 p. illus. (Arkiv för botanik, 1932-34, pub. 1933. Bd. 25A, no. 11) *Title tr.:* Salices of the Anadyr Peninsula [sic] between 60°-62° N. lat. and 163°-177° E. long. collected by S. Sochava in 1929-1930.

Contains an enumeration of thirty-one species of willows (*Salix*) collected 1929-30 by B. V. Sochava, mainly (from localities indicated) in the region of Penzhina River basin, and a few in the basin of the Anadyr. Includes Latin diagnoses of *S. anadyrensis* n. sp. and six new hybrids.

Copy seen: MH-A.

5098. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. *Salix helvetica* Villars and its subspecies and hybrids. (Svensk botanisk tidskrift, 1943. Bd. 37, häfte 1, p. 73-80, illus.)

Contains Latin diagnosis of *Salix helvetica krylovii* n. comb., a species of willows, native to the basins of the Kolyma, Anadyr and Penzhina Rivers, with synonymy, critical notes and data on distribution. *Copy seen:* MH-A.

5099. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. *Salix rotundifolia* Trautv. and *Salix mummularia* Anderss. (Svensk botanisk tidskrift, 1941. Bd. 35, häfte 4, p. 351-52)

Contains a comparative taxonomical study of two species of willows, *Salix rotundifolia*, native to the Bering Strait region and Aleutian Islands and *S. mummularia* from Novaya Zemlya and Kola Peninsula. This posthumous paper was edited by S. Grapengiesser and is accompanied by his note with

the title "*Postuma botaniska arbeten av Med. Dr. Björn Floderus*", p. 350.

Copy seen: MH-A.

5100. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. Sibiriska inslag i Fennoskandias *Salix*-flora. (Botaniska notiser, 1930, häfte 5, p. 325-43, illus.) *Title tr.:* Siberian element in the *Salix* flora of Fennoscandia.

Contains a discussion of the Siberian element in *Salix* (willow) flora in Fennoscandia with critical notes on seven species of Siberian origin, including Latin diagnoses of four new species distributed in both Scandinavia (including the arctic region) and Siberia.

Copy seen: MH-A.

5101. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. A strange species of *Salix* from Alaska. Stockholm, Almqvist & Wiksell, 1935. 3 p. (Arkiv för botanik, 1935. Bd. 27A, no. 2)

Contains Latin diagnosis of *Salix alienae* s. subgen. nov. and *Salix aliena* n. sp., a peculiar bushy form of willow found in McKinley National Park and in Fairbanks, and formerly named *Setchelliana* by C. R. Ball but not described.

Copy seen: MH-A.

5102. FLODERUS, BJÖRN GUSTAF OSKAR, 1867-1941. Two Linnean species of *Salix* and their allies. Stockholm, Almqvist & Wiksell, 1939. 54 p. 2 plates. (Arkiv för botanik, 1940, pub. 1939. Bd. 29A, no. 18)

Contains a taxonomic study of two Linnean species of willow, *Salix phylicifolia* and *S. myrsinites* and their allies, with descriptions and critical notes on seventeen species and many subspecies, hybrids and forms (at least eleven are new), including some native to arctic regions of Scandinavia, Finland, European and Asiatic Russia, Alaska, Yukon Territory, Mackenzie District and Labrador.

5104. FLOHN, HERMANN. Kontinentalität und Ozeanität in der freien Atmosphäre. (Ein Zonalschnitt der Temperatur der Troposphäre in subpolar Breiten). Meteorologische Zeitschrift, Okt. 1943. Bd. 60, p. 325-31, diagrs.) *Title tr.:* The continentality and oceanicity in the free atmosphere. (A zonal temperature section of the troposphere in subpolar latitudes).

"Recent aerological data from arctic regions permit examination of temperature and air pressure in the troposphere and prove influence of oceanic and continental régimes to a height of at least 8000 m."—Polar record, July 1950, v. 5, no. 40, p. 645.

Copy seen: DLC.

5105. FLOHN, HERMANN. Zum Klima der freien Atmosphäre über Sibirien. II. Die regionale winterliche Inversion. (Meteorologische Rundschau, 1947. Jahrg. 1, p. 75-79) *Title tr.:* Climate of the free atmosphere over Siberia. 2. Regional winter inversion.

Description of the winter inversion based on aerological observations of 15 stations (some by airplane, some radio-sonde, or kites) according to frequency and altitude. Fairbanks, Alaska, rises are used for comparison. The charts show, for the region about the earth's cold pole, maximum development of 96 percent, altitude of over 1700 meters and a figure of about 20°C. The synoptic significance of the inversion is in the peculiar character of the Siberian winter highs, a combination of a cold and, in the middle layers, a relatively warm anticyclone. The climate of eastern Asia is especially affected by this phenomenon.

cluding some native to Barents and Greenland Seas; and explanation of the figures on plates (on unpaginated letterpress), compiled by the editor, H. Printz, and based on scattered notes found among Foslie's papers after his death in 1909. **Copy seen:** MH-F.

5169. FOSLIE, MIKAL HEGGELUND, 1855-1909. *Ectocarpus (Streblonema) turnerellae*, a new alga. (Norske videnskabers selskab, Trondhjem. Skrifter, 1896, no. 2-3, p. 7-8)

Contains Latin description of *Ectocarpus (Streblonema) turnerellae*, a new alga found growing endophytic on *Ectocarpus (Streblonema) septentrionalis*, in coastal waters of Nordland and in Trondhjem Fiord, Norway.

Copy seen: MH-F.

5170. FOSLIE, MIKAL HEGGELUND, 1855-1909. *Isthmoplea rupincola*, a new alga. (Tromsø museum. Aarshefter, 1891. Bd. 14, p. 129-31)

Contains an English description of *Isthmoplea rupincola*, a new alga collected by the author in 1891, growing on rocks in the upper part of the littoral region at Kjølvik in west Finmark, Norway. **Copy seen:** MH-F.

5171. FOSLIE, MIKAL HEGGELUND, 1855-1909. Kritisk fortegnelse over Norges havsalger efter aeldre botaniske arbeider indtil aar 1850. (Tromsø museum. Aarshefter, 1886. Bd. 9, p. 85-137) **Title tr.:** Critical notes on marine algae of Norway based on earlier botanical works till 1850.

Contains a systematic list of over three hundred species of marine algae of Norway mentioned in earlier botanical literature, with citation, date, and place of finding; bibliography (28 items). **Copy seen:** MH-F.

5172. FOSLIE, MIKAL HEGGELUND, 1855-1909. *Lithothamnion vardøense*, a new alga. (Norske videnskabers selskab, Trondhjem. Skrifter, 1905, no. 2, p. 1-4)

Contains a description of *Lithothamnion vardøense*, a new marine alga, found on the coast near Vardø, east Finmark, Norway.

Copy seen: MH-F.

5173. FOSLIE, MIKAL HEGGELUND, 1855-1909. New or critical Norwegian algae. (Norske videnskabers selskab, Trondhjem. Skrifter, 1893, pub. 1894. p. 114-42, plates 1-3)

Contains systematic notes on seventeen species of new or critical marine algae of Norway, including Latin diagnosis of *Ulonea rhizophirum* Nob. from Tromsø coastal waters, three other species from the Tromsø and Finmark region and one from Lofoten Islands.

Copy seen: MH-F.

5174. FOSLIE, MIKAL HEGGELUND, 1855-1909. The Norwegian forms of *Ceramium*. (Norske videnskabers selskab, Trondhjem. Skrifter, 1893, pub. 1894. p. 1-21, plates 1-3)

Contains critical revision of Norwegian forms of marine algal genus *Ceramium*, based on collections of the Botanical Museum of the University of Christiania, including *C. deslongchampii* from Tromsø coastal region, *C. circinatum* f. *borealis* from Tromsø and west Finmark and *C. rubrum* distributed all along the coast of Norway.

Copy seen: MH-F.

5175. FOSLIE, MIKAL HEGGELUND, 1855-1909. The Norwegian forms of *Lithothamnion*. (Norske videnskabers selskab, Trondhjem. Skrifter, 1894, pub. 1895, p. 29-208, plates 1-23)

Contains a systematic enumeration of all Norwegian forms of marine algal genus *Lithothamnion* (incl. *Lithophyllum*), many routine to arctic coastal waters, with descriptions, synonymy, relation to other species and notes on habitat, occurrence and geographic distribution. Bibliography (54 items).

Copy seen: MH-F.

5176. FOSLIE, MIKAL HEGGELUND, 1855-1909. Nye havsalger. (Tromsø museum. Aarshefter, 1887. Bd. 10, p. 175-95, 3 plates) **Title tr.:** New marine algae.

Contains descriptions of seven new species of marine algae from Tromsø and Finmark waters, and two new names for earlier known species, with some critical notes.

Copy seen: MH-F.

5177. FOSLIE, MIKAL HEGGELUND, 1855-1909. Om nogle nye arktiske havsalger. [Christiania, Jacob Dybwad, 1882] 14 p. 2 plates. (Norske videnskapsakademiet. Forhandling, 1881, no. 14) **Title tr.:** On some new arctic marine algae.

List, with descriptions, remarks on specimens and localities, of nine new

species or variations collected, 1880 and 1881, in the Lofoten and Finmark waters.

Copy seen: DLC.

5178. FOSLIE, MIKAL HEGGELUND, 1855-1909. Remarks on forms of *Ectocarpus* and *Pylaiella*. (Tromsø museum. Aarshefter, 1891. Bd. 14, p. 123-28)

Contains a taxonomic discussion on critical forms of *Pylaiella varia* and *P. littoralis* f. *compacta* and *Ectocarpus siliculosus* and *E. hiemalis*, native to the littoral zone of west Finmark, northern Norway.

Copy seen: MH-F.

5179. FOSLIE, MIKAL HEGGELUND, 1855-1909. Remarks on *Lithothamnion murmanicum*. (Norske videnskabers selskab, Trondhjem. Skrifter, 1908, no. 2, p. 1-8, illus. plates 1-2)

Contains a taxonomic discussion of *Lithothamnion murmanicum* Elenkin, n. sp. from Barents Sea, and its reduction to a synonym of *L. breviae*; the author also disputes the statement of A. A. Elenkin that *L. topiforme*, *L. vardoense* and *L. murmanicum* are identical species.

5187. [FRANCE. COMMISSION SCIENTIFIQUE DU NORD] Voyage en Islande et au Groënland exécuté pendant les années 1835 et 1836 sur la corvette la Recherche, commandée par M. Tréhouart . . . dans le but de découvrir les traces de la Lilloise; publié par ordre du roi sous la direction de M. Paul Gaimard, Président de la Commission Scientifique d'Islande et de Groënland . . . Paris, A. Bertrand, 1838-1843. 5 v. *illus.*, port., tables (1

fold.) *diagrs. and atlas. Title tr.:* Voyage to Iceland and Greenland, 1835-1836, of the corvette *Recherche*, commanded by M. Tréhouart to search for traces of the *Lilloise*; published by royal command under direction of M. Paul Gaimard.

Included in this extensive report on Iceland, is one brief chapter on Greenland, which appears in this Bibliography as: ROBERT, E. *Observations géologiques faites au Groënland, en 1836, pub.* 1840, q.v.

File seen: DLC.

5188. **FRANCE. COMMISSION SCIENTIFIQUE DU NORD.** Voyages de la Commission Scientifique du Nord, en Scandinavie, en Laponie, au Spitzberg et au Feröe, pendant les années 1838, 1839, et 1840 sur la corvette la Recherche, commandée par M. Fabvre. *Pub.* par ordre du roi sous la direction de M. Paul Gaimard. Paris, A. Bertrand [1842-55]. *Title tr.:* Voyages of the Scientific Commission of the North to Scandinavia, Lapland, Spitsbergen and The Faeroes, during 1838-1840, on the corvette *Recherche*, commanded by M. Fabvre; published by royal command under the direction of M. Paul Gaimard.

The commission was instructed to investigate and report on all phases of science, on history, and social conditions of the northern countries mentioned in the title. The Scandinavian countries, Sweden and Norway, and the Spitsbergen archipelago were visited during the summers of 1838 and 1839, and in the summer of 1840 a trip was made to Archangel.

Contents tr. include: Div. 1 (*pub.* 18-?). Lottin, V., and others. Astronomy and hydrography.

Div. 2 (*pub.* 1844-?). Bravais, A., and others. Meteorology.

Div. 3 (*pub.* 1843-?). Lottin, V., and others. Terrestrial magnetism.

Div. 4 (*pub.* 1845-46). Lottin, V., and others. Aurora borealis.

Div. 5 (*pub.* 1843-55). Robert, E. Geology, mineralogy and metallurgy.

Durocher, J. Geology, mineralogy, metallurgy, and chemistry.

Div. 6 (*pub.* 1844-50?). Martins, C. F., and others. Physical geography, phytogeography, botany and physiology.

Div. 7. Zoology (Atlas only; text not seen).

Div. 8 (*pub.* 1844-47). Marmier, X. History of Scandinavia, literature of Scandinavia, and account of the voyage.

Atlases: Historical and pictorial: 310 plates in 2 v.

Physical: 31 plates.

Geological (by E. Robert): 20 plates.

Geological (by J. Durocher): 11 plates (incl. 2 fold. maps)

Zoology: 83 plates (invertebrates, fishes and birds).

Each of these divisions appears separately in this Bibliography.

File seen: DLC.

5191. FRANKE, RUDOLPH. Erlebnisse eines Deutschen im hohen Norden; Aufzeichnungen und Berichte. Hamburg, A. Janssen, 1914. 204 p. incl. front. 30 plates incl. ports., 3 maps. *Title tr.:* A German's experiences in the far North. Notes and narrative.

Records the author's experiences accompanying J. R. Bradley to Etah on a hunting trip in the summer of 1907, remaining there until Sept. 1908, as companion and aide-de-camp to Dr.

F. A. Cook. Notes his hunting with the Polar Eskimos, sledging to Ellesmere Island and to Cape York, and remarks on the Eskimo life and customs.

Copy seen: DLC; NNSf.

5192. FRANKENBERGER, ERNST. A. Bericht über zwei Reisen im Polarjahr 1932-33: I. Eine Forschungsfahrt mit A. Wigand nach Spitzbergen im August 1932 . . . B. Über Radiosonden-Aufstiege von Passagierschiffen. Hamburg, 1943. 58 p. incl. tables. (Deutsche Seewarte, Hamburg. Aus dem Archiv der deutschen Seewarte. Bd. 63, nr. 1) *Title tr.:* A. Report on two journeys made during the International Polar Year, 1932-33: I. Scientific trip with A. Wigand to Spitzbergen, Aug. 1932 . . . B. On radiosonde releases from passenger vessels.

Contains (A, I) brief account of Prof. A. Wigand's journey on *MS Monte Rosa*, Aug. 6-24, 1932, with report on results of upper wind measurements, radiosonde releases, condensation nuclei count in the atmosphere, and research on properties of polar sea fog. Tabular data, including weather data.

A, II (p. 26-52) does not concern the Arctic and is not treated here.

B. Description of equipment and discussion of techniques and usefulness of shipboard radiosonde releases.

Copy seen: DN-HO.

5193. FRANKLIN, Sir JOHN, 1786-1847. Journey to the shores of the polar sea, in 1819-20-21-22: with a brief account of the second journey in 1825-26-27. London, J. Murray, 1829. 4 v. fronts., plates, ports., fold. map.

Dr. Richardson's narrative included in v. 4. *Copy seen:* ICJ; PU.

FRANKLIN, Sir JOHN, 1786-1847. Journey to the shores of the polar sea, in 1825-26-27. London, J. Murray, 1829, *see* his: *Narrative of a second expedition . . . 1825, 1826 and 1827, 1828.*

5194. FRANKLIN, Sir JOHN, 1786-1847. Narrative of a journey to the shores of the polar sea, in the years 1819, 20, 21, and 22. With an appendix on various subjects relating to science and natural history. London, J. Murray, 1823. 2 p. l., [vii]-xvi, 768 p. col. front., 26 plates (part col.) 4 fold. maps.

The author traveled by Hudson Bay, Cumberland House to Fort Chipewyan, and accompanied by J. Richardson, R. Hood and J. Back, explored the upper Coppermine River, wintered at Fort Enterprise (between Great Slave and Great Bear Lakes) descended the Coppermine, and explored by canoe the coast of Coronation Gulf eastward over five hundred miles into Dease Strait to Cape Turnagain. The party returned over the Barren Grounds to Fort Enterprise.

The narrative includes detailed description of travel conditions (noting hardships, lack of food, etc.), the nature of the country, rivers and lakes, the various tribes of Indians, and the Copper Eskimos; with accounts by Richardson and Back of their separate trips with small parties for exploration, supplies, etc.

Appendices: 1. RICHARDSON, J. Geognostical observations.

2. Hood, R. General remarks on the aurora borealis.

3. FRANKLIN, Sir J., [and others]. Observations on the aurora borealis.

4. Remarks and tables connected with astronomical observations. (Magnetic variation, latitudes and longitudes)

5. SABINE, J. Zoological appendix.

6. RICHARDSON, J. Notice of the fishes.

7. RICHARDSON, J. Botanical appendix.

Each of these appendices (except 2 and 4) appears in this Bibliography under its author's name.

Reviewed in *Quarterly review*, 1823. v. 28, p. 372.

Modern pocket-size edition was published as No. 447, Everymans Library, by J. M. Dent & Sons, London.

Copy seen: DLC (1 map lacking); NNNStef.

5195. FRANKLIN, Sir JOHN, 1786-1847. Narrative of a journey to the shores of the polar sea, in the years 1819-20-21-22. 2d ed. London, J. Murray, 1824. 2 v.: xix, 370 p.; iv p., 1 l., 399 p., illus., 3 fold. maps.

Third edition reprinted without change from the second.

Copy seen: DLC; NNNStef.

5197. FRANKLIN, Sir JOHN, 1786-1847. Narrative of a journey to the shores of the polar sea, in the years 1819, 20, 21, & 22. With an appendix containing geognostical observations, and remarks on the aurora borealis. Philadelphia, H. C. Carey & I. Lea [etc.] 1824. xi, 482 p. front., fold. map.

Another edition with appendix no. 1, only: Richardson, J. Geognostical observations. *Copy seen:* DLC; NNNStef.

5198. FRANKLIN, Sir JOHN, 1786-1847. Narrative of a second expedition to the shores of the polar sea, in the years 1825, 1826, and 1827, by John Franklin; including an account of the progress of a detachment to the eastward, by John Richardson. London, J. Murray, 1828. xxiv, [xxi]-xxiv, 320, clvii, [1] p., 1 l. front., 31 plates, 6 fold. maps.

Another edition was published in 1829, with title *Journey to the shores of the polar sea, in 1825-26-27*, but without material change of text.

Record of an expedition overland in northwestern Canada to the Mackenzie delta, thence to explore the unknown northern coast: the travels of Franklin, Dr. John Richardson and party, down the Mackenzie River to Great Bear Lake where winter quarters were made at Fort Franklin and a survey of the lake undertaken by Richardson; the trip to the mouth of the Mackenzie, Franklin's journey westward in summer and fall 1826, across the delta and along the arctic coast to Return Point, Alaska (about 147°W.) and return; Dr. Richardson's exploration eastward along the coast to the mouth of the Coppermine River, his ascent of the Coppermine and return to Fort Franklin overland, crossing the Copper (i.e. Coppermine) Mts. and height of land. Includes throughout the narrative, description of the new country, of Great Bear Lake, the ice along the shores of the arctic sea, the encounters (friendly and otherwise) with Eskimos; notes on the Dogrib Indians, the burning coal cliffs beyond Cape Bath-

urst, the weather, mirages, and travel conditions.

Appendices: 1. RICHARDSON, J. Topographical and geological notes.

2. RICHARDSON, J. Meteorological tables from registers kept at Fort Franklin.

3. RICHARDSON, J. Observations on solar radiation.

4. KENDALL, E. N. Observations on the velocity of sound at different temperatures, with remarks.

5. Observations for latitude, longitude and magnetic variations.

6. Observations relative to the daily variation of the horizontal magnetic needle.

7. On the aurora borealis.

Appendices 1-4 appear in this Bibliography under their author's name.

Copy seen: DLC; NNS Stef.

5199. FRANKLIN, Sir JOHN, 1786-1847. Observations for determining the magnetic variation, made in the neighborhood of Spitzbergen. (Edinburgh philosophical journal, 1825-26, pub. 1826. v. 14, p. 56, table)

A table of variations for eleven positions off and along the northwest coast of West Spitzbergen, a result of the voyage in 1818 of the *Dorothea* and the *Trent*, the latter under Franklin's command.

Copy seen: DLC.

5200. FRANKLIN, Sir JOHN, 1786-1847, and others. Observations on the aurora at Fort Enterprise. (In his: Narrative of a journey to the shores of the polar sea, 1819-22, pub. 1823. p. 549-628)

Contains extracts from Franklin's auroral journal; table of deviations of the magnetic needle (7 times daily, Jan. 12-May 9, 1821); extracts from R. Hood's auroral journal; and remarks extracted from J. Richardson's journal.

Copy seen: DLC; NNS Stef.

5201. FRANKLIN, Sir JOHN, 1786-1847. Table of the temperature of the sea, at various depths, made during Captain Franklin's voyage to Spitzbergen with Captain Buchan. (Edinburgh philosophical journal, Apr. 1825. v. 12, p. 233-34)

Result of the voyage of the *Dorothea* and the *Trent*, 1818, when samples from various depths were collected in a leaden box with closing valves. Data for surface and depths, June 20-July

26, in waters north and west of West Spitzbergen.

Copy seen: DLC.

5202. FRANKLIN, Sir JOHN, 1786-1847. Thirty years in the arctic regions, a narrative of the explorations and adventures of Sir John Franklin. Cincinnati, United States Book and Bible Co. [1859] 480 p. port. Issued also: Philadelphia, J. E. Potter [1859]

Drawn from Franklin's accounts of his two expeditions of 1819-22 and 1825-27 in northern Canada, with chapters on his last voyage, 1845-47, and the Franklin search expeditions.

Copy seen: DLC; NNS Stef.

5203. FRANKLIN, Sir JOHN, 1786-1847, and DAVID BUCHAN. Tables of summer temperatures observed in Spitzbergen. (Edinburgh philosophical journal, Apr. 1825. v. 12, p. 232-33, incl. tables)

Result of the voyage of the *Dorothea* (Capt. Buchan) and the *Trent* (Capt. Franklin) 1818. Daily means are deduced from hourly observations, June 1-30, and ten-day means, July 20-Aug. 31, for West Spitzbergen, with mean June, July and Aug. deductions for latitudes 66°15', 69°30', 74°45' and 80° N.

FRANKLIN, Sir JOHN, 1786-1847, see also Barrow, Sir J., & others. Communications on a North-West Passage. 1836.

5204. FRANKLIN, LUCIA J. Stories and facts of Alaska; a wonderful book of fascinating and surprising information of Alaska's vast resources; a travelers guide to the gold mines, the farming valleys, the coal and oil fields, and the different routes to Alaska, and cost of trips. Fairbanks, Alaska, L. J. Franklin [c1921] 5 p. l., 307 p. front., 21 plates.

Includes in addition to information on resources, etc., brief but useful material on railroads, river traffic, hunting and trapping, game laws, dogs, and the reindeer industry.

Copy seen: DLC; NNS Stef.

5205. FRANKSILA, MATTI. Mikroklimatische Temperaturmessungen in Sodankylä. Helsinki, 1945. 29 p. diagr. (Finland. Ilmatieteellisen keskuslaitoksen toimituksia (Meteorologisches Zentralanstalt. Mitteilungen) no. 26) Title tr.: Microclimate temperature measurements in Sodankylä.

The periodic variation of the air temperature in the air layer next to ground at Sodankylä is based on micrometeorological observations made there in July and Aug. 1939. Meteorological phenomena such as solar radiation, wind direction and speed, have also been recorded at standard elevations at 5, 20, 80 and 240 cm. above ground.

5206. FRASER, CHARLES McLEAN, 1872-1946. Biological and oceanographic conditions in Hudson Bay. 3. Hydroids of Hudson Bay and Hudson Strait. (Canada. Biological Board. Contributions to Canadian biology, 1931. New ser. v. 6, p. 475-81)

Results of the Hudson Bay Fisheries Expedition, 1930; discussion, with table, of distribution of hydroids, in Hudson Bay and Strait and elsewhere in the Arctic, and a list with localities, of thirty-six species collected by this expedition.

Copy seen: DLC; DSI-M.

5207. FRASER, CHARLES McLEAN, 1872-1946. Hydroids. Ottawa, King's Printer, 1922. 5 p. (Canadian Arctic Expedition, 1913-1918. Report. v. 8: Mollusks, echinoderms, coelenterates, etc., Pt. I)

List, with locations and distribution noted, of twenty-five species from the east coastal waters of Hudson Bay, and westward to the Alaskan coast of Bering Sea.

Copy seen: DSI-M.

5208. FRASER, CHARLES McLEAN, 1872-1946. Hydroids of the western Canadian arctic region, 1936-1937. (Canadian journal of research, Mar. 1939. v. 17, sec. D, p. 59-61, illus.)

Based on collections made from the Royal Canadian Mounted Police vessel *St. Roch*, 1936-37, in Dease and Dolphin and Union Straits. Contains descriptions of two new species, with mention of three other species collected.

Copy seen: DSI-M.

5209. FRASER, CHARLES McLEAN, 1872-1946. Marine zoology in the north-east Pacific. (Royal Society of Canada. Transactions, 1942. Ser. 3, v. 36, sec. 5, p. 1-18)

History of marine biology and fisheries research since 1741; includes Alaska and Bering Sea.

Copy seen: DLC.

5210. FRASER, CHARLES McLEAN, 1872-1946. Notes on some Alaskan hy-

droids. (Royal Society of Canada. Transactions, 1914. Ser. 3, v. 8, sec. 4, p. 217-22, plate)

A systematic, annotated list of fifteen (including with description, one new) species, from the Gulf of Alaska, of which seven are new records for any Alaskan waters.

Copy seen: DLC.

5218. FREBOLD, HANS, 1899-. Die Altersstellung des Fischhorizontes, des Grippianiveaus und des unteren Saurierhorizontes in Spitzbergen. Oslo, J. Dybwad, 1930. 36 p. illus. (map) 6 plates. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 28) *Title tr.*: The age of fish horizons of

the Grippia layer and of the lower saurian horizon in Spitsbergen.

A description of the ammonite fauna and stratigraphic relationships of the lower Triassic in the region around Ice Fiord.

Copy seen: DGS.

5219. FREBOLD, HANS, 1899-. Ammoniten aus dem Valanginien von Spitzbergen. Oslo, J. Dybwad, 1929. 24 p. 1 l. 8 plates. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 21) *Title tr.*: Ammonites from the Valangian formation of Spitsbergen.

Discussion of these Cretaceous faunal zones as they occur in Siberia, the Pechora region, Novaya Zemlya and Spitsbergen.

Copy seen: DLC.

5220. FREBOLD, HANS, 1899-. Fauna, stratigraphische und palaeogeographische Verhältnisse des ostgrönländischen Zechsteins. København, C. A. Reitzel, 1931. 55 p. 5 plates (incl. map) (Meddelelser om Grønland, Bd. 84, nr. 1) *Title tr.*: The fauna and the stratigraphic and paleontological conditions of the Permian limestone formations in East Greenland.

Discussion of the Cape Stosch formation on Hold with Hope, the Depot Island formation; fossil molluscs found in the boulders by the Danish East Greenland Expeditions 1926-27 and 1929; stratigraphy; paleogeography (with the author's views on Skandik, east of Greenland in geologic time, in the light of the paleontological investigations discussed in this paper).

Copy seen: DLC.

5221. FREBOLD, HANS, 1899-. Faunistisch-stratigraphische Untersuchungen über die Trias Spitzbergens und der Edge Insel. (Naturwissenschaftliche Verein in Hamburg. Abhandlungen, 1929. Bd. 22, p. 293-312, 2 plates) *Title tr.*: Investigation on the Triassic fauna and stratigraphy of Spitsbergen and Edge Island. Based on fossil collections of the Hamburg Spitsbergen Expedition, 1927.

Contains descriptions of fifteen (including two new) species of ammonites, and mention of three other molluscs, of the Upper and Lower Triassic from the east coast of Vestspitsbergen and Edge Island, and of the Middle Triassic from Green Bay. Remarks on Triassic paleogeography and zoogeography. Bibliography.

5222. FREBOLD, HANS, 1899-. . Fazielle Verhältnisse des Mesozoikums im Eisfjordgebiet Spitzbergens, ein Beitrag zur Entwicklungsgeschichte des Skandiks. Ergebnisse der vom Verfasser geleiteten Norwegischen Spitzbergenexpedition 1930. I. Teil. Oslo, J. Dybwad, 1931. 94 p. illus. (incl. map) 6 plates, diagrs. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 37) **Title tr.:** Relationship of the Mesozoic facies in the Ice Fiord region of Spitsbergen. A contribution to the history of development of the "Skandik". Results of the Norwegian Spitsbergen Expedition, 1930, under the author's leadership. Pt. 1.

A stratigraphic study towards clarifying the existence and extent of a land west of Spitsbergen during earlier geological periods. Bibliography, p. 93-4.

Copy seen: DLC.

5223. FREBOLD, HANS, 1899-. . Das Festungsprofil auf Spitzbergen IV. Die Brachiopoden- und Lamellibranchiatenfauna und die Stratigraphie des Oberkarbons und Unterperms nebst Beschreibung anderer Vorkommen in Svalbard. Oslo, J. Dybwad, 1937. 94 p. illus. (incl. map) 11 plates. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. No. 69) **Title tr.:** The geological profile on Spitsbergen IV. The brachiopod and lamellibranch fauna and the upper Carboniferous and lower Permian, to which is added a description of other occurrences in Svalbard.

Description of fossil fauna from the west coast and a comparison of its stratigraphy with that of central West Spitsbergen and other arctic regions.

Copy seen: DLC.

5224. FREBOLD, HANS, 1899-. . Das Festungsprofil auf Spitzbergen. Jura und Kreide II. Die Stratigraphie. Oslo, J. Dybwad, 1928. 39 p. illus., plate. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 19) **Title tr.:** The geological profile of Spitsbergen. Jurassic and Cretaceous II. The stratigraphy.

Description of stratigraphic sequence of the Jurassic and Cretaceous formations based on the ammonite fauna, and a brief sketch of their stratigraphic, paleogeographic and zoogeographic position; with a bibliography (55 items).

Copy seen: DLC.

5225. FREBOLD, HANS, 1899-. . Das Festungsprofil auf Spitzbergen V. Stratigraphie und Invertebratenfauna der älteren Eotrias nebst Beschreibung anderer Vorkommen in Spitzbergen. Oslo, J. Dybwad, 1939. 58 p. illus., 3 plates, map. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 77) **Title tr.:** The geological profile on Spitsbergen.

V. Stratigraphy and invertebrate fauna of the older Triassic, with a description of other occurrences in Spitsbergen. Description of eighteen fossil mollusc species and four (including one new) species of brachiopods; with section on stratigraphy and a bibliography (28 items).

Copy seen: DLC.

5226. FREBOLD, HANS, 1899-. . Geologie der Jurakohlen des nördlichen Ostgrönland. København, C. A. Reitzel, 1932. 65 p. illus., incl. maps, fold. profile. (Meddelelser om Grønland, Bd. 84, nr. 5) **Title tr.:** The geology of the Jurassic coal of northern East Greenland. Based on investigations made by the author during the Three-Year Expedition to Christian X Land, 1931-1934.

Contents (1) description (in brief) of the occurrence of coal in Greenland; (2) geology (in more detail) and physical character of the coal deposits on Hochstetter Foreland; (3) comparison with others in Greenland and in northern Norway; (4) paleogeography; and (5) remarks on mining possibilities.

Bd. 31, p. 634-47, illus.) *Title tr.*: Geologic structure of Novaya Zemlya and its relation to other regions in the light of recent research.

Discussion based on five Russian papers.

Copy seen: DGS.

5229. **FREBOLD, HANS, 1899-** . Grundzüge der geologischen Entwicklung und Struktur des arktischen Sibiriens östlich der Lena. Berlin, Borntraeger, 1942. p. 1, 35 p. sketch map, fold. table. (Deutsche wissenschaftliche Institut zu Kopenhagen. Veröffentlichungen. Reihe I: Arktis. Nr. 2) *Title tr.*: Fundamentals of the geologic history and structure of arctic Siberia east of the Lena.

Contains a brief summary of the geologic structure of the North American and eastern Eurasian Arctic. A sketch of the chief features of geologic history for each period (east of the Lena); a tectonic summary which treats of the Verkhojansk zone of folding, the Kolyma massif, and the geosyncline of the northern part of the Chukotsk region. Bibliography of recent papers (20 items). *Table* shows a stratigraphic comparison between some Siberian arctic regions and northern Alaska and Seward Peninsula.

5239. FREBOLD, HANS, 1899- . Die Schichtenfolge des Jura und der Unterkreide an der Ostküste Südwest-Spitzbergens. (Naturwissenschaftlicher Verein in Hamburg. Abhandlungen, 1929. Bd. 22, p. 251-92, 3 plates) *Title tr.*: The Jurassic and Lower Cretaceous series on the east coast of southwestern Spitsbergen.

Based on fossils collected by the Hamburg Spitzbergen Expedition, 1927, in the Agardh Mountain region. A note supplied by K. Cripp on the location of the Upper Lias formation of Agardh Bay. Description of nine (including one new) species of ammonites and mention of other molluscan forms found in the different horizons; description and discussion of the stratigraphy, with remarks on the Barents Sea and north Siberian Shelf from the paleogeographic standpoint, and with a bibliography.

5241. FREBOLD, HANS, 1899- . Über die Productiden des Brachiopodenkalkes und der Mallemukformation des nördlichen Ostgrönland und die Altersfrage einiger jungpaläozoischer Bildungen der Arktis. Oslo, J. Dybwad, 1942. 68 p. illus., 4 pl. on 2 l. (Norway. Norges Svalbard- og Ishavs-undersøkelser. Skrifter. Nr. 84) *Title tr.*: On the Productidae of the brachiopod limestones and the Mallemuk formation of north-

eastern Greenland and the question of the age of some of the early Paleozoic formations of the Arctic.

Revision of the brachiopods (with description of three new species) and discussion of stratigraphy of the northeast coast of Greenland, based on collections made by the Norwegian expedition 1930, and other collections; with a bibliography (45 items).

Copy seen: DLC.

5242. FREBOLD, HANS, 1899- . Unterer mariner Zechstein in Ostgrönland und das Alter der Depot Island Formation. København, C. A. Reitzel, 1931. 37, [1] p. 2 plates. (Meddelelser om Grønland. Bd. 84, nr. 3) *Title tr.*: Lower marine Permian limestone formations in East Greenland and the age of the Depot Island formation.

Based on investigations made by the Danish expeditions to East Greenland 1926-27 and 1929. Contains (1) annotated list of sixteen new forms of fossil brachiopods, lamellibranchiates and gastropods from the Cape Stosch formation on Hold with Hope, and one form of ammonites from the Depot Island formation; (2) discussion of the age of these Permian fauna and of the Depot Island formation; (3) paleogeographical conclusions; bibliography, p. 38.

Translation in English of extracts from this paper was published in: U. S. Hydrographic Office, *Papers on the eastern and northern extensions of the Gulf Stream*, 1871, p. 117-33, q.v. A lecture delivered before the Society of Arts and Sciences, Hamburg, Dec. 1868, and published May 1869, as *Mittheilung aus der nord-deutschen Seewarte*, Nr. 1.

The expedition, under Karl Koldewey cruised the waters of Greenland Sea in the *Germania*, May 25-Sept. 27, in two attempts to reach the east coast of Greenland, then sailed to the west and north of West Spitsbergen and in waters around it. Meteorologic, hydrographic and magnetic observations were made throughout the trip. The author describes the cruise and the work of the expedition; discusses the ice conditions, currents, surface and deep sea temperature, meteorology and magnetic variation in the Greenland Sea and waters north of Svalbard.

Tables: Daily meteorologic observations including surface water temperatures, May 25-Sept. 29; bottom sediments of thirty-nine stations; monthly summary of wind direction and force, hours of fog, rain, and snow; compass variation observations.

Chart: Surface temperature of Greenland Sea. *Copy seen*: DLC.

5277. FREUCHEN, PETER, 1886- . Meteorological observations. (Meddelelser om Grønland, 1915. Bd. 51, p. 413-26)

Scientific results of the First Thule Expedition, 1912. Remarks and data on meteorological observations made one to four times daily on the eastward journey over the inland ice from Cape Robertson (77°54'N. 71°52'W. on the Smith Sound coast of North Greenland) toward Danmark Fiord, Apr. 14-May 9, 1912; one to four times daily meteorological observations made during the exploration of glacier lakes, fiords and other intermediate areas between the coast (of the Danmark-Independence Fiords region) and the inland ice, May 15-Sept. 9, 1912. *Copy seen:* DLC.

5278. FREUCHEN, PETER, 1886- . Min anden ungdom. København, Gyldendal, 1938. 233 p. front., plates, ports., map. *Title tr.:* My second youth.

Description of the author's life and experiences from 1921 to 1929; the start of the Fifth Thule Expedition in the *Sokongne*, 1921, and the headquarters on Vansittart Island (about 66°N., 82°-84°W.); comments on accomplishments of the expedition; reminiscences from the Canadian Arctic, Greenland, Siberia, Denmark, America, etc.; remarks on other arctic explorers and expeditions; inland ice expeditions; and brief notes on the

Eskimos, wind, weather, temperature and ice conditions, etc. Includes map of area covered by the Fifth Thule Expedition, 1921-24.

Copy seen: DLC; NN.

5279. FREUCHEN, PETER, 1886- . Min grønlandske ungdom. København, Gyldendal, 1936. 325 p. front., plates, ports. *Title tr.:* My youth in Greenland. English version published as *Arctic Adventure*, 1935, q.v. *Copy seen:* DLC.

5280. FREUCHEN, PETER, 1886- . Nordboerne ved Upernivik. (Grønlandske selskab. Aarsskrift, 1919. p. 48-53) *Title tr.:* The Norsemen at Upernavik.

Discusses investigation of the house ruins at Umiarfik, West Greenland (about 72°N. 56°W.), found by pastor Rossen; declares them to be Eskimo houses; refutes pastor Rossen's statement that they are remnants of Norse medieval settlements. Includes supplementary remarks by Freuchen's companion to Umiarfik, Dr. H. Bryder, who suggests archeological investigations at Inugsuk. *Copy seen:* NN.

5281. FREUCHEN, PETER, 1886- . Om ederfuglene i Kap York-distriktet. (Geografisk tidsskrift, 1921-22. København, 1922. Bd. 26, p. 49-57) *Title tr.:* On eider ducks in the Cape York district.

Remarks on the occurrence of eider ducks in the Cape York region, Eskimo eider duck "picnics", methods of hunting the birds, importance of their eggs and meat in the Eskimo diet.

Copy seen: DLC.

5282. FREUCHEN, PETER, 1886- . Om hvalrossens forekomst og vandringer ved Grønlands vestkyst. (Dansk naturhistorisk forening. Videnskabelige meddelelser, 1921. Bd. 72, p. 237-49) *Title tr.:* On the occurrence and migration of walrus along the west coast of Greenland. *Copy seen:* DLC.

5283. FREUCHEN, PETER, 1886- . Om plantekost hos Smith-sund eskimorne. (Geografisk tidsskrift, 1917-18. København, 1918. Bd. 24, p. 306-310) *Title tr.:* On food of the Smith Sound Eskimos derived from the vegetation.

Discussion of willows, certain flowering plants, mushrooms, berries, etc. used in the diet of the Smith Sound Eskimos. *Copy seen:* DLC.

5284. FREUCHEN, PETER, 1886- . Om rener og moskusokser i Kap York distriktet. (Geografisk tidsskrift, 1911-12, Kjøbenhavn, 1912. Bd. 21, p. 144-46) *Title tr.*: On reindeer and musk oxen in the Cape York region.

Speculations on causes of the non-occurrence of reindeer and musk oxen in the Cape York region of northwest Greenland. *Copy seen*: DLC.

5285. FREUCHEN, PETER, 1886- . Report of the First Thule Expedition, Scientific work [Zoology]. (Meddelelser om Grønland, 1915. Bd. 51, p. 387-411)

Field notes on ten species of animals and twelve birds (and tracks) seen by Rasmussen and Freuchen in North Greenland and fiords in the course of the First Thule Expedition in 1912; with remarks on game conditions (especially musk oxen) in the Peary Land and Danmark Fiord regions.

Copy seen: DLC.

5286. FREUCHEN, PETER, 1886- . Roald Amundsens nordpolsflyvning 1925. (Geografisk tidsskrift, Kjøbenhavn, 1925. Bd. 28, p. 133-39) *Title tr.*: Roald Amundsen's north polar flight, 1925.

Copy seen: DLC.

5287. FREUCHEN, PETER, 1886- . Sibiriske eventyr. Kjøbenhavn, Frederik E. Pedersen, 1939. 329 p. cover illus. *Title tr.*: Siberian adventures.

An account of the author's travels through Siberia. *Copy seen*: NN.

5288. FREY, RICHARD. Bidrag till kännedomen om Finlands harkrankar (Dipt.). (Societas pro fauna et flora fennica. Memoranda, 1932-33, pub. 1933. v. 9, p. 29-31) *Title tr.*: A contribution to the knowledge of crane flies (Dipt.) of Finland.

Contains a list of thirteen species of crane flies, including nine native to Finnish and Russian Lapland and the Kuusamo region, with critical notes and data on distribution.

Copy seen: MH-A.

5289. FREY, RICHARD. *Cephenomyia ulrichi* Brauer, en på alg levande, för landet ny oestrid. (Societas pro fauna et flora fennica. Meddelanden, 1913-14, pub. 1914. Häfte 40, p. 117-19, illus.) *Title tr.*: *Cephenomyia ulrichi* Brauer, an oestrid living on Algae, a newcomer to Finland.

Contains a list of six species of bot-flies, fam. Oestridae, including *Cephenomyia trompe*, native to Finnish and Russian Lapland, and comparison with *C. ulrichi*, new to the entomological fauna of Finland.

Copy seen: MH-A.

5290. FREY, RICHARD. Diptera Brachycera aus den arktischen Küstengegenden Sibiriens. St.-Petersburg, 1915. 1 p. l., 35 p. tables. (Russkaja poljarnaja ekspeditsiia, 1900-1903. Résultats scientifiques. Sect. E., vol. 2, livr. 10. Pub. as: Akademiia nauk SSSR. Mémoires. Sér. 8, Classe physico-mathématique, vol. 29, no. 10) *Title tr.*: Diptera Brachycera of the arctic coasts of Siberia.

Contains a discussion of the distribution and typical zones of the flies, a systematic annotated list, with localities and distribution, of fifty-one (including with descriptions, thirteen new) species from Taymyr Peninsula, the tundra between Yana and Lena River mouths, and the New Siberian Islands; and a bibliography (40 items).

Copy seen: DSI-M.

5291. FREY, RICHARD. Dipterologiska notiser. (Societas pro fauna et flora fennica. Meddelanden, 1910-11, pub. 1911. Häfte 37, p. 91-92, 230) *Title tr.*: Notes on Diptera.

Contains a discussion on nine families of these insects with one hundred thirty-eight species, including eight arctic species distributed in Scandi-

navia and European and Asiatic Russia. Summary in German.

Copy seen: MH.

5292. FREY, RICHARD. Entomologische Ergebnisse der schwedischen Kamtschatka-Expedition 1920-1922. 36. Diptera Brachycera. 5. Empididae, Micropezidae, Lauxaniidae, Chloropidae. [Stockholm, 1935] 8 p. (Arkiv för zoologi. Bd. 28A, no. 10) *Title tr.:* Entomological results of the Swedish Kamchatka Expedition, 1920-22. 36. Diptera Brachycera. 5. Empididae, Micropezidae, Lauxaniidae, Chloropidae.

Annotated list, with localities, of twenty-one (including with descriptions, nine new) species and subspecies of flies.

Copy seen: DSI-M.

5293. FREY, RICHARD. Entomologiska meddelanden. (Societas pro fauna et flora fennica. Meddelanden, 1914-15, pub. 1915. Häfte 41, p. 43) *Title tr.:* Entomological notes.

Contains critical notes on three species of dragonflies (Odonata), including *Agrion vemale* Hagen (*lunulatum* Charp.) native to Kola Peninsula.

Copy seen: DLC; MH-A.

5294. FREY, RICHARD. Finlands *Sarcophaga*- och *Onesia*-arter, bestämda af J. Villeneuve. (Societas pro fauna et flora fennica. Meddelanden 1908-1909, pub. 1909. Häfte 35, p. 90-92) *Title tr.:* *Sarcophaga* and *Onesia* species of Finland.

Contains a list of nineteen species of insects of the dipterous genus *Sarcophaga* and four of *Onesia*, determined by Dr. J. Villeneuve. Includes *S. haematodes* from Kemi Lapland, and *O. genarum* from "Lapponia".

Copy seen: MH-A.

5294A. FREY, RICHARD. För faunan nya arter av nematocersläktet *Trichocera* Meig. (Societas pro fauna et flora fennica. Memoranda, 1929-30, pub. 1929. v. 6, p. 6-7) *Title tr.:* Species of nematocerous genus *Trichocera* Meig, new to the fauna of Finland.

Contains a list of four species of dipterous genus *Trichocera* (fam. Rhyphidae) new to the insect fauna of Finland, and another list of four species known previously from Finland, including six native to Finnish and Russian Lapland.

Copy seen: MH-A.

5295. FREY, RICHARD. För Finlands fauna nya Diptera. (Societas pro fauna

et flora fennica. Meddelanden, 1922-23, pub. 1925. Häfte 49, p. 3-4) *Title tr.:* Diptera new to fauna of Finland.

Contains a list of eight insects new to the fauna of Finland, including *Glabbula arctica* native to Muonio, Kemi Lappmark in Finland, and Kandalaksha, Kola Peninsula.

Copy seen: MH-A.

5296. FREY, RICHARD. Förteckning över Finlands chloropider, bestämda av O. Duda. (Societas pro fauna et flora fennica. Memoranda, 1932-33, pub. 1933. v. 9, p. 128-39) *Title tr.:* Enumeration of Chloropidae of Finland determined by O. Duda.

Contains a systematic list of eighty-one species of these flies, based on collections of the Finnish Museum, Helsinki, including many native to Finnish and Russian Lapland.

Copy seen: MH-A.

5297. FREY, RICHARD. Förteckning över Finlands Scatopsider, på grundvalen av O. Dudas revision av vårt material. (Societas pro fauna et flora fennica. Memoranda, 1929-30, pub. 1930. v. 6, p. 151-52) *Title tr.:* List of Scatopsidae of Finland based on O. Duda's revision of Finnish material.

Contains a systematic list of seventeen species of Scatopsidae, based chiefly on a revision of that family of Diptera by O. Duda. Includes nine species of these flies native to Finnish and Russian Lapland.

Copy seen: MH-A.

5298. FREY, RICHARD. Några nykomlingar för Finlands empidid och dolichopodidfauna. (Societas pro fauna et flora fennica. Memoranda, 1928-29, pub. 1929. v. 5, p. 111-13) *Title tr.:* Some newcomers to Empididae and Dolichopodidae fauna of Finland.

Contains critical notes and data on distribution of five predaceous brachycerous flies of fam. Empididae and Dolichopodidae, found in 1928 by the author in the Petsamo region; some extending to Finnish Lapland and Kola Peninsula. Summary in German.

Copy seen: MH-A.

5299. FREY, RICHARD. Provisorisk förteckning över Finlands culicider. (Societas pro fauna et flora fennica. Meddelanden, 1920-21, pub. 1921. Häfte 47, p. 98-102) *Title tr.:* A provisional list of Culicidae of Finland.

Contains a provisional list of twenty-two species of mosquitoes (Culicidae), including five native to Finnish and Russian Lapland.

Copied seen: MH-A.

5300. FREY, RICHARD. Tre för landets fauna nya harkrankar. (Societas pro fauna et flora fennica. Memoranda, 1925-26, pub. 1927. v. 2, p. 12) *Title tr.*: Three crane flies new to Finland.

Contains data on distribution of *Tipula rubripes*, a daddy-long-legs, found in Kuusamo, Finland, also in Kandalaksha and Khibiny, Kola Peninsula.

Copied seen: MH-A.

Report on the zoogeographical investigation of the Vud'yavr Lakes basin in central Kola Peninsula, by the expedition of the Apatite Trust and Malarial Commission of the Zoological Museum of the Academy of Sciences in 1930. Includes data on various insects in the region as serious pests to men and animals, and an obstacle to colonization. Diagram shows the conditions of development of blood-sucking mosquitoes (genus *Aedes*) and punkies (genus *Simulium*) in relation to meteorological, hydrological, and hydro-biological phenomena. Author suggests bee-keeping be tried in the region.

Contains a general sketch of the vegetation of Nordreise district, Tromsø province, Norway, and a list of about two hundred vascular plants with data on habitat and local distribution.

Copy seen: MH-Z.

5310. FRIEDLAENDER, IMMANUEL, 1871- . Notizen über die Bogosloff-Inseln. (Zeitschrift für Vulkanologie, Juni, 1919. Bd. 5, p. 51-55, illus.)

Historic sketch of Bogosloff Island, its volcanic activity and island formation, drawn from earlier writers' works.

Copy seen: DGS.

5311. FRIEDMANN, HERBERT, 1900- . Additions to the avifauna of St. Lawrence Island, Bering Sea. (*Condor*, Nov. 1932. v. 34, p. 257)

First records for the island of a dotterel, and a whiskered auklet, sent to the U. S. National Museum by an Eskimo collector in 1932.

Copy seen: DSI-M.

5312. FRIEDMANN, HERBERT, 1900- . The Amur barn swallow, a new bird for North America. (*Condor*, Jan.-Feb. 1939. v. 41, p. 37)

Report of the Amur barn swallow, *Hirundo rustica gutturalis*, collected by Paul Silook at Gambell, St. Lawrence Island, Alaska.

Copy seen: DSI-M.

5313. FRIEDMANN, HERBERT, 1900- . Avian bones from prehistoric ruins on Kodiak Island, Alaska. (*Washington Academy of Sciences. Journal*, Jan. 15, 1935. v. 25, p. 44-51)

Contains annotated list of 40 species of birds, seven of which are new to the known fauna of the island (black-footed albatross, trumpeter swan, Ross' goose, lesser scaup, goldeneye, gray sea eagle, long-tailed jaeger), identified from bones excavated by Ales Hrdlička.

Copy seen: DSI-M.

5314. FRIEDMANN, HERBERT, 1900- . Bird bones from archeological sites in Alaska. (*Washington Academy of Sciences. Journal*, Oct. 15, 1937. v. 27, p. 431-38)

Contains annotated list of birds identified from bones collected by Dr. Ales Hrdlička on Kodiak and several of the Aleutian Islands: Kodiak, forty-one species of which two are new to the island — golden eagle and red-legged kittiwake; Unalaska, thirty-one species; Atka, seven species; Little Kiska, thirty-four species; Attu, seventeen species.

Copy seen: DSI-M.

5315. FRIEDMANN, HERBERT, 1900- . Bird bones from Eskimo ruins at Cape Prince of Wales, Alaska. (*Washington Academy of Sciences. Journal*, Sept. 15, 1941. v. 31, p. 404-409)

Contains an annotated list of thirty-nine species of birds identified from bones from old Eskimo middens, mostly of the Thule-Punuk period, excavated by H. B. Collins in 1936.

Copy seen: DSI-M.

5316. FRIEDMANN, HERBERT, 1900-
. Bird bones from Eskimo ruins on
St. Lawrence Island. (Washington
Academy of Sciences. Journal, Feb.
1934. v. 24, p. 83-96)

Contains an annotated list of forty-
five species of birds, of which ten are
new to the known avifauna of the is-
land, and to which may be referred the
bones from diggings in village sites,
ranging in age from 50 to 2500 years
old.

Copy seen: DSI-M.

5317. FRIEDMANN, HERBERT, 1900-
. Bird bones from old Eskimo ruins
in Alaska. (Washington Academy of
Sciences. Journal, May 1934. v. 24, p.
230-37)

Contains annotated lists of twenty-
one species of birds from the Aleutians,
twenty-four species from Kodiak, simple
list of fifteen species from Norton
Sound, and three (each) from Seward
Peninsula and Bonasila.

Copy seen: DSI-M.

5318. FRIEDMANN, HERBERT, 1900-
. The birds of Kodiak Island, Alaska.
(Chicago Academy of Sciences. Bul-
letin, Sept. 1935. v. 5, p. 13-54, sketch
map)

Notes on the island as a habitat, an
annotated list of one hundred forty-
one species, and a bibliography (92
items).

Copy seen: DSI-M.

5319. FRIEDMANN, HERBERT, 1900-
. The birds of St. Lawrence Island,
Bering Sea. Washington, D. C., 1932.
31 p., 6 plates (U. S. National Museum.
Proceedings, v. 80, article 12. Its Pub.
no. 2912)

Contains a brief description of St.
Lawrence Island, its geography, his-
tory and record of ornithological ex-
ploration, followed by description and
discussion of sixty-one species of birds
known to occur there, based on scat-
tered records and 109 skins collected by
H. B. Collins in 1930.

Copy seen: DLC.

5320. FRIEDMANN, HERBERT, 1900-
. The Chinese cormorant on Kodiak
Island, Alaska. (Condor, Jan. 1933. v.
35, p. 30-31)

Humerus of *Phalacrocorax carbo*
sinensis discovered among avian bones
in an old Eskimo kitchen midden, 1932.
Notes on probable northern range of
species.

Copy seen: DSI-M.

5321. FRIEDMANN, HERBERT, 1900-
. Further additions to the known avi-
fauna of St. Lawrence Island, Alaska.
(Condor, Mar. 1937. v. 39, p. 91)

Of seven species sent to the U. S.
National Museum by an Eskimo col-
lector, six are new records (May-Aug.
1936) for the island.

Copy seen: DSI-M.

5322. FRIEDMANN, HERBERT, 1900-
. Further records from St. Lawrence
Island, Alaska. (Condor, Mar. 1938. v.
40, p. 88)

Four species added to island record,
one of which is new for North Ameri-
ca (*Petchora pipit*).

Copy seen: DSI-M.

5323. FRIEDMANN, HERBERT, 1900-
. The green-winged teal of the Aleu-
tian Islands. (Biological Society of
Washington. Proceedings Sept. 3, 1948.
v. 61, p. 157-58)

The green-winged teal breeding on
the Aleutian Islands east to Akutan is
described as sufficiently distinct from
those of Europe, Asia, and other parts
of Alaska to warrant designation as
Anas crecca nimia.

Copy seen: DSI-M.

5324. FRIEDMANN, HERBERT, 1900-
. The Mongolian plover and other
birds at Goodnews Bay, Alaska. (Con-
dor, Mar. 1934. v. 36, p. 89)

Specimens of three species reported
were received by the U. S. National
Museum, the plover, a surf bird, and a
kittlitz murrelet.

Copy seen: DSI-M.

5325. FRIEDMANN, HERBERT, 1900-
. The mourning dove in Alaska (Auk,
1931. v. 48, p. 265)

First Alaskan record for the western
mourning dove (at Fort Yukon).

Copy seen: DSI-M.

5326. FRIEDMANN, HERBERT, 1900-
. A new race of the sharp-tailed
grouse. (Washington Academy of Sci-
ences. Journal, June 15, 1943. v. 33, p.
189-191)

Description of *Pedioecetes phasianel-
lus caurus*, ranging from north cen-
tral Alaska to southern Yukon Terri-
tory and northeastern Alberta; also
key to all forms of *Pedioecetes phasi-
anellus*.

Copy seen: DSI-M.

5327. FRIEDMANN, HERBERT, 1900-
. Notes on Alaskan birds. (Condor,
1936. v. 38, p. 173)

Hudsonian curlew and Rocky Mountain creeper are added to the known fauna of Kodiak Island; mongolian plover is reported on St. Lawrence Island, and nesting at Goodnews Bay, Alaska. Includes notes on the breeding range of peale's falcon (less extensive than previously thought).

Copy seen: DSI-M.

5328. FRIEDMANN, HERBERT, 1900- . Notes on some birds of Goodnews Bay, Alaska. (Condor, Nov. 1933. v. 35, p. 239-40)

Breeding records for pectoral sandpiper and Aleutian tern discussed, and five other species listed, all occasioned by a bird shipment to the U. S. National Museum, from Alaska.

Copy seen: DSI-M.

5329. FRIEDMANN, HERBERT, 1900- . The Polynesian tattler on St. Lawrence Island. (Condor, 1933. v. 35, p. 78)

First record for St. Lawrence Island, second North American locality, for Polynesian tattler, *Heteroscelis brevipes*.

Copy seen: DSI-M.

5330. FRIEDMANN, HERBERT, 1900- . The red-spotted bluethroats of northwestern Alaska. (Auk, 1946. v. 63, p. 434).

Taxonomic discussion of the status of *Luscinia svecica* in Siberia and Alaska.

Copy seen: DSI-M.

5331. FRIEDMANN, HERBERT, 1900- . The ruff on St. Lawrence Island. (Condor, 1934. v. 36, p. 42)

First record of the ruff (*Philomachus pugnax*) on St. Lawrence Island.

Copy seen: DSI-M.

5332. FRIEDMANN, HERBERT, 1900- . The Siberian rough-legged hawk in Alaska. (Condor, Nov. 1934. v. 36, p. 246)

Re-examination of museum specimens shows a specimen (Nelson, 1879) to be of Siberian race. Discussion of criteria for identification.

Copy seen: DSI-M.

5333. FRIEDMANN, HERBERT, 1900- , and J. H. RILEY. The genus *Cuculus* in North America. (Auk, 1931. v. 48, p. 269)

First record of the Himalayan cuckoo, *Cuculus canorus bakeri*, on St.

Lawrence Island; also identification of an old record of *Cuculus canorus telephonus* from St. Paul Island corrected to *Cuculus optatus*.

Copy seen: DSI-M.

5334. FRIEDRICH, M. Über Niederschlag und Schneelagerung in der Arktis. (Verein für Erdkunde zu Leipzig. Beiträge zur Geographie des Festen Wassers. No. 2 Pub. in its: Wissenschaftliche Veröffentlichungen, 1891. Bd. 1, p. 93-172) *Title tr.:* On precipitation and snow cover in the Arctic.

Based on records from a large number of expeditions to various regions (i.e. circumpolar data as then available) on snow, rain or unspecified precipitation.

Contains in pt. 1, excerpts from these records, and discussion of number of days of snow and rain, months of lesser amount or none, types, forms, amounts, and associated air temperatures, for definite regions (e.g. Yakut, Franz Josef Land, Spitzbergen, Canadian Arctic, etc.)

Pt. 2. Date of beginning of winter snow cover, characteristics of the surface layer of snow before melting, snow layers, surface forms, colored snow, depths, melting, and firm limits; brief notes on glaciers, drift ice, and the snow foot (along shore); brief remarks on the influence of the snow cover on climate, vegetation, animals and man; and a bibliography (85 items).

5335. FRIELE, HERMAN, 1838-1921. Catalog der auf der norwegischen Nordmeer-expedition bei Spitzbergen gefundenen Mollusken. (Deutsche malakozoologische Gesellschaft. Jahrbücher, 1879. Jahrg. 6, Heft 2, p. 264-

86) **Title tr.:** Catalog of molluscs found by the Norwegian North Sea Expedition around Spitsbergen.

List, with references to literature, station, depth and discussions, of eighty-three (including with Latin diagnoses), six new species of molluscs and mollusc shells, collected by the Norwegian North Sea Expedition, 1876-78. Includes author's theory on the transportation of shallow-water shells by ice. **Copy seen:** DLC.

5336. FRIELE, HERMAN, 1838-1921. Jan Mayen Mollusca from the Norwegian North Atl. Expedition in 1877. (Nytt magasin for naturvidenskapene, 1879, pub. 1878. Bd. 24, hefte 3, p. 221-26, plate)

Contains a list of forty-nine species of marine molluscs collected by the Norwegian Northern Sea (Norske nordhavs) Expedition in 1877, in Jan Mayen waters; includes descriptions of *Terebratula arctica* and *Rissoa Jan-Mayen* n. spp. and critical notes on some other species. **Copy seen:** MH-Z.

A list, with descriptions, locations and taxonomic notes, of thirty-four (including four new) species of marine gastropods. **Copy seen:** DLC.

5338. FRIELE, HERMAN, 1838-1921. Mollusca, II. [Pleurotomidae, Cancellaria and Brachiopoda] Christiania, Grøndahl & Søn, 1886. 1 p. l., 44 p. 6 plates (VII-XII) (Den Norske Nordhavs-expedition, 1876-1878. Bd. 3, Zoology, hefte 5)

List, with descriptions and locations of twenty-two (including one new) species of Pleurotomidae, twenty-six (including eight new) species of Cancellaria, and one species of Brachiopoda, from the Norwegian and Greenland Seas. **Copy seen:** DLC.

5339. FRIELE, HERMAN, 1838-1921. Mollusken der ersten Nordmeerfahrt des Fischereidampfers "Michael Sars" 1900 unter Leitung von Herrn Dr. Johan Hjort. Bergen, J. Grieg, 1903. 19 p. 4 plates. (Bergen, Norway. Museum. Aarbok, 1902. No. 3) **Title tr.:** Molluscs from the first cruise in northern

seas by the *Michael Sars*, 1900, under the direction of Dr. J. Hjort.

The course of the expedition, July-Aug. was from Norway to the middle of Denmark Strait (north of Iceland) thence to Jan Mayen, northern Norwegian waters, Bear Island, and return.

The author gives here a list with locations, of seventy-seven (including with descriptions, four new) species of molluscs and three brachiopods. **Copy seen:** DLC.

5340. FRIELE, HERMAN, 1838-1921. Preliminary report on Mollusca from the Norwegian North Atlantic expedition in 1876. (Nytt magasin for naturvidenskapene, 1877. Bd. 23; hefte 3, p. 1-10, plate)

Contains descriptions of nine new species of marine molluscs collected between the northern Norwegian coast and Iceland during the Norwegian North Atlantic Expedition, 1876, and critical notes on eleven other species. **Copy seen:** MH-A.

5341. FRIELE, HERMAN, 1838-1921, and J. A. GRIEG. Mollusca, III. Christiania, Grøndahl & Søn, 1901. 2 p. l., 129 [2] p. illus., map. (Den Norske Nordhavs-expedition, 1876-1878, Bd. 7, Zoology, hefte 5)

A faunistic survey of all (one hundred thirty-three) molluscan species taken during the expedition (including the groups described by the author in *Mollusca* I-II), with notes on their horizontal and vertical distribution in the Norwegian and Greenland Seas. **Copy seen:** DLC.

FRIEND, F. B., see Laurence, G. C., & F. B. Friend. Tests for mesothorium in radium Great Bear Lake. 1934.

5342. FRIES, ELIAS MAGNUS, 1794-1878. Anmärkningar öfver *Sparganium natans* Lin. (Botaniska notiser, 1849, no. 1, p. 12-16) **Title tr.:** Notes on *Sparganium natans* Lin.

Contains a Latin description of *Sparganium natans* with discussion of its synonymy and data on distribution in the arctic region of Scandinavia and European and Asiatic Russia. **Copy seen:** MH-A.

5343. FRIES, ELIAS MAGNUS, 1794-1878. *Batrachium confervoides*, speciem novam articum. (Botaniska notiser,

1845, no. 7-8, p. 121-22) *Title tr.*: *Batrachium confervoides*, a new arctic species.

Contains a Latin description of *Batrachium confervoides* n. sp., an herb native to Lapland, with critical note and comparison with a related species, *B. tripartitum*. *Copy seen*: MH-A.

5344. FRIES, ELIAS MAGNUS, 1794-1878. Bidrag till några svenska vaxters synonymik. (Botaniska notiser, 1857, no. 2, p. 32-35; no. 3, p. 46-50; no. 7, p. 108-115; no. 10, p. 161-64; 1858, no. 2, p. 31-35; no. 8, p. 126-32) *Title tr.*: Contributions to the synonymy of Swedish plants.

Contains taxonomic notes on synonymy of eighty Swedish plants, including some native to Swedish Lapland.

Copy seen: MH-A.

5345. FRIES, ELIAS MAGNUS, 1794-1878. Nya skandinaviska växter. (Botaniska notiser, 1849, no. 4, p. 57-61) *Title tr.*: New Scandinavian plants.

Contains critical notes on ten flowering plants new to the flora of Scandinavia, including *Carex orthostachya* native to Russian Lapland.

Copy seen: MH-A.

5346. FRIES, ELIAS MAGNUS, 1794-1878. Plantae Suecanae ex Illustr. Kochii Florae Germanicae synopsi, ed. 2. (Botaniska notiser, 1843, no. 8, p. 113-21) *Title tr.*: Swedish plants in Koch's Synopsis Florae Germanicae, ed. 2.

Contains a critical revision of twenty-five species and some varieties and forms of plants described in Koch, W. D. J., *Synopsis Florae Germanicae*, etc., ed. 2., Pars prima. Frankfurt am Mayn, 1843, including at least one native to Lapland, *Batrachia eradicatum*.

Copy seen: MH-A.

Contains a note on *Bovistella echinella* (Pat.) Lloyd, an interesting and rare fungus of the group Gasteromycetes, found in the region of Abisko (68°30'N.) in Torne Lapland.

Copy seen: MH-A.

5353. FRIES, KLAS ROBERT ELIAS, 1876- . Några ord om Myxomycetfloran i Torne Lappmark. (Svensk botanisk tidskrift, 1910, pub. 1911. Bd. 4, häfte 4, p. 253-62, illus.) *Title tr.:* A few words on Myxomycetes flora of Torne Lappmark.

Contains some critical notes on twenty-four species of slime molds (*Myxomycetes*) and data on their vertical distribution in the alpine and sub-alpine zones of the mountainous region of Torne Lapland, based on the author's observations in the summer of 1909.

Copy seen: MH-A.

5354. FRIES, KLAS ROBERT ELIAS, 1876- . *Polysaccum crassipes* DC., en för Sverige ny Gasteromycet. (Botaniska notiser, 1899, p. 241-44) *Title tr.:* *Polysaccum crassipes* DC., a species of Gasteromycetes new to Sweden.

Contains critical notes on *Polysaccum crassipes*, a fungus (Gasteromycetes) new to Sweden, found in Angermanland and Asele Lappmark.

Copy seen: MH-A.

5355. FRIES, KLAS ROBERT ELIAS, 1876- . Den Svenska Myxomycetfloran. (Svensk botanisk tidskrift, 1912. Bd. 6, häfte 3, p. 721-802, illus.) *Title tr.:* Swedish myxomycetous flora.

Contains a critical revision of slime molds (*Myxomycetes*) of Sweden with keys to the families and species and systematic enumeration of the species including many native to the arctic regions.

Copy seen: MH-A.

5356. FRIES, MAGNUS. Den nordiska utbredningen av *Lactuca alpina*, *Aconitum septentrionale*, *Ranunculus plantanifolius* och *Polygonatum verticillatum*. Uppsala, Almqvist & Wiksell, 1949. 80 p. plate, 15 text maps, 5 fold. maps. (Acta phytogeographica suecica. Bd. 24) *Title tr.:* Northern distribution of *Lactuca alpina*, etc.

Contains a study of the geographic distribution of these four flowering plants in northern Europe, including arctic regions of Scandinavia and the U.S.S.R. illustrated by folding and text maps; bibliography (168 items). Summary in German, p. 64-73.

Copy seen: MH-A.

5357. FRIES, OSKAR ROBERT, 1840-1908. Om trakten mellan Torneå- och Calix-elfvars nedre lopp i växtgeografiskt hänseende. (Botaniska notiser, 1858, no. 10, p. 153-70) *Title tr.:* The region between and around Torneå and Calix Lakes in northern Sweden, from the geobotanical viewpoint.

Contains a general description of the vegetation of this region and a systematic list of about three hundred flowering plants and vascular cryptogams with data on habitat.

Copy seen: MH-A.

5358. FRIES, THEODOR MAGNUS, 1832-1913. Anmärkningar rörande några svenska arter af släktet *Sparganium*. (Botaniska notiser, 1857, no. 4, p. 63-66) *Title tr.:* Notes on some Swedish species of the genus *Sparganium*.

Contains critical notes on Swedish species of herbaceous genus *Sparganium*, including some native to Swedish Lapland.

Copy seen: MH-A.

5359. FRIES, THEODOR MAGNUS, 1832-1913. Bidrag till kännedomen af Finnmarkens flora. (Botaniska notiser, 1858, no. 11, p. 173-85, no. 12, p. 197-204) *Title tr.:* Contributions to the knowledge of the flora of Finnmark.

Contains a historical sketch of botanical exploration of Finnmark, Norway, with a list of one hundred sixty species of flowering plants and vascu-

lar cryptogams, with brief data on habitat and distribution in Finnmark and adjoining regions (Tromsø, Varanger).

Copy seen: MH-A.

5360. FRIES, THEODOR MAGNUS, 1832-1913. En botanisk resa i Finnmarken 1864. (Botaniska notiser, 1865, no. 1, p. 6-16, no. 2, p. 27-38, no. 3, p. 42-58) *Title tr.:* A botanical trip to Finnmark in 1864.

Contains a general account of the author's exploring trip to Finnmark in the summer of 1864, with sketches of the vegetation of various districts, lists of plants and occasional notes on plants observed.

Copy seen: MH-A.

5361. FRIES, THEODOR MAGNUS, 1832-1913. Die Gefäßpflanzen Spitzbergens und der Bären-Insel. (Naturwissenschaftlicher Verein zu Bremen. Abhandlungen, 1873. Bd. 3, p. 87-92) *Title tr.:* The vascular plants of Spitsbergen and Bear Island. Based on collections of the Second German North Pole Expedition, 1871-72.

A simple list of one hundred thirteen species from Spitsbergen and thirty-eight species from Bear Island.

Copy seen: DLC.

5362. FRIES, THEODOR MAGNUS, 1832-1913. Iakttagelser rörande några arktiska växter. (Botaniska notiser, 1858, no. 12, p. 189-97) *Title tr.:* Observations on some arctic plants.

Contains a Latin description of *Polemonium coeruleum campanulatum* n. var. and critical notes, additional data, corrections, etc., on some arctic Scandinavian species.

Copy seen: MH-A.

5363. FRIES, THEODOR MAGNUS, 1832-1913. Iakttagelser rörande Öst-Finmarkens starrarter. (Botaniska notiser, 1857, no. 12, p. 197-210) *Title tr.:* Observations on sedge species of eastern Finnmark.

Contains the results of the study of sedges (*Carex*), based on the author's observations during his summer trip to arctic Norway, including a list of thirty-seven Carices from eastern Finnmark, a Latin description of *C. vesicaria lacustris* n. var. and critical notes on *C. haliphila*, *C. juncella* and related species and forms.

Copy seen: MH.

Uppsala, Almqvist & Wiksells boktr. [1913] viii, 361 p. illus., 2 fold. maps. (Vetenskapliga och praktiska undersökningar i Lappland)

Contains a physical and geographic survey of this district in Swedish Lapland, the plant associations, influence of climatic and edaphic factors on the vegetation, the changing of the climate and vegetation in post-glacial time, migration of plants and its influence on the formation of vegetation.

Copy seen: MH-A.

5379. FRIES, THORE CHRISTIAN ELIAS, 1886-1930. Experiment över björkens lövsprickning i skogsgränser och i dalbottner. (Svensk botanisk tidskrift, 1919. Bd. 13, häfte 1, p. 43-47) *Title tr.*: Experiment on bursting of the leaves of birches on the edges of forests and in the bottoms of the valleys.

Contains results of the experiments on bursting of the leaves of birches (*Betula odorata*) under various conditions and on various levels, carried out on the Abisko Natural History Research Station in Torne Lappmark.

Copy seen: MH-A.

5380. FRIES, THORE CHRISTIAN ELIAS, 1886-1930. Floran inom Abisko national park. Stockholm, Almqvist & Wiksells boktr. 1919. 48 p. illus. (Arkiv för botanik 1921, pub. 1919. Bd. 16, no. 4) *Title tr.*: Flora of the Abisko national park.

Contains a list of three hundred thirty-five species of plants, growing in the Abisko national park in Torne

Lappmark, with data on habitat and local distribution; bibliography (33 items).

Copy seen: MH.

5381. FRIES, THORE CHRISTIAN ELIAS, 1886-1930. Några anmärkningsvärda gasteromycetfynd. (Svensk botanisk tidskrift, 1918. Bd. 12, häfte 1, p. 130-31) *Title tr.*: Some noteworthy finds of Gasteromycetes.

Contains notes on localities of ten noteworthy fungi of the group *Gasteromycetes*, including *Clavatia arctica*, *Bovista nigrescens* and *B. plumbea*, native to Swedish Lapland and adjoining arctic regions of Norway.

Copy seen: MH-A.

5382. FRIES, THORE CHRISTIAN ELIAS, 1886-1930. The vertical distribution of some plants on Nuolja (Torne Lappmark). (Botanisk notiser, 1925, häfte 3, p. 205-216)

Contains a study of the vertical distribution of forty-two typical high-alpine plants in three arctic regions (Nuolja, Tromsø amt, and Sarek district), and a diagram of vertical distribution of twelve species of Ranunculaceae in the Nuolja region.

Copy seen: MH-Z.

5383. FRIES, THORE CHRISTIAN ELIAS, 1886-1930. Zur Kenntnis der Gasteromyceten-Flora in Torne Lappmark. (Svensk botanisk tidskrift, 1914. Bd. 8, no. 2, p. 235-43, plate 5) *Title tr.*: Contribution to knowledge of the flora of Gasteromycetes in Torne Lappmark.

Contains a systematic enumeration of ten species of fungi of the group *Gasteromycetes*, including Latin diagnoses of *Calvatia borealis* and *Bovista cretacea* n. spp. from Torne Lappmark, northern Sweden.

Copy seen: MH-A.

5384. FRIES, THORE CHRISTIAN ELIAS, 1886-1930, and SAMUEL MÅRTENSON. Floristika anteckningar från de alpina och subalpina delarna af Karesuando och Jukkasjärvi socknar norr om Torne Träsk (Svensk botanisk tidskrift, 1910. Bd. 4, häfte 3, p. 55-75) *Title tr.*: Floristic notes on the alpine and sub-alpine zones of the Karesuando and Jukkasjärvi parishes to the north of Torne Träsk.

Contains an alphabetical list of about three hundred fifty species of flowering plants and vascular cryptogams from the Karesuando and Juk-

kasjarvi regions in Torne Lappmark, with data on habitat and local distribution; based on the author's investigations in the summer of 1909 and on earlier collections.

St.-Petersbourg, 1908. 1 p. l., 17 p. plate. (Russkaja poliarnaja ekspeditsiia, 1900-1903. Resultats scientifiques. Sect. E, vol. 1, livr. 13. *Pub. as:* Akademiia nauk SSSR. Mémoires. Sér. 8, classe physico-mathématique, vol. 18, no. 13) *Title tr.:* On the bees (Apidae) of the Russian Polar Expedition 1900-1903, and some other collections.

Contains an annotated list of six species from the tundra between the Lena and Yana Rivers; a discussion of the circumpolar distribution of arctic bees, and their life histories; a key to species, and a bibliography (39 items).

Copy seen: DSI.

5389. FRIESE, HEINRICH FRIEDRICH AUGUST, 1860- . Wespen und Bienen. Petrograd, 1919. 1 p. l., 2 p. (Ekspeditsiia brat'ev Kuznetsovych na poliarnyi Ural, 1909. Resultats scientifiques. Livr. 15. *Pub. as:* Akademiia nauk SSSR. Mémoires. Sér. 8, classe physico-mathématique, vol. 28, no. 15) *Title tr.:* Wasps and bees. (Scientific results of the Expedition of the Kuznetsov Brothers to the Arctic Ural, 1909).

Notes on one species and two (one new) varieties of social wasps and two species of bees.

Copy seen: DGS.

5390. FRIESE, HEINRICH FRIEDRICH AUGUST, 1860- , and others. Zoological results of the Norwegian Scientific Expeditions to East-Greenland. IV. Oslo, J. Dybwad, 1935. 25 p. illus. (incl. map) Norway. Norges Svalbard og Ishavs-undersøkelser. Skrifter, no. 65) Text in German.

Based on collections made by the expeditions of 1929-30, between 72° and 75°N. on the coast of East Greenland.

Contents tr.: 1 Friese, H. Apiden. (Field notes on the six forms of two species of bees which were found, and discussion of their circumpolar occurrence and the plants upon which they are found; with a bibliography (30 items)).

2. Lindberg, H. Hemiptera. (Full field notes and some descriptions of immature stages of two heteropterous insects).

3. Linnaniemi, W. M. Collembola. (Systematic list, with locations and notes on distribution, of ten species; with a table showing occurrence in West and East Greenland of the thirty species recorded). *Copy seen:* DLC.

5391. FRIIS, ACHTON, 1871-. Danmark ekspeditionen til Grønlands nordøstkyst, af Achton Friis. Illustreret med fotografier samt med tegninger og malerier af Aage Bertelsen og Achton Friis. [København] Gyldendalske boghandel, Nordisk forlag, 1909. 2 p. l., vi p., 1 l., 670 p. 367 illus., plates (4 col., mounted) ports., double map. *Title tr.:* The *Danmark Expedition* to the northeast coast of Greenland, by Achton Friis. Illustrated by photographs and drawings and paintings by Aage Bertelsen and Achton Friis. German translation published as: Im Grönlandee mit Mylius-Erichsen. Die Danmark-expedition 1906-1908. Leipzig. Otto Spamer, 1910. 630 p. front., illus., plates, col. plates., fold. maps.

Account, by one of the artists who accompanied it, of the *Danmark* expedition under Mylius-Erichsen, 1906-1908; its geographical discoveries in northeast Greenland; notes on ice conditions, glaciology, meteorology; Eskimo ruins; archeology and ethnography; zoology, botany; hunting of musk ox, hare, fox, wolf, falcon, walrus, polar bear, seal, etc.; inland ice and sledge trips; dog disease; the tragic death of Mylius-Erichsen, leader of the expedition, and his companions, Hagen and Brønlund at 79°N., Brønlunds heroic feat; his and Mylius-Erichsen's diaries; artists at work.

This publication is notable for its pictorial record of day-to-day activities and personnel of the expedition.

Copy seen: DLC; NNSStef. (German tr.)

5392. FRIIS, ACHTON, 1871-. Rejsen til Grønland. Udgivet som manuskript. København, Gyldendal 1942. p. 11-36. illus., plates. (Gyldendals Julebog, 1942) *Title tr.:* The Greenland voyage.

Contains two chapters from the author's unpublished diaries of his travels in West Greenland, 1939; a description of the voyage and landing at Julianehaab; comparison between West and East Greenland Eskimos; Cape Desolation; motorboat trip from Godthaab to

Kørnok and Stejlefeld; trip on the *Disko* to Godhavn; includes incidental data on nature, weather and ice conditions. *Copy seen:* NN.

5393. FRIIS, JENS ANDREAS, 1821-1896. Lappisk mytologi, eventyr og folkesagn. Christiania, A. Cammermeyer, 1871. 2 v. in 1: xvi, 176, iv p.; x, 176, [1] p., illus. plates. *Title tr.:* Lappish mythology, adventures and folk tales.

Contains a description of Lapp mythology; a comparison between the old beliefs of the Greenland Eskimos and those of the Laplanders; the sorcerer's drum, with its inscriptions and symbolic figures; the deities, sacred places, sacrificial offerings, bear hunt ceremonial, games, etc., and forty-eight Lappish tales. Introduction includes list of sources.

Copy seen: DLC; NN.

5394. FRIIS-NIELSEN, EINAR, 1910. Den økonomiske udvikling i Christianshaab, Jakobshavn og Ritenbenk distrikter, 1899-1938. København, C. A. Reitzel, 1944. 161 p. incl. illus. (incl. diagrs.) tables. fold. map. (Meddelelser om Grønland. Bd. 134, nr. 3) *Title tr.:* The economic development of Christianshaab, Jakobshavn and Ritenbenk Districts, 1899-1938.

Economic survey of West Greenland 69°30'-75°35'N.; discussing climatic conditions, population trends; hunting gear, whaling, sealing, fishing, hunting and trapping (with statistical tables of types of implements, catch and earnings); meat production and consumption, the cash economy, occupational development due to fluctuations in temperature and the economic policy of Danish authorities; bibliography, (47 items). Summary in English.

Copy seen: DSI-M

5395. FRISCH, J. Ministerfaerden. (Grønlandske selskab. Aarskrift, 1907. p. 21-78) *Title tr.:* The ministerial visit.

Contains description of the inspection trip of Sigurd Berg, Minister of the Interior, to Greenland; the voyage in S.S. *Hans Egede*; arrival and reception at Godthaab; visit at Jacobshavn and return to Denmark. Includes episodes, amusing and serious; observations on wild life, geography and glaciers, etc. *Copy seen:* NNSStef.

5396. **FRISENDAHL, ARVID, 1886-** . Om *Epipogium* [i.e. *epipogum*] *aphyllum* i Sverige. (Svensk botanisk tidskrift, 1910. Bd. 4, häfte 2, p. 91-107, 2 plates, text maps) **Title tr.:** On *Epipogum aphyllum* in Sweden.

Contains detailed data on the habitat, distribution and biology of *Epipogum aphyllum*, "nobilissima et rarissima Florae nostrae civis" (E. Fries)—a terrestrial orchid found in Norrbotten, Lule and Torne Lappmark.

Copy seen: MH-A.

5397. **FRISON, THEODORE HENRY, 1895-** . Report on the Bremidae collected by the Crocker Land Expedition, 1913-1917. (American Museum of Natural History. Bulletin, 1919. v. 41, p. 451-59, plate) Scientific results of the Crocker Land Expedition.

Contains descriptions of three species of bumble bees, with notes on distribution and habits in northwestern Greenland.

Copy seen: DLC.

5398. **FRISSELL, VARICK.** Explorations in the Grand Falls region of Labrador. (Geographical journal, Apr. 1927. v. 69, p. 332-40, 4 plates, 2 sketch maps)

Account of the author's expedition in July 1925, with description of the region of Valley River, Grand Falls, Grenfell River (A. P. Low's Unknown River) and its twin falls, Yale and Grenfell. The author establishes the fact that Lake Ossokmanuan is drained by Grenfell and not Valley River, and that the Atikonak River flows south into this lake.

Comment by James White on the identity and nomenclature of Valley River (mentioned by Low and Frissell) was published in Geographical journal, Sept. 1927. v. 69, p. 287-89)

Contains a study of elements of the flora of southern mountains in Kebnekaise region in Torne Lappmark, northern Sweden, with lists of plants and detailed data on geographical distribution of *Draba nemorosa* and *Potentilla multifida* v. *lapponica*; bibliography.

Copy seen: MH-A.

5411. FRÖDIN, JOHN OTTO HENRIK, 1879- . Iakttagelser över Porjusområdet adventivflora. (Botaniska notiser, 1915. häfte 4, p. 191-94) **Title tr.:** Observations on the adventive flora of the Porjus region.

Contains a list of sixty-seven adventive plants from the Porjus region, Lule Lappmark, northern Sweden, collected in 1910-14 by the author.

Copy seen: MH-Z.

5412. FRÖDIN, JOHN OTTO HENRIK, 1879- . La limite forestière alpine et la température de l'air. (Botaniska notiser, 1920, p. 167-76) **Title tr.:** The alpine forest limit and air temperature.

Contains a discussion of the influence of various climatic factors, as temperature, winds, humidity, etc. on vertical distribution of forest vegetation (*Betula pubescens*, *Picea abies*, *Pinus silvestris*), in the mountains of Sweden, including Lapland.

Copy seen: MH-A.

5413. FRÖDIN, JOHN OTTO HENRIK, 1879- . Några märkliga sydberg i Lule Lappmark. Tvänne nya lokaler för *Potentilla multifida*. (Svensk botanisk tidskrift, 1915. Bd. 9, häfte 2, p. 192-219, illus.) Title tr.: Some remarkable southern mountains in Lule Lappmark. Two new localities for *Potentilla multifida*.

Contains description of six mountains in Langesjaure region of southern Lule Lappmark, with list of plants and analysis of the vegetation for each locality.

Copy seen: MH-A.

5414. FRÖDIN, JOHN OTTO HENRIK, 1879- . Några växtgeografiska notiser från Lule Lappmarks barrskogsregion. (Botanisk notiser, 1916. häfte 2, p. 67-68) Title tr.: Some geobotanical notes from the pine forest region of Lule Lappmark.

Contains a list of nineteen flowering plants from pine forest zone of Lule Lappmark with data on habitat and localities.

Copy seen: MH-Z.

5415. FRÖDIN, JOHN OTTO HENRIK, 1879- . *Polemonium coerulum***campanulatum*. Th. Fries i Lule Lappmark. (Botaniska notiser, 1912, häfte 5, p. 241-47) Title tr.: *Polemonium coerulum***campanulatum* Th. Fries in Lule Lappmark.

Contains a critical study of *Polemonium coerulum***campanulatum*, occurring in this district of northern Sweden, and related forms with a key to subspecies and varieties; bibliography (15 items).

Copy seen: MH-A.

5416. FRÖDIN, JOHN OTTO HENRIK, 1879- . Växtopografiska anteckningar i Stora Lule älvs källområde. (Botaniska notiser, 1915, häfte 3, p. 113-38) Title tr.: Plant topographical notes from Stora Lule River region.

Contains a general geographical description of this region in southern Lule Lappmark, northern Sweden, explored by the author in 1910-14, and an alphabetical list of about three hundred

flowering plants with data on local distribution.

Copy seen: MH-Z.

5417. FRÖDIN, JOHN OTTO HENRIK, 1879- . Växtopografiska iakttagelser i mellersta delen av Torne Lappmarks fjällområde. (Botaniska notiser, 1916, häfte 1, p. 25-34) Title tr.: Plant topographical observations in the middle part of mountain region in Torne Lappmark.

Contains historical notes on botanical observations of the middle of mountain region in Torne Lappmark, explored by the author in 1915, and an alphabetical list of about one hundred thirty flowering plants with localities and brief data on habitat.

Copy seen: MH-A.

5418. FROGNER, E. Means and extremes of sea temperature by the Norwegian coast. Oslo, Grondahl & Sons, 1948. 82 p. incl. tables, diagrs. (Geofysiske publikasjoner. v. 15, no. 3)

Tabulated results of observations, 1871-1943, including eighteen Norwegian coastal stations above the Arctic Circle and one on Jan Mayen.

Copy seen: DGS.

5419. FROLOV, V. Opyt raboty biuro pogody na Diksone. (Sovetskaja Arktika, 1940, no. 3, p. 26-31, illus.) Title tr.: Work of the weather station on Dickson Island.

Contains a description of the work at the meteorological station on Dickson Island, hydrological and meteorological conditions of Kara Sea; preparation of synoptic charts for flights and ships, difficulties of this work, and suggestions for improvement of synoptic charts and weather forecasting.

5420. FROMMEYER, MARIA. Die Eisverhältnisse um Spitzbergen und ihre Beziehungen zu klimatischen Faktoren. (Annalen der Hydrographie und maritimen Meteorologie, Juli-Aug. 1928. Jahrg. 56, p. 209-14, 240-48, fold. diagr.) Title tr.: The ice conditions around Spitzbergen and their relation to climatic factors.

Doctoral dissertation, University of Munich.

Contains (1) introductory remarks on the effect of the Gulf Stream and East Spitsbergen Polar Current on general conditions of drift and pack ice; brief description of conditions in

fiords and bays of West Spitsbergen, and of conditions each year, 1898-1921.

2. Relation between ice and atmospheric pressure.

3. Amount of ice in the polar basin as the determining factor in drift-ice distribution around Spitsbergen.

4. Relation between ice and air temperature.

5. The question of the eleven-year sunspot period as an influencing factor.

(Geografisk tidsskrift, København, 1934. Bd. 37, p. 31-42) *Title tr.*: Knud Rasmussen; summary of his travels in East Greenland and some words of remembrance.

Remarks on the Fourth and Sixth Thule Expeditions; brief account of the Seventh Thule Expedition; and evaluation of Rasmussen as a scientist, explorer and personality; also memorial remarks by Diamond Jenness. In Danish and English. *Copy seen:* DLC.

5451. GABEL-JØRGENSEN, CARL CHRISTIAN AAGE, 1895- . 6. og 7. Thule-expedition til Sydøstgrønland, 1931-33; leader: Knud Rasmussen. Report on the expedition. København, C. A. Reitzel, 1940. 270 p. illus. (incl. ports., maps) fold. map (in pocket). (Meddelelser om Grønland. Bd. 106, nr. 1)

Account by the second-in-command, prepared after Rasmussen's death, of the Sixth Thule Expedition, a motor boat voyage from Lindenow's Fiord to Angmagssalik and return, Aug.-Sept. 1931; and of the Seventh Thule Expedition, 1932-33, along the east coast of Greenland from Cape Farewell to Umi-vik (64°10'N.). The author, in charge of geodetic work, gives a full account of personnel, boats, equipment, itineraries, and a summary of the distances traversed by sea and air; an outline of the magnetic observations and archeological investigations made in 1931 especially at Lindenows Fiord. Describes the mapping (photogrammetric, land and air) of the east coast on the Seventh expedition, the geological, archeological, anthropological, zoological and botanical investigations and collections made. Includes a detailed account of K. Rasmussen's activity during these (his last) three years; also a chapter on ice conditions, harbors and bases in south-east Greenland.

Map: Cape Farewell to Scoresby Sound, scale 1:2 million.

5452. GABEL-JØRGENSEN, CARL CHRISTIAN AAGE, 1895- , and J. EGEDAL. Tidal observations made at Nanortalik and Julianehaab in 1932-1934. A. Works in field, by C. C. A. Gabel-Jørgensen. B. Results from tidal observations made in South-Greenland, by J. Egedal. København, C. A. Reitzel, 1940. 47 [1] p. incl. illus., tables. (Med-

delelser om Grønland. Bd. 107, nr. 2)

Results of the Sixth-Seventh Thule Expedition to southwest Greenland, 1931-33; and investigations continued to the summer of 1934, after the conclusion of the expedition.

Contains an account of the observations and works in the field by the leader of the expedition, Gabel-Jørgensen; and a deducing of the results by J. Egedal. Egedal discusses the tidal records, showing that in relation to older observations they offer a sure value for the sinking of southern Greenland; includes records of exact values obtained for harmonic constants and for fixing mean sea level.

Discussion of the inadequate work of the administration controlling the sailing operations in 1937, and need for improvement of the navigation service in the future. *Copy seen*: DLC.

5479. GAKKEL', IAKOV IAKOVLE-VICH. Plavanie parokhoda "Mossovet" v 1937 godu. (Problemy Arktiki, 1938, no. 1, p. 91-97, illus.) *Title tr.*: Voyages of the S.S. *Mossovet*, 1937.

Description of voyages on the Northern Sea Route. *Copy seen*: DLC.

5480. GAKKEL', IAKOV IAKOVLE-VICH. Prokhodimost' l'dov na Severnom morskoy puti. (Sovetskaya Arktika, 1937, no. 8, p. 92-98, illus., tables) *Title tr.*: Penetrability of ice on the Northern Sea Route.

Abridged report on methods of evaluating ice conditions according to decrease in the speed as she passes through ice; delivered at the Hydrological Section of the session on the Arctic Institute Scientific Council in 1937. *Copy seen*: DLC.

5481. GAKKEL', IAKOV IAKOVLE-VICH, and A. F. LAKTIONOV. Al'bom ledovykh obrazovaniy. Pod obshchei redaktsiei V. I. U. Vize. Izd. 2. Leningrad-Moskva, Izd-vo Glavsevmorputi, 1940. 74, [1] p. incl. 61 plates. *Title tr.*: Album of ice forms, under the editorship of V. I. U. Vize. 2d ed. First edition was published in 1931 by the Hydrographic Dept. of the U.S.S.R. Navy.

Contains a classification of marine ice and terminology, followed by reproductions of photographs illustrating the various forms and types of ice.

Copy seen: DLC.

5482. GAKKEL', IAKOV IAKOVLE-VICH, and P. K. KHYMYZNIKOV. Nauchnye rezul'taty gidrografo-gidrologicheskikh rabot ekspeditsii na "Cheliuskine", proizvedennykh v Karskom more, more Laptevskiy i Vostochnosibirskom more. (In: Shmidt, O. I. U., and I. A. Gakkel', editors. Nauchnye rezul'taty rabot ekspeditsii na "Cheliuskine" i v lagere Shmidta. 1938, v. 1, p. 25-140, illus., maps, tables, diagrs.) *Title tr.*: Scientific results of hydrographic and hydrological work of the *Cheliuskin* Expedition in the Kara, Laptev, and East Siberian Seas.

Results of the *Cheliuskin* Expedition 1933-34, observations made in these seas from four hundred fifty-six surface stations, on currents, ice conditions, etc., along the Northern Sea Route, and records of depth measurements at one thousand forty-five locations with geographic coordinates.

Copy seen: DLC.

5483. GAKKEL', IAKOV IAKOVLE-VICH, and P. K. KHYMYZNIKOV. Rezhim Chukotskogo morya po nabluzheniyam vo vremya dreifa "Cheliuskina" i lagerya Shmidta. (In: Shmidt, O. I. U., and I. A. Gakkel', editors. Nauchnye

rezul'taty rabot èkspeditzii na "Cheliûskine" i v lagere Shmidt, 1938. v. 2, p. 5-188, illus., sketch maps, tables, diagrs.) **Title tr.:** The régime of the Chukchi Sea according to observations made during the drift of the *Cheliûskin* and Camp Shmidt.

Contents tr.: Introduction.

Chap. 1. Description of the voyage and the drift of the *Cheliûskin* and Camp Shmidt in the Chukchi Sea. (132 astronomic determinations, Sept. 16, 1933-April 2, 1934).

Chap. 2. Currents in the Chukchi Sea according to the data of the drift of the *Cheliûskin*. (Determinations of drift currents and constant currents from twenty-nine observations of wind velocity and drift, Oct. 12-Feb. 13. Determinations of tidal currents from 105 observations of wind velocity and drift, Nov. 17-Dec. 23).

Chap. 3. The fall and winter hydrological régime of the waters of the southern part of the Chukchi Sea (twenty-seven observations of surface water, including visibility and ice conditions, Sept. 16-Oct. 10. Observations at various depths at sixty stations, Sept. 16-April 4. Average water temperature between 10 m. and sea-floor, nine stations, Dec. 2-April 6; rate of temperature change; seven observations of oxygen content).

Appendixes: 1. Catalog of sea depths (1296 hourly observations Nov. 15-April 8).

2. The astronomical point at the "faktoriâ (trading station) Vankarem".

3. Navigability through the ice and the general navigability of the Northern Sea Route according to the data collected by the *Cheliûskin* in 1933. (215 observations, from Matochkin Shar to Cape Serdtse-Kamen', Aug. 13-Oct. 8).

4. Drift buoys launched from the *Cheliûskin* in the Chukchi Sea.

Maps: About 35 sketch maps of the *Cheliûskin* drift and plans of Camp Shmidt in various stages.

Copy seen: DLC.

Contains Latin descriptions of four arctic species of willow, *Salix groen-*

landica, *S. platycarpa*, *S. vahlii* n. spp. from Greenland and *S. bothnica* native to Swedish Lapland.

Copy seen: MH-A.

5503. GANDRUP, JOHANNES, 1882-, and others. A botanical trip to Jan Mayen. København, H. Hagerup, 1924. 34, [1] p. 8 illus. (Dansk botanisk arkiv, 1923. Bd. 4, no. 5)

The author spent several days on the island in Aug. 1919, as a representative of the Danish Botanical Museum, with support of the Carlsberg Fund, during the cruise of the surveying ship *Islands Falk*.

Contents: Pt. 1. Gandrup, J. Introduction. (Description of the soils, and natural conditions with respect to the flora).

Pt. 2. Enumeration of species. 1. Gandrup, J., and M. P. Porsild. Vascular plants. (Annotated list of twenty-eight species, two new to the island).

2. Petersen, J. B. Fresh-water Diatomaceae. (List with a few notes, of seventy-three species, of which thirty-eight are new records for the island).

3. Rosenvinge, L. K. Marine Algae. (Annotated list of eighteen, including with description, one new (green) species, of which four are new records).

4. Larsen, P. Fungi. (Annotated list of ten species, including four new to the island).

5. Mathiesen, F. J. Lichens. (Annotated list of forty-seven species, including twelve new records).

6. Hesselbo, A. Bryophyta. (Annotated lists of twenty-five liverworts and sixty-seven mosses representing all recorded species from the island).

Bibliography (9 items).

Enlarged edition, with alphabetical arrangement by states and territories; Alaska (forty-five entries) p. 32.

Copy seen: DGS.

5508. GANNETT, HENRY, 1846-1914. A dictionary of altitudes in the United States (4th ed.). Washington, U. S. Govt. Print. Off., 1906. 1072, ii p. (U. S. Geological Survey. Bulletin no. 274)

Enlarged edition, including, p. 32-44, more than four hundred Alaskan localities.

Copy seen: DGS.

5509. GANNETT, HENRY, 1846-1914. General geography. (*In:* Dall, W. H., and others. History, geography, resources. Harriman Alaska series, 1902. v. 2, p. 257-77, 11 plates)

Description of the Pacific coast region, Bering Sea, the interior, the climate, forests, population, resources, and scenery of Alaska, all in general terms.

Copy seen: DLC.

5510. GANNETT, HENRY, 1846-1914. The Harriman Alaska Expedition. (American Geographical Society, N. Y. Journal (Bulletin), 1899. v. 31, p. 344-55, sketch map)

A general account of the expedition, with a list of personnel. Full descriptions of its work appear in this Bibliography under the Harriman Alaska Expedition.

Copy seen: DLC.

5511. GANS, MARGARETE. Das Hudsonmeer. Hamburg, 1926. 113 p. incl. tables. 3 fold. plates (sketch maps). (Deutsche Seewarte, Hamburg. Aus dem Archiv der deutschen Seewarte. Jahrg. 44, nr. 1) *Title tr.:* Hudson Bay. Issued also as the author's doctoral dissertation, Leipzig.

Contains a history of the Bay's discovery and exploration as related to the search for the Northwest Passage,

and the fur trade of England and France.

Sketch of its geomorphology and geologic history; its present dimensions, coasts, drainage area, depths, islands, salinity, tides, currents, harbors, climate, plants, animals and inhabitants.

Description of its historic and present economy, the fur trade, settlements along the coast, and whaling; future plans and the Hudson Bay route to Europe. Bibliography (220 items).

Tables: Monthly and annual means and extremes of temperature, wind direction, and precipitation for Moose Factory, York Factory, Fort Churchill and Great Whale River.

Maps: 1. Hudson Bay region during the ice age.

2. Effect of cold: tree line, limit of potatoes, barley and wheat.

3. Commercial and trade routes.

5512. GANSKII, ALEKSIĖI PAVLOVICH. Intensité de la pesanteur. [St. Pétersbourg, Académie impériale des sciences, 1905] 2 p. l., 122, [1] p. incl. tables, 5 plates (incl. map). (Missions scientifiques pour la mesure d'un arc de méridien au Spitzberg, 1899-1901. Mission russe. T. 1, Géodésie, sect. 5) *Title tr.:* Intensity of the gravity.

Results of the Russian Expedition to Measure an Arc of Meridian on Spitsbergen, which worked in the area between the southern tip of West Spitsbergen and about 78°40'N., including Edge and Barents Islands.

Contains description of instrumentation and results of control measurements on the mainland (in Sweden); determinations made at Whales Point (Edge Island), Whales Head (West Spitsbergen), Cannings Point (Barents Island), and Mt. Hellwald (West Spitsbergen); report on pendulum variations, precision of the observations, and deduction of values.

5561. GAST, PAUL F., and D. H. LOUGHRIDGE. Cosmic rays in the Bering Sea. (Physical review, May 1, 1941. v. 59, p. 769-70, diags.)

Based on measurements carried out aboard U. S. Coast Guard cutter *Itasca*, July 26-Oct. 10, 1940, in Bering Sea and along the Alaskan coast to Point Barrow. Results show "that the drop at the high latitude end of the intensity vs. latitude curve previously obtained by the authors is not the beginning of a downward trend but a purely local phenomenon due, evidently, to 'horizon effect'." Secondly the investigation of the latitude effect has been carried to higher magnetic latitudes (68°22'N.) than have previously been reached and the intensity found to be independent of latitude up to this point."

T. 131, p. 49-164, illus., 2 fold. maps) *Title tr.:* Geology and mineral resources of the Chevtun River basin and the adjoining regions (Chukotsk Peninsula).

A study based on the author's field work during the First Chukotsk Geological Expedition of the Arctic Institute, U.S.S.R., in 1935-36, and laboratory analyses of the material collected. Discussion of the literature and an attempt to give a more differentiated analysis of the Paleozoic of the north-eastern section of the peninsula; stratigraphy, p. 52-63, and paleogeography, p. 68-71, of the region. Petrographic sketch (igneous intrusive and effusive rocks, metamorphic rocks, p. 71-135; tectonics, p. 135-40; mineral resources (mostly metalliferous rocks, bearing zinc, lead, copper, tin, silver, fluorite, etc., p. 140-63. Bibliography (26 items).

Geological map, scale 1:225,000, at the end of the volume; also map showing fluorite deposits, scale 1:50,000, p. 161. Tabulated results of chemical analyses carried out by the laboratory of the Arctic Institute, U.S.S.R. (p. 82, 94, 101, etc.) and mineralogical analyses of ore from several localities, p. 152-54.

Copy seen: CaOG; NN.

5587. GEDROITS, N. A. Perspektivy neftenosnosti severa Sibiri. (Nedra Arktiki, 1946. No. 1, p. 9–14) *Title tr.:* The outlook for finding oil in north Siberia.

Summary of information from the Geological Department of the Main Administration of the Northern Sea Route U.S.S.R.

"The presence of oil in the Nordvik-Khatanga and Ust-Yeniseisk districts in the Taimyr depression, north Siberia, indicates that the whole basin may be a potential oil field. The Cambrian zone bordering the Anabar crystalline massif in the eastern part of the north-central Siberian platform is another potential field. The oil possibilities of the northern part of the west Siberian lowlands are unknown. Conditions similar to the Taimyr basin and the eastern slope of the Urals probably maintain in the region, but Hercynian (Paleozoic) folding may have destroyed potential reservoirs."—Geological Society of America. Bibliography and index of geology. Summary in English.

fairs in cooperation with the University of Alaska. Published by special permission of the Secretary of the Interior. Washington, D. C., U. S. Govt. Print. Off., 1936 [i.e. Apr., 1937]

9 l., 391 p. incl. illus., plates. front. (Alaska. University., Miscellaneous publications, v. 2) Public Works Administration Project no. 417.

Contains a description of the archaeological research, 1926-35, led by Geist, on St. Lawrence Island under auspices of the Alaska College and of its President, Charles Bunnell, 1927-33, and particularly the excavation of "the largest mound of the Bering Sea area", at Kukulik, a village site on the north side of the island, under joint auspices of the U. S. Dept. of the Interior and Alaska College (now University of Alaska) in 1934-35. Includes general description of St. Lawrence Island, physical geography and native Eskimo life and culture; summary of previous archeologic and ethnologic research on the island; notes on reindeer on the island; description of the main excavation work, including notes on rate of thawing of the ground and on the remains of houses, meat caches, and burials.

Description, analysis, and classification, by Froelich Rainey, of the collection of about fifty thousand artifacts found at the site, mostly bone, ivory, and wood, but some baleen, pottery, stone, skin, and modern trade items. Emphasis was placed upon the relations of stratigraphic horizons, in which the following culture phases, all Eskimoid, were noted, from top to bottom: Modern, Recent, Prehistoric, Thule, Punuk, Birnirk, Old Bering Sea. Bibliography of authors cited, p. 234-35.

Appendixes include: I (p. 327-28). Geist, Otto William. Punuk Island group, Bering Sea, Alaska. (Contains notes on "fossil" ivory caches on the Punuk Islands off the east end of St. Lawrence Island.)

II (p. 331-34). Snodgrass, Roland. Notes on geography and geology of western St. Lawrence Island, Alaska.

III (p. 337-46). Murie, Olaus J. Notes on the mammals of St. Lawrence Island, Alaska. (Contains notes based upon skulls and skins found in the excavations, including numerous polar bear skulls).

IV (p. 349-57). Murie, Olaus J. Dog skulls from St. Lawrence Island, Alaska. (Includes notes on Siberian dogs still living on the islands, as well as on the nine hundred skulls found in the excavations).

V (p. 361-76). Murie, Olaus J. The birds of St. Lawrence Island, Alaska. (Contains a list and habitat description of 63 species of living birds, and lists 27 additional species reported by earlier authors. Describes methods of bird catching in use today. Bibliography, p. 376).

VI (p. 379-86). Boekelman, H. F. Report on the molluscs excavated on St. Lawrence Island, Alaska.

VII (p. 389-91). Hopkins, Paul. Analyses of mineralogical and geological specimens. (Includes analyses of some paint, stone, artifacts, and samples of island coal deposits and water).

Maps include (1) location map, northern part of Bering Sea; (2) St. Lawrence Island, scale 1:1,000,000; (3) and (4) Cape Chibukak, scale 1:10,000 and 1:3,600; (5) plan of trench, scale 1:240; (6) Kukulik site, scale 1:2,400; (7) northeast beach slope, scale 1:1,200; (8) Punuk Island group, scale 1:12,000.

5607. GEL'MERSEN, L. K voprosu ob otkrytii Vrangellovoi zemli. (Vsesoŭznoe geograficheskoe obshchestvo. Izvĕstīia, 1876. T. 12, p. 455-87, tables) *Title tr.:* On the question of the discovery of Wrangel Island.

Reply to Petermann, discussing the expeditions of Andreev (1763-64), Wrangel, Sannikov, Kellett, and DeLong, with the text of two unpublished confidential reports from Lieut. Col. F. Plenisher, Commander of Okhotsk (1760-72). The first deals largely with the Andreev expedition from Nizhne-Kolymsk to Medvezh'i Islands; the second contains the journal of Lieutenants Leont'ev, Pushkarev, and Lysov, whom Plenisher had sent to survey those islands (1767-69). *Copy seen:* DLC.

5608. GELTING, PAUL EMIL EL-LIOT, 1905- . Studies on the food of the East Greenland ptarmigan, especially in its relation to vegetation and snow-cover. København, C. A. Reitzel, 1937. 196 p. incl. illus., tables, diagrs. fold. map. (Meddelelser om Grønland. Bd. 116, nr. 3)

Results of the Three-Year Expedition to King Christian X Land, 1931-34, in the area between Franz Joseph Fjord and Sabine Island.

Contains a topographic-geological, and climatic survey of the region; the ecological conditions of plant species, measurements of the snow cover on vegetation, and importance of the snow cover for zonation of and access to the vegetation.

The occurrence, frequency, seasonal migrations and habitats of the ptarmigan. Constituents, quantity and variation of ptarmigan food. Organic nutritive substances in the food. Some

factors of importance for the growth and frequency of ptarmigan. The food of ptarmigan in other countries. Bibliography (149 items).

Copy seen: DGS; DSI-M.

5609. GELTING, PAUL EMIL EL-LIOT, 1905- . Studies on the vascular plants of East Greenland between Franz Joseph Fjord and Dove Bay (lat. 73°15'-76°20'N.). København, C. A. Reitzel, 1934. 340 p. incl. illus. (incl. maps, diagrs.) tables, 4 plates. (Meddelelser om Grønland. Bd. 101, nr. 2)

Results of the Three-Year Expedition to King Christian X Land, 1931-34, under the leadership of Laue Koch.

Contains a list of geographic positions for seventy-seven localities including islands, fiords and nunataks; classified list, with synonyms and detailed notes on distribution, of one hundred sixty-three species of ferns and flowering plants; a chapter on climate, and phytogeography of the area, with discussion of evidence of unglaciated areas in Greenland during the ice age; on phytogeography of Greenland; and description of life-forms of some species and other biological features including phenology; with a bibliography (238 items).

Petrograd, Tipografiia M. Merkusheva, 1916. 256 p. illus., map, diagrs. *Title tr.:* Industrial breeding of silver-black foxes and arctic foxes in North America. Report on the inspection of fox farms in Canada.

Based in part on the author's trip to Prince Edward Island, Canada, this comprehensive work contains description of the international fur trade and market, p. 7-33. History of fox breeding in Canada, especially on Prince Edward Island, and account of the flourishing situation of fox breeding due to high prices for breeders, p. 33-58; detailed description of fox farms and methods, mainly on Prince Edward Island, (p. 58-175 and 195-218), and future prospects, p. 228-43.

The arctic fox trade in Russia, especially on the Commander Islands, with statistical data, and its prospects, p. 175-95; strong recommendation for Russia to start breeding fur-bearing animals: the fox, arctic fox, sable, raccoon (p. 218-28 and 243-45). Canadian legislation concerning fur-bearing animal breeding, p. 246-50.

Westermann, 1870. 2 p. 1., 54 p. 2 l. 6 plates, map. *Title tr.:* The Second German North Polar Expedition. Official reports of the Bremen Committee. 2d edition.

Contains a brief summary of the first German North Polar Expedition, 1868; a statement of the plans of the second expedition, 1869-70, led by Capt. Karl Koldewey, the equipment (with plans of the ships *Germania* and *Hansa*), a brief summary of the course of the expedition off the east coast of Greenland during the summer of 1869, and a detailed statement of the cost and donors. *Copy seen:* DLC.

5626. GEOGRAPHISCHE GESELLSCHAFT IN BREMEN. Die zweite deutsche Nordpolarfahrt in den Jahren 1869 und 1870 unter Führung des Kapitäns Karl Koldewey. Hrsg. von dem Verein für die deutsche Nordpolarfahrt in Bremen. Leipzig, F. A. Brockhaus, 1873-74. 2 v.: lxix, 1 l., 699 p. illus., 28 plates, 10 maps (3 fold.); xv, 962 p. 33 plates, fold. map) Edited by G. Hartlaub and M. Lindeman. *Title tr.:* The Second German North Polar Expedition, 1869-1870, under the leadership of Karl Koldewey. Published by the Association for the German North Polar Expedition in Bremen. An abridged English translation of vol. 1 was published as Koldewey, K. *The German Arctic Expedition of 1869-70*, pub. 1874, q.v. An abridged French translation appeared in *Le Tour du monde*, 1874, v. 27, p. 1-64, v. 28, p. 65-128.

Narrative and results of an expedition financed and organized by the Bremen Geographical Society (then called the Association for the German North Polar Expedition), with the ships *Germania* and *Hansa*, to carry out exploratory and scientific investigations in the "central arctic region," using East Greenland as a base. The two ships reached the 75°N. parallel in the Greenland Sea, thence the *Hansa* went southwest along the coast of Greenland, till October, when it was wrecked, the men continuing by boat and across the ice, around Cape Farewell. The *Germania* wintered at Sabine Island, its men carried out sledge journeys for exploration from Franz Joseph Fiord to Cape Bismarck (77°N.), and surveyed the neighboring islands, returning to Germany in Sept. 1870. *Contents tr.:* v. 1. Narrative. (Preliminary section): foreword; remarks on the maps; history of the expedition (including description of the two ships). List of provisions. Correspondence between the two captains. Instructions for the expedition, by A. Petermann.

v. 1, pt. 1. The common voyage of the two ships and the voyage of the *Hansa*, by K. KOLDEWEY and others.

MAURER, K. The history of the exploration of Greenland.

v. 1, pt. 2. The voyage of the *Germania*, by K. KOLDEWEY, and others, (including):

PAYER, J., and others. Game and wildlife in East Greenland.

PANSCH, A. Excursions to Sabine and Clavering Islands to investigate the Eskimo settlement ruins.

v. 2. Scientific results.

1. Botany. Introduction by F. Buchenau.

PANSCH, A. Climate and vegetation of East Greenland.

BUCHENAU, F., and W. O. FOCKE. Vascular plants.

MÜLLER, K. Mosses.

KÖRBER, G. W. Lichens.

ZELLER, G. Algae.

BONORDEN, H. F., and L. FÜCKEL. Fungi.

KRAUS, G. Driftwood. Some remarks on the age and condition of growth of East Greenland woody plants.

5636. GEORGI, JOHANNES, 1890-. Bemerkungen zur glaziolen Antizyklone. (Annalen der Meteorologie, Sept.-Nov. 1948. Jahrg. 1, p. 277-83, diagrs.) *Title tr.*: Remarks on the glacial anticyclone.

Notes on European attitudes toward Hobbs' theory of the glacial anticyclone, on the wind system over Greenland being mainly anticyclonic in the lower layers, but not strictly dependent upon the inland ice, rather its being greatly dependent on "the

joint effect of the neighboring pressure systems, which are guided mechanically by the inland ice ridge".—From the author's abstract.

Bd. 4, Meteorologie, Halbbd. 1, Das Beobachtungsmaterial, p. 191–386, incl. 140 p. of tables and diagrs., fold. diagram at end of volume) *Title tr.:* The Mid-Ice Station. (German Greenland Expedition, Alfred Wegener, 1929, and 1930–1931)

Meteorological observations from the inland ice station at about 70°53'N. 40°42'W., three thousand meters above sea level. A. An introduction giving a brief diary of activities, the position, altitude, and time determinations for the Mid-Ice Station.

B. Tables of meteorological observations at 8, 14 and 21 hours, Aug. 1, 1930 to Aug. 6, 1931; hourly values for pressure and temperature, same dates; for humidity, Aug. 1–Oct. 8, Dec. 22–29, 1930, Mar. 16–18, 30–31, Apr. 1–Aug. 5, 1931; for solar radiation and duration of sunshine Aug. 5–Sept. 30, 1930, and intermittently, Oct. 1, 1930–Aug. 6, 1931. Barometer, temperature, humidity and solar radiation records Aug. 6, 1930–Aug. 6, 1931.

C. Extended remarks on the instruments, with illustrations.

D. Discussion and tables of aerological observations. Seven balloon ascents, during Aug.–Sept. 1930, May–July 1931, analyzed for temperature inversion 0–200 meters, per cent wind directions, and cloud measurements.

Illustrations, etc.: Fold. weather diagram at end of volume, with upper wind measurements on the verso.

Supplemental data are given in Wegener, K. *Ergänzungen für Eismitte* in pt. 2 of this volume.

5641. GEORGI, JOHANNES, 1890– . Im Eis vergraben. Erlebnisse auf Station "Eismitte" der letzten Grönland-Expedition Alfred Wegeners. München. Müller, 1933. 224 p. front. (port.) illus., diagrs. *Title tr.:* Buried in the ice. Life at Mid-Ice Station during the last Greenland Expedition of Alfred Wegener. Translation in English was published as *Mid-Ice*, 1934.

The author accompanied A. Wegener on the preliminary expedition, 1929, and returned with main expedition to occupy the inland-ice station, 1930–31. This account of his experience includes general remarks on Greenland and the exploration of its inland ice; a brief summary of the activities of the West Station; a note on Alfred Wegener;

a narrative, drawn from the author's diary, of the occupation of the station, situated on the inland ice, four hundred kilometers east of Umanak Fiord, with discussion of problems of food supply, housing, and clothing.

Includes a chapter by E. Sorge, *How I joined Georgi at Mid-Ice*, describing crossing the ice with dog sledges.

Concluding chapter, *Some notes on the technique of expeditions*, contains brief discussion of modern technical inventions, the most suitable size for an expedition, the duties of a leader, the question of married or single men as preferable, and the need for candid reports of expeditions.

The scientific reports were published as: Deutsche Grönland-Expedition Alfred Wegener, 1929 und 1930-1931. *Wissenschaftliche Ergebnisse*, 1933-40, q.v.

5652. GERASIMENKO, V. I. Atmosferno-elektricheskie issledovaniya na myse Chel'uskiye v 1934-35 godu. (Leningrad. Vsesoyuznyy arkticheskiy institut. Trudy, 1937, T. 97, p. 5-61, illus., tables, diagrs.) **Title tr.:** Studies on atmospheric electricity at Cape Cheliuskin, 1934-1935.

Report on the author's work during his stay at the polar station, Dec. 1, 1934 to Aug. 20, 1935, with full discussion of apparatus and equipment, and of the results. Results show the electric field to be subjected to great fluctuations during blizzards and periodic variations of potential gradient.

Tables: 1. Data on checking of isolation Apr.-Aug. 1935.

2. Comparison of readings of Wilson apparatus and Benndorf electrometer.

3-5. Diurnal variation of potential gradient for all days; for quiet days; and for each month separately.

6. Change of potential gradient during aurora borealis.

7. Measurement of potential gradient and air-earth current with the Wilson apparatus. Summary in English.

Copy seen: DLC.

5653. GERASIMENKO, V. I. Atmosferno-elektricheskie izmereniya na ostrove Ketlit'sa (Zemlya Frantsa-Iosifa). (Problemy Arktiki, 1940, no. 5, p. 110-12, table, diagr.) **Title tr.:** Atmospheric electricity measurements on the Island of Ketlit'sa (Franz Josef Land).

The results of simultaneous readings of potential gradient and vertical gradient at Tikhaya Bukhta, Hooker Island (80°20'N. 52°20'E.) and on Ketlit'sa Island, 35-40 km. to the north, Apr. 12-16, 1938. The results are

shown to be inconclusive as to synoptic nature of these elements, and as to the influence of local conditions.

Issued for 1919 by the Admiralität; 1921–35 by the Marineleitung; 1936–44 by the Oberkommando der Kriegsmarine. **Supplements** issued annually to 1944.

Sailing directions for the seas and coastal waters of the U.S.S.R. from Cape Kanin eastward to the Yenisey. Contains in pt. 1 (p. 1–34) a general survey of coasts, islands, bays and rivers, depths, wind and weather, fog, rain and snow, water temperature and sa-

linity, currents, ice (influence on atmosphere and sea, drift ice, navigability, drift of ice, limits, formation and melting, signs of approach, navigation in ice, ice conditions, and navigational season, p. 13-29), clouds, biology, daylight, optical phenomena, and general aids to navigation.

Pt. 2. From Cape Kanin to Yugor Straits.

Pt. 3. Vaygach, Yugor and Kara Straits.

Pt. 4. West coasts of southern Novaya Zemlya and Matochkin Shar.

Pt. 5. Kara Sea.

Pt. 6. The Ob.

Pt. 7. The Yenisey.

Information on aids to navigation, ice, currents, tides, shallows, and port facilities, is included for each of these sections. Bibliography of source materials (30 items).

File seen: DN-HO (suppl. 1929-31, 1935-44).

Title tr.: Charts of tidal currents for the west and north coasts of Norway. Pt. 15: Tromsø Sound. (Preliminary ed.)

Copy seen: DN-HO.

5671. GERMANY. KRIEGSMARINE. OBERKOMMANDO. Die Naturverhältnisse des sibirischen Seeweges. Beilage zum Handbuch des sibirischen Seeweges. [Berlin] Oberkommando der Kriegsmarine, 1940. 169 p. illus. (charts) 5 plates, 2 fold. maps, diagrs. **Title tr.:** The natural conditions of the Siberian sea route. Prepared by the Deutsche Seewarte, Hamburg, and (p. 68-75) by the Marineobservatorium, Wilhelmshaven.

Contents tr.: A Geographic sketch.

B. Terrestrial magnetic conditions.

C. Climate and weather (monthly mean and extremes of temperature, pressure, wind direction and force, fog, cloud, precipitation, and weather (seasonal only)).

D. The ocean, conditions and movement; area, divisions, and depths; temperature and salinity; currents and tides.

E. The ice. 1. Types: arctic pack ice, fast ice, drift ice. 2. Properties: salinity, temperature and strength. 3. Effect of ice on air and sea water. 4. Distribution of ice from Barents Sea to Bering Strait, 1929-38. (notes and charts). 5. Ice conditions for individual seas.

F. Development of shipping along the Siberian sea route.

Maps include: Bathymetric chart of New Siberian Islands waters.

5672. GERMANY. KRIEGSMARINE. OBERKOMMANDO. Spitzbergen-Handbuch. Berlin, E. S. Mittler & Sohn, 1916. xviii, 284 p. illus., 9 maps, 19 p. of chartlets, diagrs. (Its: Nr. 2014) **Title tr.:** Spitsbergen sailing directions.

Issued 1916 by the Reichs-Marine-Amt; 1920-21 by the Reichsverkehrsmministerium; 1923-35 by the Marineleitung; 1937-43 by Oberkommando der Kriegsmarine. **Supplements** issued 1920-21, 1923, 1926, 1929, 1935, 1937-40, 1943.

Sailing directions for waters of Bear Island, West Spitsbergen, and other islands of the Svalbard archipelago. Contains in pt. 1 (p. 1-94) general description of the discovery and exploration of West Spitsbergen, its resources, weather, animal life, currents, tides, water temperatures, driftwood, ice (drift ice, navigability, drift of ice, limits 1896-1914, charts of ice conditions May, June, July and Aug. 1896-1914 in Greenland and Barents Seas) and terrestrial magnetism.

Pt. 2. Bear Island.

Pt. 3. West coast of Spitsbergen.

Pt. 4. North coast from Smeerenburg Fiord to Hinlopen Strait.

Pt. 5. Hinlopen Strait, Northeast Land, King Karl's Land, Seven Islands and Olga Strait.

Pt. 6. Southeast coast of West Spitsbergen, Barents, Edge and Hope Islands, Freeman Sound and Stor Fiord.

Each part contains description of coasts, bays, fiords, anchorages, currents, and notes on wintering. Bibliography of source materials (44 items).

5705. GIBSON, WILLIAM. Amundsen in King William Land. (Beaver, June 1940. Outfit 271, no. 1, p. 32-38, illus., port., sketch map)

Notes on Amundsen's preparations for the *Gjøa* Expedition, 1903-06, and some details of the wintering at Gjøa Haven on King William Island in the Canadian Arctic.

Copy seen: DSI-M.

5706. GIBSON, WILLIAM. Prehistoric wanderings of the Eskimos. (Beaver, Dec. 1939. Outfit 270, no. 3, p. 18-23, illus.)

Discussion of questions still remaining and some of the answers clarified by modern research, on migrations of North American Eskimos.

Copy seen: DSI-M.

5707. GIBSON, WILLIAM. Sir John Franklin's last voyage. A brief history of the Franklin Expedition and an outline of the researches which established the facts of its tragic outcome. (Beaver, June, 1937. Outfit 268, no. 1, p. 44-75, illus., sketch map)

The author, long a student of the Franklin expedition literature, and resident in the Arctic for twelve years, reviews the known facts concerning the expedition itself, and the search expeditions, up to the present time. Includes a list of references used (18 items).

Illus. include a diagram with illus. and tabular data, showing the Eskimo groups in the vicinity of King William Island (p. 71). *Copy seen:* DSI-M.

5708. GIBSON, WILLIAM. Some further traces of the Franklin retreat. (Geographical journal, May 1932. v. 79, p. 402-08)

Account of an overland journey along the south coast of King William Island, from Gjøa Haven to the western entrance of Simpson Strait June-July 1931. Includes description of the geographic features along the route, with remarks on relics and remains of the Franklin party.

Copy seen: DLC.

5709. GIDDINGS, JAMES LOUIS, 1909-. The application of tree-ring dates to arctic sites. (Tree ring bulletin, Oct. 1940. v. 7, no. 2, p. 10-14)

Brief discussion of problems of tree-ring dating in the Arctic, and announcement of first dates obtained from driftwood timbers in houses at Kukulik, St. Lawrence Island, Alaska (dates 1691-1861), Point Hope (1756-1929) and Diomed and King Islands (1826-1935).

Copy seen: DA; DLC.

5710. GIDDINGS, JAMES LOUIS, 1909-. Dendrochronology in northern Alaska. [Tucson, Ariz.] Pub. jointly by the University of Arizona and the University of Alaska, 1941. 107 p. incl. illus. (incl. map) tables. diagrs. (part fold.) (Arizona. University. Bulletin, Oct. 1, 1941. v. 12, no. 4; Laboratory of tree-ring research. Bulletin no. 1. Also published as Alaska. University. Publications, v. 4)

General discussion of methods and results of cross-dating living trees and driftwood timbers from archeological sites in the Arctic, for purpose of dating. The author was first to make such tree-ring studies in the Arctic, in 1937.

Contents: Procedures and techniques; the collections (timbers from the Alaska Range, Yukon Highlands, river bottom sites, central Alaska, northern Alaska); climatological studies (uniformity, cross-dating principle, altitude and latitude effect, topographic influence, temperature indications); archeological studies (sites containing driftwood and sites in timbered area); buried wood in the silt deposits; interglacial wood, etc.; summary; appendix; bibliography p. 106-107. *Copy seen:* DLC; DSI-E.

5711. GIDDINGS, JAMES LOUIS, 1909-. Early flint horizons on the north Bering Sea coast. Washington Academy of Sciences. Journal, Mar. 15, 1949, v. 39, p. 85-89, 4 illus.)

Describes microlithic flints found underlying a prehistoric Eskimo site (Iyatayet) on Cape Denbigh, Norton Sound. They resemble somewhat flints from ancient sites in interior Alaska, on Kluane Lake in Yukon Territory, and in the Gobi Desert in Mongolia. *Copy seen:* DSI-M.

5712. GIDDINGS, JAMES LOUIS, 1909-. A plan for mapping arctic sea currents. (Geographical review, Apr. 1943, v. 33, p. 326-27)

Suggests mapping currents by dating driftwood from Alaskan shores: comparing its tree rings with those of living trees of the Mackenzie basin. Suggests also similar tree-ring mapping of Siberian rivers.

Second edition of the diary first published in 1878, q.v. *Copy seen:* DLC.

5716. GIESECKE, Sir CHARLES LEWIS, 1761-1833. Bericht einer mineralogischen Reise in Grönland, in Form eines Tagebuches. (*In his:* Gieseckes Mineralogische rejse i Grönland, 1878. 2. del, p. 1-332) *Title tr.:* Report of a mineralogical journey in Greenland, in the form of a diary.

First (and posthumous) publication from the manuscript copy in the archives of the Royal Greenland Trading Co. (Kgl. Grønlandske Handels Archiv, og Universitetsbibliothek), Copenhagen, of the comprehensive primary records of Giesecke's work in Greenland. Published papers and lec-

tures during his life time, though important sources of information on Greenland to his contemporaries were relatively limited in scope in comparison with this diary. It is a day-to-day record 1806-1813, of the author's eight trips along the west coast of Greenland as far north as 73°50'N. to investigate mineral deposits, collect specimens, etc. It includes descriptions of the localities visited, their geology, physical geography, plant and animal life, remarks upon the Eskimos, their folklore, and language. *Copy seen:* DLC.

5717. GIESECKE, Sir CHARLES LEWIS, 1761-1833. Catalogue of a geological and geographical collection of minerals from the arctic regions, from Cape Farewell to Baffin's Bay. Lat. 59°14'N., to 76°32'N. (Royal Dublin Society. Journal, 1860-61, pub. 1862. v. 3, p. 198-215)

Contains a list of three hundred fifty-six minerals from two hundred nineteen localities along the coasts and coastal islands of southeastern, southern, and western Greenland, with a reference for the position of certain localities, to the map in the author's *On the Norwegian settlements on the eastern coast of Greenland* (etc.), 1824.

The character of the land (by regions), particularly of mountains, mainly from the point of view of altitudes.

Copy seen: DLC.

5729. GILBERG, AAGE, 1909-. Eskimo doctor. [1st American ed.] New York, W. W. Norton [1948] 229 p. 16 plates incl. ports., maps. Translation of his *Verdens nordligste laege*, 1943, q.v. Also published in London, by Allen & Unwin, 1948.

Copy seen: DLC; NNS Stef.

5730. GILBERG, AAGE, 1909-. *Verdens nordligste laege*. København, S. Hasselbalch, 1943. 167, [1] p. illus. (incl. maps) plates, ports. First published in 1940. Also published in English as his *Eskimo doctor*, 1948.

Account of the author's two-year sojourn as the first government doctor among the Polar Eskimos of Thule, 1938-40. He gives in detail, a realistic picture of modern life of this group.

Copy seen: DLC; NNS Stef.

5731. GILBERT, CHARLES HENRY, 1859-1928. Description of a new species of *Bathymaster* (*B. jordani*) from Puget's Sound and Alaska. (U. S. National Museum, Proceedings, 1888, pub. 1889, v. 11, p. 554)

Description based on specimens of this fish from waters off Fort Wrangell, Alaska.

Copy seen: DLC.

5732. GILBERT, CHARLES HENRY, 1859-1928. Experiments in tagging adult red salmon, Alaska Peninsula fisheries reservation, summer of 1922. (U. S. Fish and Wildlife Service, Bulletin of the U. S. Bureau of Fisheries, 1923-24, pub. 1924, v. 39, p. 39-50, plate)

Contains an account of tagging, carried out on both sides of the peninsula, with tables of recoveries.

Copy seen: DF.

5733. GILBERT, CHARLES HENRY, 1859-1928. The ichthyological collections of the steamer Albatross during the years 1890 and 1891. Report on the fishes collected in the Bering Sea and the North Pacific Ocean during the summer of 1890. (U. S. Fish and Wildlife Service, Report of the Commissioner of Fish and Fisheries, 1893, pub. 1895, p. 393-476, 16 plates)

Based on beam trawl hauls taken in depths from 19 to 578 fathoms, during a cruise from a point south of Sannak Islands westward through Unimak Pass to Unalaska, the shallow waters of Bristol Bay, the depressed basin of western part of Bering Sea, and

northward to Unalaska. (Also hauls from waters between Unalaska and Vancouver Island, and off the coasts of Washington, Oregon, and northern California). Contains a list, with localities and notes of one hundred fifty-eight (including, with full descriptions, forty-five new) species, for the area from Bering Sea to Oregon. Of the new species, thirty-nine occurred in Bering Sea or Aleutian waters.

Copy seen: DF.

5734. GILBERT, CHARLES HENRY, 1859-1928. Kamchatka sea eagle at Kodiak, Alaska. (Condor, Mar. 1922, v. 24, p. 66, illus.)

5735. GILBERT, CHARLES HENRY, 1859-1928. The salmon of the Yukon River. (U. S. Fish and Wildlife Service, Bulletin of the U. S. Bureau of fisheries, 1921-1922, pub. 1923, v. 38, p. 317-32, 18 plates) U. S. Bureau of fisheries. Doc. 928.

Report (in part) of an investigation made in 1920 into whether abundance of the salmon run warranted commercial fisheries in the Yukon River. One phase of the situation was reported as the author's *Investigation of the salmon fisheries of the Yukon River*, 1921, q.v. This (1923) paper presents data on growth-history, the ages at which the fish reach maturity, and the rate of travel, for the king, chum, sockeye, coho, and humpback salmon.

Copy seen: DF.

5736. GILBERT, CHARLES HENRY, 1859-1928, and C. V. BURKE. Fishes from Bering Sea and Kamchatka. (U. S. Fish and Wildlife Service, Bulletin of the U. S. Fish Commission, 1910, pub. 1912, v. 30, p. 31-96, illus.)

Based on collections made during the cruise of the *Albatross* in 1906, along the Aleutian chain, around the Commander Islands, and at Petropavlovsk, Kamchatka. A list, with localities, and notes, of one hundred twenty-one (including with descriptions, forty-three new) species.

Copy seen: DF.

5737. GILBERT, CHARLES HENRY, 1859-1928, and W. H. RICH. Investigations concerning the red-salmon runs to the Karluk River, Alaska. (U. S. Fish and Wildlife Service, Bulletin of the U. S. Fisheries Bureau, 1927, pub. 1929, v. 43, pt. 2, p. 1-69, 15 plates, fold. sketch map) U. S. Bureau of Fisheries. Doc. 1021.

Contains a study of one of the best known salmon rivers (in Kodiak Island), including (with map) a description of the Karluk watershed, and a statistical history of the fishery, 1882-1926; observations on the spawning grounds, the life history of Karluk red salmon, analysis of recent runs, escapements and total runs, 1921-26, and discussion of salmon conservation.

Copy seen: DF.

5738. GILBERT, CHARLES HENRY, 1859-1928, and W. H. RICH. Second experiment in tagging salmon in the Alaska Peninsula fisheries reservation, summer of 1923. (U. S. Fish and Wildlife Service, Bulletin of the U. S. Fisheries Bureau, 1926, *pub.* 1927. v. 42, p. 27-75, 4 plates, tables, fold. map)

Contains an account of tagging carried out on the south side of the peninsula from Shumagin Islands to False Pass, and a discussion of rates of travel of migrating fish, as shown by recoveries in Bristol Bay, with statistical data on recoveries.

Copy seen: DF.

5739. GILBERT, GEOFFREY. Copper on the Coppermine River, N. W. T. (Economic geology, Jan.-Feb. 1931. v. 26, p. 96-108)

Based on observations made during a four-week prospecting trip, 1929, in an area fifty miles up-river from Coronation Gulf. Includes notes on transportation via the arctic sea and the river, general description of the geology and topography, and (in more detail) of the occurrence and mineralization of the deposits.

Copy seen: DLC.

5740. GILBERT, GROVE KARL, 1843-1918. Glaciers and glaciation. New York, Doubleday, Page & Co., 1904. xii, 231 p. illus., 18 plates (incl. 6 maps) (Harriman Alaska Expedition, 1899. Harriman Alaska series. v. 3)

Contains descriptions of the existing glaciers of Lynn Canal, Glacier Bay, Yakutat Bay, Prince William Sound and Kenai Peninsula; discussion of the Pleistocene glaciation of these areas and of the Gulf of Alaska coast, Kodiak and Unalaska Islands, and the Bering Sea area. Includes remarks on the land forms left by glaciers, and general consideration of glacier surfaces, erosive power, movement, etc.

5744. GILDER, WILLIAM HENRY, 1838-1900. Ice-pack and tundra; an account of the search for the Jeannette and a sledge journey through Siberia. New York, C. Scribner's Sons, 1883. xi, [1], 344 p. incl. front., illus. maps (1 fold.)

Also published in German as: *In Eis und Schnee. Die Aufsuchung der Jean-*

nettexpedition und eine Schlittenfahrt durch Sibirien, 1884, (x, 384 p., illus. plates, maps); abridged edition: *Der Untergang der Jeannette-Expedition*, Leipzig, 1922, (158 p., illus. plates), maps).

Also a Russian abridgement published in Berlin, 1923: *Gibel' ekspeditsii Zhanetty*, (Loss of the Jeannette Expedition), 165 p. illus. maps, plates.

Journalist's record, June 1881-Aug. 1882, of his experiences with the *Jeannette* Relief Expedition. The cruise on the U. S. S. *Rodgers* in Bering and Chukchi Seas, landings at Wrangel and Herald Islands, and on the Chukotsk coast; loss of the *Rodgers* by fire at winter quarters in St. Lawrence Bay, Nov. 30, 1881. Sledge trip via Sredne Kolymsk to Lena delta; discovery of news from Melville, remains of DeLong and party, and survivors of the *Jeannette*; with excerpts from diaries, despatches, etc., and reconstruction of latter stages of the *Jeannette* Expedition. Journey from Lena delta, via Verkhoyansk, Yakutsk, to Irkutsk. Notes throughout on Chukchis, Yakuts, travel conditions, regions traversed and settlements visited, particularly Petropavlovsk and Sredne Kolymsk.

Copy seen: DLC (in English, German and Russian); NNS Stef. (1883).

5745. GILDER, WILLIAM HENRY, 1838-1900. Schwatka's search; sledging in the Arctic in quest of the Franklin records. New York, C. Scribner's Sons, 1881. 1 p. l., [vii]-xvi, 316 p. incl. illus., 11 plates. front. (port.) 2 maps (1 double-face) Also published in London by Low, Marston, etc. [188-?] (xvi, 316 p. illus., port. maps).

The author accompanied Schwatka, as a correspondent of the *New York Herald*, which published as letters, much of the material in this book.

From Aug. 1878 to Aug. 1880, the party of five traversed the Barren Lands of northern Canada north and westward from the Chesterfield Inlet region of Hudson Bay, to Hayes River, descended the Hayes to Chantrey Inlet, traveled thence north to King William Island, and returned south via Back River, then southeastward to Camp Daly, the starting point.

The author describes the party's dog sledging, the route and travel conditions, and the search for remains of the

Franklin expedition (of 1845-47) on King William Island (interviewing of natives, finding of relics, etc.) Includes notes on the Eskimos of northern Hudson Bay region and the Netsiliks; seal and walrus hunting; and an index.

Atmospheric processes of heat transport into the Arctic are effected under certain synoptic situations which are exemplified by those of Jan. 1936 and Jan. 1937. *Copy seen: DLC.*

5769. GIRS, A. A., compiler. Rukovodstvo po radiozondirovaniu atmosfery dlia aerologicheskikh stantsii arktiki. Moskva, Izd-vo Glavsevmorputi, 1946. 248, [4] p. illus., (incl. tables, diagrs.), 1 fold. table, 6 fold. diagrs. (U.S.S.R. Glavnoe upravlenie Severnogo morskogo puti. Seriiã Posobiã i rukovodstva, vyp. 16) *Title etc. tr.:* Handbook on radiosonde operations for arctic aerological stations. (U.S.S.R. Main Administration of the Northern Sea Route. Text books and Manuals Series, no. 16)

Contains description of the radiosonde system of Prof. P. A. Molchanov; equipment of the first-order Russian arctic aerological stations; method and practice of making observations by radiosonde. Numerous blueprint sketches of the working parts of the radiosonde and receiving apparatus and textual explanations are presented. Proper methods of calibration of pressure, temperature, and humidity elements are detailed. Methods of recording radio signals during flight and working-up the results for transmission to meteorological centers are emphasized. Bibliography (21 items).

"This handbook, the 16th of a series of manuals for meteorological, hydrographic and oceanographic observers in the Arctic, is a revision of one issued in 1944 by Girs and Nikolaeva on *Aerological Observations at Polar Stations*. The present edition does not deal with pilot balloon observations, however, but goes more into detail regarding radiosonde techniques and equipment.

"The author takes up in a systematic way: (I) The construction and operation of the Molchanov Radiosonde, (II) The establishment and maintenance of arctic aerological stations, (III) The preparation, launching and transmission and reception of radiosonde signals, (IV) The computation or compilation of the records. An appendix contains conversion and computation tables of all kinds. The volume contains nearly a hundred illustrations of equipment, installations and activities connected with filling and launching

balloons. Samples of forms used in radiosonde work, are inserted as fold-ins. The comprehensive and detailed presentation would enable any observer to install, maintain and operate equipment even under rigorous circumstances in isolated locations."—*Meteorological Abstracts and Bibliography*, April, 1950. *Copy seen: DLC.*

5784. GJESSING, GUTORM, 1906-. Der Küstenwohnplatz in Skjåvika. Ein neuer Fund aus der jüngeren Steinzeit der Provinz Finnmark. (Acta archaeologica, 1938. v. 9, fasc. 3, p. 177-204, 10 illus.) *Title tr.*: The coastal dwelling place in Skjåvika. A new find from the Neolithic of Finnmark Province.

Results of excavations made by Gjessing in 1937 in an archeological site near Skjåvika, Sandfjord area (about 71°N. 28°E.), on the coast of northern Norway. Description of site (with thumbnail location sketch), description of stone, bone, and reindeer-horn artifacts, and discussion of probable age of find on basis of types of artifacts and relations of associated old shorelines.

Copy seen: DLC.

5785. GJESSING, GUTORM, 1906-. The Skjomen carving. An arctic rock carving in northern Norway. (Acta archaeologica, 1931. v. 2, fasc. 3, p. 278-85, 4 illus., 2 fold. plates)

Description of petroglyphs at Skjomen inlet, near Narvik, studied by Gjessing in 1929, with discussion of archeological dating on basis of recent geological history and comparison with other petroglyphs.

Copy seen: DLC.

5786. GJESSING, GUTORM, 1906-. Vikingeskibsfunnene. Oslo, A. W. Brøgger, 1936. 32 p., 16 plates. *Title tr.*: The viking ship finds.

A guide book to the archeological discoveries at Tune (1867), Gokstad (1880), and Oseberg in Norway (1904); based on works by A. W. Brøgger and Ingvald Undset. Includes description of ships, etc.

Copy seen: NNSf.

5787. GJESSING, GUTORM, 1906-. Yngre steinalder i Nord-Norge. With a summary in English. Oslo, H. Aschehoug & Co. (W. Nygaard); Cambridge,

Mass., Harvard University Press, 1942. xii, 525 p., 232 illus. (incl. 7 maps) 4 plates on 2 l., diagsr. (Instituttet for sammenlignende kulturforskning. [Publikationer] series B: Skrifter. 39) **Title tr.:** Neolithic period in northern Norway.

A study of the character and origins of the Neolithic culture of northern Norway, based upon detailed examination of all available archeological and geological evidence.

Contains: 1. Detailed description of the artifacts found in northern Norway, grouped according to material and function (stone, bone, horn, bronze, and pottery).

2. Description of individual prehistoric dwelling and other sites and their distribution.

3. Discussion of the chronology of the prehistoric remains, including correlation with ancient post-glacial shorelines.

4. Detailed consideration of the case for a single prehistoric circumpolar culture in Eurasia and North America, with similarity of traits such as slate artifacts, umiaks, comb and textile pottery, round-backed stone gouges, "Eskimo" harpoons, magical hunting beliefs as evidenced by petroglyphs, and underground dwellings.

5. Consideration of probable prehistoric interchanges between northern and southern Scandinavia. Bibliography, p. 512-25.

Maps include: 1. Small-scale map of arctic area showing circumpolar distribution of slate artifacts, skin boats, comb and textile pottery, round-backed gouges, and Eskimo-type harpoons.

2. Map of northern Scandinavia showing distribution of south-Scandinavian-type artifacts.

3. Map of Fennoscandia showing probable routes of diffusion of culture elements into and from northern Scandinavia.

5788. GJESSING, POUL, and others. Beretning om m/s "Thor"s havundersøgelsestogt 1935. København, Levin & Munksgaard, 1935. 125 p. 23 plates, 5 maps (4 fold.), 5 fold. charts. (Publikationer om Østgrønland, nr. 5) **Other authors:** Erik Bertelsen, Helge Thom-

sen. **Title tr.:** Report on the research cruise of the *Thor*, 1935.

Report of the cruise of the *Thor*, 1935, led by Gjessing and financed by Alf Trolle, to make oceanographic, botanical, zoological and fishery investigations in Iceland and East Greenland waters.

Contents include excerpt from Gjessing's diary (p. 7-61) describing the voyage from Iceland to East Greenland and trips to East Greenland fiords 62°30'-60°30'N.

Journal (by Erik Bertelsen, p. 73-95) of East Greenland marine biological investigations, especially of the bottom fauna at seventeen stations (ten in Lindenows Fiord); with preliminary remarks on plans and equipment.

Report of oceanographic observations, by Helge Thomsen (p. 97-108), containing explanatory remarks to charts of the East Greenland Current, Lindenows and adjacent fiords and table of depth, temperature and salinity. Meteorological journal from the voyage of the *Thor* (p. 109-127) containing meteorological observations made on board the *Thor* in Denmark Strait during the period, June 17-Aug. 7, 1935. Sketches of landmarks.

5797. GLAHN, HENRIC CHRISTOPHER. 1738-1816. Missionær i Grønland Henric Christopher Glahns dagbøger for aarene 1763-64, 1766-67 og 1767-68. Udgivet i anledning af 200-aaret for kolonisationens begyndelse som et bidrag til kendskabet til gamle dages Grønland. Udgaven besørget ved H. Ostermann. København, G. E. C. Gad. 1921. 247 p. illus., port. (Grønlandske selskab. Skrifter 4) *Title tr.:* The diaries of Henric Christopher Glahn, missionary to Greenland, for the years 1763-64, 1766-67 and 1767-68. Published in commemoration of the 200th anniversary of the beginning of colonization as a contribution to the knowledge of Greenland in olden days. Edited by H. Ostermann.

Contains notes on missionary and educational work at Amerdlok and Holsteinsborg; on whaling, fishing, hunting, weather conditions, geography and wildlife; on the Eskimos of the region, their language, customs, beliefs, superstitions and trade. With introduction and notes on Glahn's six diaries (of which only these three have been discovered) and a biographical sketch (p. 7-16) by H. B. S. Ostermann.

5798. GLAVATSKII, S. N., and I. I. LAGUNOV. Izvrezhenie vulkana Avachi 25 fevralia 1945 g. (Vsesoiuznoe

geograficheskoe obshchestvo. Izvestiia, 1946. T. 78, vyp. 3, p. 273-78, plate) *Title tr.:* Eruption of the Volcano Avacha on the 25th February, 1945.

A description of the eruption, prepared at the Kamchatka Branch of the All-Union Geographical Society.

Copy seen: DLC.

5799. GLAZENAP, SERGEI PAVLOVICH, 1848- . Katalog astronomicheskikh punktov lezhashchikh v predelakh Yakutskoi ASSR. Leningrad. Izd-vo Akademii nauk SSSR. 1934. 145 p. (Akademiia nauk SSSR. Sovet po izucheniui proizvoditel'nykh sil. Trudy) *Title tr.:* Catalog of astronomical points within the Yakut A.S.S.R.

A compilation of seven hundred forty astronomical points established for the Yakut A.S.S.R. to 1933 (arranged in the order of their geographic latitude), with a section describing the geodetic source material; also an alphabetical list of the astronomical points with their established coordinates.

Supplement was published in Sergeevskii, B. A., and others. Katalog astronomicheskikh punktov, 1937, q.v.

Copy seen: DLC.

5800. GLAZENAP, SERGEI PAVLOVICH, 1848- . Katalog astronomicheskikh punktov po Pechorskoi kraiu. Leningrad, 1932. 98 p., tables. (Akademiia nauk SSSR. Poliarnaii komissii. Trudy, vyp. 10) *Title tr.:* Catalog of astronomical points for Pechora Territory.

Historical outline of the establishment of geographic coordinates of points in this region. Enumeration of over 30 lists of coordinates determined by astronomic and geodetic observations from 1824 to 1925. Summary list of points determined within the limits of the Pechora Territory map (64°-72°N. 48°-72°E.) published by the Polar Commission of the Academy of Sciences, U.S.S.R., in 1932, p. 56-98.

5806. GLEN, ALEXANDER RICHARD, 1912-. The latest map of North East Land. (Geographical journal, Oct. 1941. v. 98, p. 206-207, sketch map)

Notes on an outline sketch of the map resulting from the aerial survey carried out in 1938, by Norges Svalbard- og Ishavs-undersøkelser.

Copy seen: DLC.

5807. GLEN, ALEXANDER RICHARD, 1912-. The Oxford University Arctic Expedition, North East Land, 1935-36. (Geographical journal, Sept.-Oct. 1937. v. 90, p. 193-222, 291-314, illus., plates (photos., diagrs.) fold, col. map)

A report on the origin, financing and objectives of the expedition, July 27, 1935-Aug. 15, 1936; notes on previous exploration of the area; descriptions of the stations; and a narrative of the boat and sledge journeys, the surveys, and the scientific program which included surveying, geology, glaciology, meteorology, ionosphere research, aurora, measurement of atmospheric ozone, sea ice, and biology. *Appendix:* Meteorological observations: monthly means.

Copy seen: DLC.

5808. GLEN, ALEXANDER RICHARD, 1912-, and others. The Oxford University Expedition to Spitsbergen, 1933. (Geographical journal, Aug. 1934. v. 84, p. 104-35, 4 plates, sketch map)

Account of an expedition led by the author to survey the east, central and west coastal sections of New Friesland, to carry out geological work on the age and petrologic relationships of the Hecla Hook formation and to measure the depth of the New Friesland icecap by means of seismograph; based at Petunia Bay, Klaas Billen Bay. Describes the various sledge and boat journeys and work of the three parties; includes discussion, p. 129-35. *Appendices* (preliminary statement of scientific work done by the expedition):

1. Geology, geomorphology, and glaciology.

A. FLEMING, W. L. S., and J. M. EDMONDS. New Friesland.

B. BROUGH, J., and R. H. S. ROBERTSON. Dickson Land.

C. BROUGH, J., and R. H. S. ROBERTSON. The Sassen Valley.

D. FLEMING, W. L. S., and O. GATTY. Surface markings.

E. FLEMING, W. L. S. The New Friesland ice sheet.

2. GATTY, O. Report on the geophysical seismograph.

3. BENSON, J. S. Meteorology.

4. STOTT, F. C. Marine biology.

5. HARTLEY, C. H. Bird ecology.

6. GLEN, A. R. Rations and equipment.

Each of these papers appears in this Bibliography under the author's name.

Copy seen: DLC.

5809. GLEN, ALEXANDER RICHARD, 1912-. Rations and equipment. The Oxford University Expedition to Spitsbergen, 1933. Appendix 6. (Geographical journal, Aug. 1934. v. 84, p. 128-29)

Notes on articles in diet with amounts, suggestions for improvement, remarks on sledges, tents, etc.

Copy seen: DLC.

5810. GLEN, ALEXANDER RICHARD, 1912-. Sea ice conditions around North East Land during the year 1935-36. (Geografiska annaler, 1938. Årg. 20, p. 152-69, illus. incl. 2 maps, photos.)

Results of observations made on the Oxford University Arctic Expedition, North East Land, 1935-36. *Contents:* Pt. 1. Ice conditions off the northwest coast from Aug. 1935 to Apr. 1936. Pt. 2. Ice conditions on different parts of the coast. Pt. 3. Previous records. Pt. 4. Influence of sea currents and weather. Conclusion.

Copy seen: DLC.

5811. GLEN, ALEXANDER RICHARD, 1912-. A sub-arctic glacier cap: the West Ice of North East Land. (Geographical journal, Aug. 1941. v. 98, p. 65-76, 135-46, 4 plates, sketch map, diags.)

Report on glaciological research of the Oxford University Arctic Expedition, North East Land, 1935-36. Contains discussion of the topography and thickness, marginal conditions and glacier movement, minor structures, geomorphology, accumulation and ablation, summer melting and physical conditions of the West Ice.

Copy seen: DLC.

5812. GLEN, ALEXANDER RICHARD, 1912-. Young men in the Arctic; the Oxford University Arctic Expedition to Spitsbergen, 1933. London, Faber & Faber, Limited [1935] 2 p.

l., 7-329 p. illus. (plan) 49 plates, incl. ports., fold. map, diagr.

Account by the leader of this expedition to explore by sledge parties northern New Friesland peninsula, that part of West Spitsbergen east of Wijde Bay and north of about 78°40'N. Includes brief notes on the efforts of Schroeder-Stranz and Staxrud in the region, 1912-13; details of the organization of this expedition, descriptions of the glaciers, mountains, that section of the icecap traversed by sledge parties, notes on natural history, index.

Appendices (p. 261-321) by various members of the expedition form a preliminary statement of the scientific work done. Reprinted from the *Geographical journal*, Aug. 1934, v. 84, p. 104-135, they are listed in this Bibliography under Glen, A. R. *The Oxford University Expedition to Spitsbergen*, 1933, q.v.

5815. GLENN, EDWIN FORBES, 1856- Explorations in and about Cooks Inlet. (In: U. S. Congress. Senate. Committee on Military Affairs. Compilation of narratives of explorations in Alaska, 1900, p. 711-24)

Contains a report (by the commander) of the Cook Inlet Exploring Expedition, 1899, (of which one party's work was reported in considerable detail in: U. S. Adjutant-General's Office. Military Information Division. *Explorations in Alaska 1899*, by J. S. Herron, 1901).

Glenn describes the organization and progress of the expedition to explore the region and discover routes from Prince William Sound northward to Tanana River crossings, thence to Rampart and Circle on the Yukon, also the topographic and other features of the country traversed. Appended (p. 724-41) are subreports on various sections of the expedition's work by C. E. Griffiths, G. B. Thomas, W. Yanert, G. W. Van Schoonhoven, F. Mathys, and C. P. Elliott.

5816. GLENN, EDWIN FORBES, 1856- Report of Captain Edwin F. Glenn on explorations in Alaska. (In: U. S. Adjutant-General's Office. Military Information Division. Reports of exploration in the Territory of Alaska . . . 1898, pub. 1899, p. 3-123)

Report of the commander of U. S. Military Exploring Expedition no. 3, 1898. A record of events, Apr. 6-Nov. 10, and a narrative of the explorations in the region of Port Wells, Prince William Sound, the Cook Inlet region,

Matanuska and Susitna Rivers, with notes on topography, routes of travel, timber, mineral resources, vegetable products, maintaining of stock, and on the natives.

Copy seen: DGS.

5817. GLENN, EDWIN FORBES, 1856- A trip to the region of the Tanana. (In: U. S. Congress. Senate. Committee on Military Affairs. Compilation of narratives on explorations in Alaska, 1900, p. 627-48)

Contains a brief account of the Tanana River or U. S. Military Exploring Expedition in Alaska, no. 3, 1898, of which a more detailed report was published as the author's *Report of Captain Edwin F. Glenn on explorations in Alaska, 1899*, q.v.

Following Glenn's report appear (p. 648-709) six subreports by members of this expedition:

*Learned, H. G. A trip from Portage Bay to Turnagain Arm and up the Susitna.

*Yanert, Wm. A trip up the Tanana River.

Mathys, F. Up the Chickaloon and down the Talkeetna.

Bagg, J. S. A trip up the Chickaloon River.

Kelly, L. S. From Cabin Creek to the valley of the Yukla, Alaska.

*Castner, J. C. A story of hardship and suffering in Alaska.

*These papers are abstracts or reprints-in-full of reports which appear in this Bibliography under their respective authors' names.

A general description of soils of the region, with tables of chemical analyses based on several investigations. Bibliography, p. 164. *Copy seen:* DLC.

5820. GLOB, PETER VILHELM, 1911-. Eskimo settlements in Kempe Fjord and King Oscar Fjord, by P. V. Glob. With a zoological appendix by M. Degerbøl. København, C. A. Reitzel, 1935. 97, [1] p. incl. illus. (incl. maps) tables. 7 plates (incl. fold. map). (Meddelelser om Grønland. Bd. 102, nr. 2)

Results of the Three-Year Expedition to Christian X Land, 1931-34, under Lauge Koch. Archeological study of sites on Ymer, Geographical Society, Ella, and Traill Islands, and Suess and Lyell Lands. Includes detailed description of the settlements, and of the early and later cultures in northeast Greenland; brief discussion of intercultural relationships, and a bibliography (20 items).

Appendix: Degerbøl, M. Animal bones. (Especially reindeer, a large, powerful breed of dogs, no musk oxen)

Copy seen: CaMAI.

5821. GLOB, PETER VILHELM, 1911-. Eskimo settlements in northeast Greenland. København, C. A. Reitzel, 1946. 39, [1] p. 9 sketch maps. (Meddelelser om Grønland. Bd. 144, nr. 6)

Results of Danish expeditions to East Greenland, 1926-39, under Lauge Koch. Appendix 6. Review of reports on the area north of 70°N., and a list of two hundred thirteen localities (shown on accompanying sketch map) of former Eskimo settlements; with a bibliography (23 items).

Report of the fishery research vessel *Poseidon* on ice encountered off the west coast of West Spitsbergen, and in waters between Bear Island and Spitsbergen.

Copy seen: DLC.

5827. GMELIN, JOHANN GEORG, 1709-1755. Flora sibirica, sive Historia plantarum Sibiriae. Petropoli Typogr. Acad. Scient., 1747-69. 4 v. *Title tr.:* Flora of Siberia, or History of plants of Siberia.

Contains in this fundamental early flora, a geographical sketch of Siberia (v. 1, p. 1-56); history of the expedition of the Academy of Sciences, a part

of the Great Northern Expedition, inaugurated by Bering; data on travels through Siberia, 1733-43; a geobotanical sketch of Siberia and a systematic enumeration of one thousand, hundred seventy-eight species of plants described in pre-linnean nomenclature. v. 3-4 was issued posthumously by S. G. Gmelin.

For commentary and allocation of the species under the binomial system, see Ledebour, K. J. *Commentarius in J. G. Gmelini Floram Sibiricam*, 1841, and Tausch, I. F. *Diagnoses plantarum minus cognitarum*, 1828.

5831. GODDARD, EDWIN NEWELL, 1904- , and others. Copper-bearing iron deposits of the Mount Andrew-Mamie area, Kasaan Peninsula, Prince of Wales Island, southeastern Alaska. Washington, [1944?] 29 p. 8 maps (7 fold.) (U. S. Geological Survey. Mineral deposits of Alaska. Short preliminary reports) Mimeographed. *Other authors:* L. A. Warner and M. S. Walton.

The authors made a geologic, topographic and dip-needle survey of the area within about 55°31'N. 132°17'-18' W. during June-Sept. 1942 and give here notes on the locality, history and production of ore; description of the geology, structure, character, numerology, paragenesis and genesis of the deposits; geologic interpretations of magnetic surveys; notes on the reserves, and the mines.

Copy seen: DGS.

5832. GODDARD, PLINY EARLE, 1869-1928. Assimilation to environment as illustrated by Athapascan peoples. (International Congress of Americanists. 15th, Quebec, 1906. [Compte rendu] pub. Quebec, 1907. v. 1, p. 337-59)

Discusses questions of possible migrations or other occurrences accounting for the present distribution of

Athapaskan stock in North America. Deals chiefly with southern and Pacific Athapaskans rather than northern.

Copy seen: DLC.

5833. **GODDARD, PLINY EARLE**, 1869-1928. *The Beaver Indians*. New York, American Museum of Natural History, 1916. 1 p. l., p. 201-293, 19 illus. (*Its*: Anthropological papers, v. 10, pt. 4)

Results of the author's observations among Beaver Indians of the Peace River district, June-Sept. 1913.

Contents: Ethnological notes (on shelter, transportation, food, clothing, industrial arts, social organization, burial customs and religion), p. 208-231. Myths and tales (eighty-one tales recorded in English), p. 232-92. Bibliography p. 293.

Copy seen: DLC.

5834. **GODDARD, PLINY EARLE**, 1869-1928. *Beaver texts, Beaver dialect*. New York, American Museum of Natural History, 1917. 1 p. l., p. 295-546 illus. (*Its*: Anthropological papers, v. 10, pt. 5-6)

Contains (in pt. 5) Beaver texts: seventy-three tales in Beaver dialect with interlinear English translation, p. 295-397. Pt. 6. Beaver dialect: morphology, tracings (words, with their sound represented in 191 diagrams of recordings), p. 399-546. Texts and speech were recorded by the author among the Beaver Indians of Peace River district, summer 1913.

Copy seen: DLC.

5835. **GODDARD, PLINY EARLE**, 1869-1928. *Has Tlingit a genetic relation to Athapaskan?* (*International journal of American linguistics*, 1920. v. 1, p. 266-79)

Discusses in great detail the evidence concerning possible genetic relationship between Athapaskan and Tlingit linguistic stocks, and presents conclusions negating such relationship. Includes comparative vocabularies of 115 nouns and 127 verbs in Tlingit and Athapaskan languages. *Copy seen:* DLC.

5836. **GODDARD, PLINY EARLE**, 1869-1928. *Texts and analysis of Cold Lake dialect, Chipewyan*. New York, American Museum of Natural History, 1912. 1 p. l., p. 1-168, diagrs. (*Its*: Anthropological papers, v. 10, pt. 1-2)

Contains (in pt. 1) Chipewyan texts: sixteen tales in Chipewyan dialect, with

interlinear, also free English translation; results of the author's linguistic investigations among southern Chipewyan with Cree associations, at Cold Lake Reserve, June 28-July 15, 1911.

Pt. 2. Analysis of Cold Lake dialect: introduction, including discussion of works in, or on, Chipewyan; phonetics, with description of author's methods; morphology. *Copy seen:* DLC.

Title tr.: Materials on pyrrhotite occurrences of the southern slope of the Khibina massif.

Summary of data on pyrrhotite deposits based on geological investigations and electric geophysical prospecting to April, 1933. Geological characteristics of the deposits; mineralogical analyses; approximate calculation of the tonnage of the resources. *Map*, scale 1:25,000, shows pyrrhotite occurrences in Lovchorr mountain region.

5840. GODSELL, PHILIP HENRY, 1889- . Arctic trader; the account of twenty years with the Hudson's Bay Company. New York, Putnam, 1932. xii p., 2 l., 19-322 p. 12 plates, incl. ports. Other editions, 1933, 1934, 1943, have essentially the same text with minor revision.

Reminiscences of early 20th century frontier life, mainly below the 60°N. parallel. Includes, however, chapters on the Mackenzie River valley, the Coronation Gulf and Copper Eskimos, and on the development of the Northwest Territories; with an index.

Copy seen: DLC; NNSf.

5841. GODSELL, PHILIP HENRY, 1889- . Birch canoe to thunder-bird. (Forest and outdoors, Sept. 1939. v. 35, p. 260-62, 284, illus.)

"The romance of Northland's transportation told by one who witnessed at first hand, the evolution from canoe and York boat to distance-annihilating aeroplane".

Copy seen: DA.

5842. GODSELL, PHILIP HENRY, 1889- . The "blond Eskimo" and the created want. (Forest and outdoors, Aug. 1938. v. 34, p. 231-34, 254, illus.)

Account of the deterioration of the Mackenzie Eskimos' culture under white men's influence, and of the resistance to acculturation of Copper Eskimos farther east.

Copy seen: DA.

5843. GODSELL, PHILIP HENRY, 1889- . The capital of furland, York Factory. (Canadian magazine, July 1933. v. 80, no. 1, p. 10, 38-40, illus.)

Popular historic notes on Radisson and the Hudson's Bay Co. post on Hudson Bay.

Copy seen: DLC.

5844. GODSELL, PHILIP HENRY, 1889- . The changing North. How the

famous forts of fur trade days are being abandoned before the march of civilization. (Forest and outdoors, July 1939. v. 35, p. 196-98, 219, illus.)

Reminiscences of Norway House, York Factory, and Fort Chipewyan.

Copy seen: DA.

5845. GODSELL, PHILIP HENRY, 1889- . Famous forts of fur land. The story of Fort Prince of Wales and Samuel Hearne. (Canadian magazine, June 1933. v. 79, no. 6, p. 16, 25-27, illus.)

Popular, informative article.

Copy seen: DLC.

5846. GODSELL, PHILIP HENRY, 1889- . Fur feast to breadline! (Forest and outdoors, June 1938. v. 34, p. 166-68, illus.)

The first of a series of articles on the destruction of game and fur-bearing animals of northern Canada, and its sequel, starvation for the Indian population.

Copy seen: DA.

5847. GODSELL, PHILIP HENRY, 1889- . Old trails to the Arctic. (Canadian geographical journal, Apr. 1934. v. 8, p. 150-62, illus.)

A popular account of a stem-wheel steamer passage from Ft. McMurray (Alberta) to Aklavik, in the Mackenzie delta, with historical notes on the settlements and old forts along the way.

Copy seen: DLC.

5848. GODSELL, PHILIP HENRY, 1889- . The passing of Herschel Island. (Royal Canadian Mounted Police quarterly, Apr. 1942. v. 9, p. 380-92, illus., plate)

The story of early Herschel Island, the Royal Canadian Mounted Police occupancy, 1903-40, the discovery of the Copper Eskimos, and the lawlessness of whaling days, with especial mention of Christian Klengenbergh and his exploits.

Copy seen: CaOM.

5849. GODSELL, PHILIP HENRY, 1889- . Pirate days in arctic waters. (Forest and outdoors, May 1941. v. 37, p. 145-46, 152-53, illus.)

Popular tales of Herschel Island from the time of the whaling period, 1889, to the abandonment of the Canadian Mounted Police post there, 1941.

Copy seen: DA.

5850. GODSELL, PHILIP HENRY, 1889- . Red hunters of the snows; an account of thirty years' experience with

primitive Indian and Eskimo tribes of the Canadian North-West and arctic coast, with a brief history of the early contact between white fur traders and the aborigines. London, Robert Hale, 1938. 3 p. l., 11-324 p. 1 illus., 32 plates, ports., fold. map. Issued also in Toronto, by Ryerson Press, 1938.

Account by a Hudson's Bay Co. official of his life, travels and friends in the Indian country. Includes notes on the customs of Chipewyan, Yellowknife, Dogrib, Hare, Slave and Nahanni Indians of the Northwest Territories, and on the Eskimos of the western Canadian Arctic; their relations with white men, and changing conditions from the time of early fur-trading days to the present.

Copy seen: DLC; NNS Stef.

5851. GODSELL, PHILIP HENRY, 1889- . Tragedy in the land of snows. (Forest and outdoors, Oct. 1938. v. 34, p. 302-304, 313, 318)

Story of the disappearance of the caribou with the introduction of modern hunting methods in the North, and of belated efforts to conserve the game for Eskimos.

Copy seen: DA.

5852. GODSELL, PHILIP HENRY, 1889- . War's impact on the Northland. (Forest and outdoors, Feb. 1940. v. 36, p. 46-50, illus.)

Account of the effect of World War I on the fur trade of the Canadian North.

Copy seen: DA.

5853. GOEBEL, A. Von der Murmanküste (Halbinsel Kola). Zugtabelle für Jeretiki vor der Mündung des Urafjordes (Port Wladimir) und einige andere Küstenplätze. (Ornithologisches Jahrbuch, Nov.-Dec. 1901. Jahrg. 12, p. 213-15, tables) *Title tr.:* Murman coast (Kola Peninsula). Tables of arrival dates for migratory birds at Yeretiki, mouth of Ura Fiord and a few other coastal points.

Contains data, 1882-1901, for ninety-three species (incomplete for many species).

Copy seen: DSI-M.

5854. GOEBEL, AD. Chemische Untersuchung der Rippen der *Rhytina*. (Akademik nauk SSSR. Bulletin, 1863. Sér. 3, t. 5, p. 188-93) *Title tr.:* Chemical analysis of the ribs of *Rhytina*.

Anatomic details and results of analysis of the bones of Steller's sea cow.

Instrumental corrections for the thermometers which recorded the world's lowest temperature (–90.4°F.) at Verkhoyansk on Feb. 5th and 7th, 1892 are given in a letter from the director of the Central Geophysical Observatory to the chief of the U. S. Weather Bureau (in emendation of A. I. Voikov's *Meteorologiia*, 1910).

5889. GOLITSYN, BORIS BORISOVICH, *kniaz'*, 1862–1916. Materialy k opredeleniiu granits Gol'fstrema v Sievernomo-Ledovitom okeanie. (Akademiia nauk SSSR. Bulletin, nov. 1898. Sér. 5, t. 9, p. 321–44, 2 fold. tables) *Title tr.:* Source materials for the determination of the limits of the Gulf Stream in the Arctic Ocean [i.e. Barents Sea].

The author reaches some provisional conclusions on the basis of the literature on the subject, which he summarizes, and his own observations, made between Archangel and Malye Karmakuly from the military transport *Samofed*, while on the way to and from Novaya Zemlya with the expedition sent to observe a solar eclipse (July 22–24, Aug. 23–27, 1896). Hourly observations (rather incomplete) for barometric pressure, air temperature, absolute and relative humidity, direction and force of wind, cloudiness, state of sea, surface water temperature, and salinity are given. *Copy seen:* DLC.

5890. GOLITSYN, BORIS BORISOVICH, *kniaz'*, 1862–1916. Meteorologicheskii nablüdeniia ofitserov transporta "Samofed" v Kostinom sharie

na Novoi Zemli vo vremia polnago solnechnago zatmenia 9-go avgusta 1896 goda. (Akademiia nauk SSSR. Bulletin, avril, 1897. Sér. 5, t. 6, p. 325-34, 3 tables) **Title tr.:** The meteorological observations of the officers of the transport *Samofed* in Kostin-Shar Strait on Novaya Zemlya during the total solar eclipse of August 9, 1896.

Irregular observations for Aug. 8-10, with discussion. **Copy seen:** DSI.

5891. GOLITSYN, BORIS BORISO-VICH, *kniaz'*, 1862-1916. O meteorologicheskikh nabludeniiax na Novoi Zemli; prilozhenie k otchetu ob ekspeditzii Imperatorskoj Akademii nauk na Novuiu Zemliu lietom 1896 g. St. Petersbourg, 1900. 163 p. tables. (Akademiia nauk SSSR. Mémoires. Sér. 8. Classe physico-mathématique. Vol. 9, no. 3) **Title tr.:** Concerning the meteorological observations on Novaya Zemlya; supplement to the report of the expedition of the Imperial Academy of Sciences to Novaya Zemlya in the summer of 1896.

A textual account and tabulation of the meteorological observations made during several expeditions at various points on Novaya Zemlya, during the period 1832-97, as follows: Kamenka Guba (70°36'N. 57°27'E.), 1832-33; Matochkin Shar, 1834-35; Malye Karmakuly, 1878-79, 1882-83, 1891-92, 1896-97. Summaries of observational data on magnetic elements, soil temperature, and solar radiation at Malye Karmakuly during 1881-82, and 1896 are included. Publications containing observational data for other expeditions are listed. **Copy seen:** DLC.

5892. GOLITSYN, BORIS BORISO-VICH, *kniaz'*, 1862-1916. Obshchii obzor dieiatel'nosti ekspeditzii. (In: Ekspeditziia Imperatorskoj Akademii nauk na Novuiu Zemliu, 1896. Otchet, 1898. Pub. in: Akademiia nauk SSSR. Mémoires. Sér. 8, Classe physico-mathématique. Vol. 8, no. 1, p. 3-78, 8 plates) **Title tr.:** A general account of the activities of the expedition.

Narrative by a leading participant, describing the organization of the expedition to Novaya Zemlya, the preparations for and observation of the solar eclipse of Aug. 8-9, 1896, at Malye Karmakuly, and the subsequent trip into the interior of the island, with some of the principal results obtained. **Copy seen:** DSI.

T. 3, p. 30-138, illus., plate, map, tables) **Title tr.:** Bottom life of the Novosibirian shoalwaters and the central part of the Arctic Ocean.

The results of marine fauna investigations made (north of 80°N. between 65°-95°E.) during the voyage of the ice-breaker *Sadko*, 1935, and during her drift with the *Sedov* 1937-38 north of the New Siberian Islands; with lists of species taken, stations (with map showing locations), and a discussion on

genetics and distribution of various species. Bibliography, p. 135-36. Summary in English. **Copy seen:** DLC.

5940. GORBUNOV, GRIGORII PETROVICH, 1894-1942. Dvustvorchatyi molliusk Portlandia Arctica (Gray), kak pokazatel' raspredeleniia materikovykh vod v sibirskikh moriakh. (Problemy Arktiki, 1940, no. 11, p. 46-55, fold. map) **Title tr.:** Bivalve mollusc *Portlandia arctica* (Gray) as an indicator of distribution of continental waters in the Siberian seas.

A zoogeographical sketch based on the study of collections from about forty expeditions, 1906-1938. Map shows distribution of *Procamusium groenlandicum* and *Portlandia arctica* in the seas from Franz Josef Land and Novaya Zemlya eastward to the Chukchi Sea. **Copy seen:** DLC.

5941. GORBUNOV, GRIGORII PETROVICH, 1894-1942. Fauna Crustacea—Decapoda severnoi poloviny Karskogo moria. (Leningrad. Vsesoiuznyi arkticheskii institut. Trudy, 1934. T. 9, p. 59-77, tables) **Title tr.:** Crustacea—Decapoda of the northern half of Kara Sea.

Study of crabs and shrimps mainly collected by the author during the voyages of the ice-breaker *Sedov* in 1929 and 1931. Summary in German.

Copy seen: DLC.

5942. GORBUNOV, GRIGORII PETROVICH, 1894-1942. Iglokozhiye severnoi poloviny Karskogo moria. (Leningrad. Vsesoiuznyi arkticheskii institut. Trudy, 1933. T. 8, p. 5-78, tables, fold. map) **Title tr.:** Echinodermata of the northern half of Kara Sea.

Based on collections made by the author during the voyages of the ice-breaker *Sedov*, 1929-30, on the *Lomonosov* collections of 1931, and published reports of earlier expeditions.

Detailed study of the distribution of echinoderms in that portion of Kara Sea north of a line between the northern end of Novaya Zemlya and the southern end of Severnaya Zemlya, giving tabular and systematic data on thirty-eight species, and discussion of the hydrologic régime of northern Kara Sea as it relates to warm Atlantic water movements. Bibliography (50 items). Summary in German.

5961. GORDON, GEORGE BYRON, 1870-1927. Notes on the western Eskimo. (Pennsylvania. University. University Museum. Transactions of the Dept. of Archaeology, 1906. v. 2, pt. 1, p. 69-101, 23 illus., 18 plates)

Analysis of the current status of culture of the West Alaska Eskimos, with discussion of the effects of white contacts upon the accustomed food supply, clothing, and fuel of the Eskimos. Includes descriptions of trade and pottery utensils of Alaskan and Sibe-

rian Eskimos, education, cat's cradles (string games), engraving, carving, and tattooing of the Eskimos of the Alaskan mainland and islands. The information was collected in connection with an expedition sent from the University of Pennsylvania Museum in 1905. **Copy seen:** DLC.

5962. GORDON, HENRY. Life in Labrador. (United Empire; Royal Colonial Institute journal, 1923. New ser. v. 14, p. 285-88)

An address before the Institute, Mar. 1923, by a clergyman from Cartwright, who describes the country, climate, mode of living of white and native people and their health. **Copy seen:** CaO.

5963. GORDON, SAMUEL GEORGE, 1897- . Minerals obtained in Greenland on the Second Academy-Vaux Expedition, 1923. (Academy of Natural Sciences of Philadelphia. Proceedings, 1924, pub. 1925. v. 76, p. 249-68)

The expedition spent several weeks in various localities of the Julianehaab District, southwest Greenland. The author gives description of Narsarsuaq mineral locality, list of forty-six minerals arranged by localities, and descriptions of five new finds.

Copy seen: DLC.

5964. GORDON, SAMUEL GEORGE, 1897- . Mining cryolite in Greenland. (Engineering and mining journal, Feb. 6, 1926. v. 121, p. 236-40, illus.)

Based on the author's visit in 1923, for the Academy of Natural Sciences of Philadelphia; description of Ivigtut, the mining, geology and mineralogy of the cryolite deposit, its discovery and development. **Copy seen:** DGS.

5965. GORDON, SAMUEL GEORGE, 1897- . On arfvedsonite, riebeckite, and crocidolite from Greenland. (Academy of Natural Sciences of Philadelphia. Proceedings, 1927, pub. 1928. v. 79, p. 193-205, illus.)

Detailed mineralogic descriptions of the amphiboles obtained by the Second Academy Mineralogical Expedition, 1923, from various localities in the Julianehaab District, southwest Greenland. **Copy seen:** DLC.

5966. GORDON, SAMUEL GEORGE, 1897- . The Second Vaux-Academy Mineralogical Expedition: the Julianehaab District of Greenland. (Academy

of Natural Sciences of Philadelphia. Yearbook, 1923, pub. 1924. p. 3-12, 4 plates)

The Academy sent the author to collect minerals during July-Sept., 1923, in the region northeast of Julianehaab. This paper is an account of his activities, with descriptions of the surroundings at the various camps on Kangerdluarsuk, Igalik, and Tunugdliarfik Fiords. **Copy seen:** DLC.

Contains a taxonomic study of this genus of aquatic herbs, often called arrowheads, with keys to the species, synonymy, Latin descriptions, critical notes and detailed data on distribution; includes *Sagittaria natans* occurring in

Vilyuy River valley (Yakutia) and Kamchatka Peninsula.

Copy seen: NNBG.

5979. GORODKOV, BORIS NIKOLAE-VICH, 1890-. Kratkii ocherk naseleeniia kraego severo-vostoka Zapadnoi Sibiri. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1926. T. 58, vyp. 2, p. 50-78) *Title tr.*: A short sketch on the inhabitants of the extreme northeast of western Siberia.

Contains results of the West-Siberian Expedition of the Academy of Sciences, U.S.S.R. to the basins of the Agan and Pura Rivers. The ethnography of the tundra and forest Samoyeds and Ostyaks is given, including divisions, migration routes, reindeer breeding, hunting and fishing (statistical data of production relations with the Soviet government), clans, dwellings, food, boats, and tools.

Copy seen: DLC.

5980. GORODKOV, BORIS NIKOLAE-VICH, 1890-. Les na polarnom predele. (Vsesoiuznoe geograficheskoe obshchestvo. Izvestiia, 1937. T. 69, vyp. 1, p. 175-77) *Title tr.*: The tree line in polar regions.

Contains a résumé of a report to the Commission of Waters and Forests of the Geographical Society of U.S.S.R., dealing with the problem of degradation and disappearance of forests in the arctic regions of European and Asiatic U.S.S.R.

Copy seen: NN.

5981. GORODKOV, BORIS NIKOLAE-VICH, 1890-. Listvennye mkhi (Bryinae) vostochnogo sklona Pol'arnogo Urala. (Akademiia nauk SSSR. Botanicheskii muzei. Trudy, 1932. Vyp. 24, p. 43-62, illus.) *Title tr.*: Leaved mosses (Bryinae) of the eastern slopes of the Ural Mountains.

Contains an enumeration of one hundred thirty-five species of leaved mosses (one new), with data on the habitat, fructification and local distribution, based on collections of the author (1924-26) and V. N. Sukachev (1909) on the southern slopes of northern Urals in the basin of Ob' River. Summary in German.

Copy seen: MH-A.

5982. GORODKOV, BORIS NIKOLAE-VICH, 1890-. Materialy dlia poznaniia gornyykh tundr pol'arnogo Urala. (In: Ural; pripol'arnye raiony, 1935,

p. 177-244, tables) *Title tr.*: Materials regarding the mountain tundras of the Polar Ural.

A study of plants based on the information gathered during an expedition to the northern Urals, 1924-26. The plants are grouped according to zones as determined by elevation, soil, etc. In addition, lists of about 800 species are given showing altitudes and localities for each. Summary in English, p. 305-306. *Copy seen:* DLC.

5983. GORODKOV, BORIS NIKOLAE-VICH, 1890- . O vozmozhnosti olenovodstva na ostrove Vrangeliâ. (Problemy Arktiki, 1939, no. 2, p. 81-85) *Title tr.*: On the possibility of reindeer breeding on Wrangel Island.

Assessment of possibilities, based on botanical investigations of the island during the Expedition of the Academy of Sciences in 1938. *Copy seen:* DLC.

5984. GORODKOV, BORIS NIKOLAE-VICH, 1890- . Ob osobennostiakh pochvennogo pokrova Arktiki. (Vsesoiûznoe geograficheskoe obshchestvo. Izvestiâ, 1939. T. 71, vyp. 10, p. 1516-32, map) *Title tr.*: Distinctive characteristics of top soil in the Arctic.

A discussion of top soil in the Soviet Arctic and of the conditions peculiar to its formation. Bibliography, p. 1531-32. *Copy seen:* DLC.

5985. GORODKOV, BORIS NIKOLAE-VICH, 1890- . Obzor russkikh osok. I. (Akademiâ nauk SSSR. Botanicheskii muzei. Trudy, 1927. Vyp. 20, p. 198-219, illus.) *Title tr.*: A survey of Russian sedges. I.

Contains a critical revision of Russian species of sedges with keys to the sections, subsections and species of the genus *Carex*, synonymy and data on distribution in the U.S.S.R. and other countries; includes many native to the arctic regions. *Copy seen:* MH-A.

5986. GORODKOV, BORIS NIKOLAE-VICH, 1890- . Opyt klassifikatsii rastitel'nosti Arktiki. (Sovetskaiâ botanika, 1946. T. 14, no. 1, p. 5-18; no. 2, p. 79-84) *Title tr.*: Attempt at a classification of vegetation of the arctic regions.

Contains an attempt at classification of arctic vegetation with a review of theories and schemes of various geobotanists; a discussion of the origin of

arctic vegetation, various types, succession, influence of climatic and edaphic factors, author's system of classification of arctic vegetation; p. 79-83, bibliography (36 items).

Copy seen: MH-A.

5987. GORODKOV, BORIS NIKOLAE-VICH, 1890- . Pochvy Gydanskoi tundry. (Akademiâ nauk SSSR. Polârnaiâ komissiâ. Trudy, 1932. Vyp. 7, p. 1-78, illus., map, tables) *Title tr.*: The soils of Gydan Tundra.

Study on the characteristics of soils in the region (70°-71°N. 76°-80°E.), based on the author's observations during the Gydan Expedition in summer 1927. Includes (1) historical outline of investigations of tundra soils in the U.S.S.R., p. 1-4; (2) geological and geomorphological sketch of the Gydan area, p. 4-11; (3) climate (p. 11-19): mean annual and monthly air temperatures, amount of precipitation, wind velocity, (based on records of three stations near the mouth of the Yenisey River at the eastern end of Gydan Tundra), depth of snow cover, temperature of the soil, and depth of permafrost according to investigations of the Expedition near Malyy Yuribey River (70°47'N. 77°4'E.) Sept.-Nov. 1927; (4) vegetation: limits of the different subzones of the tundra (with map), list of about 50 plant associations found in the region, p. 19-22; (5) description of various types of clay, and (6) sandy soils, p. 22-62; (7) features of soil formations peculiar to the tundra, and geographical subdivisions, p. 62-74. The location of permanently frozen ground is indicated in various instances especially in sections 2, 4-6. Bibliography (167 items). *Copy seen:* NN.

5988. GORODKOV, BORIS NIKOLAE-VICH, 1890- . Pochvy tundry. (Priroda, 1929, no. 7-8, p. 704-707) *Title tr.*: Soils of the tundras.

Contains a morphological-chemical survey of the deep soil of the tundra region between the mouths of the Yenisey and Ob' Rivers (71°N.).

Copy seen: MH.

5989. GORODKOV, BORIS NIKOLAE-VICH, 1890- . Polârnnye pustyni ostrova Vrangeliâ. (Botanicheskii zhurnal, 1943. T. 28, no. 4, p. 127-43) *Title tr.*: Polar deserts of Wrangel Island.

Contains geobotanical and ecological survey of the vegetation of Wrangel

Island, based on the author's exploration during the Expedition of the Academy of Sciences, U.S.S.R., in 1938 and on the observations of later explorers. Includes data on plant associations of such various geobotanical formations as tundras, marshes, peat-bogs and especially polar deserts. Summary in French. *Copy seen:* DLC; MH-A.

5990. GORODKOV, BORIS NIKOLAEVICH, 1890-. *Poliarnyi Ural v verkhnem techenii reki Sobi.* (Akademiia nauk SSSR. Botanicheskii muzei. Trudy, 1926. Vyp. 19, p. 1-74, plates 1-4) *Title tr.:* The Arctic Urals in the upper course of Sob' River. Résumé was published in Akademiia nauk SSSR. Bulletin, mai 1926. Sér. 6, t. 20, p. 745-66.

A result of the North Ural Expedition of 1924. A geobotanical survey of the vegetation of the Arctic Ural Mts. in the region of Sob' River, a tributary of the Ob' (at about 66°N. 66°E.), and the Voykar River. Includes data on the botanical exploration of the region, climate, soils and plant associations of various zones of the Arctic Ural region and west Siberian lowland; alphabetical index of plans, p. 71-74. Summary in German. *Copy seen:* MH-A.

5991. GORODKOV, BORIS NIKOLAEVICH, 1890-. *Poliarnyi Ural v verkhov'iax rek Voikara, Syni i Liapina.* (Akademiia nauk SSSR. Komissiiia ekspeditsionnykh issledovanii. Materialy, 1929. Vyp. 7, Seriiia ural'skaia: Severnyi Ural, p. 1-31, illus., incl. sketch map) *Title tr.:* The Arctic Urals in the region of the upper Voykar, Synya and Lyapin Rivers.

Preliminary report by the leader of the third year of the Northern Ural Expedition of the Academy of Sciences U.S.S.R., summer 1926. Gives notes on the itinerary, the geomorphology of the region and its vegetation, surface characteristics, fauna, and summer inhabitants. Summary in German. *Copy seen:* DLC.

5992. GORODKOV, BORIS NIKOLAEVICH, 1890-. *Rastitel'nost' Arktiki i gornyykh tundr SSSR.* (Akademiia nauk SSSR. Botanicheskii institut. Rastitel'nost' SSSR, 1938. T. 1, p. 297-354, illus.) *Title tr.:* Vegetation of the Arctic and mountainous tundras of the U.S.S.R.

Contains geobotanical study of the vegetation of the Arctic, which is

divided by the author into five zones from south to north, and into twelve phytogeographical regions, including six mountain systems, from west to east. The influence of physico-geographical factors, plant associations and their succession is considered in detail for each zone and mountain system. *Copy seen:* MH-A.

5993. GORODKOV, BORIS NIKOLAEVICH, 1890-. *Rastitel'nost' tundrovoi zony SSSR.* Moskva, Izd-vo Akademii nauk SSSR, 1935. 141, [1] p. illus., fold. map. *Title tr.:* Vegetation of the tundra zone in the U.S.S.R.

Contains notes on extent and climate of the tundra zone; a detailed description of plant associations and other characteristics of the various types of tundras; an index to plant species discussed in the text, and a bibliography (97 items). *Copy seen:* DLC.

5994. GORODKOV, BORIS NIKOLAEVICH, 1890-. *Tundra i al'piiskii poias gor.* (Priroda, 1929, no. 11, col. 993-94) *Title tr.:* Tundra and alpine belt of mountains.

Contains a comparative study of tundras and mountainous regions of northern European U.S.S.R. and similar regions of the Caucasus. *Copy seen:* MH.

5995. GORODKOV, BORIS NIKOLAEVICH, 1890-. *Tundry Ob'-Eniseiskogo vodorazdela.* (Sovetskaiia botanika, 1944, no. 3, p. 3-20; no. 4-5, p. 20-31) *Title tr.:* Tundras of the Ob'-Yenisey watershed.

Contains results of the study of tundras of Gydan Peninsula between Yenisey and Ob'-Taz Bays (Obsko-Tazovskaya Guba) carried out by Gydan Expedition of the Academy of Sciences U.S.S.R. in 1927. Special attention is given to succession of tundra plant associations and analyses of various zones of tundra vegetation. *Copy seen:* MH-A.

5996. GORODKOV, BORIS NIKOLAEVICH, 1890-. *Vechnaiia merzlota i rastitel'nost'.* (Akademiia nauk SSSR. Komissiiia po izucheniiu estestvennykh proizvoditel'nykh sil SSSR. Materialy, 1930, No. 80, Vechnaiia merzlota, p. 135-56) *Title tr.:* Permafrost and vegetative cover.

Contains discussion on interrelation of permafrost and vegetation of the

area. It is stressed that the most important factor is not the thickness of permanently frozen layer but the degree of summer thawing, and depressing effect of low temperature if combined with excessive evaporation. Distribution of major types of trees and other forms of vegetation is discussed and reason for their adaptability to the area indicated. Data on permafrost as a factor in the formation of peat bogs, marshes, and micro-relief are given. Bibliography (52 items).

Copy seen: DGS; NN.

5997. GORODKOV, BORIS NIKOLAEVICH, 1890- . Vechnaia merzlota v Severnom Krae. (Akademii nauk SSSR. Sovet po izucheniiu proizvoditel'nykh sil SSSR. Trudy. Serii severnaia, 1932. Vyp. 1, p. 5-105, illus.) *Title tr.*: Permafrost in the far North.

Contains results of field investigations for the study of permafrost in the area between the mouths of the Pechora and Ob' Rivers (particularly in the Usa basin in 1931), in five sections:

1. *The southern limits of permafrost in the far North.* A critical survey of published data checked by observations of the micro-relief as an index of permafrost.

2. *Depth of summer thawing of the ground in the far North.* A critical survey of published data and of theoretical assertions concerning the various factors influencing it (vegetation cover, surface waters, snow cover). This is contrasted with actual observations in a series of pits under various types of vegetable covering.

3. *Ground moisture in the far North.* Published material on ground moisture and connected phenomena (solifluction, swelling, etc.) supplemented with data from a series of test pits and trenches.

4. *Thickness of permafrost in the far North.* Failing the facilities for deep boring, the indirect method of estimation is used.

5. *Flora and soils of the northern limits of the forest zone.* Detailed data on flora of the region (ecological phytogeography) which aids permafrost studies, and contributes to conclusions on soil conditions. The last part contains a short summary, a list of practical suggestions, also a bibliography of 104 items.

A discussion on the gradually changing climate of the Arctic and the reflection of that process in the physical geography of the region.

Copy seen: DLC.

6028. GOVORUKHIN, V. S. Ocherk rastitel'nosti letnikh pastbishch severnogo olenia v tundrach Obsko-Tazov-

skogo poluostrova. (Zemlevedenie, 1933. T. 35, vyp. 1, p. 68-92, map, table) **Title tr.:** Description of vegetation of summer pastures of northern reindeer in tundras of Ob'-Taz Peninsula.

General information on the soil cover, climatic conditions, population and livestock (reindeer) of Taz Peninsula (66°6'-69°N. 73°-78°E.). Detailed description of different types of tundras suitable for summer pasture of reindeer—the shrub, spotted, cotton grass tundras—and the types of vegetation growing on lowland tundras, on meadows and steep banks of Taz Gulf. Author states that the best pastures with abundant grass and shrub vegetation can not be used in spring and early summer because of mosquitoes and gadflies. In those seasons reindeer herds are directed to the "highland" tundras of watershed regions. Thus pasturage in spring to early summer is mainly in the eastern part of the peninsula and on the banks of Taz Gulf. Includes detailed data on various plant associations, meadows and coast vegetation (with a schematic map) of the region, and table of plant associations on watershed tundras.

This paper is the result of work carried out in 1931 by the author as a botanist of the Expedition of the Agriculture and Soil Institute of the Lenin Academy of Agricultural Sciences (Tobol'sk Section of the State Land Trust). **Copy seen:** NNA.

6029. GOVORUKHIN, V. S. Pátnistaia tundra v gorakh Severnogo Urala. (Zemlevedenie, 1936. T. 38, vyp. 2, p. 153-61, 3 illus.) **Title tr.:** Spotted tundra in Northern Ural Mountains.

Description of investigations of spotted tundra made on boundary between the Arctic and Northern Urals (65°30'N.) in the upper parts of Khulga and Synia Rivers. On the basis of his observations there, the author concludes that the type of spotted tundra spreading into Northern Ural originated as result of the steady advance of vegetation in regions recently freed from glaciers. He calls this type of tundra "dry lichen spotted tundra".

Contrary to existing opinions on the origin of spotted tundras, the author considers that in the area investigated the "spots" appeared before the vegetation. He adds that there is no single explanation of the origin of all types

of spotted tundras, which are of phyyletic origin according to Prof. V. V. Reverdatto. **Copy seen:** DLC.

Contains the results of bi-hourly meteorological and sea surface-water temperature made on board the *Gjøa* en route from Oslo to Gjøa Haven (68°38' N. 95°55' W. King William Island), during the period June 18-Sept. 14, 1903, and from Gjøa Haven to King Point (69°07' N. 137°55' W.) on the Yukon coast, Aug. 13-Sept. 22, 1905; and the results of hourly or bi-hourly registrations of pressure and temperature and routine meteorological observations made three times daily at Gjøa Haven from Sept. 9, 1903-Aug. 11, 1905, and similar results at King Point from Sept. 1, 1905-June 30, 1906. A discussion of the expeditions' voyage and program of work and of the instrumentation, methods of observation, and the statistical interpretation of observational materials precede the tabular portion of the work. A journal of individual occurrence of aurora and optical phenomena at both stations is included in the discussion. **Copy seen:** DLC.

Descriptions (with photographs and sketch maps) of forty-one named glaciers, and others from Port Valdez to Kachemak Bay, arranged by bays and fiords.

Copy seen: DGS.

6067. GRANT, ULYSSES SHERMAN, 1867-1932, and D. F. HIGGINS. Glaciers of Prince William Sound and the southern part of Kenai Peninsula, Alaska, I-IV. (American Geographical Society, N. Y. Bulletin, 1910-1911. v. 42, p. 721-38; v. 43, p. 321-38, 401-417, 721-37, illus. (incl. maps)) Based on observations made in 1905, 1908-1909, while the authors were with U. S. Geological Survey parties.

Contents: 1. Northern part of Prince William Sound. 2. Port Wells, Prince William Sound. 3. West coast of Prince William Sound. 4. Southern coast of the Kenai Peninsula.

Copy seen: DLC.

6068. GRANT, ULYSSES SHERMAN, 1867-1932, and D. F. HIGGINS. Reconnaissance of the geology and mineral

resources of Prince William Sound, Alaska. Washington, U. S. Govt. Print. Off., 1910. 89 [i.e. 82] p. illus., 12 plates, (incl. 3 fold. maps) diagsr. (U. S. Geological Survey. Bulletin 443) Preliminary reports of this study were published in U. S. Geological Survey, Mineral resources of Alaska in 1905 and 1908, *pub.* 1906 and 1909.

Contains notes on the topography and glaciation, descriptions of the general geology, and (in detail) of the copper (chiefly) and gold ores, prospects and mines (with map showing locations); mention of (noncommercial) occurrences of silver, nickel, antimony, lead, zinc, iron, asbestos, and petroleum.

Maps include: (1) geologic reconnaissance map of Prince William Sound, showing the district from the Copper River delta to Resurrection Bay (1:250,000); (2) topographic and geologic map of part of Latouche Island, Prince William Sound (contour interval 20 ft., scale 1:21,120).

Contains a classified list, with some descriptions, of twenty-three species of marine molluscs (presumably), from Baffin Bay and Canadian Arctic Islands waters.

Copy seen: DLC.

6086. GRAY, JOHN EDWARD, 1800-1875. Some observations on *Myodes hudsonicus* and the other species of the genus *Myodes*. (Zoological Society of London. Proceedings, 1848. Pt. 16, p. 43-44)

Taxonomic notes on lemmings of the Barren Grounds of northern Canada.

Copy seen: DA.

6087. GRAY, JOHN EDWARD, 1800-1875, and G. B. SOWERBY. Molluscous animals, and their shells. (In: Beechey, F. W., and others. The zoology of Captain Beechey's voyage, 1839. p. 103-55, col. plates)

Contains (1) introductory remarks; and (2) list, with description of fleshy parts and shells, of molluscs, (some

new) collected on the Beechey voyage of 1825-28, and on other expeditions of about the same period. Includes several specimens from Icy Cape, Alaska, and from other unspecified portions of the Arctic and Pacific Oceans.

Copy seen: DLC.

GRAY, JOHN EDWARD, 1800-1875, see also Rae, J. Narrative exped. 1846-47. 1850.

6088. GRAY, R. W. The colour of the Greenland Sea and the migrations of the Greenland whale and narwhal. (Geographic journal, Sept. 1931, v. 78, p. 284-90)

A discussion, based on log books of the *Eclipse* and *Hope*, whaling vessels belonging to the author's father and uncle, and on accounts of Capt. Scoresby and others, regarding the feeding banks of whales and the disappearance of the females during summer months.

Copy seen: DLC.

6089. GRDZELOV, L. Zadachi GGU v chetvertoï stalinskoï piatiletke. (Nedra Arktiki, 1946. No. 1, p. 6-8) **Title tr.:** The task of the Main Geological Office during the fourth Stalin five-year plan.

Brief statement of objectives for arctic research work in the field of geology.

Copy seen: DLC.

6090. GREAT BRITAIN. ADMIRALTY. Ice charts of the Northern Hemisphere. London, 1922. 12 double-face charts in atlas. (Its: D31-D42)

The general maximum limits of ice, also maximum limits for each month have been compiled from information supplied by the Meteorological Office and shown on polar projection charts. The charts include designations of limits of (1) solid pack ice (Bering Sea) and polar pack ice (Denmark Strait, Greenland or Barents Sea); (2) land ice; (3) drift or open ice which may impede navigation; (4) icebergs; (5) ice in the western North Atlantic; air isotherm 32° (F). and exceptional positions of ice in various years indicated. (by date).

Copy seen: DN-HO.

6091. GREAT BRITAIN. AIR MINISTRY. Atlantic bridge; the official account of R. A. F. Transport Command's ocean ferry. London, H. M. Stationery Office, 1945. 75 p. 8 plates,

maps on end papers. Prepared for the Air Ministry by the Ministry of Information.

An account of the planning and development of the air routes across the Atlantic; includes notes on the airfield at Goose Bay, Labrador, and some records of flights via Labrador, Greenland and Iceland. *Copy seen:* DLC; DP.

6092. GREAT BRITAIN. FOREIGN OFFICE. HISTORICAL SECTION. Greenland. London, 1920. 3 p. l., 37 p. table. (*Its:* Handbooks. No. 132)

One of a series of handbooks providing geographic, economic, historical, social, and political information about different countries, for the British delegates to the Paris Peace Conference, and published later for public information.

Contains brief chapters on physical and political geography, political history, social and political conditions, economic conditions, industry (agriculture, fisheries, minerals) commerce, and finance, with a bibliography (18 items). *Copy seen:* CaOA; DLC.

6093. GREAT BRITAIN. FOREIGN OFFICE. HISTORICAL SECTION. Spitsbergen. London, 1920. 3 p. l. 50 p. (*Its:* Handbooks, No. 36)

One of a series of handbooks providing geographic, economic, historic, social, and political information about different countries, for the British delegates to the Paris Peace Conference, and published later for public information.

Contains chapters on physical and political geography (including ice), on economic conditions (communication, natural resources) and political history (discovery and exploration, diplomatic history, sovereignty).

Copy seen: CaOA; DLC.

6094. GREAT BRITAIN. HYDROGRAPHIC DEPT. Arctic pilot, vol. I comprising the coasts of the U.S.S.R. from Byely Nos. Yúgorski Shar Strait, to Cape Otto Schmidt including Novaya Zemlya, Franz Josef Land, and all the islands eastward to Vrangelya and Herald Islands. 5th ed. London, Published by the Hydrographic Dept., Admiralty, 1947. 1, 526 p. 35 plates, fold. chart. Supplement no. 1, 1949.

Contains general remarks on the history, government, population, flora,

fauna, communications and currency; an ice glossary, formation and movement of sea ice, general ice conditions and ice navigation; passages, and weather.

Sailing directions: South coast of Novaya Zemlya, Karskiye Vorota Strait, southwestern Vaygach Island, Yugor Strait.

West coast of southern Novaya Zemlya.

Matochin Shar Strait.

West coast of northern Novaya Zemlya.

Franz Josef Land.

East coast of Novaya Zemlya.

Northeast coast of Vaygach Island, south and east coasts of Kara Sea.

Gulf of Ob and approaches.

Gydanski Gulf, Yenisey Gulf and their approaches.

Siberian coast from Severo-Vostochny Point (73°50'N. 80°50'E.) to Boris Vil'kitski Strait.

Boris Vil'kitski Strait, Severnaya Zemlya.

Siberian coast from Pronchishev Point to Svyatoy Nos.

New Siberian Islands, Dmitry Laptev Strait.

Siberian coast from Kondrat'yev River to Cape Shmidt, Wrangel and Herald Islands.

Copy seen: DN-HO.

6095. GREAT BRITAIN. HYDROGRAPHIC DEPT. Arctic pilot, vol. II comprising Iceland, Jan Mayen, Svalbard, and the east coast of Greenland together with the Greenland and Barents Seas. 5th ed., 1949 . . . London, Published for the Hydrographic Dept., Admiralty, by H. M. Stationery Off., 1949. liv, 565 p. incl. tables. illus., 76 plates, fold. map.

Contains introductory material which includes a bibliography (79 items); glossary of Icelandic, Norwegian, Danish and Eskimo words most commonly used in place names.

General description of the physical features of the islands and coasts, and the meteorology; an ice terminology, description of ice conditions, tidal currents, aids to navigation; and average and extremes of monthly meteorology observations.

Sailing directions include (p. 301-518) waters of Jan Mayen and Bear Island, including Spitsbergen Bank; West Spitsbergen, including the fiords,

Prince Charles Foreland, Hinlopen Strait, off-lying islands, Northeast Land, Hope Island, Edge Island and King Karl's Land; east coast of Greenland, including King Frederick VI Coast, King Christian IX Land, King Christian X Land, Germania Land, Duc d'Orléans Land, King Frederick VIII Land and Peary Land.

Appendices: 1. List of principal ports showing particulars of depths, etc. 2. Places suitable for magnetic observations.

Copy seen: DLC (4th ed.); DN-HO.

6096. **GREAT BRITAIN. HYDROGRAPHIC DEPT.** Arctic pilot, vol. III comprising Davis Strait, Baffin Bay, and the channels leading therefrom to the polar sea, with the west and north-west coasts of Greenland, the arctic coast of Canada, and the arctic archipelago; also Hudson Strait and Bay. 4th ed., 1947. London. Published by the Hydrographic Dept., Admiralty, 1947. 1. ii, 491 p. illus., 43 plates, fold. chart, 4 sketch charts. Supplement no. 1, 1949.

Contains introductory material on aids to navigation, a bibliography (106 items), and an Eskimo glossary.

Chap. 1. General notes on the physical features of the several regions, a history of exploration for the Northwest Passage, notes on Eskimos, flora and fauna; an ice glossary, description of general ice conditions, and directions for ice navigation; a sketch of the climatic conditions, with tables of monthly averages of meteorological elements.

Sailing directions (chap. 2) Davis Strait and approach; west coast of Greenland to Disko, and east coast of Baffin Island to Cape Hewitt.

Chap. 3. Baffin Bay: west coast of Greenland, Melville Bay, Cape York to Smith Sound, eastern Baffin Island, Bylot Island and east side of Devon Island.

Chap. 4. Hudson Strait and Bay, Foxe Channel and basin, and Fury and Hecla Strait.

Chap. 5. Lancaster Sound, Barrow Strait, Melville Sound, and McClure Strait.

Chap. 6. Navy Board, Admiralty, and Prince Regent Inlets; Gulf of Boothia; Peel Sound; Franklin, McClintock and Prince of Wales Straits; west side of Banks Island.

Chap. 7. Sea route between Arctic Islands and mainland coast of Canada: James Ross, Simpson and Victoria Straits; Queen Maud Gulf, Dease Strait, Coronation Gulf, Dolphin and Union Strait, and Amundsen Gulf.

Chap. 8. Parry Archipelago; Wellington and Queens Channels, McDougall Bay; north side Bathurst Island, Byam Martin Channel, Hecla and Griper Bay; Melville and Prince Patrick Islands, and Ballantyne Strait.

Chap. 9. Jones Sound, Belcher Strait, west coast of Ellesmere Island; Axel Heiberg, Ringnes and Meighen Islands.

Chap. 10. Smith Sound to polar sea, including history of exploration of the Smith Sound Route; Kane and Hall Basins, Robeson Channel, and polar sea coast of Greenland.

Copy seen: DN-HO.

6097. **GREAT BRITAIN. HYDROGRAPHIC DEPT.** Bering Sea and Strait pilot, comprising the northwestern and northern coasts of Alaska from Cape Douglas to Demarcation Point, the northern coast of Canada from Demarcation Point to Cape Bathurst, the Aleutian Islands, and the northeastern coast of Siberia from Cape Shipunski to Cape Otto Shmidt. 2d. ed., 1940. All bearings are true. Published by order of the Lords Commissioners of the Admiralty. London. Published for the Hydrographic Dept., Admiralty, by H. M. Stationery Off., 1941. 4 p. l., iii-xxxii, 497 p. incl. illus. tables, diagr. plates, fold. map.

"Prepared by Captain G. E. Sutcliffe, R. N., and Lieutenant-Commander J. Y. G. Torlesse, R. N." - p. iii.

"By the publication of this volume the first edition of the Bering sea and strait pilot, 1920, and Supplement no. 12, 1937, are cancelled, and all information affecting that work contained in Notices to mariners up to and including no. 2606 of 1940, has been embodied in this volume." - p. iii.

Supplement no. 5, with corrections to 1948.

Contents: General remarks (meteorology, ice, currents, tides, tidal streams, signals, life saving service, U. S. Coast Guard, buoyage, regulations, W/T stations, fuel, repairs, British consular officers, standard time, calendar or date line, ice navigation).

Chapter on Afognak, Kodiak and Trinity Islands, Alaska Peninsula,

Unimak Island, Aleutian Islands, Attu Island, islands in Bering Sea, the coasts of Alaska, Kamchatka, Chukotsk Peninsula and northeast Siberia, Komandorski, Vrangela and Herald Islands;

Information (in brief) on the general nature of the sea, coastal regions and islands, their physical features, harbors, populated places; and (in detail) on navigation, fog, tides, depths, lights, dangers, etc., sailing directions, with references to British Admiralty charts.

Appendices: U. S. inland rules of the road; ports available for underwater repairs; principal ports (with depths, etc.).

Meteorology tables, for Kodiak, Dutch Harbor, St. Paul Island, Akulurak, Nome, Chamisso Harbor, Barrow, Herschel Islands, Beringa Island, Novo-Mariinskoe, temperature and precipitation.

Copy seen: DN-HO.

6098. GREAT BRITAIN. HYDROGRAPHIC DEPT. Newfoundland and Labrador Pilot, vol. II comprising the eastern coast of Newfoundland from Cape Saint Francis to Cape Bauld; Belle Isle; and the eastern and north-eastern coasts of Labrador from Cape Saint Charles to Cape Chidley. 7th ed., 1939. London, Published for the Hydrographic Dept., Admiralty, by H. M. Stationery Off., 1939. xxv, 386 p., incl. tables. 40 plates, diagrs., fold. map.

Supplement no. 6, with corrections to Mar. 7, 1950.

Contains general notes on physical features, climate, currents, tides and ice (including a glossary, notes on icebergs, and general ice conditions).

Sailing directions (p. 210-333) include the east coast of Labrador from Cape St. Charles to Cape Chidley.

Copy seen: DLC; DN-HO.

6099. GREAT BRITAIN. HYDROGRAPHIC DEPT. Remarks on Davis Strait, Baffin Bay, Smith Sound, and the channels thence northward to 82¼°N. Compiled from various authorities. London, Printed for the Hydrographic Office, Admiralty [by G. E. Eyre and W. Spottiswoode] 1875. 55, [1] p. incl. tables.

Originally published in 1853; reprinted in 1875 with added information derived from American, British and Danish voyages.

Contains sailing directions, including notes on ice and its movements.

Copy seen: DLC; NNSStef.

6100. GREAT BRITAIN. HYDROGRAPHIC DEPT. South and east coasts of Korea, east coast of Siberia, and Sea of Okhotsk pilot, comprising the coast from the south-western extreme of Korea to Cape Shipunski on the eastern coast of the Kamchatka Peninsula; and Quelpart Island. Tsushima and Sakhalin. 3d ed., 1937. London, Pub. for the Hydrographic Dept., Admiralty, by H. M. Stationery Off., 1937 [i.e. 1944]. 2 p. l., iii-xxxiv, 650 p., 1 l. incl. illus. tables, plates, 2 maps (1 fold.) 2 charts (1 fold.)

This edition was prepared by F. C. Hanning-Lee, published 1937, reprinted 1944. Supplement no. 8, 1948.

Contents include chapters on Sakhalin Gulf, Sea of Okhotsk: southern and northern parts, Kuril Strait and southeastern coast of Kamchatka; also glossary of terms (Russian and English).

Appendices: 1. Particulars of dry docks, patent slips, etc.

2. List of principal ports, showing particulars of depths, etc.

3. Meteorological tables (including Okhotsk, 1846-1930, Petropavlovsk, 1846-1930).

Chapters give information (in brief) on general nature of the sea regions, the coasts and off-lying islands, on their physical geography, harbors, populated places, trade, shipping, communications, supplies and other facilities; (in detail) on navigation, ice conditions, fog, tides, currents, sea temperatures, winds, weather, etc.; sailing directions, light signals, anchorages, buoys, dangers, etc.; with references to British Admiralty charts.

Copy seen: DLC.

6101. GREAT BRITAIN. HYDROGRAPHIC DEPT. South-east Alaska pilot, comprising the coast and off-lying islands from Dixon Entrance to Cook Inlet. 3d ed., 1948. London, 1948. xliii, 577 p. illus., maps. Formerly included in the Alaska and Bering Sea pilot. Supplement No. 1, 1949, corrected to Oct. 10, 1949. Prepared by J. N. Tait.

Standard sailing directions based on *U. S. Coast pilot, Alaska*, and *U. S. Light list and Current tables for the Pacific Coast*, 1947.

Contents: Chap. 1. Introductory material on time, ice, currents, tidal streams, kelp, fish traps, signals (etc.).

Chap. 2. Dixon Entrance, Clarence Strait to Sumner Strait.

Chap. 3. Western side of Prince of Wales Island.

Chap. 4. Sumner Strait, Wrangell narrows.

Chap. 5. Frederick Sound, Stephens Passage.

Chap. 6. Western coasts of Baranof, Chichagof, and Yakobi Islands.

Chap. 7. Chatham Strait.

Chap. 8. Cross Sound and Icy Strait, Lynn Canal.

Chap. 9. Cape Spencer to Cape Puget, including Prince William Sound.

Chap. 10. Cape Puget to Cape Douglas, including Cook Inlet.

Copy seen: DLC; DN-HO.

6102. GREAT BRITAIN. HYDROGRAPHIC DEPT. Tidal streams of the waters surrounding the British Islands and off the west and north coasts of Europe, Gibraltar to Yugorski Strait. 2d ed. London, 1946-1948. 2 v. charts.

Part 1 (*pub.* 1946) contains information available to Sept. 1945, on residual currents, tidal streams and flows, water level and floods in rivers, tide rips, etc., for navigable waters off Norway (p. 446-507) and the north coast of the U.S.S.R. to Matochkin Shar, Yugorskiy and Karskiye Vorota Straits, including the White Sea (p. 508-556).

Part 2 (*pub.* 1948) contains tables of tidal streams described in Part 1.

Copy seen: DLC (v. 1); DN-HO.

6103. GREAT BRITAIN. HYDROGRAPHIC DEPT. White Sea pilot comprising the coasts of Finland and the U.S.S.R. from Jacobselv to Bejéli Nos, Yugorski Shar Strait, including the White Sea. 1st ed., 1946. London, 1946. xxxiv, 400 p. incl. tables. 41 plates, diagrs., fold. chart. Supplement issued 1948, corrected to Dec. 28, 1948.

Contains introductory chapter with general notes on coasts, government, currency, etc.; ice glossary (with illus. of types of ice) formation and movements of sea ice, icebergs, general ice conditions, ice navigation (in detail), currents, tides, and aids to navigation; buoyage, pilotage, and passages; meteorology (with tables of monthly averages) and local weather.

Sailing directions, from (1) the mouth of Varanger Fiord to Kola

Inlet, including Rybachi Peninsula, Motovski Gulf and Urá Inlet.

2. Murman coast, including Kil'din Island and Strait, and Svatonosskaya Bay.

3. Northwestern side of White Sea.

4. Eastern side of the White Sea, Kanin Nos to, and including the Gulf of Mezen.

5. Southeastern side of the White Sea from Mezen to, and including Gulf of Dvina and Archangel.

6. Gulf of Onega, including Solovetski Island, Shuyskaya and Sorokskaya Bays, and the Pomor coast.

7. The Karelian coast to and including Kandalakshski Gulf.

8. Kanin Nos, Cheshskaya and Indiga Bays, the Timan coast, Kolguev Island and Pechora estuary.

Copy seen: DN-HO.

6104. GREAT BRITAIN. METEOROLOGICAL OFFICE. Weather in home waters and the north-eastern Atlantic. v. 2, part 7, the Norwegian and Barents Seas. London, 1941. 196 p. incl. tables, illus., diagrs., chart. (*Its:* M.O. 446b(7))

Includes the coast of Norway north of 61°N., Russian arctic coast to Novaya Zemlya, east coast of Greenland, Iceland, Faeroes, Svalbard, Franz Josef Land, and Jan Mayen.

Contents: 1. General. Regional summaries of Scandinavia, arctic Russia, Iceland and Greenland.

2. Depressions.

3. Pressure. Annual and diurnal variation.

4. Wind. Surface and upper winds.

5. Visibility, distribution and variation.

6. Cloud distribution and variation.

7. Rain, hail and snow.

8. Thunderstorms.

9. Temperature. Surface and upper air, sea, and difference between sea and air temperatures.

10. Humidity.

11. Miscellaneous. Ice. North European coastal ice, Barents Sea drift ice, Spitsbergen, Greenland Sea drift ice, mirage, aurora borealis.

Bibliography (128 items).

Tables: 1. General climatological tables. Monthly, from twenty-six stations throughout the area.

2. Monthly frequency of wind direction and force at sea (compiled from ships' observations).

3. Monthly frequency of wind direction and force at sea (estimated from the *Daily weather report*).

4. Monthly frequency of wind direction and force at coastal stations. (Eleven stations, including Mezen, Kola, Jan Mayen and East Greenland).

5. Seasonal frequency of wind direction and speed in the upper air. (Archangel and Iceland).

6. Seasonal visibility at coastal stations. (Including Archangel, Svalbard, Jan Mayen and East Greenland).

7. Visibility and wind direction. (Seasonal; including Archangel, Svalbard, Jan Mayen and East Greenland).

8. Low cloud. (Monthly; including Archangel, Svalbard, Jan Mayen and East Greenland).

9. Days with clear and cloudy skies. (Monthly; for stations throughout area).

6105. GREAT BRITAIN. METEOROLOGICAL OFFICE. MARINE BRANCH. Monthly ice charts arctic seas, Hudson Bay to Kara Sea. London, 1944. 28 p. incl. 13 charts. (*Its:* M.O.M. 390a (rev. 1944)) Based on all sources of information available since 1920.

Contains charts showing average ice conditions and limits of heavy polar ice, probable extreme limit of sea ice, and of icebergs, from Kara Sea to Hudson Strait.

Copy seen: DN-HO.

6106. GREAT BRITAIN. METEOROLOGICAL OFFICE. MARINE DIVISION. Monthly meteorological charts and ocean current chart of the Greenland and Barents seas. London [1942?] 73 charts on 25 l. with accompanying text. (*Its:* M.O.M. 402B)

Contains mean barometric pressure; frequency, force and direction of wind; frequency of winds of gale force; predominant direction, constancy, and force of surface winds; mean air temperature (°F); and relative values of mean sea temperature (°F) for each month; sea surface currents throughout the year.

Copy seen: DN-HO.

6107. GREAT BRITAIN. PARLIAMENT. HOUSE OF COMMONS. SELECT COMMITTEE ON THE EXPEDITION TO THE ARCTIC SEAS. Report from the Select Committee on the Expedition to the Arctic Seas, commanded by Captain John Ross, R.N. . . . [London, 1834] 37 p., 1 l. fold.

map. ([Parliament, 1834. H. of C. Repts. and papers] 250) "Ordered, by the House of Commons, to be printed, 28 April 1834." Committee: Mr. Cutlar Fergusson, Sir Robert Peel, Sir Robert Inglis, and others.

Contains official report of the committee concerning the value of the Ross second voyage in search of the Northwest Passage, 1829-33; a copy of Ross' preliminary official report of the expedition; and the verbatim testimony of Captain John Ross, Commander James C. Ross, Felix Booth and others, concerning the discovery of the magnetic pole, other accomplishments of the expedition, relations between the persons associated with the expedition, the value of the services of the individual members of the crew, etc.

Map of the Arctic westward of 30°E. to 180°, showing routes of the ten arctic expeditions conducted between 1818 and 1828, not including the second Ross voyage.

6112. GREELY, ADOLPHUS WASHINGTON, 1844-1935. Handbook of Alaska; its resources, products, and attractions. New York, C. Scribner's Sons, 1909. xiii, 280 p. 24 plates, 8 maps (1 fold., 1 double-face)

Published also in London, by Unwin, 1909. Another edition published in New York by Scribner's, 1914 (xxxii, 280 p.) is a reprint of the 1909 edition's text and illustrative matter, with addition of a new preface, p. ix, and a new

prefatory chapter on Alaska from 1909 to 1914. Based on available reports and the author's nine years' experience in Alaska.

Contains chapters on administration, climate, transportation, trade, agriculture, mining (in general and by region) sealing, fisheries, physical features, inhabitants (white and native), education, game, the Aleutian Islands, and the Canadian Klondike; with tabular data at the end.

Copy seen: DLC (1909, 1914 editions); NNS Stef (1909).

6113. GREELY, ADOLPHUS WASHINGTON, 1844-1935. Handbook of Alaska; its resources, products, and attractions in 1924. 3d ed., with new chapters on fisheries, fur-farming, fur seals, game, gold-mining, petroleum and coal, railroads, reindeer, and volcanoes. New York, London, C. Scribner's Sons, 1925. x p., 2 l., 3-330 p. 24 plates, 8 maps (1 fold.)

"This Handbook has been practically rewritten . . . the new trend of affairs relative to coal and oil lands is set forth with reference to recent leasing laws. The rapidly changing conditions of gold mining . . . are treated for thirty-four separate districts".

6114. GREELY, ADOLPHUS WASHINGTON, 1844-1935. Handbook of polar discoveries. 5th ed., rev. and enl. Boston, Little, Brown & Co., 1910. vi p., 3 l., [3]-336 p. front. (port.) 7 maps (part fold.)

First published with title: Handbook of arctic discoveries. Boston, Roberts Bros., 1896 (x, 257 p. 11 maps). Third edition published by Little, Brown and Co. 1906 (iv, 325 p., 12 maps) includes section on Antarctic. Fourth edition 1909 (vi, 336 p., 7 maps) has added chapter on the conquest of the North Pole. Fifth edition is same as fourth. Basic reference book on history of exploration especially for the North American Arctic.

Contains (p. 3-270) précis of northern explorations from the time of the Cabots, 1497, to Peary, 1909, arranged by topics and geographical regions, e.g. early northwest voyages, Novaya Zemlya, Northeast Passage, Spitsbergen, Bering Strait, Northwest Passage, Franklin Search, north polar voyages, Siberian Islands, International Polar

Year stations, Greenland, etc., with bibliographies at the end of each chapter and a polar bibliography, p. 318-24. The latter part of the book deals with the Antarctic.

Discussion of accounts by many earlier explorers, and of opinions by ethnologists, and Greenland historians, concerning the mixture of Eskimo and other races, as it is related to the question of the origin of present-day Copper Eskimos.

Copy seen: DLC; NNStef.

6116. GREELY, ADOLPHUS WASHINGTON, 1844-1935. The polar regions in the twentieth century; their discovery and industrial evolution. Boston, Little, Brown & Co., 1928. x, 270 p. illus., 21 plates, incl. port., fold. map. Brief history of exploration before the 20th century in north and south polar regions; with an index.

Copy seen: DLC; NNStef.

6117. GREELY, ADOLPHUS WASHINGTON, 1844-1935. Recent discoveries in northern Greenland and in Grinnell Land. (Royal Geographical Society. Proceedings, Nov. 1884. New ser., v. 6, p. 679-81, fold. map)

Brief notes on the journeys of Lt. Lockwood of the Lady Franklin Bay Expedition, 1881-84, which resulted in the mapping of the North Greenland coast to 83°24'N. 40°46'W. and of the explorations on the northern part of Ellesmere Island. *Copy seen:* DLC.

6118. GREELY, ADOLPHUS WASHINGTON, 1844-1935. Three years of arctic service; an account of the Lady Franklin Bay Expedition of 1881-84, and the attainment of the farthest north. New York, C. Scribner's Sons, 1886. 2 v.: xxv, 428 p.; xii, 1 l., 444 p. illus., 43 plates, ports., 9 maps (part fold.) fold. facsim. Published also in Great Britain, 1886, with same collation; also N. Y. 1894.

This United States expedition during the First International Polar Year, based at Fort Conger, Lady Franklin Bay, about 81°45'N. on the east coast of Ellesmere Island, explored the north coast of Greenland from Cape Bryant

to Cape Washington, about 82°30'-83°30'N., the interior and west coast of Grinnell Land (northern Ellesmere Island), and extended the mapping of Hayes Sound, about 79°N. on Ellesmere. As relief ships failed to reach them, members of the party made a march out of the Hall Basin area, all but seven dying of starvation before rescue at Cape Sabine, Smith Sound.

This narrative of the expedition's course by the leader, includes accounts of the battle with ice on the sea, the sledge journeys, the life of the men in camp and on the march, and the geography of territory explored; with a chapter on polar ice.

Appendices: 1. Means of meteorological observations at Fort Conger, 1881-84.

2. Mean pressures and temperatures at international stations, 1882-83.

3. Mean and minimum temperatures at various polar stations.

4. Maximum thickness of salt-water ice observed at various polar stations.

5. Results of sound experiment at Fort Conger.

6. Ethnology (notes on Polar Eskimos and possible early occupation of the most northerly land areas).

7. Natural history notes. (Field notes on seventeen land and sea mammals).

8. Ornithology. (Field notes on forty species of birds, with table of thirty-two species observed north of 81°30', 1871-83).

9. Botany. (Annotated list of sixty-three species of flowering plants).

10. LEHNERT, E., and A. W. GREELY. Mosses and lichens.

11. FEWKES, J. W. Report on the Medusae collected in the Lady Franklin Bay Expedition.

12. BEAN, T. H. On salmon caught in Lake Alexandria, 81°40'N.

13. Account of auroral displays accompanying the great magnetic storm of Nov. 15-19, 1882, noted at Fort Conger.

14. BRAINERD, D. L. Report on a petrified forest, discovered, May 20, 1883, near Cape Baird, 81°30'N. 64°30'W.

15. GARDINER, H. S. Report on fossils collected at Cape Cracroft.

16. List of game obtained within the Arctic Circle.

Appendices no. 10-12, 14-15, appear in this bibliography under the authors' names. *Copy seen:* DLC; NNStef.

6119. GREELY, ADOLPHUS WASHINGTON, 1844-1935. True tales of arctic heroism in the New World. New York, C. Scribner's Sons, 1912. xii p., 1 l., 385 p. illus. (16 maps) 16 plates, incl. ports.

Contents: The loyalty of Philip Staffe to Henry Hudson. Franklin's crossing of the Barren Grounds. The retreat of Ross from the *Victory*. The discovery of the Northwest Passage. The timely sledge journey of Bedford Pim. Kane's rescue of his freezing shipmates. How Woon won promotion. The Angekok Kalutunah and the starving whites. Dr. Rae and the Franklin mystery. Sonntag's fatal sledge journey. The heroic devotion of Lady Jane Franklin. The marvellous ice-drift of Captain Tyson. The saving of Petersen. Life on an East Greenland ice-pack. Parr's lonely march from the great frozen sea. Relief of American whalers at Point Barrow. The missionary's arctic trail. Schwatka's summer search. The Inuit survivors of the stone age. The fidelity of Eskimo Brönlund. The wifely heroism of Mertuk, the daughter of Shung-Hu.

GREEN, EDWARD, *see also* Mansell, F., & E. Green. Unknown quantity. 1938.

6124. GREEN, FITZHUGH, 1888- Bob Bartlett, master mariner. New York, London, G. P. Putnam's Sons, 1929. viii, 211 p. front., illus., plates, ports. "A book for boys about Peary's famous skipper."

Contains in addition to stories of Bartlett's experiences in arctic seas, a chapter on building snow-houses.

Copy seen: DLC; NNS Stef.

6125. GREEN, FITZHUGH, 1888- The Crocker Land Expedition; the story of the last extensive dog-sledge expedition in the Arctic. (Natural history, Sept.-Oct. 1928. v. 28, p. 463-75, incl. 4 p. of illus.)

Contains notes on the establishment of a base at Etah, an account of the dog sledge trip, Mar.-May 1914, by the author, D. B. MacMillan, leader of the expedition, and nine other men, from Etah, across Smith Sound and Ellesmere Island to Cape Thomas Hubbard and thence 150 miles north over the ice of the arctic sea, searching for Crocker Land (reported by Peary) and proving its non-existence.

Copy seen: DLC; NNM; NNS Stef.

6126. GREEN, FITZHUGH, 1888- Peary, the man who refused to fail. New York, London, G. P. Putnam's Sons, 1926. viii, 404 p. 20 plates, maps on lining-papers.

Biographical account of Peary and his work in the North, for the general reader with emphasis on human interest somewhat more than on scientific achievement; based in part on information and impressions gathered from interviews with Eskimos, during the author's own four-year sojourn in the region where Peary had been personally known.

Copy seen: DLC; NNStef.

GREEN, J. E., *see also* Brown, M., & others. Trichinosis on Southampton I., N.W.T. 1949.

6127. GREENAWAY, K. R. Present status of polar navigation. (Navigation, Sept. 1949. v. 2, p. 71-76)

Discussion of projections favored for maps and charts of polar regions, grid direction, the status of aids to celestial observations, radar, and radio aids; notes on improvements to the navigator's facilities on the airplane, and on Canadian efforts to improve high latitude navigation.

Copy seen: DN-HO; DP.

6128. GREENE, BENJAMIN FRANKLIN, 1817-1895. Use of compass in arctic navigation. (U. S. Navy Dept. Report of the Secretary of the Navy, 1875. p. 68-72)

In response to a letter from an arctic whaling captain, concerning the uselessness of compasses in far northern latitudes, the author who was professor of mathematics and superintendent of compasses, demonstrates navigational techniques for areas of changing magnetic conditions. Published in German, in *Annalen der Hydrographie und maritimen Meteorologie*, Aug. 1876. Jahrg. 4, p. 331-35.

Copy seen: DLC.

6129. GREENE, RAYMOND. The prevention and treatment of frostbite. (Polar record, Jan. 1942. v. 3, p. 481-88)

The author, a physician and a member of the Mount Everest Committee of the Alpine Club and Royal Geographical Society, mentions trench foot, shelter foot, and immersion foot, and discusses causes, prevention and treatment of true frostbite.

Copy seen: DLC.

6130. GREENE, WILLIAM HOWE, 1865-. The wooden walls among the ice floes, telling the romance of the Newfoundland seal fishery. London, Hutchinson & Co., Ltd., 1933. xix, 298 p. 67 plates, incl. 2 maps.

History and description, life and work of ships and men engaged in sealing on the Grand Banks of Newfoundland.

Copy seen: DLC; NNStef.

6131. GREENLAND. LANDSRAAD. De forenede grønlandske landsraads forhandlinger. København, A/S J. H. Schultz, 1946-49. *Title tr.*: The proceedings of the United Colonial Councils of Greenland.

Contains the deliberations and decisions of the Colonial Councils of Greenland, assembled in joint sessions, on questions of interest to West Greenland, and to Greenland as a whole, including administration, school and church, sealing, whaling, fishery, hunting, wildlife conservation, social reforms, etc.

Copy seen: NN (1940, 1941, 1943, 1945, 1946, 1948).

6132. GREENLAND. LANDSRAAD. De grønlandske landsraads forhandlinger. København, A/S J. H. Schultz, 1938-1948. *Title tr.*: The proceedings of the Colonial Councils of Greenland.

The councils in separate or joint sessions published their reports in one continuously paged series: 1938-47, p. 1-886; 1948, p. 1-224. The reports of joint sessions are published as *De forenede grønlandske landsraads forhandlinger*, q.v.

These reports of the separate sessions contain the discussions and deliberations of the councils of "South" and "North" Greenland (i.e. west coast, south and north of 67°40'N. respectively), on topics and problems of interest to the Greenlanders of the South and the North, respectively.

Copy seen: DLC (1938, 1947); NN (1938, 1939, 1947).

6133. GREENLAND. LAWS, REGULATIONS, etc. Danske og islandske statsborgeres ret til at besejle og bosaette sig paa Østgrønland. (Grønlandske selskab. Aarsskrift, 1923-24. p. 62-63) *Title tr.*: Rights of Danish and Icelandic citizens to navigate on and settle in East Greenland.

A proclamation applicable to Danish,

Icelandic and, in certain instances, to foreign citizens. Contains rules governing navigation, settlement, the erection of stations and buildings, etc., on the east coast of Greenland between Lindenow Fiord (60°27'N.) and Nordostrundingen (81°N.), the Angmagssalik District excepted; together with other directives and rules. Issued by A. P. Olsen on behalf of the colonial government in Copenhagen, July 5, 1924. *Copy seen:* NN; NNStef.

6134. GREENLAND. LAWS, REGULATIONS, etc. Kundgørelse for søfarende i havet omkring Grønland. (Grønlandske selskab Aarsskrift, 1925-26. p. 130-34) Edited by Jens Daa-gaard-Jensen. *Title tr.:* Proclamation to navigators in waters surrounding Greenland.

Contains law limiting navigation, hunting, fishing, etc., in all Greenland waters (except East Greenland) to Greenlanders and Danes, resident in Greenland. Contains also other decrees. *Copy seen:* NN.

6135. GREENLAND. LAWS, REGULATIONS, etc. Lov om Grønlands styrelse. (Grønlandske selskab. Aarsskrift, 1925-26. p. 113-29) *Title tr.:* Law pertaining to government of Greenland.

Contains a proclamation pertaining to the administrative division of Greenland; definition of boundaries; ecclesiastical and medical districts; trade rules; educational and community savings fund provisions; citizen rights; judicial instructions, etc. *Copy seen:* NN.

6136. GREENLAND. LAWS, REGULATIONS, etc. Lov og Kundgørelser. Lov om fangst, fiskeri og jagt i grønlandske farvande m. m. (Grønlandske selskab. Aarsskrift, 1925-26. p. 109-12) *Title tr.:* Laws and proclamations. Law pertaining to hunting, fishing and catch in Greenlandic waters, etc.

Contains a proclamation by King Christian X of Denmark, defining territories and waters of Greenland; rules for entering harbors; navigation, fishing, hunting within the three-mile limit, etc. *Copy seen:* NN.

6137. GREENLAND. LAWS, REGULATIONS, etc. Midlertidig lov om adgang for danske fiskerskibe til fiskeri i grønlandske farvande. (Grønlandske selskab. Aarsskrift, 1926-27. p. 85)

Title tr.: Temporary law pertaining to fishery by Danish fishing vessels in Greenland waters.

A law defining temporary fishing rights of Danish fishery vessels in Greenland, and extending them to include waters outside a line drawn from Haabets Island in the north (64°09'N., 52°04'W.) to Ravn's Storø in the south (62°43'N., 50°25'W.), West Greenland. *Copy seen:* NNStef.

6137A. GREENLAND. LAWS, REGULATIONS, etc. Tillaeg og ændringer af 7 juni 1930 til lov for stationen Thule. København, A. Rosenbergs bogtrykkeri, [1930] *Title tr.:* Additions to and changes in the laws for the station Thule, dated June 7, 1930.

Contains laws pertaining to the conservation of wildlife, the shooting of walrus, damage done by dogs, etc. Issued by Knud Rasmussen and countersigned by Rudolf Sand. (Printed in the Danish and Greenlandic languages, including the title page.) *Copy seen:* NNStef.

GREENLAND. LAWS, REGULATIONS, etc., see also Tving, R. C. N. Traek af Grønlandsfartens historie. 1944.

6138. GREENLAND; published by the Commission for the Direction of the Geological and Geographical Investigations in Greenland. Copenhagen, C. A. Reitzel; London, H. Milford, Oxford University Press, 1928-29. 3 v. illus. (incl. ports., facsim.) fold. map, diagrs. Editors: M. Vahl, G. C. Am-drup, L. Bobé, Ad. S. Jansen.

Produced under auspices of Denmark's Commission for Scientific Investigations in Greenland, as was *Grønland i tohundredeåret for Hans Egedes landing, 1921*, q.v. But this is a new and entirely different work.

A coordinated group of scientific, monographic reports on the geography and history of the country, based on the comprehensive research carried on in Greenland during the years subsequent to the work of H. J. Rink, with bibliographies throughout.

Contents: v. 1. The discovery of Greenland, exploration and nature of the country.

BOBÉ, L. Early explorations of Greenland.

6154. GRENFELL, Sir WILFRED THOMASON, 1865-1940. Northern neighbors; stories of the Labrador people. Boston and New York, Houghton Mifflin Co., 1923. v [1] p., 2 l., 332, [1] p. 8 plates.

Eighteen stories of which eight are

reprinted from his, *Off the rocks*, 1906.

Copy seen: DLC; NNStef.

6155. GRENFELL, Sir WILFRED THOMASON, 1865-1940. Off the rocks; stories of the deep-sea fisherfolk of Labrador, by Wilfred T. Grenfell . . . with an introduction by Henry Van Dyke. Philadelphia, The Sunday School Times Co., 1906. xi, 203 p. front., 9 plates.

Sixteen stories of the Eskimos and others dwelling on the coast.

Copy seen: DLC; NNStef.

6156. GRENFELL, Sir WILFRED THOMASON, 1865-1940. The problems of Labrador. (Canadian geographical journal, Nov. 1933. v. 7, p. 200-12, illus., port.)

A discussion (in general) of the difficulties which have accompanied the development of Labrador. Includes remarks on the vegetation, climate, natural resources, soils, etc.

Copy seen: DLC.

6157. GRENFELL, Sir WILFRED THOMASON, 1865-1940. The romance of Labrador. New York, Macmillan Co., 1934. xiv p., 1 l., 329 p. front., illus., 31 plates.

A record in popular style of the scientific and historical facts drawn from the author's forty years' experience on the Labrador coast, and from the published work of many others. Includes chapters on geology, Indians, Eskimos, the fisheries, flora, fauna, birds, exploration, and Moravian missions.

Copy seen: DLC; NNStef.

6158. GRENFELL, Sir WILFRED THOMASON, 1865-1940. Tales of the Labrador. Boston and New York, Houghton Mifflin Co., 1916. 3 p. l., 239, [1] p., 1 l. front.

Eleven stories of shipwreck, peril and adventure among the fishermen and of the life of the Eskimos.

Copy seen: DLC; NNStef.

6159. GRENFELL, Sir WILFRED THOMASON, 1865-1940. Vikings of today; or, Life and medical work among the fishermen of Labrador. London, Marshall Brothers, 1896. xvi, 240 p. incl. front., illus., 11 plates.

Contains a brief characterization of Labrador and its inhabitants, native and white; an account of late 19th century work on the hospital ship

along the coast; and some medical statistics.

Copy seen: DLC; NNSTef.

6160. GRENFELL, Sir WILFRED THOMASON, 1865-1940. "What's in Labrador?" (Forest and outdoors, Nov. 1920. v. 16, p. 499-502)

General notes on forests along the coasts.

Copy seen: DA.

6161. GRENNAN, W. C. The highway of Alaska. (Royal Canadian Mounted Police quarterly, Apr. 1948. v. 13, p. 320-35, illus., sketch map)

Description, in some detail, of the building of the highway, its route, scenic beauties, present accommodations, original purpose to service the airline from Alberta to Alaska, and policing of the road.

Copy seen: CaOM.

6162. GRENNAN, W. C. Northern dogs. (Royal Canadian Mounted Police quarterly, Jan. 1934. v. 1, p. 113-14, plate)

Brief statement on breeds, breaking and training, harness, sleds, stamina, and habits, feed, etc., based on experience of Royal Canadian Mounted Police in northern Canada.

Copy seen: CaOM.

6163. GRESHAM, BURT. Flight of the blue goose. (Beaver, Mar. 1939. Outfit 269, no. 4, p. 16-19, illus., sketch map)

Discussion of migration routes of the birds.

Copy seen: DSI-M.

6164. GREVILLE, ROBERT KAYE. Description of a new species of *Potentilla*, from the west coast of Greenland; with some account of the arctic flora. (Wernerian Natural History Society. Memoirs, 1820, pub. 1821. v. 3, p. 416-36, plate)

Full description of a flowering plant collected by William Jameson on Hare Island, during the Ross Voyage, 1818; catalog of plants collected by Jameson in West Greenland, 1818 and 1820; and a catalog of plants found on West Spitsbergen by Capt. Scoresby; together with some further notes on arctic collections of the same period.

6165. GREVINGK, KONSTANTIN I., 1819-1887. Beitrag zur Kenntniss der orographischen und geognostischen Beschaffenheit der Nord-West-Küste Amerikas, mit den anliegenden Inseln.

St. Petersburg, Gedruckt bey K. Kray, 1850. iv, [3]-351 p. 4 plates, 5 (incl. 3 fold). maps. Reprinted from Russisch-Kaiserliche mineralogische Gesellschaft zu St. Petersburg. Verhandlungen für die Jahre 1848-49, pub. 1850, p. 76-424. *Title tr.:* Contribution to the knowledge of the orography and geognosy of the northwest coast of America and neighboring islands.

Contains descriptions of the coastal forms, mountains, rivers, bays, islands, peninsulas, etc., from San Francisco Bay north to Cape Lisburne, mainly of the Alaskan area and Aleutian Islands, with sections on Commander and Pribilof groups. Notes basic structure, the rocks and surface features; discusses (from the literature) the volcanology of southern Alaska, the Aleutians, and Kamchatka, and gives tables of disturbances arranged geographically and chronologically (1690-1844).

Appendices: 1. The fossil fauna and flora of the whole area, arranged by geologic periods.

2. Material on the history of expeditions and discoveries in western North America and neighboring seas. A. Important sources. B. Chronological summary (1542-1849) of the expeditions and index to the sources.

This work, which won an award from the Russian Academy of Sciences, is a comprehensive compilation of the information available to the author, then librarian of the Mining Institute of St. Petersburg, later professor of mineralogy at the University of Yuriev (Dorpat).

Results of examination of the contents of intestines of twenty-nine crucian carp taken from this lake in Yakut A.S.S.R. Summary in German. **Copy seen:** DLC.

6169. GREZE, V. N. Taimyrskoe ozero. (Vsesoiûznoe geograficheskoe obshchestvo. Izvestiia, 1947. T. 79, vyp. 3, p. 289-302, map, diagrs.) **Title tr.:** Lake Taymyr.

A hydrobiological description of Lake Taymyr (73°-76°N. and 92°-108°E.) based on the author's observations, 1943-44. **Copy seen:** DLC.

6170. GRIBANOVSKII, N. N. Bibliografiia Ìakutii. Leningrad, 1932-35. 2 pt. in 3 v. viii, 127 p.; iv, 232 p.; viii, 220 p. (Akademiia nauk SSSR. Sovet po izucheniiu proizvoditel'nykh sil. Trudy. Seriya Ìakutskaiia, vyp. 9, 15, 23) **Title tr.:** Bibliography of Yakutia.

Contents tr.: Pt. 1 (pub. 1932) Natural resources and population. Pt. 2 (pub. 1934-35) Economics.

An annotated catalog of 1109 items (in pt. 1) published before 1928, and between 1928-31, dealing with (1) general questions of economic geography; (2) geodesy and cartography; (3) rivers; (4) lakes; (5) seas; (6) climate; (7) mineral resources; (8)

vegetation; (9) animal life; and (10) population.

Pt. 2 has 8464 items in two sections. Vyp. 1 contains 4207 items published before the October Revolution of 1917, dealing with (1) economic conditions; (2) political economy; (3) agriculture; and (4) individual branches of agriculture (farming, agricultural aid, livestock breeding, dairy farms, wood industry, hunting and fishing). Vyp. 2 contains 4257 items published after 1917 dealing with problems of (1) industry; (2) transportation; (3) communication; (4) trade; (5) cooperation and (6) finance. **Copy seen:** NN.

6171. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Brachiopods and molluscs, with a supplement to the echinoderms. Kristiania, A. W. Brøgger, 1909. 45 p. plate. (Norske videnskapsakademii, Oslo. Report of the Second Norwegian Arctic Expedition in the *Fram*, 1898-1902, v. 3, (no. 20))

Contains annotated lists, with localities, of one brachiopod, fifty-four species of molluscs, and seven species of echinoderms, collected from Smith Sound and Jones Sound, including eleven mollusc species not previously reported from those regions. Bibliography (77 items). **Copy seen:** DLC.

6172. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Decapoda Crustacea fra bankerne ved Svalbard. Bergen, J. Grieg, 1933. 34 p. (Bergen, Norway. Museum. Aarbok, 1932. Naturvidenskabelig raekke, nr. 2) **Title tr.:** Decapoda Crustacea from banks near Svalbard.

Based on collections made by Norwegian fisheries investigations of banks in the seas east, south and west of West Spitsbergen, and in Advent Bay and Green Harbor, 1923-1931. A list, with notes on size, abundance, localities and distribution, of thirteen species of lobsters, shrimps and crabs, with a list of stations, 1928-31. Bibliography. **Copy seen:** DLC.

6173. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinodermata. Kristiania, A. W. Brøgger, 1907. 28 p. 3 plates. (Norske videnskapsakademii, Oslo. Report of the Second Norwegian Arctic Expedition in the *Fram*, 1898-1902, v. 2, (no. 13))

List (with locations, and remarks upon specimens) of seventeen species of starfish, sea urchins, etc. from Jones

and Smith Sounds, including three not previously reported from these waters. Bibliography, p. 27-28.

Copy seen: DLC.

6174. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinodermata. The Folden Fiord, part 7. Tromsø, Norway, 1928. p. 1, 12 p. (Tromsø, Norway. Museum. Skrifter, v. 1, pt. 7)

Annotated list of forty species (2 crinoids, 13 starfishes, 12 ophiuroids, 9 sea urchins and 7 holothuroids) collected by T. Soot-Ryen in 1923 in the northern Norwegian waters between 67°21'-53'N. 14°40'-15°53'E.

Copy seen: DLC; DSI-M.

6175. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinodermata from the Siberian Arctic Ocean. Bergen, John Grieg, 1928. 16 p. (*Maud* Expedition, 1918-1925. Scientific results, v. 5, no. 4)

List, with synonymy, references to literature, localities, distribution and remarks on specimens, of fifteen species of starfishes, etc., collected in the East Siberian and Laptev Seas and the New Siberian Islands waters; with list of stations and bibliography (43 items).

Copy seen: DSI-M.

6176. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinodermen von dem norwegischen Fischereidampfer "Michael Sars" in den Jahren 1900-1903 gesammelt. I. Ophiuroidea. Bergen, J. Grieg, 1904. 45 p. illus., tables. (Bergen, Norway. Museum. Aarbok, 1903. Nr. 13) *Title tr.:* Echinoderms collected by the Norwegian fisheries steamer *Michael Sars*, in the years 1900-1903. 1. Ophiuroidea.

The *Michael Sars* cruised via Iceland to the middle of Denmark Strait, thence to northern Norwegian coastal waters, Bear Island and return to Lofoten Islands in 1900; during the spring and summer, 1901, the course included Norwegian arctic waters and the sea between Finnmark, Bear Island and West Spitsbergen; in 1902-03 the ship cruised in southern Greenland Sea and Norwegian fiords. The author presents discussion of the cold and warm water areas and their faunas, and a list, with localities and discussion of depths, temperatures, etc., of twenty-four species of brittle and basket stars; with a table of stations giving depths and temperatures. *Copy seen:* DLC.

6177. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinodermen von dem norwegischen Fischereidampfer "Michael Sars" in den Jahren 1900-1903 gesammelt. II. Crinoidea. Bergen, J. Grieg, 1905. 39 p. illus., tables. (Bergen, Norway. Museum. Aarbok, 1904. Nr. 5) *Title tr.:* Echinoderms collected by the Norwegian fisheries steamer *Michael Sars*, in the years 1900-1903. 2. Crinoidea.

Contains discussion of habitats and distribution, and a list, with extended notes on variations in size, larvae, morphology, habitats and localities, of five species of sea lilies (feather stars; stalked crinoids) from Greenland Sea north of Norway and from Svalbard waters.

Copy seen: DLC.

6178. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinodermen von dem Norwegischen Fischereidampfer "Michael Sars" in den Jahren 1900-1903 gesammelt. III. Asteroidea. Bergen, J. Grieg, 1907. 87 p. illus., 2 plates, tables. (Bergen, Norway. Museum. Aarbok 1907. Nr. 13) *Title tr.:* Echinoderms collected by the Norwegian fisheries steamer *Michael Sars*, in the years 1900-1903. 3. Asteroidea.

Contains a list, with locations and some extensive notes on morphology and habitats, of twenty-four species of starfish, of which fifteen were found in Greenland Sea, Svalbard, and Norwegian arctic waters.

Copy seen: DLC

6179. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinoderm fra bankerne ved Bjørnøya. Bergen, J. Grieg, 1932. 10 p. (Bergen, Norway. Museum. Aarbok, 1931. Nr. 3) *Title tr.:* Echinoderms from Bear Island banks.

Contains a list of stations with depths and species and remarks concerning morphology and distribution of six species.

Copy seen: DLC.

6180. GRIEG, JAMES ALEXANDER-SØN, 1861-1936. Echinoderm, samlede sommeren 1905 af "Belgica" i Nordhavet. (Nytt magasin for naturvidenskapene, 1907. Bd. 45, hefte 2, p. 131-37) *Title tr.:* Echinoderms collected in the Northern Ocean on the *Belgica* in the summer of 1905.

Contains a list of twenty-three echinoderms collected by E. Koefoed, in 1905, during the cruise of the *Bel-*

gica off the East Greenland coast and in Svalbard waters.

Copy seen: MH-Z.

6181. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Echinodermes. Bruxelles, 1910. vi, 42 p. plate, 3 maps. (Orléans, L. P. R., *Duc d'*. Campagne arctique de 1907. No. 3) *Title, etc. tr.*: Echinodermes. (Duke of Orléans Arctic Expedition, 1907)

Contains list, with localities and notes, of twenty-five species of sea urchins, stars, cucumbers, etc., collected from the *Belgica* in Barents and Kara Seas; with discussion of geographic distribution and a tabular presentation of arctic distribution; bibliography (23 items). *Copy seen:* DSI-M.

6182. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Evertebrater fra banke ved Spitsbergen indsamlet av m.k. "Blaafeld" og m.k. "Tovik" somrene 1923 og 1924. (Fiskenaering og bundfauna). Bergen, J. Grieg, 1925. 33 p. incl. tables. (Bergen, Norway. Museum. Aarbok, 1923-1924. Naturvidenskabelig række, nr. 9) *Title tr.*: Invertebrates from Spitsbergen banks, collected by the *Blaafeld* and *Tovik*, in the summers of 1923 and 1924. (Fish food and bottom fauna).

Contains notes on the stomach contents in twelve species of fish, and a list with localities, of over one hundred fifty invertebrates from the bottom of Ice Fiord complex and the seas south and east of West Spitsbergen.

Copy seen: DLC.

6183. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Evertebrater fra banke ved Spitsbergen indsamlet av "Tovik" og "Armauer Hansen" somrene 1925 og 1926. (Fiskenaering og bundfauna). Bergen, J. Grieg, 1927. 28 p. illus. (Bergen, Norway. Museum. Aarbok, 1926. Naturvidenskabelig række, nr. 5) *Title tr.*: Invertebrates from Spitsbergen banks collected by the *Tovik* and *Armauer Hansen* in the summers of 1925 and 1926. (Fish food and bottom fauna).

Contains notes on stomach contents of eight species of fishes, and a list, with locations, of more than one hundred fifty species of invertebrates from the bottom of Green Harbor, Bell Sound, and Advent Bay, and the seas west and south of West Spitsbergen.

Copy seen: DLC.

6184. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Invertébrés du fond. (In: Orléans, L.P.R., *Duc d'*. Croisière océanographique accomplie à bord de la *Belgica* dans la Mer du Grönland 1905, pub. 1907. p. 501-570, illus., plate, table *Title tr.*: Bottom invertebrates. (Oceanographic cruise on board the *Belgica* in Greenland Sea 1905).

Contains classified lists of one hundred fifty-six species from Svalbard waters and one hundred forty-two species from East Greenland waters, with notes and a description of a new gastropod species; and remarks on the stomach contents of a walrus, seal, and two fishes. *Copy seen:* DSI-M.

6185. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Malacologiske notiser. III. Mollusker fra Grønlands nordøstkyst. (Nytt magasin for naturvidenskapene, 1916. Bd. 54, p. 7-10) *Title tr.*: Malacological notes. III. Molluscs from the northeastern coast of Greenland.

Contains notes on twenty-two species of marine molluscs collected by E. Koefoed, the zoologist of *Belgica* polar expedition, on the northeastern coast of Greenland (75°58'30"N. 14°08'W.) in the summer of 1905.

Copy seen: MH-A.

6186. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Molluscs, brachiopods and echinoderms from Novaya Zemlya. Kristiania, Pub. by Videnskapselskapet i Kristiania, 1924. 28 p. illus., table, map. (Norske Novaja Semlja ekspedisjon, 1921. Report of the scientific results. No. 26)

Annotated list giving locations, types of bottom and some descriptive notes of forty-nine molluscs, one brachiopod, and ten echinoderms (all marine) from Matochkin Shar and localities along the west coast; table of localities; and a bibliography (59 items). *Copy seen:* DLC.

6187. GRIEG, JAMES ALEXANDER-SON, 1861-1936. *Ophiura griegi*, Strand, en varietet af *Ophiura sarsi*, Lütken. (Nytt magasin for naturvidenskapene, 1911. Bd. 49, hefte 1, p. 49-51) *Title tr.*: *Ophiura griegi*, Strand, a variety of *Ophiura sarsi*, Lütken.

Contains critical notes on *Ophiura griegi*, an echinoderm brought home by the Second *Fram* Expedition from

Lands End, Belcher Channel, Canadian arctic waters, and its reduction to the status of a variety of *O. sarsi*; distribution of these species is discussed.

Copy seen: MH-Z.

6188. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Die Ophiuriden der Arktis. (*In*: Fauna arctica, 1900. Bd. 1, p. 259-86, illus.) *Title tr.*: Arctic Ophiuridae.

Based on the collections of the German Expedition to the Arctic Ocean, 1898; a list, with synonyms, references, and full notes, of the thirteen species of brittle stars; a station list showing species taken at each, position, and depths; a discussion of their arctic distribution, a comparison of arctic and subarctic ophiurids, and a bibliography (151 items).

Copy seen: DA.

6189. GRIEG, JAMES ALEXANDER-SON, 1861-1936. Ophiuroidea. Christiania, Grøndahl & Søn, 1893. 2 p. l., 41 p. 3 plates, map. (Den Norske Nordhavs-expedition, 1876-1878. Bd. 5, Zoology, hefte 4)

A list, with descriptions, locations and discussion of distribution, of twenty-four species of brittle and basket stars from the Norwegian and Greenland Seas.

Copy seen: DLC.

6190. GRIEG, JAMES ALEXANDER-SON, 1861-1936. *Solaster affinis* (Brandt) Danielssen & Koren. (Nytt magasin for naturvidenskapene, 1902. Bd. 40, hefte 3-4, p. 369-78)

Contains a taxonomic and biological study of starfish, *Solaster affinis*, based mostly on specimens brought home by a Norwegian expedition on the *Michael Sars*, in 1900-1901, from Jan Mayen, Greenland and Spitsbergen waters, with measurements of specimens from cold and warmer areas, observations and notes.

6196. GRIFFIN, HAROLD. Alaska and the Canadian Northwest, our new frontier. New York, W. W. Norton & Co., Inc. [1944] 221 p. 8 plates, double-face map.

Journalist's account of the western arctic and subarctic regions of North America. Includes chapters on the Camel Project, Alaska Highway, Whitehorse, and Fairbanks; also brief notes on Nome, the mineral and agricultural resources and postwar opportunities in Alaska. Copy seen: DLC; NNStef.

6197. GRIFFIN, WATSON, 1860-. Canada: the land of waterways. (American Geographical Society, N. Y. Journal (Bulletin) 1890. v. 22, p. 351-441, illus., 2 plates)

Full (though general) discussion of the economic aspects of Canada's lakes, rivers, and canals, with notes on meteorological conditions, mainly of the area south of 60°N., but with mention of northern rivers and lakes, and of Hudson Bay and Strait.

Copy seen: DLC.

6198. GRIFFITHS, BENJAMIN MIL-LARD. *Tetraedroides spetsbergensis* Gen. et sp. nov., a new alga from Spitsbergen. (Results of the Oxford University Expedition to Spitsbergen [1921] no. 28). (New phytologist, May 1923. v. 22, p. 69-71, plate) Issued also as Oxford University, *Spitsbergen papers*, 1925, v. 1, no. 31.

Contains discussion and description of a two-to-four-celled alga found among the stems of a moss in a crevice of rock on Bear Island.

Copy seen: DLC.

GRIFFITHS, C. E., *see* Glenn, E. F. Explorations in & about Cooks Inlet. 1900.

6199. GRIGGS, ROBERT FISKE, 1881-. Are the Ten Thousand Smokes real

volcanoes? (Ohio journal of science, Dec. 1918. v. 19, p. 97-116, illus.)

Scientific results of the Katmai Expeditions of the National Geographic Society, no. 2, reprinted by the Society, 1920.

Statement of the data upon which the author based his view of the volcanic nature of the Smokes.

Copy seen: DGS.

6200. GRIGGS, ROBERT FISKE, 1881-. The beginnings of revegetation in Katmai Valley. (Ohio journal of science, Apr. 1919. v. 19, p. 318-42, illus.)

Scientific results of the Katmai Expeditions of the National Geographic Society, no. 9, reprinted by the Society, 1920. Discussion of the relation of the plants to the soil and water, as shown by a study of the Katmai River valley.

Copy seen: DGS.

6201. GRIGGS, ROBERT FISKE, 1881-. The character of the eruption as indicated by its effect on nearby vegetation. (Ohio journal of science, Jan. 1919. v. 19, p. 173-209, illus.) Scientific results of the Katmai Expeditions of the National Geographic Society, no. 4, reprinted by the Society, 1920.

Discussion of the sulphuric acid rains, ash deposit, blasts from volcano, mud flows, and forest fires as indicated by the vegetation; the plants, how they were affected, and their recovery.

Copy seen: DGS.

6202. GRIGGS, ROBERT FISKE, 1881-. The edge of the forest in Alaska and the reasons for its position. (Ecology, Apr. 1934. v. 15, p. 80-96, illus.)

Results of a study of the timberline area in the region of Mt. Katmai, visited by the author over a period of fifteen years, 1915-30. Discussion of location and condition of trees of the forest front in southwestern Alaska (Kodiak and Alaska Peninsula), in western and northern Alaska; the duration and nature of forest advance, with testimony of pollen from Kodiak peat bogs; bibliography (23 items).

Copy seen: DA.

6203. GRIGGS, ROBERT FISKE, 1881-. The effect of the eruption of Katmai on land vegetation. (American Geographical Society, N. Y. Bulletin, Mar. 1915. v. 47, p. 193-203, illus., sketch map)

Based on the author's observations, while attached to the U. S. Dept. of

Agriculture, Bureau of Soils' party for kelp investigation, summer 1913, in the region devastated in 1912 by the eruption of Mt. Katmai. Contains a description (in brief) of the character of the deposit (ash and "sand") and its subsequent erosion; and sections on the character of the former vegetation around Kodiak, the destruction of vegetation there, on alders killed by the fumes, and on prospects of re-vegetation, based on chemical qualities of the deposit and the possibility of working it into the soil.

Copy seen: DLC.

- 6204. GRIGGS, ROBERT FISKE, 1881-**
The great hot mud flow of the Valley of Ten Thousand Smokes. (Ohio journal of science, Dec. 1918. v. 19, p. 117-42, illus. (incl. map, diagr.)) Scientific results of the Katmai Expeditions of the National Geographic Society, no. 3, reprinted Feb. 1920, by the Society.

Discussion of the observations leading the author to the conclusion that the flow was of mud which came up through the valley floor, prior to the Katmai eruption. *Copy seen:* DGS.

- 6205. GRIGGS, ROBERT FISKE, 1881-**
The problem of arctic vegetation. (Washington Academy of Sciences. Journal, Apr. 1934. v. 24, 153-75)

A plant ecologist's discussion of the instability in arctic vegetation, different from the relatively stable plant formations elsewhere. Includes remarks on tundra, arctic boundaries, importance of timber line, climatic changes and active plant migrations, the ecological character of the Arctic, causes of the indiscriminate character of the vegetation, homologies of arctic heath and bog, and weeds native to the Arctic; with a bibliography (27 items).

Copy seen: DSI-M.

- 6206. GRIGGS, ROBERT FISKE, 1881-**
The recovery of vegetation at Kodiak. (Ohio journal of science, Nov. 1918. v. 19, p. 1-57, illus.) Scientific results of the Katmai Expeditions of the National Geographic Society, no. 1, reprinted by the Society, Feb. 1920.

Based on the author's studies, 1913-17, showing the rapid recovery of plants on Kodiak. *Copy seen:* DGS.

- 6207. GRIGGS, ROBERT FISKE, 1881-**
The timberlines of northern America and their interpretation. (Ecology, Oct. 1946. v. 27, p. 275-89, illus.)

This discussion of causes and meaning of the changes in forest fronts, relates particularly to studies made on Kodiak Island, Alaska and Mt. Washington, New Hampshire.

Copy seen: DA.

- 6208. GRIGGS, ROBERT FISKE, 1881-**
The Valley of Ten Thousand Smokes. Washington, The National Geographic Society, 1922. xv, [1] p. (incl. 79 p. of illus.) 17 plates (1 fold.) 9 maps (3 fold.) diagrs.

The author led four of the Katmai Expeditions of the National Geographic Society, 1915-1919. He gives here a full account of the Katmai eruption as experienced at Kodiak and other localities; its effect on the climate and vegetation; a chapter on the volcanoes of Alaska; narratives of the expeditions of 1915, '16, '17, and '19, with full descriptions of devastation of Katmai Valley, the Katmai flood, the canyons and valleys, craters and mountains, surface features of the Valley of Ten Thousand Smokes, and the conditions during and after the eruption, as evidenced there. Closes with a description of the vegetation, game, and geography of the surrounding country and with suggestions for harbors and roads to make the area accessible as a national park. *Copy seen:* DLC.

- 6209. GRIGGS, ROBERT FISKE, 1881-**
The Valley of Ten Thousand Smokes; an account of the discovery and exploration of the most wonderful volcanic region in the world. (National geographic magazine, Feb. 1918. v. 33, p. 115-69, illus.)

Report of the leader of the Katmai Expedition of the National Geographic Society, 1917, giving an account of the fourth expedition's journey up the Katmai River and Pass, and description of the Valley and its wonders.

Copy seen: DLC.

- 6210. GRIGGS, ROBERT FISKE, 1881-**
The Valley of Ten Thousand Smokes; National Geographic Society explorations in the Katmai district of Alaska. (National geographic magazine, Jan. 1917. v. 31, p. 13-68, illus.)

Report of the leader of the Katmai Expeditions of the National Geographic Society, 1915-16, giving descriptions of Kodiak Island's revived vegetation, of the two expeditions up the Katmai River and the ascent of Mt. Katmai,

with notes on the physical characteristics of the country since the eruption; also an account of the trip to Katmai Pass and the brief observations in the Valley. *Copy seen:* DLC.

6211. GRIGGS, ROBERT FISKE, 1881-. The vegetation of the Katmai District. (Ecology, July 1936. v. 17, p. 380-417, illus.)

Results of study during the National Geographic Society Katmai Expeditions, 1915-30. Remarks on arctic vegetation and ecological distinctions in general, and full description of the ecology of the Katmai district (Kodiak Island and Alaska Peninsula). The author concludes that the typical grassland is not arctic vegetation, and that the rest of the vegetation (mixed meadow and dwarf shrub heath) is typically arctic. Bibliography (33 items). *Copy seen:* DA.

6212. GRIGOR'EV, A. Danniyâ o temperaturê i plotnosti vody morei Murmanskogo i Bîelago. (Vsesoûznoe geograficheskoe obshchestvo. Izvêstiya, 1878. T. 14, p. 337-60, tables) *Title tr.:* Data concerning temperature and density of water of the Murmansk [i.e. Barents] and the White Seas.

Results of the author's trip (summer 1876) on the government-owned schooner *Samoad*, then servicing the lighthouses of the northern White Sea, with data also from previous comparable observations. Contains Grigor'ev's observations of temperature in the Barents Sea at four points (p. 343), and tables giving fifty-nine observations by the author and eighteen by others (mainly surface, but some at various depths) in the Barents Sea and in the central basin and along the eastern coast of the White Sea, showing coordinates, depths, temperature, specific gravity at given temperature and at 17°C., salinity, wind and current direction, weather, and time (p. 350-57). Includes some discussion of the data and bibliographical footnotes (18 items). *Copy seen:* DLC.

6213. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883-. Diatomity Lovozera i Chud'z-yavra. (In: Khibinskie apatity, 1932. T. 2, p. 375-77, table) *Title tr.:* Diatomite of Lakes Lovozero and Chud'z-yavr.

On the discovery of diatomaceous earth by the geographic and geological

survey parties of the Kola Expedition in 1930. Analysis of samples.

6218. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Na vostochnoi okraïne aziatskogo kontinenta. (Priroda, 1925, no. 10-12, col. 49-62, illus., map) *Title tr.:* On the eastern borderland of the Asiatic continent.

A physico-geographic sketch of the Yakut country visited by the Aldan River subdivision of the Yakut Expedition of the Academy of Sciences, U.S.S.R.

Copy seen: DF.

6219. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Der Nordosten der Halbinsel Kola. (Gesellschaft für Erdkunde zu Berlin. Zeitschrift, 1933. p. 122-45)

Account of the Russian Academy of Sciences Expedition, 1928, under the author's leadership for geographical research in the northeastern part of the Kola Peninsula. Discussion of the orography, relation between tectonics and orography, origin of valleys, the relief and the terraces, the recent sediments, their origin and problems, character of the river valleys and lake basins, the nature of the soil, some plant zones, and the factors which influence the boundary lines, the soil zones, and the growth of timber.

6221. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Otchet o poezdke v Bol'shezemel'skuiu tundru lihtom 1904 goda. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1905. T. 36, vyp. 1, p. 131-44, 147-48, text map) *Title tr.:* Report on a journey to Bol'shezemel'skaya Tundra in the summer of 1904.

Contains a general account of an exploring trip in 1904, under direction of A. V. Zhuravskii to Bol'shezemel'skaya Tundra to study the valley of Adz'va (tributary of Usa) River, Pechora basin; with brief data on geography, topography and flora, more detailed notes on fauna and annotated list of forty-two birds, determined by V. L. Bianki. Summary in German.

Copy seen: MH-Z.

6222. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Poliarnaya granitsa drevnesnoi rastitel'nosti v Bol'shezemel'skoi i nekotorykh drugikh tundrach, faktory ee obuslovlivayushchie, i kolebaniya ee v blizhaishuiu k nam epokhu. (Zemlevedenie, 1924. T. 26, vyp. 1-2, p. 72-92, map) *Title tr.:* The northern limit of woody vegetation in the Bol'shezemel'skaya and some other tundras, factors influencing it and its vacillation during the latest epoch.

Contains a study of the northern boundary of woody vegetation in Bol'shezemel'skaya and Timan Tundras and in other arctic regions of European Russia, the factors influencing its direction and fluctuation; based mostly on the author's observations during his trip in 1921, and on literature sources; bibliography (22 items). Summary in German.

Copy seen: DGS; NNA.

6223. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Predvaritel'nyy otchet o rabotakh Vilyuiskogo geo-

morfologicheskogo otriada 1926 g. (Akademiia nauk SSSR. Komissia po izucheniiu Yakutskoi Avtonomnoi Sovetskoi Sotsialisticheskoi Respubliki. Materialy, 1929. Vyp. 10, p. 237-53, illus.) *Title tr.*: A preliminary report on the work of the Vilyuy Geomorphological Party, 1926.

An account of the work of this section of the Yakut Expedition of the Academy of Sciences, U.S.S.R.; includes a brief geomorphological description of the region along its route in the Vilyuy River basin.

Copy seen: DLC.

6224. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Puti i nekotorye predvaritel'nye rezultaty izucheniia kol'skikh diatomitov. (Akademiia nauk SSSR. Geomorfologicheskii institut. Trudy, 1934. Vyp. 8, p. 5-15) *Title tr.*: Methods and some preliminary results of study of Kola Peninsula diatomites.

Brief historical sketch of exploration of the region for diatomaceous earth. Discussion of physical, geographical, and chemical characteristics of lakes of Kola Peninsula from the viewpoint whether the conditions are favorable for the development of diatoms there. Need for experimental study of the problem. Summary in French.

Copy seen: NN.

6225. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Smena lesotundrovyykh rastitel'nykh landshaftov v zapadnoi chasti Bol'shezemel'skoi tundry. Iz resul'tatov ekspeditsii v Bol'shezemel'skuu tundra 1921 g. (Akademiia nauk SSSR. Komissia dlia izucheniia estestvennykh proizvoditel'nykh sil Rossii. Materialy, 1924. No. 51. Les, ego izuchenie i ispol'zovanie. Vtoroi lesnoi sbornik Promyshlennogo-geograficheskogo otdela K.E.P.S., p. 134-46, text map) *Title tr.*: Succession of forest-tundra vegetation landscapes in the western part of Bol'shezemel'skaya Tundra in 1921. From the results of an expedition to Bol'shezemel'skaya Tundra in 1921.

Contains a geobotanical study of plant associations in the forest-tundra zone and their succession in the western part of Bol'shezemel'skaya Tundra, made by an expedition to that region in 1921.

Copy seen: NNBG.

6226. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Subarktika; opyt kharakteristiki osnovnykh tipov fiziko-geograficheskoi sredy. Moskva, Izd-vo Akademii nauk SSSR, 1946. 170, [2] p. tables. (errata slip inserted) *Title tr.*: The subarctic; essay on the characteristics of basic types of the physico-geographical medium. Published under auspices of the Institute of Geography, Academy of Sciences, U.S.S.R.

Contains chapters on (1) the limits of the subarctic belt and its subdivisions; (2) the climate of the east European sector of the subarctic (the distribution of air temperature and precipitation is correlated with the seasonal and latitudinal distribution of the radiation balance, or effective radiation); (3) the hydrological and geomorphological processes: permafrost, rivers and lakes, erosion, denudation, tundra; (4) its soil formation; (5) vegetation; (6) animal life; (7) the relation between climate, soil, precipitation, relief, drainage, etc., and the vegetation and animal life; (8) the typical variants of the physico-geographical process of the subarctic plains; (9) the character of vertical zonality of the mountain regions of the subarctic; (10) the history of the development of the physico-geographical medium of the subarctic; (11) the principal conclusions, and a bibliography of cited works (about 165 items).

Permafrost as a factor in geomorphological processes is treated in detail in chapter 3, data on character and behavior of rivers and lakes under permafrost conditions is given. Throughout the work are references to permafrost and its relation to flora, fauna, and processes of soil formation.

The east European sector of the subarctic is defined as lying between 73.2° and 67.1°N. (72°12' and 67°06'N.). The general chapters are based on the subarctic of the U.S.S.R. only.

6227. GRIGOR'EV, ANDREI ALEK-SANDROVICH, 1883- . Vechnaia merzlota i drevnee oledenenie. (Akademiia nauk SSSR. Komissia po izucheniui estestvennykh proizvoditel'nykh sil SSSR. Materialy, 1930. No. 80, p. 43-104, 2 maps) *Title tr.*: Permafrost and ancient glaciation.

Contains data on geological age of permafrost in connection with occurrence of underground ice, formation of which is ascribed to various causes and times. Possibility of multiple origin of permafrost is indicated; also a special formula, "coefficient of permafrost", which correlates various affecting factors for 114 localities (shown on a special map, dividing the permafrost area into ten regions). Probable distribution of permafrost during the ice ages, and its influence on topography, soils and flora at that time is discussed.

Emendations to this work were published in the author's *O nekotorykh ispravleniakh v rabote "Vechnaia merzlota [etc.]"*, q.v.

6231. GRIGOROV, I. Na "Malygina" po Severnomu morskomu puti. (Sovetskaiia Arktika, 1938, no. 9, p. 62-71, illus.) **Title tr.:** Over the Northern Sea Route on the *Malygin*.

Excerpts from the author's diary, kept aboard the ice-breaker *Malygin*, an expeditionary ship, during a trip from Archangel to Vladivostok, July-Oct. 1937.

Copy seen: DLC.

6232. GRIMM, OSKAR ANDREEVICH. Novye sluchai vidoizmenenii parazitizma n'ekotorykh glistov. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1870. T. 1, vyp. 2, p. 223-26) **Title tr.:** New cases of parasitism by some tapeworms.

Contains a list of tapeworms found in the alimentary canal of seals, fishes and birds, including some native to the White Sea and coastal waters.

Copy seen: MH-Z.

6233. GRIMPE, G. Die Cephalopoden des arktischen Gebietes. (*In:* Fauna arctica, 1933. Bd. 6, p. 489-514, illus.) **Title tr.:** Cephalopoda of the arctic region.

Contains remarks on the scarcity of these molluscs in arctic seas; a list, with distribution, of thirty-nine species of octopus, squid, etc. from circumpolar seas; and a bibliography (97 items).

Copy seen: DA.

6234. GRINER, D. A. Iz istorii Murmana i Murmanskoï (Kirovskoi) zhe-

ležnoī dorogi. (Letopis' Severa, 1949, n. 1, p. 175-88, table) *Title tr.*: History of the Murman coast and the Murman (Kirovsk) Railroad.

Brief historical sketch of the Murman region in the Tsarist period; its frequent invasion by foreigners; miserable condition of the population; the government's inability to improve conditions and utilize the resources of the region. First plans for a railroad to the Murman coast at the end of the 19th century; emergency construction in 1915-16 of a railroad connecting Petrozavodsk and Murmansk, to establish communication by sea with the Allies in World War I. Extraordinary difficulties encountered in construction, and prospect for further development of the region. Bibliography (15 items).

6235. GRINEVETSKII, L. F. Quer durch Nowaja Semlja. (Gesellschaft für Erdkunde zu Leipzig. Mittheilungen, 1883, pub. 1884. p. 131-48) Translation of his: Poperek Novoī Zemli, 1883, q.v. *Title tr.*: Across Novaya Zemlya.

Copy seen: DLC.

6236. GRINEVETSKII, L. F. Poperek Novoī Zemli. (Vsesoiuznoe geograficheskoe obshchestvo. Izvīstīa, 1883. T. 19, p. 265-91) *Title tr.*: Across Novaya Zemlya.

Narrative of three attempts to cross the southern island from Malye Karmakuly:

1. Tiāgin's, who stopped for want of food some twenty miles from the Kara coast, in 1878-79 (from an unpublished manuscript) p. 266-73.

2. The author's and Krivosheīa's, while the former was doctor of the Malye Karmakuly Polar Station, set up for the First International Polar Year; because of snow and the rugged terrain, they turned back after five days (1882).

3. The author's successful crossing, in the summer of 1883, with conclusions concerning the land forms of the region, based on his experience and that of others.

Translation in German was published as his, *Quer durch Nowaja Semlja*, 1884, q.v.

6240. GRINNELL, JOSEPH, 1877-1939. Birds of the Kotzebue Sound region. Santa Clara, 1900. 3 p. l., 80 p. fold. sketch map. (Cooper Ornithological Club. Pacific Coast avifauna. No. 1)

Results of observations and collections made during June 1898-July 1899, in the region between Cape Prince of Wales and Point Hope on the west Alaskan coast and eastward to the headwaters of the Noatak, Ko-

buk, Selawik, and Buckland Rivers. Field notes on one hundred thirteen species, a checklist of one hundred fifty birds known to occur in the region, and an annotated bibliography (18 items, p. 66-69). *Copy seen:* DSI-M.

6241. GRINNELL, JOSEPH, 1877-1939. Birds of the 1908 Alexander Alaska Expedition, with a note on the avifaunal relationships of the Prince William Sound district. (California. University. Publications in zoology, 1910. v. 5, p. 361-428, illus., 2 plates)

Results of the third expedition organized, financed and led by Miss Annie M. Alexander in June-Sept., 1908; a checklist of eighty-nine species of birds, discussion of the distribution, life histories and variation of each, descriptions of six new subspecies, and discussion of the composition and origin of the avifauna and of the melanism in endemic species. *Copy seen:* DLC.

6242. GRINNELL, JOSEPH, 1877-1939. A collection of birds from Forty-mile, Yukon Territory, Canada. (Condor, Nov. 1909. v. 11, p. 202-207)

Annotated list of fifty-nine species of birds collected within a five-mile radius of the place where Forty-mile River empties into the Yukon River, and part of the collection of the Museum of Vertebrate Zoology, University of California. *Copy seen:* DSI-M.

6243. GRINNELL, JOSEPH, 1877-1939. Gold hunting in Alaska as told by Joseph Grinnell. Ed. by Elizabeth Grinnell. Elgin, Ill., Chicago, David C. Cook Publishing Co. [c1901] 96 p. illus.

The author's diary, June 1898-Sept. 1899, written while prospecting in the Kotzebue Sound and Nome regions. Includes notes on climate, traveling conditions, the natives and life among the prospectors.

Copy seen: DLC; NNS Stef.

6244. GRINNELL, JOSEPH, 1877-1939. Miscellaneous records from Alaska. (Condor, Jan. 1910. v. 12, p. 41-43)

List with note of locations, dates, and collector, of thirty-five species of birds from widely separated places in Alaska, based on specimens in the collection of the Museum of Vertebrate Zoology, University of California.

Copy seen: DSI-M.

6245. GRINNELL, JOSEPH, 1877-1939. Notes on some birds of Cape Nome,

Alaska. (Condor, Sept. 1900. v. 2, p. 12-15)

General notes on thirty-two species, based on observations made incidentally during a prospecting trip, July-Oct. 1899. *Copy seen:* DSI-M.

6246. GRINNELL, JOSEPH, 1877-1939. Record of Alaskan birds in the collection of the Leland Stanford Junior University. (Condor, Jan. 1901. v. 3, p. 19-23)

Lists of species recorded from the Pribilof Islands, Amanak (Dutch Harbor), Unga (in Shumagin Islands) and Kodiak Islands; the south side of Alaska Peninsula (Belkofski Bay) and Prince William Sound region.

Copy seen: DSI-M.

6247. GRINNELL, JOSEPH, 1877-1939. Summer birds of Sitka, Alaska. (Auk, Apr. 1898. v. 15, p. 122-30)

Field notes on sixty-six species, based on the author's observations and collections, made during June-Aug. 1896. *Copy seen:* DSI-M.

6248. GRINNELL, JOSEPH, 1877-1939. The willow ptarmigan. (Bird-lore, Nov.-Dec. 1912. v. 14, p. 376-79, col. plate) The National Association of Audubon Societies' Educational leaflet no. 61.

Description of physical characteristics, habits and behavior of this race of grouse, occurring on the tundra, from Labrador to western Alaska.

Copy seen: DSI-M.

6249. GRINNELL, LAWRENCE I. Notes on breeding Lapland longspurs at Churchill, Manitoba. (Auk, Oct. 1944. v. 61, p. 554-60, 3 plates)

Observations of pre-nesting activities, voice, nests, behavior, incubation and brooding, eggs, development and daily growth of nestlings, made June 2 to July 23, 1940.

Copy seen: DSI-M.

6250. GRINNELL, LAWRENCE I. and R. S. PALMER. Notes on bird-life of Churchill, Manitoba. (Canadian field naturalist, Apr. 1941. v. 55, p. 47-54, illus.)

List, with nesting notes, of eighty-one birds observed from June 2 to July 23, 1940, also a few earlier records.

Copy seen: DLC.

6251. GRIPP, KARL, 1891- Beiträge zur Geologie von Spitzbergen. (Naturwissenschaftliche Verein in Hamburg.

Abhandlungen, 1927. Bd. 21, Heft 3/4, p. 1-38, 7 plates) **Title tr.:** Contribution on the geology of Spitsbergen.

Results of the author's observations in 1925.

Contents tr.: Ground frost and ground thaw (solifluction phenomena). The marine Tertiary of Coles Bay (occurrence, fossils, age, and volcanic ash). List of fossils from the Mytilus-layer (including twenty-seven species from Coles Bay, Green Bay glacier moraine, and twenty-two recent mollusc species from Green Harbor). Bibliography.

Copy seen: DGS.

6252. GRIPP, KARL, 1891-. Einige besondere Fossilien in Geschieben aus dem Inlandeis Grönlands. København, C. A. Reitzel, 1932. 11, [1] p. 1 illus., 3 plates. (Meddelelser om Grønland. Bd. 91, nr. 5) **Title tr.:** Some peculiar fossils in detritus from the Greenland inland ice.

Contains descriptions of four forms of fossil echinoderms and annelid worms found during the author's and Sigurd Hansen's moraine investigations in the Godthaab District, 1930.

Copy seen: DLC; DSI-M.

6253. GRIPP, KARL, 1891-. Entstehung der diluvialen Grundmoränenlandschaften und die Frage nach deren rezenten Äquivalenten in der Arktis. Berlin, Borntraeger, 1942. p. 1, 12 p. 6 plates. (Deutsche wissenschaftliche Institut zu Kopenhagen. Veröffentlichungen. Reihe I: Arktis. Nr. 4) **Title tr.:** Formation of Pleistocene ground moraine landscapes and the question of their recent equivalents in the Arctic.

Discusses the formation of different types of land forms associated with Pleistocene ground moraines of northern Europe. Moraines deposited at the edge of glaciers of West Spitsbergen and the west Greenland inland ice are considered in the light of the possible similarity of present-day arctic moraines to Pleistocene moraines of northern Europe.

Copy seen: CaMAI; DN-HO.

6254. GRIPP, KARL, 1891-. Glaciologische und geologische Ergebnisse der Hamburgischen Spitzbergen-Expedition 1927. (Naturwissenschaftliche Verein in Hamburg. Abhandlungen, 1929. Bd. 22, p. 145-249, illus., 32 plates)

Contains an account of the expedi-

tion's activities, trips from Green Harbor to the interior of Ice Fiord, north to Möller Bay, south around South Cape and up the west side of Stor Fiord to Barents Island returning by way of Edge Island, to Green Harbor. Descriptions of solifluction phenomena, of twenty-one glaciers, and discussion of glacier movements, moraines, drainage, winds, etc. Remarks on the Tertiary fossils found at the east end of Penck Glacier, geologic observations on the northern shores of Stor Fiord (north of Agardh Bay). Bibliography.

Copy seen: DGS.

6255. GRIPP, KARL, 1891-. Süd-Grönland und seine Bewohner. (Gesellschaft für Erdkunde zu Berlin. Zeitschrift, 1931. p. 346-56, 2 plates) **Title tr.:** South Greenland and its inhabitants.

Based on observations in Godthaab District in the summer of 1930, remarks on the mixture of races, the living conditions, education, health, religion, food, social organization, etc., of the inhabitants. **Copy seen:** DLC.

6256. GRIPP, KARL, 1891-. Über Frost und Strukturboden auf Spitzbergen. (Gesellschaft für Erdkunde zu Berlin. Zeitschrift, 1926. p. 351-54) **Title tr.:** On frost and soil structures on Spitsbergen.

Discussion (in brief) of the solifluction phenomena in the Green Harbor region, with remarks on soil without vegetation and tundra soil, and on the causes of the structures.

Copy seen: DLC.

6257. GRIPP, KARL, 1891-. Die verschiedenen Arten von Endmoränen von dem Grönländischen Inlandeise (Vorträge). (Deutsche geologische Gesellschaft. Zeitschrift, Nov. 1932. Bd. 84, p. 654-56) **Title tr.:** The various types of end moraines at the edge of the inland ice of Greenland (preliminary report).

Results of the author's and Sigurd Hansen's moraine investigations in Godthaab District, 1930. Outline of the materials which make up the moraines; their sources, and the kinds of moraines formed by them.

Copy seen: DGS.

6258. GRIPP, KARL, 1891-. Von den Gletschern Spitzbergens. (Natur und Volk, Dez. 1929. Bd. 59, p. 613-17, incl.

2 p. of illus.) *Title tr.*: On Spitsbergen glaciers.

Brief discussion of terminal moraines observed and photographed by the author. *Copy seen*: DLC.

6259. GRIPP, KARL, 1891- , and EMMY TODTMANN. Die Endmoräne des Green Bay Gletschers auf Spitzbergen; eine Studie zum Verständnis norddeutscher Diluvialgebilde. (Geographische Gesellschaft in Hamburg. Mitteilungen, 1926. Bd. 37, p. 43-75, incl. plate) *Title tr.*: The terminal moraine of the Green Bay glacier on Spitsbergen; a study toward an understanding of north German diluvial formations.

Contains descriptions of the glacier in general, and (in detail) of the moraine, based on observations made by the authors in Aug. 1925.

Preliminary report appeared in Deutsche geologische Gesellschaft, Zeitschrift, B. Monatsberichte, 1927. Bd. 79, p. 340-42, 2 plates.

Copy seen: DLC.

6260. GRIPP, KARL, 1891- , and WILHELM GEORG SIMON. Experimente zum Brodelbodenproblem. (Centralblatt für Mineralogie, Geologie, und Paläontologie, 1933. Abt. B, p. 433-40) *Title tr.*: Experiments on the brodel soil problem.

Report on efforts to explain the action of soil, in the thawed layer on top of permafrost, which results in structural soils; with the conclusion that Low's theory of motion of viscous fluids (known as the Low-Gripp convection flow, or brodel theory) is applicable.

Copy seen: DGS.

Redogörelse för Den svenska expeditionen till Spetsbergen, 1890. Bihang 1. Pub. in: Svenska vetenskapsakademien. Handlingar. Bihang, 1892. Bd. 17, afd. 2, no. 3, p. 71-74) Published in English as: Ice conditions east of the Seven Islands in the autumn of 1890.

Report from two trips of the yacht *Haabet* in Svalbard waters, Aug. 2-17, Aug. 18-Sept. 1, 1890.

Copy seen: DLC.

6265. GRÖNBERG, GÖSTA. Die Hydroid-Medusen des arktischen Gebiets. (Zoologische Jahrbücher; Abt. für Systematik, Geographie und Biologie, 1898. Bd. 11, p. 451-68, plate) *Title tr.*: The Hydromedusae of arctic regions.

Contains a discussion of this coelenterate group in arctic seas; mention of the author's observations during the Andrée Expedition 1896, in northwestern Spitsbergen waters; a classified list of forty-one species with all (then) known records for circumpolar seas; and descriptions of several of the lesser known of these (including two new) species; with a bibliography (20 items).

Copy seen: DSI-M.

6266. GRÖNBLAD, ROLF. Neue und seltene Desmidiaceen. (Botaniska notiser, 1938, häfte 1-3, p. 49-66, illus.) *Title tr.*: New or rare desmids.

Contains critical notes on thirty desmids with Latin description of some

new species and forms, including *Staurastrum aviculoides* and *S. Wandae* var. *brevispinum* n. var. from Kuusamo, Finland. **Copy seen:** MH-A.

6267. GRÖNBLAD, ROLF. Observations on some desmids. Helsingforsiae. 1924. 18 p. 2 plates. (Societas pro fauna et flora fennica. Acta, 1924-1929, pub. 1924. v. 55, no. 3)

Contains Latin diagnosis of desmid gen. *Pleurotaenium*, critical notes on its species and an enumeration of twenty-five less known desmids of Finland, including five new to science, six native to Kuusamo and three from Arkhangelsk region; bibliography (33 items). **Copy seen:** MH-A.

6268. GRÖNBLOM, THORWALD. För Finlands fauna nya Macrolepidoptera. (Societas pro fauna et flora fennica. Meddelanden, 1913-1914, pub. 1914. Häfte 40, p. 10-12) **Title tr.:** Macrolepidoptera new to Finland.

Contains critical notes on four species of butterflies and large moths (Macrolepidoptera), including *Anarta richardsoni* var.? found in Imandra Lappmark, Kola Peninsula, in 1913.

Copy seen: MH-A.

6269. GRÖNBLOM, THORWALD. Tre för Finland nya insekter. (Societas pro fauna et flora fennica. Meddelanden, 1915-1916, pub. 1916. Häfte 42, p. 28-31) **Title tr.:** Three insects new for Finland.

Contains critical notes on a hymenopterous species—*Gorytex fallax*, new for Finland and all northern Europe, found in Kola Peninsula (Tuloma and Imandra Lappmark).

Copy seen: MH.

6270. GRÖNBLOM, THORWALD. Verzeichnis der Gross-Schmetterlinge Finnlands mit Rücksicht auf ihre Verbreitung in den verschiedenen Provinzen. Helsingfors, 1936. iv, 44 p. map. (Societas pro fauna et flora fennica. Acta, 1935-1936, pub. 1936. v. 58, no. 5) **Title tr.:** List of large butterflies of Finland with emphasis on their distribution in various provinces.

Contains a systematic list of eight hundred fifteen species of large butterflies (Macrolepidoptera) of Finland, with tabulated data on distribution in twenty-one natural regions, including Finnish and Russian Lapland.

Copy seen: MH-A.

6271. GRÖNLAND I TOHUNDRED-AARET FOR HANS EGEDES LAND-ING, under redaktion af G. C. Amstrup, Louis Bobé, Ad. S. Jensen, H. P. Steensby. [København, C. A. Reitzel boghandel, B. Lunos bogtrykkeri, 1921] 2 v.: ii 567 p.; 795 p. 1 l. 143 plates (incl. ports.) on 69 l. maps, diagrs. and atlas of 20 (i.e. 22) double-maps. (Meddelelser om Grønland. Bd. 60-61)

Title tr.: Greenland at the second centenary of Hans Egede's landing; edited by G. C. Amstrup, Louis Bobé, Ad. S. Jensen, H. P. Steensby. Also issued in a trade edition as noted in next item. **Contents tr.:** Bd. 1, 1. del. HAMMER, R. General survey.

2. del. OSTERMANN, H. B. S. Description of the districts in North Greenland.

3. del. RASMUSSEN, K. J. V. Description of the Thule District.

Bd. 2, 1. del. BENDIXEN, O. Description of the districts in South Greenland.

2. del. HOLM, G. F. Description of Angmagssalik District.

3. del. OSTERMANN, H. B. S. Biographical information.

Etymological index of names. Index of places. Subject index. Index of personal names.

Supplement: Atlas containing historical maps of the Norse colonies; topographic and geological maps of Greenland (1:10,000,000) and maps of the districts (1:1,000,000) discussed in the text.

Each part of v. 1 and 2 (except indexes) appears in this Bibliography under its author's name.

ments of Greenland, published by the
Royal Society of Northern Antiquaries.

A collection of documents relating to
the early history of Greenland, printed
in their original language, with Danish
commentary and historical notes;
edited by Finnur Magnússon and C. C.
Rafn. Titles of the documents trans-
lated into English:

Bd. 1, 1. Introductory investigation
concerning the oldest writings and ac-
counts of the history of Iceland, and
Greenland, and their respective au-
thors.

Bd. 1, 2. About Gunbjörn's skerries.

Bd. 1, 3. About Are Marsön, his voy-
age to America and his settlement
there.

Bd. 1, 4. The priest, Are Thorgil-
sön, called the Learned; his account of

Greenland's discovery and first settle-
ment, by his so-called Schedæ.

Bd. 1, 5. Extracts from Landnama
(saga) about the discovery, settlement
of, and early Landnam-settlers in
Greenland.

Bd. 1, 6. The saga of Erik the Red,
or accounts of Erik the Red and of the
Greenlanders.

Bd. 1, 7. Thorfinn Karlsefne's saga.

Bd. 1, 8. Extracts from Eyrbyggja
(saga) about the Greenlanders' Ice-
landic homesteads, first settlement and
events (there), and the life of the
earliest, new settlers in Greenland.

Bd. 2, 9. Extracts from Floaman-
nasaga, containing the life and work
of Thorgild Thordarsön, called Orra-
beinsfostres.

Bd. 2, 10. Passages concerning the
(first) introduction of Christianity into
Greenland, at the instigation (behest)
of the Norwegian Olaf Tryggvesön.
(A.) Extracts from King Olaf Trygg-
vesön's saga, written by Gunlög Leif-
sön. (B.) From Olaf Tryggvesön's saga
in Snorre Sturlesön's "Heimskringla".
(C.) From the Kristnisaga. (D.) From
Olaf Tryggvesön's saga, written by
Odd Snorresön.

Bd. 2, 11. About Thoraren Nefjulf-
sön's unsuccessful voyage to Green-
land; extracts from the saga of St.
Olaf.

Bd. 2, 12. Extracts from the Fost-
broedra-saga concerning the slaying of
Thorgeir Havarsön and Thormod Kol-
bruneskjald's stay in Greenland.

Bd. 2, 13. Skjálldhelgi, lawmaker of
Greenland, an historical ode.

Bd. 2, 14. Extracts from Gisle Sur-
sön's saga, in particular containing the
biography of Helgi Vestseinsön, one of
Greenland's first settlers.

Bd. 2, 15. Account of Thrond from
the uplands.

Bd. 2, 16. Extracts from the story of
Auden den Vestfjordske (of the West
Fjord).

Bd. 2, 17. Summary of accounts o.
Lig-Lodin.

Bd. 2, 18. Account of Einar Sok-
kesön.

Bd. 2, 19. Extracts from Rafn
Sveinbjörnsön's saga.

Bd. 2, 20. Extracts from the saga
of Bishop Gudmund Aresön called the
Good.

Bd. 2, 21. Extracts from Bishop
Paul's saga.

Bd. 2, 22. Extracts from the saga

of Bishop Thorlak, the Saintly.

Bd. 2, 23. Extracts from King Hakon Hakonsön's saga.

Bd. 2, 24. Extracts from the Sturlunga saga.

Bd. 2, 25. Extracts from the ancient supplement to (the) Landnama (saga).

Bd. 2, 26. Extracts from Bishop Arne Thorlaksön's saga.

Bd. 3, 27. Extracts from the Icelandic annals of the Middle Ages.

Bd. 3, 28. Greenlandic records and records concerning Greenland.

Bd. 3, 29. Geographical accounts from the Middle Ages of Greenland and its surroundings.

Bd. 3, 30. Diverse accounts, partly containing unsubstantiated statements, partly from foreign writings.

Bd. 3, 31. Geographical conditions of Greenland and its neighboring regions, depicted in the imaginative tales of the Middle Ages.

Bd. 3, 32. Bredsdorff, J. H. The Brothers Zeno's travels, with introduction, and remarks.

Bd. 3, 33. Pingel, C. Concerning the more important voyages in modern times, undertaken by Denmark and Norway for the purpose of discovering again the lost Greenland and to investigate the re-discovered part.

Bd. 3, 34. Worsaae, J. J. A. Anti-quarian chorography of Greenland, a brief survey of the previously discovered relics of the old Norsemen there.

Bd. 3, 35. Survey of the old geography of Greenland.

Bd. 3, 36. Supplement to the records concerning Greenland.

Bd. 3, 37. Concerning the voyages of the Greenland bishops.

Bd. 3, 38. List of the bishops of Greenland.

Bd. 3, 39. Chronological survey of the history of Greenland in the past and in modern times.

Bd. 3, 40. Historical index of names.

Bd. 3, 41. Geographical index.

Bd. 3, 42. Anti-quarian index of material.

GRÖNLANDS STYRELSE, *see* GREENLAND. LAWS, REGULATIONS, *etc.*

6275. GRÖNLANDSKE FOLKESAGN, OPSKREVNE OG MEDDELTE AF INDFØDTE; MED DANSK OVERSÆTTELSE. Godthaab, Trykt i In-

spectoratets bogtrykkeri af L. Møller, 1859-61. 3 v.: 136, 111, 156 p. illus., plates, maps. *Title tr.:* Greenlandic legends, recorded and communicated by natives; with Danish translation.

Contains thirty-three tales, including historical legends about the Norsemen and the Eskimos; also tales of hunting and sealing, of angakoks, orphans, visions, conversion, and kayak adventures; legend of the first meeting between Eskimos and the Icelandic settlers in Greenland. Includes music and illustrations from woodcuts by Eskimos. Text in Greenlandic and Danish. *Copy seen:* DLC; NN.

6276. GRÖNLANDSKE SELSKAB. Betaenkning, adgivet af det den 5. novbr. 1906 nedsatte udvalg for ederfugles fredning. (Grönlandske selskab. Aarskrift, 1907. p. 100-105, table) *Title tr.:* Report by the committee, appointed Nov. 5, 1906, for the conservation of eider ducks.

Notes reasons for decline in number of eiders in Greenland; recommends protection during the breeding period, and hunting restrictions.

Copy seen: NNStef.

6277. GRÖNLANDSKE SELSKAB. Diskussioner i det Grönlandske selskab vedr. Grönlands betaenkningen af 12 juni 1946. (Grönlandske selskab. Aarskrift, 1947. p. 15-129) *Title tr.:* The discussion in the Greenland Society concerning the report on Greenland of June 12, 1946.

Contains opinions by leading members of the Greenland Society on Danish policy towards Greenland in the future; notes advances brought about by isolation from Denmark and through practice in self-government during the war years; discusses church and school problems. Includes statements by Ejnar Mikkelsen, Kristoffer Lynge, Knud Oldendow, Eske Brun, and others. *Copy seen:* NN.

6278. GRÖNLANDSKE SELSKAB. Dr. phil. K. J. V. Steenstrup. (Grönlandske selskab. Aarskrift, 1913. p. 40-43, illus.) *Title tr.:* K. J. V. Steenstrup, Ph.D.

Eulogy of Knud Johannes Vogelius Steenstrup, 1842-1913, his explorations and investigations in geology, geography, glaciology, *etc.*, in Greenland, 1871-99. *Copy seen:* NN.

6279. GRØNLANDSKE SELSKAB. Folkemedicinen i Grønland i ældre og nyere tid. (Grønlandske selskab. Aarsskrift, 1914. p. 22-57, illus.) *Title tr.:* Native medical cures in olden and present-day Greenland.

Discusses power and methods of the angakok; treatment and remedies used in various disorders and diseases; child-bearing practices and other aspects of Greenlanders' health and hygiene. *Copy seen:* NN.

6280. GRØNLANDSKE SELSKAB. Forfatter, læge Aage Ibsen. (Grønlandske selskab. Aarsskrift, 1915. p. 117-18) *Title tr.:* Aage Ibsen, author and physician.

Brief biography of Aage Rolf Ibsen, 1847-1915, physician for Godthaab District, 1880-85, and author of novels and short stories about Greenland.

Copy seen: NN.

6281. GRØNLANDSKE SELSKAB. Grønland 1941-42. (Grønlandske selskab. Aarsskrift, 1942. p. 152-71) *Title tr.:* Greenland 1941-42.

Discusses agreement of April 9, 1941, with the U.S.A. made by Henrik Kauffmann, Danish Minister to the United States, for the occupation and defense of Greenland, and its use as a military and naval base by the U.S.A., etc.

Copy seen: NN.

6282. GRØNLANDSKE SELSKAB. Indstilling fra det Grønlandske selskab til indenrigsministeriet angaaende forbedring af grønlaendernes huse. (Grønlandske selskab. Aarsskrift, 1910-11. p. 71-82) *Title tr.:* Petition from the Greenland Society to the Department of the Interior concerning improved housing conditions for the Greenlanders.

Report on present living and housing conditions as a menace to the health of the Eskimos; suggests sanitary and hygienic improvements, especially as related to water supply, the building of sidewalks and footpaths, ditches, sewers and cesspools, for drainage, etc., and financial aid to the Greenlanders in the building or re-building of homes. Recommends drawings for a model Greenland house be made and submitted to the government for its consideration; also attributes prevalence of tuberculosis to bad housing and living conditions.

Copy seen: NN.

6283. GRØNLANDSKE SELSKAB. Indstilling fra det Grønlandske selskab til Indenrigsministeriet om udvidelse af undervisningen i dansk sprog ved seminariet i Godthaab. (Grønlandske selskab. Aarsskrift, 1909. p. 17-19) *Title tr.:* Proposal from the Greenland Society to the Department of the Interior to extend the teaching of the Danish language in the Godthaab Seminary.

Suggests extension of periods in seminaries for the purpose of qualifying teachers to instruct in Danish in Greenland public schools; notes interest of Eskimos in learning to read and write the Danish language and benefit to them; proposes easing of government monopoly, and freer trade.

Copy seen: NNStef.

6284. GRØNLANDSKE SELSKAB. Kolonibestyrer H. P. Kraul. (Grønlandske selskab. Aarsskrift, 1915. p. 114-16) *Title tr.:* H. P. Kraul, community administrator.

Eulogy of Hans Peter Kraul, 1863-1915, his twenty-five years' work in West Greenland, mainly as administrator at Upernavik.

Copy seen: NN.

6285. GRØNLANDSKE SELSKAB. Kolonibestyrer L. H. C. Bistrup. (Grønlandske selskab. Aarsskrift, 1914. p. 113-16, illus.) *Title tr.:* Community administrator L. H. C. Bistrup.

Biography and eulogy of Laurits Hans Christian Bistrup, 1850-1914; his 36 years' service in Greenland; his interest in health and sanitation, sealing, etc., and in the Greenland Society.

Copy seen: NN.

6286. GRØNLANDSKE SELSKAB. Love og det Grønlandske selskab. (Grønlandske selskab. Aarsskrift, 1908. p. 63-67) *Title tr.:* By-laws of the Greenland Society.

Aims, interests and conditions of membership; members (mainly former government officials) are listed on p. 67.

Copy seen: DLC.

6287. GRØNLANDSKE SELSKAB. Mindesmaerket for Hansérak. (Grønlandske selskab. Aarsskrift, 1913. p. 48-51, illus.) *Title tr.:* The memorial to Hansérak.

Notes dedication of a monument to the catechist Johannes Hansen (commonly known as Hansérak) at Sydprøven, south Greenland. Recounts his

invaluable service during G. Holm's Umiak expedition to Angmagssalik, East Greenland, 1883-85.

Copy seen: NN.

6288. GRØNLANDSKE SELSKAB. Mindesmærket for Jørgen Brønlund. (Grønlandske selskab. Aarsskrift, 1913. p. 52-53, illus.) *Title tr.:* The memorial to Jørgen Brønlund.

Notes erection in Godthaab of monument to Jørgen Brønlund, 1878-1907, who perished during the *Danmark* expedition to northeast Greenland.

Copy seen: NN.

6289. GRØNLANDSKE SELSKAB. Østgrønlands retsstilling. (Grønlandske selskab. Aarsskrift, 1932-33. p. 229-34) *Title tr.:* Position in law of East Greenland.

Discusses the Hague Tribunal decision in the dispute between Denmark and Greenland over sovereignty in East Greenland, noting decision in favor of Danish claims, 1933.

Copy seen: NN.

6290. GRØNLANDSKE SELSKAB. Om de grønlandske overbetjentes økonomiske stilling efter lønningsog pensionsloven af 8 juni 1912. (Grønlandske selskab. Aarsskrift, 1915. p. 1-40) *Title tr.:* Concerning the economic position of public officials in Greenland, following the passing of the salary and pension law of June 8, 1912.

Discussion of this law, with suggestions for revisions, improvement of salary and pension conditions for public servants, including ship masters.

Copy seen: NN.

6291. GRØNLANDSKE SELSKAB. Om muligheden og betimeligheden af at indføre moskusoksen til Vestgrønland. (Grønlandske selskab. Aarsskrift, 1914. p. 5-21) *Title tr.:* Concerning the possibility and timeliness of introducing the musk ox into West Greenland.

Discusses danger of extermination of musk ox in Greenland, previous slaughter, present distribution, possible new habitats, etc.

Copy seen: NN.

6292. GRØNLANDSKE SELSKAB. The Rev. F. C. P. Rüttel. (Grønlandske selskab. Aarsskrift, 1915. p. 107-113)

Obituary of a beloved Danish clergyman, with comment on his work among East and West Greenland Eskimos; biographical data, 1859-1915.

Copy seen: NN.

6293. GRØNLANDSKE SELSKAB. Sundhedsforholdene i Grønland. (Grønlandske selskab. Aarsskrift, 1922-23. p. 79-85) *Title tr.:* Sanitary conditions in Greenland.

Discussion of the importance of adequate sanitary provision for the Eskimos; contrasts death rate in Greenland with that in Denmark; discusses diseases (including cancer) and epidemics; housing conditions; quarantine; sanatoria and clinics. Includes statistics and recommendations.

Copy seen: NNStef.

6294. GRØNLANDSKE SELSKAB. Taler holdt i anledning af Haag-dommen. (Grønlandske selskab. Aarsskrift, 1932-33. p. 5-16) *Title tr.:* Speeches delivered in connection with the Hague decision.

Contains speeches delivered on April 26, 1933, by K. Steglich-Petersen, Gustav Rasmussen, Jens Daugaard-Jensen and Knud Rasmussen, upon the decision of the Hague Tribunal and its award of sovereignty over all of Greenland to Denmark.

Copy seen: NN.

6295. GRØNLANDSPOSTEN. Aargang 1-8; 1942-1949 (in progress). København, Grønland styrelse, 1942-1949 (in progress). 8 v. illus., maps, diagrs. Bimonthly. *Title tr.:* Greenland post.

News journal edited by Christian Vibe, and published by the Danish Greenland Administration, giving information on scientific research, administrative affairs, local and all-Greenlandic social problems, and international affairs of interest to Greenland.

File seen: DLC (broken file beginning 1945).

6296. GRØNLIE, ANNE MARGRETHE. The ornithocrophilous vegetation of the bird-cliffs of Røst in the Lofoten Islands, northern Norway. (Nytt magasin for naturvidenskapene, 1948. Bd. 86, p. 117-243, illus.)

Contains a physical and geographic survey of Røst, the southwesternmost group in the Lofoten Islands (67°24'-67°32'N. 11°50'-12°E.); an ecological study of its vegetation (thriving on birds' dung), and various plant associations, distribution of plants and their reaction to the degree of manuring; enumeration of plants, including seventy flowering plants, forty-five ferns,

fifty-nine lichens and five algae; bibliography (65 items).

Copy seen: MH-A.

6297. GRØNLIE, OLE TOBIAS, 1871-
Contributions to the Quaternary geology of Novaya Zemlya. Kristiania, 1924. 124 p. illus., 30 plates (part fold., incl. maps) (Norske Novaja Semlja ekspedisjon, 1921. Report of the scientific results. No. 21) Published by Det Norske videnskaps-akademi i Oslo (Videnskapsselskapet i Kristiania).

Geomorphologic description of the land forms, glaciers and fiords, with remarks on Novaya Zemlya during glacial and post-glacial times, and a bibliography.

Copy seen: DLC.

6298. GRØNLIE, OLE TOBIAS, 1871-
Fossil and subfossil shells from "Maud"-Havn and environs. Bergen, John Grieg, 1928. 7 p. (*Maud Expedition, 1918-1925. Scientific results, v. 5, no. 20*)

List, with remarks on specimens, of fossil and subfossil molluscs from five localities in the Cape Chelyuskin vicinity; bibliography (13 items).

Copy seen: DSI-M.

6299. GRØNLIE, OLE TOBIAS, 1871-
Kvartaergeologiske iagttagelser fra Korgen i Ranen. (Tromsø, Norway. Museum. Aarshefter, 1910, pub. 1911. Bd. 33, p. 75-110, illus.) *Title tr.:* Quaternary geological observations from Korgen and Ranen.

Contains the results of the investigation of stratigraphic geology in Korgen district, Ranen (about 66°15'N. 13°30' E.), on the bank of Røsaen River, after a landslide there; with data on various strata, a list of twenty-four fossil molluscs and a discussion of climate, fauna and shore line of various strata. Summary in English. *Copy seen:* MH-Z.

6300. GRØNLIE, OLE TOBIAS, 1871-
Kvartaergeologiske undersøkelser i Tromsø amt. I Skjaelforekomster i syd-amtet. (Tromsø, Norway. Museum. Aarshefter, 1912-13, pub. 1913. Bd. 35-36, p. 93-136, map) *Title tr.:* Quaternary-geological investigations in Tromsø province. I. Occurrence of shells in the southern part of the province.

Contains the results of a geological investigation in 1911, on the occurrence of shells in Quaternary deposits in the fiord districts, Lavangen-Ofoten, Tromsø province. The shells are divided into three groups (arctic, boreal, lusi-

tanic) and studied by the regions. Data on former shore lines and terraces are given. Summary in English.

Copy seen: MH-A.

6301. GRØNLIE, OLE TOBIAS, 1871-
Kvartaergeologiske undersøkelser i Tromsø Amt. II Strandlinjer i amtet. (Foreløbig meddelelse) (Tromsø, Norway. Museum. Aarshefter, 1912-13, pub. 1914. Bd. 35-36, p. 221-40, plates 1-4, text map) *Title tr.:* Quaternary-geological investigations in Tromsø province. II. Shore line in the province. (Preliminary report).

Contains an account of the results of investigations of shore lines in Tromsø province, northern Norway, 1911-14, arranged in three groups: (1) Mya line; (2) shore line below the Mya line; (3) those above the Mya line, with lines and ledges marked on the plates.

Copy seen: MH-Z.

6302. GRØNLIE, OLE TOBIAS, 1871-
Quaternary geology. The Folden Fiord, part 2. Tromsø, Norway, 1927. p. 1., 73 p. illus., 4 maps (3 fold.) (Tromsø, Norway. Museum. Skrifter. v. 1, pt. 2) "Contributions to the Quaternary geology of the Folla district." —Running title.

Based on investigations of Quaternary conditions, especially the shore lines, and a series of levellings on the shores of the islands and peninsulas occupying the region between 67°21'-67°53'N. and 14°40'-15°53'E. northern Norway, carried out in July-Aug. 1923. Report on observations in nineteen localities, showing shells found, data on raised shore lines, glaciation, evidence of former glaciation, and kinds of rocks; and a summary of results discussing (1) effects of total glaciations on the land surface, (2) the last ice age, (3) heavy local glaciation and a continuous shore line in the late glacial time, and (4) climatic variations and shore lines in sub-glacial and post-glacial times. Bibliography (34 items).

Copy seen: DLC; DSI-M.

6303. GRØNLIE, OLE TOBIAS, 1871-
Some remarks on the land area in Nordland between the glacier Svartisen and the frontier. (Norsk geografisk tidsskrift, 1939. Bd. 7, hefte 5-8, p. 143-50, illus., sketch map)

Geomorphology of this mountainous plateau region between Svartisen (66°45'N. 14°30'E.) and the Swedish

border; with remarks on its present physical geography. *Copy seen:* DLC.

6304. GRØNLIE, OLE TOBIAS, 1871-, and T. SOOT-RYEN. The Folden Fiord. Zoological, hydrographical and Quaternary geological observations made in the Folden Fiord during the summer of 1923. Parts 1-5, 7, 9, 13. 8 pts. illus., 5 maps (4 fold.) diagrs. (Tromsø, Norway. Museum. Skrifter. v. 1, pt. 1-5, 7, 9, 13)

Results of investigations carried out by the authors and assistants, July-Aug. 1923, in the Norwegian waters and land area of the Folla district, between 67°21'-67°53'N. and 14°40'-15°53'E. The material is to be published in fifteen parts, of which pts. 6, 8, 10-12, 14-15 have not yet (Aug. 1950) appeared.

Contents: Pt. 1 (pub. 1925). Soot-Ryen, T. Introduction.

Pt. 2 (pub. 1927). GRØNLIE, O. T. Quaternary geology.

Pt. 3 (pub. 1932). SOOT-RYEN, T. Hydrography.

Pt. 4 (pub. 1925). SOOT-RYEN, T., and O. NORDGAARD. Fishes.

Pt. 5 (pub. 1927). SIVERTSEN, E., and others. Crustacea.

Pt. 7 (pub. 1928). GRIEG, J. A. Echinodermata.

Pt. 9 (pub. 1927). NORDGAARD, O. Bryozoa.

Pt. 13 (pub. 1931). BURTON, M. Spongia.

Each of these papers except the Introduction appears in the Bibliography under its author's name.

File seen: DLC; DSI-M.

6305. GRØNLUND, CARL CHRISTIAN HOWITZ, 1825-1901. Lichener, samlede i Grønland af Prof. Fr. Johnstrup i sommeren 1874. (Naturhistoriske forening. Videnskabelige meddelelser, 1877-78. Aarg. 29-30, p. 244-50) *Title tr.:* Lichens collected in Greenland by Prof. Fr. Johnstrup during the summer of 1874.

List, with synonymy, references to literature and some remarks, of forty-nine species from West Greenland; with description of an additional hitherto unrecorded species.

Copy seen: DLC.

GRØNLUND, CARL CHRISTIAN HOWITZ, 1825-1901, see also Deichmann Branth, J. S., & C. C. H. Grøn-lund. Grønlands lichen-flora. 1887.

6306. GRØNTVED, JOHANNES, 1882-. Vascular plants. Copenhagen, Gyl-dendal, 1937. 5 p. l., 7-93 p. fold. map. (Thule Expedition. 5th, 1921-24. Re-port. v. 2, no. 1)

Contents include: List of vascular plants and their localities with coordi-nates, p. 10-81. Bibliography, p. 82-84.

Appendix: Ekman, Elisabeth. The Drabas, p. 85-93. *Copy seen:* DLC.

6307. GRØNTVED, JULIUS, 1899-, and G. SEIDENFADEN. The Godthaab Expedition 1928. The phytoplankton of the waters west of Greenland. Kjø-benhavn, C. A. Reitzel, 1938. 380 p., 1 l. incl. 108 illus., incl. charts, tables, 2 fold. maps. (Meddelelser om Grøn-land. Bd. 82, nr. 5)

Contains (1) account of the investi-gations; (2) summary of results of previous investigations; (3) a chapter on Dr. Thorild Wulff's plankton col-lection from the Second Thule Expe-dition, 1916-1918; (4) list, with ref-erences to literature and remarks on distribution and frequency, of two hun-dred thirty-four plankton organisms; (5) discussion of the distribution of plankton organisms within several hy-drographical sections and conclusions drawn in regard to ocean currents and distribution of waters; bibliography, p. 370-74. *Copy seen:* DLC.

6308. GRØNWALL, KARL ANDERS AXEL, 1869-. The marine Carbonif-erous of north-east Greenland and its brachiopod fauna. 1916. Danmark-eks-peditionen til Grønlands nordøstkyst. 1906-1908. Bd. 3, nr. 20. (Meddelelser om Grønland, 1917. Bd. 43, p. 509-618. illus., plates XXVII-XXIX, maps)

Contains (1) an introduction giving extracts from G. C. Amdrup's account of the geological formations, and field notes; (2) detailed descriptions of the localities on Holm's and Amdrup's Lands (including Henrik Krøyers Islets, skerries offshore from the lat-ter); (3) paleontological description of the brachiopods, twenty-six species (three new); (4) review of upper Car-boniferous in other regions as com-pared with northeast Greenland; and (5) discussion of the brachiopod fauna as relating the northeast Greenland formations with others.

6309. GROISSMAYR, FRITZ BÉLA. Die Bedeutung der Januartemperatur

am Unterlaufe der Lena. (Polarforschung, 1946, pub. 1948. Bd. 2, Jahrg. 16, p. 84) *Title tr.*: Significance of the January temperature on the lower Lena.

Note on temperature anomaly at Yakutsk, based on data of 1891-1931.

Copy seen: DSI-M.

6310. GROISSMAYR, FRITZ BÉLA. Schwere und leichte Eisjahre bei Newfoundland und das Vorwetter. (Annalen der Hydrographie und maritimen Meteorologie, Jan. 1939. Bd. 67, p. 26-30, diagrs.) *Title tr.*: Severe and light ice years in the Newfoundland region and the weather which preceded them.

Using data from the International Ice Patrol on the ice season on the Newfoundland Grand Banks, 1880-1926, and correlating temperature statistics, the author proposes a formula for forecasting icebergs, based on preceding temperature conditions.

Copy seen: DLC.

6311. GROISSMAYR, FRITZ BÉLA. Temperaturschwankungen in Januar in Zentral-Alaska. (Polarforschung, 1946, pub. 1948. Bd. 2, Jahrg. 16, p. 83) *Title tr.*: Temperature variations during January, in central Alaska.

Note showing temperatures for Tanana, Alaska, and Helena, Montana, 1903, 1906, 1907, 1911, 1913, 1915, and 1916.

Copy seen: DSI-M.

6312. GROISSMAYR, FRITZ BÉLA. Weltwetter und Klimaschwankung im Nordpolargebiet. (Polarforschung, 1945, pub. 1947. Bd. 2, Jahrg. 15, p. 5-9) *Title tr.*: World weather and variation of climate in north polar regions.

Discussion of temperature inversions over a period of about fifty years, on the coast of West Greenland, in Iceland, Alaska, and northwestern Siberia, with supporting data.

Copy seen: DSI-M.

6313. GROISSMAYR, FRITZ BÉLA. Eine 2,72-jährige Periode der Januartemperatur in Dawson. (Polarforschung, 1946, pub. 1948. Bd. 2, Jahrg. 16, p. 102) *Title tr.*: A 2.72-year period of January temperature at Dawson.

Note on maximum and minimum temperature periodicity.

Copy seen: DSI-M.

6314. GROMOV, BORIS VASIL'EVICH. Gibel' Chel'uskina. [Moskva],

Goslitizdat, 1936. 377, [2] p. 2 l., front., illus. (part mounted), ports., maps (1 fold.) *Title tr.*: The end of the Chel'uskin.

A narrative of the voyage along the Northern Sea Route, U.S.S.R., 1933-34, under the leadership of O. I. Shmidt in the Chel'uskin (Captain Voronin), to test feasibility of using semi-icebreakers for regular voyages in arctic seas. Describes the many difficulties encountered, the eventual destruction of the ship, Feb. 13, 1934, in the heavy ice of Chukchi Sea and the final evacuation of the crew by planes from the ice-floe "Camp Shmidt".

Charts indicating the correlation between surface water temperature of the Norwegian Sea and the air temperature of 58 points in northern Eurasia and Greenland are presented and analyzed.

Copy seen: DLC.

6362. GUREVICH, T. Z. Lechenie tsyngi nastoikoí iz igl eli (Klinicheskaiá meditsína, 1935. T. 13, no. 3, p. 459-61) *Title tr.:* Treatment of scurvy by spruce needle infusion.

Discussion of results from this treatment and recommendation for its use, because of its therapeutic effect and the availability of spruce, widely distributed in northern regions.

Copy seen: NNN.

6363. GUR'ANOVA, EVGENIÁ F. Beiträge zur Amphipodenfauna des Karischen Meeres. (Zoologischer Anzeiger, Nov. 1936, Bd. 116, p. 145-52, illus.) *Title tr.:* Contributions to the Amphipoda of Kara Sea.

Based on material collected by the Sedov, 1934, descriptions of three new species, a list, with locations, of twenty-nine additional species new to Kara Sea, and remarks on the presence there of eight North Atlantic forms.

Copy seen: DSI-M.

6364. GUR'ANOVA, EVGENIÁ F. Beiträge zur Fauna der Crustacea-Malacostraca des arktischen Gebietes. (Zoologischer Anzeiger, Feb. 1930. Bd. 86, p. 231-48, illus.) *Title tr.:* Contributions to the Crustacea-Malacostraca of the arctic regions.

Based on collections of the Berlin Zoological Museum, the Institute for the Exploration of the North and the State Hydrological Institute in Leningrad. Descriptions of five new species of isopods from Greenland Sea and Svalbard waters, and discussion of the distribution, in all arctic seas and the

brackish or fresh waters of the Asiatic Arctic, of three other species; descriptions and distribution of seven (including three new) species of Amphipoda of arctic seas.

Copy seen: DSI-M.

6365. GUR'ANOVA, EVGENIÁ F. Beiträge zur Kenntnis der Isopodenfauna des Pazifischen Ozeans. IV. Neue Isopodenarten aus dem Japanischen und Beringmeer. (Zoologischer Anzeiger, Juni 1936. Bd. 114, p. 250-65, illus.) *Title tr.:* Contributions to knowledge of the Isopoda of the Pacific Ocean. 4. New isopods of the Japan and Bering Seas.

Contains descriptions of five new species, only one of which was taken in Bering Sea; a list of all species known to occur in the Okhotsk and Bering Seas, and a discussion distinguishing between the arctic Kamchatka province and the Aleutian province.

Copy seen: DSI-M.

6366. GUR'ANOVA, EVGENIÁ F. Biotšenz laminarii Kol'skogo zaliva. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1924. T. 53, vyp. 2, p. 139-72, illus.) *Title tr.:* Laminaria biocoenose at Kola Fiord.

Contains a study of the biocoenose of Laminaria overgrowth in Kola Bay, including some notes on *L. stenophylla*, *L. saccharina* and *L. digitata* and sixteen other algae, also data on faunal population of the stays and rhizoids of these Laminaria and a list of one hundred seventy-one species of various marine animals: the Crustacea determined by the author; Mollusca by K. M. Deriugin; Spongia by P. D. Rezvyi; Polychaeta by I. G. Zaks, Nemertini by P. V. Ushakov; Bryozoa by G. A. Klugge; Nematoda by I. N. Filip'ev; Algae by E. S. Zinova; periodical changes and ontogeny of the biocoenose are discussed. Summary in English.

Copy seen: MH-Z.

6367. GUR'ANOVA, EVGENIÁ F. Fauna "Dvorov" Kol'skogo zaliva. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1925. T. 54, vyp. 1, p. 17-46, illus.) *Title tr.:* Fauna of "Dvory" of Kola Bay.

Contains results of the study of marine fauna of four "dvory" (small inlets) of Kola Bay, investigated in the summers of 1921-23 by a group of students (including the author) un-

der direction of Prof. K. M. Deržugin; includes data on littoral and sublittoral distribution of marine fauna and a systematic list of one hundred seventy-six marine animals, determined by K. M. Deržugin, the author and some other specialists. Summary in German.

6368. GUR'ANOVA, EVGENIJA F. K faune Amphipoda Barentsova moria. (*In*: Leningrad. Nauchno-issledovatel'skii institut po izucheniiu Severa. Trudy, 1928. Vyp. 37, p. 43-54) **Title tr.:** Contribution to the fauna of amphipoda in the Barents Sea.

Results of a study of these crustaceans collected in 1921-24, by the Northern Scientific and Economic Expedition, 1920-1926, listing twenty-eight species, with data on their locations and distribution. Summary in English.

Copy seen: DLC.

6369. GUR'ANOVA, EVGENIJA F. K faune Amphipoda i Isopoda Vostochnogo Murmana (raion guby Porchnikhi). (Leningrad. Nauchno-issledovatel'skii institut po izucheniiu Severa. Trudy, 1931. Vyp. 48, t. 1, p. 196-204) **Title tr.:** Contribution to the knowledge of amphipods and isopods of eastern Murman (Porchnikha Bay region).

A study of crustaceans inhabiting the waters of, and near Porchnikha Bay (Barents Sea coast about 69°N. 36°E.), listing forty-one species of amphipods and eight species of isopods, with some notes on habitats and distribution in other seas. Summary in German.

Copy seen: DLC.

6370. GUR'ANOVA, EVGENIJA F. K faune Crustacea-Malacostraca arkticheskoi oblasti. (Leningrad. Vsesoiuznyi arkticheskii institut. Trudy, 1936. T. 33, p. 31-44, illus.) **Title tr.:** Contribution to the fauna of Crustacea-Malacostraca of the arctic region.

A study of material collected during the voyages of ice-breakers *Sibiriakov* and *Rusanov*, 1932, and of the ships *Taimyr* and *Vaigach*, 1911-13, in Kara, Laptev and Chukchi Seas; with lists of species (including description of four new species) and locations. Summary in English.

Copy seen: DLC.

6371. GUR'ANOVA, EVGENIJA F. K faune Crustacea-Malacostraca Barentsova, Belogo i Karskogo morei. (Leningradskoe obshchestvo estestvo-

spytatelei. Trudy, 1929. T. 59, vyp. 1, p. 29-46, illus.) **Title tr.:** On the fauna of Crustacea-Malacostraca of the Barents Sea, White Sea and Kara Sea.

Contains a list of thirty-seven species of crustaceans (Isopoda and Amphipoda) of the Barents, White and Kara Seas, and an enumeration, with critical notes and data on distribution in arctic regions. Summary in English.

Copy seen: DLC.

6372. GUR'ANOVA, EVGENIJA F. and others. K faune estuarii Murmanskogo poberezh'ia. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1926. T. 56, vyp. 2, p. 79-96, illus. diags.) *Other authors:* I. Zaks and P. Ushakov. **Title tr.:** A contribution to the fauna of the estuaries of the Murman coast.

Contains a study of the plankton of the river estuaries along the Murman coast, in Kola Bay and Cheshkaya Bay (Indiga River); with lists of plankton animals and Algae, and a study of the salinity of water in various bays and river estuaries. Summary in German.

Copy seen: DLC.

6373. GUR'ANOVA, EVGENIJA F. K faune Kol'skogo zaliva, Barentsova, Karskogo i Belogo morei i Novoi Zemli. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1927. T. 57, vyp. 1, p. 23-38, illus.) **Title tr.:** To the fauna of the Kola-Fjord, Barents Sea, White Sea, Kara Sea and Novaya Zemlya.

Contains critical notes on certain marine fauna (mainly Mollusca and Crustacea) collected 1921-26, and determined as new to the European arctic waters in which they were found. Includes thirteen molluscs, eleven crustaceans and nine worms, new to the fauna of Kola Bay; five molluscs and five crustaceans, Barents Sea; two molluscs and two crustaceans, White Sea; and five molluscs and five other marine fauna from Kara Sea and Novaya Zemlya waters; bibliography (36 items). Summary in English.

Copy seen: DLC.

6374. GUR'ANOVA, EVGENIJA F. K voprosu o sostave i raspredelenii bentosa Cheshskoi guby. (*In*: Leningrad. Nauchno-issledovatel'skii institut po izucheniiu Severa. *Its* Trudy, 1929. Vyp. 43. Chast' 2: Ekspeditshiia v Cheshskuiu gubu 1925-1926 gg., p. 58-100, illus., diagr.) **Title tr.:** Contribu-

tion to the question of the distribution of benthos in the Cheshskaya Bay.

A study based on observations of the Cheshskaya Bay Expedition, 1925-26, describing the benthos fauna of the region, its relation to conditions peculiar to the bay and distribution in other seas. Bibliography, p. 96-98. Summary in English.

Copy seen: DLC.

6375. GUR'ANOVA, EVGENIYA F., and others. Litoral' Kol'skogo zaliva. Chast' 1. Opisanie osnovnykh ploshchadok litorali. (Leningradskoe obshchestvo estestvoispytatelei. Trudy, 1928. T. 58, vyp. 2, p. 89-140, illus., 2 plates, map) Other authors: Ivan Zaks and P. Ushakov. *Title tr.:* The Kola Bay littoral. Part 1. Description of standard areas of the littoral.

Contains results of a five-year study, 1921-25, of the biology of the littoral region of Kola Bay, Barents Sea, by a group of young scientists, working at the Murmansk Biological Station, under direction of Prof. K. M. Derzhin. Includes brief data on the hydrology of the region (temperature, salinity, substratum, etc.); flora and fauna of various facies (cliffs, sandy coasts, rocks, slimy sands, etc.); description of biocoenoses, lists of algae and marine fauna, determined by various specialists; and data on vertical distribution. Parts 2 - 3 not located.

ficheskoi raboty v Olenekskom raione
Yakutskoi ASSR. (Sovetskaiia etnogra-
fiia, 1947, vyp. 1, p. 210-11) *Title tr.*:
Five years of ethnographical work
in the Olenek region of the Yakut
A.S.S.R.

Contains a preliminary report on five
years of ethnographical work in the Ya-
kut region, during which the author cov-
ered more than 2200 kilometers. It was
established that the official term
"Vilyui Tungus" is misleading as it
applies at present to a group of Yakuts
who are nomadic reindeer breeders.
Data are given on the native economy,
reindeer breeding, hunting methods, as
well as some facts about social organi-
zation and religion.

Jahrg. 1, p. 136-84, 245-349, 6 sketch maps) *Title tr.:* The fresh-water Entomostraca of Greenland; a study of the fauna, its ecology and zoogeography.

Comprehensive treatise bearing in general on faunal relationships to the ice age, and relating mainly to West Greenland.

Contains introductory material analyzing early literature on the subject. Characterization of the fresh-water lakes, pools and marshes, including their ice régime and water temperature, the air temperature and insolation. Notes on the forty-four species studied, defining their sources (collections made by Bachmann in 1908, the *Tjalfé* 1908, and Båbler, 1909), and distribution on east and west coasts of Greenland. Ecological notes on reproduction and wintering stages of each species, discussed in comparison with animal communities of other arctic regions, and in relation to Greenland habitats. Zoogeographic section comparing Greenlandic Entomostraca with forms in other arctic regions, discussing the possibility of survival through the ice age, or post-glacial occurrence; an ecological summary, and bibliography (120 items).

6425. HACHEY, HENRY BENEDICT, 1901-. Biological and oceanographic

conditions in Hudson Bay. 6. The general hydrography and hydrodynamics of the waters of the Hudson Bay region. (Canada. Biological Board. Contributions to Canadian biology, 1931. New ser., v. 7, p. 91-118, incl. tables, diagrs.)

Results of the Hudson Bay Fisheries Expedition, 1930, which located stations throughout the Bay, with three in Hudson Strait.

"The waters of Hudson Bay differ markedly from the waters of Hudson Strait and the waters of the open ocean. Intense stratification in the upper 25 metres, decreasing as the waters of the open ocean are approached, gives Hudson Bay the character of a large estuary. Below 50 metres the waters are for all purposes dynamically dead, thus resulting in a cold saline body of water which probably undergoes very little change from season to season. The movements of the waters at various levels are dealt with, to show that the inflow of waters from Fox Channel and the many freshwater drainage areas control the hydrographic conditions as found. The main water movement is from James Bay area to Hudson Strait and thence to the open ocean".—Author's abstract.

Illus., tables, etc.: Submarine topography, temperature, salinity, density at 0, 25, 50, 100, and 150 meters, with horizontal and vertical distribution; dynamical tendencies, stabilities, and calculated currents; with a bibliography (13 items).

6478. HAIG-THOMAS, DAVID, 1908-1944. Expedition to Ellesmere Island, 1937-38. (Geographical journal, Apr. 1940. v. 95, p. 265-77, 4 plates, sketch map)

Account of the British Expedition to northwest Greenland and Ellesmere Island, led by the author, which wintered at Thule, mapped the southeast coast of Ellesmere Island, and journeyed from Flagler Fiord across Ellesmere Island, down Eureka Sound, around the south end of Axel Heiberg Island to the southwest point of Amund Ringnes Island, returning northeastward across this island to discover a new island (subsequently named Haig-Thomas Island) lying between it and Axel Heiberg Island. This narrative outlines the course of the expedition,

gives notes on animal migration, musk oxen, birds, and geographic details, and remarks on sledges and dog food.

Appendix: Scientific observations (at Thule): archeology, aurora, tides, weather, zoology, birds, geology, and botany (brief report on work done).

Copy seen: DLC.

6479. HAIG-THOMAS, DAVID, 1908-1944. Ornithology. Oxford University Ellesmere Land Expedition, Appendix II. (Geographical journal, May 1936. v. 87, p. 432)

Copy seen: DLC.

6480. HAIG-THOMAS, DAVID, 1908-1944. Tracks in the snow. London, Hodder & Stoughton, [1939] x, 11-292 p. front., illus. (4 maps), 16 plates (incl. ports.)

Narrative of the author's year in North Greenland, 1937-38, during which he sledged across Ellesmere, Axel Heiberg and Ringnes Islands and, with R. A. Hamilton, surveyed the southeast coast of Ellesmere Island. His narrative includes an entertaining and informative account of the Polar Eskimos, of traveling by the Eskimo method of living off the land; remarks on the birds and animals seen on Ellesmere, on the geography of Heiberg and the Ringnes Islands; and the discovery of Haig-Thomas Island.

Copy seen: DLC; NNS Stef.

6484. HALL, CHARLES FRANCIS, 1821-1871. Geographical discoveries in the arctic regions. (American Geographical Society, N. Y. Journal, 1873, v. 3, p. 216-21)

A letter to the president of the Society, dated Washington, April 9, 1871. Contains the results of geographic exploration carried out by the author, 1864-69, in the region of Wager Inlet, Repulse Bay, Lyon's Inlet and Melville Peninsula, also north to Fury and Hecla Strait, and thence to islands west and eastward; with notes on Baffin

Island geography derived from Eskimo reports.

Copy seen: DLC.

6485. HALL, CHARLES FRANCIS, 1821-1871. Life with the Esquimaux; the narrative of Captain Charles Francis Hall, of the whaling barque "George Henry", from the 29th May, 1860, to the 13th September, 1862. With the results of a long intercourse with the Innuits, and full description of their mode of life, the discovery of actual relics of the expedition of Martin Frobisher of three centuries ago, and deductions in favour of yet discovering some of the survivors of Sir John Franklin's expedition. With maps and one hundred illustrations. London. Sampson Low, Son, & Marston, 14, Ludgate Hill, 1864.

2 v. v. 1: xvi, 324 p. incl. front. (port.), illus. (incl. 2 ports., 2 facsim.), 7 plates. 2 maps (1 fold.); v. 2: xii, 352 p. incl. illus. (incl. 2 ports., map, facsim.), 10 plates.

Reprinted in a popular edition, London, 1865, (x, 547 p.). American edition with the same text was published as: *Arctic researches, and life among the Esquimaux; being the narrative of an expedition in search of Sir John Franklin, in the years 1860, 1861 and 1862.* New York, Harper & Brothers, 1865. (1 p. l., xxviii, [29]-595 p. incl. illus., plates, front., fold. map) The American edition was reissued in 1866.

Contains narrative of the voyage of the *George Henry* to Holsteinsborg, West Greenland, then across Davis Strait to Cornelius Grinnell Bay (just north of Frobisher Bay) on Baffin Island; the exploration by small boat and sledge of Cyrus Field and Frobisher Bays, the surveying done (the first, and long the only mapping of this area). Includes throughout, detailed descriptions of Eskimo life as shared by the author, the sledging, food, etc., notes on cold and its effects, the terrain of the regions explored, and remains of the Frobisher encampment discovered; also note on polar bear liver as poisonous.

Copy seen: DLC; NNS Stef.

6486. HALL, CHARLES FRANCIS, 1821-1871. Narrative of the Second Arctic Expedition made by Charles F. Hall: his voyage to Repulse Bay, sledge journeys to the straits of Fury and Hecla and to King William's Land,

and residence among the Eskimos, during the years 1864-69. Edited under the orders of the Hon. Secretary of the Navy, by Prof. J. E. Nourse, U. S. N. U. S. Naval Observatory, 1879. Washington, U. S. Govt. Print. Off., 1879. 5 p. l., L, 644 p. front., illus., 7 plates, 20 maps, (8 fold.) fold. facsim. (45th Cong., 3d sess. Senate. Ex. doc. 27)

Edited (after his death) from Hall's manuscripts, which were published by the U. S. government.

This expedition (like that of 1860-62) was supported by private subscriptions and both were undertaken to search for the records of the Franklin Expedition and "to promote and benefit the cause of geography, navigation, natural history and science." From winter quarters in the Wager Inlet and Repulse Bay regions, Hall's four-man party explored the shores north and west from Melville Peninsula to King William Island, 1864-69.

Contains a preliminary chapter on Hall's three expeditions and the Franklin search, and two chapters on the preparation for the second expedition. Eleven chapters of narrative of the sledge journeys in the Wager Inlet region, to Igloodik, along the east side of Melville Peninsula to Fury and Hecla Strait, around and across Repulse Bay, and two journeys to King William Island, the first reaching only to Colville Bay (68°N. 88°25'W.) and the final attempt, reaching the Pfeffer River region of the island. Includes detailed information on the Iglulik Eskimos of Repulse Bay, information on Franklin relics, on the fish and game of the region, the auroras, and the traveling conditions.

Appendices: 1. Astronomical observations. (Tables for voyages out and return through Hudson Strait and Roes Welcome, and for each encampment of the five years, giving geographic position).

2. Meteorological journal giving three-times daily, routine observations for Hudson Strait and Roes Welcome, Aug. 1-19, 1864; for Wager Bay region, Aug. 20, 1864 to June 9, 1865; for the Repulse Bay-Rae Isthmus region, June 13, 1865 to April 6, 1867; for sledge journeys along Melville Peninsula, Feb. 7, to Mar. 28, 1867, and Mar. 30-Nov. 10, 1868; for Lyons Inlet region, Nov. 11, 1868-Mar. 20,

1869; for sledge journey across the country south of Boothia Peninsula to King William Island, Mar. 23-Apr. 30, 1869.

3. EMERSON, B. K. On the geology of Frobisher Bay and Field Bay: a description of the geological collections made by C. F. Hall on his first voyage, 1860-62.

4. Hall's conversations with the Inuits, 1864, 1868, and 1869 (about the Franklin party).

5. Demand for whale and seal oil in the manufacture of jute. (Remarks on the decline of Hudson Bay whaling, with comment by C. R. Markham and statistics by Matthew McDougall, on whaling industry and jute manufacture).

The paper by Emerson appears in this bibliography under its author's name.

Maps include: Hall's survey of Ships Harbor Islands, 66°26'N. 86°05'W.

Account of a trip in a whaler to West Spitsbergen with discussion of its geology and remarks on ice conditions in Spitsbergen waters.

Copy seen: DLC.

6509. **HAMBERG, AXEL, 1863-1933.** Resumé af meteorologiska observationer i Gyda-viken; vestra Sibirien, 72°14'-72°25'N.L., 76°14'77°12'O. Gr., ombord på fartyget Oscar Dickson, oktober 1880-juli 1881, utförda af kaptein M. E. Arnesen. (Ymer, 1882. Årg. 3, p. 146-49) **Title tr.:** Résumé of meteorological observations in Gydan Bay, west Siberia, 72°14'-72°25'N. 76°14'-77°12'E. on board the *Oscar Dickson*, October 1880-July 1881, made by Captain M. E. Arnesen. **Copy seen:** DLC.

6510. **HAMBERG, AXEL, 1863-1933.** Studien über Meeris und Gletschereis. Stockholm, K. Boktryckeriet, 1895. 13 p. illus., 2 plates (photos., diagr.) (Svenska vetenskapsakademien. Handlingar. Bihang, Bd. 21, afd. 2, no. 2)

Title tr.: Studies on sea ice and glacier ice.

Results of summer observations made off the northwest and southeast coasts of West Spitsbergen on the pack ice and icebergs and subsequent studies of glaciers of West Spitsbergen, Switzerland and Scandinavia. Includes discussion of the structure and melting of sea ice, gas content of sea and glacier ice, glacier ice and its movement, melting of fresh- and brackish-water ice.

Copy seen: DLC.

6511. HAMBERG, AXEL, 1863-1933. Über die Basalte des König Karls Land. (Geologiska föreningen. Förhandlingar, 1899. Bd. 21, p. 509-32, illus., sketch map) **Title tr.:** On the basalt of King Charles Land.

Occurrence, petrographic description and age of basalt formations on this island in Svalbard, as observed during the Swedish Polar Expedition, 1898.

Copy seen: DLC.

6512. HAMBERG, AXEL, 1863-1933. Zur Kenntniss der Vorgänge im Erdboden beim Gefrieren und Auftauen sowie Bemerkungen über die erste Kristallisation des Eises in Wasser. (Geologiska föreningens i Stockholm. Förhandlingar, 1915. Bd. 37, p. 583-619, illus.) **Title tr.:** Soil processes during freezing and thawing and remarks on the first crystallization of ice in water.

Contains discussion of the penetration of temperature changes in soils, the formation of mush frost, and alluvial islands and masses, the drift of stones in such masses with freezing and thawing, description of stone nets and polygonal structures, gauges in moist and frozen ground, and frost mounds.

Statens meteorologiska centralanstalt. Meteorologiska iakttagelser i Sverige, 1917. Bd. 59 (2: dra ser. bd. 45) Bihang) **Title tr.:** Frequency of hail in Sweden, 1865-1917.

A detailed study of the frequency, intensity and geographical distribution of hail in Sweden, and its association with simultaneous occurrence of other meteorological phenomena, especially

thunderstorms. Monthly seasonal, and annual distributions are mapped.

Copy seen: DLC.

6514. HAMBERG, H. E. Nederbörden i Sverige, 1860-1910. Les pluies en Suède 1860-1910. Uppsala, Almqvist & Wiksell, 1911. 215 p. 16 fold. plates. (Sweden statens meteorologiska centralanstalt. Meteorologiska iakttagelser i Sverige, 1910. Bd. 52 (2: dra ser. bd. 38) Bihang) **Title tr.:** Precipitation in Sweden, 1860-1910.

Monthly average amounts, frequency, and intensities of precipitation have been determined for the network of meteorological stations in Sweden by the available observational materials within the period indicated. Frequencies of different forms of precipitation, (snow, snow and rain, etc.) and maximum diurnal intensities of amounts are also determined. The depth and duration of snow cover are discussed and charted. Average seasonal and monthly precipitation charts are appended.

6516. HAMBURG. DEUTSCHE SEEWARTE. Atlas der Dichte des Meerwassers. NW-Europäische Gewässer. Lief. 1-13. [Hamburg? 194-?] 13 pts. charts. (Germany. Kriegsmarine. Oberkommando. Nr. 2210) **Title tr.:** Atlas of the density of sea water.

Contents tr.: include Lfg. 8, Teil 1, North Atlantic (showing Davis and Denmark Strait and southern Greenland Sea, Feb., May, Aug., and Nov.)

Lfg. 10. White Sea and Murman coast. (May, Aug., and Dec.-Jan.)

Lfg. 13. Norwegian and Barents Seas. (Feb., May, Aug., and Nov.; Iceland to Norway and east to 25°E.)

The charts for each of these regions show surface densities in isolines and summary figures plotted on small charts, for depths 0-10, 0-30, 0-60, or 0-100 meters. *Copy seen:* DN-HO.

6517. HAMBURG. DEUTSCHE SEE-WARTE. Atlas der Eisverhältnisse im Nordatlantischen Ozean. [Hamburg] Oberkommando der Kriegsmarine, 1944. 4 p. 12 double charts, 1 fold. chart. (Germany. Kriegsmarine. Oberkommando. Nr. 2213C) *Title tr.:* Atlas of ice conditions in the North Atlantic Ocean. Extract from Service publication 2213A (Feb. 1944).

Contains an introductory text on ice conditions, 1919-43, in the North Atlantic Ocean and its neighboring seas from 70°E. to 130°W.; discussion of conditions for certain specific regions, on each of the monthly charts, including Hudson Bay and Strait, the Grand Banks of Newfoundland, both coasts of Greenland, West Spitsbergen, etc., and charts showing various kinds and amounts of ice. *Copy seen:* DN-HO.

6518. HAMBURG. DEUTSCHE SEE-WARTE. Atlas der Vereisungsverhältnisse Russlands und Finnlands, ihre Küstengewässer sowie wirtschaftlich und militärisch wichtigen Binnenwasserstrassen. [Hamburg] 1942. [20] p. incl. tables. 94 charts (3 double). (Germany. Kriegsmarine. Oberkommando. Nr. 2197) *Title tr.:* Atlas of icing conditions of Russia and Finland, their coastal waters as well as their inland waters of economic and military importance.

Includes the Barents Sea, White Sea and Murman coast, north and east coasts of Siberia, and inland waterways lying north of the 40°N. parallel; and gives description of the conditions of individual areas with tables interspersed showing dates of appearance and disappearance of ice.

Table: Mean monthly temperatures of important places in Finland and Russia.

Charts: Barents and White Seas: mean ice limits, Apr.-Aug. 1898-1922, and 1929-38; monthly mean and extreme limits, 1929-38.

White Sea and Murman coast: monthly charts, Oct.-June, of extent and types of ice; mean duration in days.

North Siberian coast: assumed and observed limits, and types of ice for July and August, 1935-38.

Okhotsk and Bering Seas: monthly charts of extent and types of ice, Nov.-July; mean duration by days.

Inland waters of eastern Europe and Asia: mean dates, by ten-day intervals, of simultaneous freezing, and the mean and absolute limits, since 1900.

Copy seen: DN-HO.

6519. HAMBURG. DEUTSCHE SEE-WARTE. Beiträge zur Küstenkunde von West-Spitzbergen. (Annalen der Hydrographie und maritimen Meteorologie, 1912. Jahrg. 40, p. 371-92, 3 plates) *Title tr.:* Contributions to knowledge of the West Spitsbergen coasts.

Official sailing directions, with general remarks on situation, geography, ice, wind, weather and climate, and detailed directions from Ice Fiord north to Red Bay. *Copy seen:* DLC.

6520. HAMBURG. DEUTSCHE SEE-WARTE. Deutsche uebersseische meteorologische Beobachtungen. Heft 1-9. [Hamburg, 1887-1900] 9 vols. incl. tables. *Title tr.:* German overseas meteorological observations.

During the First International Polar Year, 1882-83, six, second-order meteorological stations were established by the Germans in Moravian missions along the Labrador coast, at Hopedale, Zoar, Hebron, Nain, Okak and Ramah. Following the Polar Year these stations were under the direction of the German Naval Office (Deutsche Seewarte). This publication includes in pt. 1 of each issue, the results of three-times daily meteorological observations, Sept. 1883-Dec. 1891, at Hopedale, Zoar, Hebron and Nain, and Sept. 1883-Dec. 1889, at Okak and Ramah.

6521. HAMBURG. DEUTSCHE SEE-WARTE. Eis um Island und Ost-Grönland, mit 10 Jahrgängen. Eiskarten für die Monate April bis August. Neubearb. Hamburg. Oberkommando der Kriegsmarine, 1940. 69 p. incl. 15 p. of charts. *Title tr.:* Ice around Iceland and East Greenland, with ten-year ice charts for the months April to August.

Newly revised. Published by the German Navy for use of the Naval Service only.

Contains general information (in brief) on the wind, weather, surface currents and temperature in the waters of Denmark Strait and southern Greenland Sea; notes on origin, terminology, drift, visibility, navigation, yearly observation and limits of ice in this region.

Analysis of the ice conditions (with charts) off the East Greenland coast to 77°N. and around Iceland, for each month, Apr.-Aug. 1929-1938.

A supplement (*Ergänzung zur Druck-schrift: Eis um Island und Ost Grönland, 1940. 6 p.*) gives analysis of ice conditions for 1939.

6522. HAMBURG. DEUTSCHE SEEWARTE. Meteorologische Beobachtungen deutscher Schiffe im Europäischen Nordmeer und in der Barentssee während des Zweiten Internationalen Polarjahres 1932-33. Hamburg, 1939. 39 p. incl. tables (Aus dem Archiv der Deutschen Seewarte. Bd. 59, Nr. 3) *Title tr.:* Meteorological observations of German ships in European Arctic Ocean and Barents Sea during the Second International Polar Year, 1932-33.

As Germany made no official participation in the Second International Polar Year investigations, these data are mainly from meteorological journals of fishing steamers in the Greenland Sea north of 60°N., around The Faeroes, Bear Island, and in Barents Sea, from Aug. 1932 to Aug. 1933.

Tables: Frequent daily observations presented in international code, for the usual meteorological elements, and including state of sea (Beaufort scale), surface sea temperatures, temperature difference between air and water, and swell.

Copy seen: DN-HO.

6523. HAMBURG. DEUTSCHE SEEWARTE. Meteorologische Beobachtungen in Labrador während des 2. Internationalen Polarjahres 1932-33 und der anschließenden Jahre. Hamburg, 1940. x, 41 p. incl. tables. (Aus dem Archiv der Deutschen Seewarte. Bd. 60, Nr. 8) *Title tr.:* Meteorological observations in Labrador during the Second International Polar Year 1932-33 and subsequent years.

A series of daily observations (0800, 1400 and 2100 hours) made at Makovik, Oct. 1932-July 1934, and Nain, Jan. 1932-July 1933, Moravian mission stations where observations had been maintained since the First International Polar Year, 1882-83. Contains in addition to the observations, a brief geographic sketch of the Labrador coast, an account of the equipment and meteorologic work of the two stations since 1882, and description of storms in Labrador; with a bibliography (16 items).

Copy seen: DN-HO.

6524. HAMBURG. DEUTSCHE SEEWARTE. Monatskarten der Eisverhältnisse im Nordatlantischen Ozean. [Hamburg] 1940. 10 p. 12 double charts, 1 overlay. (Germany. Kriegsmarine. Oberkommando. Nr. 2213A) *Title tr.:* Monthly charts of ice conditions in the North Atlantic Ocean.

Contains introductory discussion of the distribution of ice in general between 80°E. and 130°W., and its aspect in each month of the year, with charts of mean ice limits, 1929-38.

Copy seen: DN-HO.

6525. HAMBURG. DEUTSCHE SEEWARTE. Monatskarten für die Breiten 50° bis 70° Nord des Nordatlantischen Ozeans. [Berlin] Oberkommando der Kriegsmarine, 1940. 4 p. 13 double charts, 1 double diagr. (Germany. Kriegsmarine. Oberkommando. Nr. 2213B)

A monthly wind rose atlas (with pressure and mean ice limits indicated) for ten-degree squares of the North Atlantic Ocean. *Copy seen:* DN-HO.

6526. HAMBURG. DEUTSCHE SEEWARTE. Ueber das Auftreten des Treibeises im Nordatlantischen Ocean im Frühling 1883. Berichte aus den Journalen der deutschen Schiffe "Olbers", Kapt. R. 6534. HAMMER, MARIE SIGNE (JØRGENSEN) 1907-. Eine neue Isotoma-Arten aus Ostgrönland. (Zoologischer Anzeiger, Jan. 1938, Bd. 121, p. 43-45) *Title tr.:* A new species of *Isotoma* from East Greenland.

Complete description of the Collembola species, *I. coeruleo-griseus* n. sp., based on specimens collected by the author during the Seventh Thule Expedition, 1933.

Copy seen: DSI-M.

6535. HAMMER, MARIE SIGNE (JØRGENSEN) 1907-. A quantitative and qualitative investigation of the microfauna communities of the soil at Angmagssalik and in Mikis Fjord. København, C. A. Reitzel, 1937. 53 p. illus. (incl. diagrs.) (Meddelelser om Grønland. Bd. 108, nr. 2)

Based on the work of the author during the 7th Thule Expedition, July-Sept. 1933, when the soil samples, 5-7 cm. thick, were taken at Angmagssalik, Atingat (inner Angmagssalik Fjord) and Mikis Fjord. Descriptions of the plant communities and their associated faunas (including a list of twenty-one Collembola and forty-three Acarina species found) and of the animal communities of the three localities; a comparison of the dry and wet animal communities at Angmagssalik and Ella Island; discussion of collembolids and mites in relation to moisture and drought, and their breeding season. Bibliography (33 items).

Copy seen: DGS; DSI-M.

6536. HAMMER, MARIE SIGNE (JØRGENSEN) 1907-. A quantitative investigation of the microfauna communities of the soil in East Greenland (preliminary report). København, C. A. Reitzel, 1934. 39 p. tables (1 fold.) (Meddelelser om Grønland. Bd. 100, nr. 9)

Based on 94 samples of soil, each of an area of 1/100 sq. meter and about 5 cm. thick (containing upwards of 28,000 animals), collected (mainly) from Ella Island and other localities in the Franz Joseph Fiord region by members of the Danish Three-Year Expedition 1931-34.

The author lists the Collembola and Acarina known (including those new) to East Greenland, describes thirteen plant communities from Ella Island, tabulates the microfauna found in each of them, and in three other localities. From these data, four animal communities are erected and their origin is discussed as being not directly influenced by the plant communities, but caused by the moisture in the soil. Bibliography (33 items).

Copy seen: DLC.

6537. HAMMER, MARIE SIGNE (JØRGENSEN) 1907-. Ein revidiertes Verzeichnis über Grönlandische Milben. (Zoologischer Anzeiger, Juli 1934. Bd. 107, p. 40-47) *Title tr.:* A revised catalog of Greenland mites.

Based on earlier published records and on the many species new to Greenland which were collected by Danish expeditions after 1931. Contains lists of (1) localities on East and West Greenland, and (2) eighty species of mites, with synonyms, references and localities; bibliography (16 items).

Copy seen: DSI-M.

6538. HAMMER, MARIE SIGNE (JØRGENSEN) 1907-. Studies on the oribatids and collembolids of Greenland. København, C. A. Reitzel, 1944. 210 p. illus. (incl. map, diagrs.) fold. tables. (Meddelelser om Grønland. Bd. 141, nr. 3) Also issued as Ph.D. thesis, København, 1944.

Based on Berlese samples collected on the coasts of Greenland, 1931-39, and especially, on the author's investigations of soil microfauna at Angmagssalik and Mikis Fjord, during the 7th Thule Expedition, 1933.

Contents include description of (1) the climate, microclimate and dependence of the flora upon the microclimate. 2. Description of the biotopes. 3. Taxonomic list of Oribatidae and Collembola. 4. Geographic distribution. 5. The animal communities. 6. Reflections on the influence of external factors: humidity, temperature, nutrition, and soil

acidity. 7. Breeding seasons. Oscillations in population and number of generations. 8. Origin of the fauna in Greenland. Bibliography (154 items).

Copy seen: DGS.

6539. HAMMER, MARIE SIGNE (JØRGENSEN) 1907-. The zoology of East Greenland: Collemboles. København, C. A. Reitzel, 1938. 42 p. incl. illus. (maps) tables. (Meddelelser om Grønland. Bd. 121, nr. 2)

Based on published records, from the time of the Ryder Expedition 1891-92 to the British East Greenland Expedition, 1935-36, and on hitherto unprepared material from the Copenhagen Zoological Museum and later expeditions: Thor Expedition, 1935, 6th and 7th Thule Expeditions, 1931-33, and the Three-Year Expedition, 1932-34; with a revision of the material reported by F. Meinert, in *Neuroptera, Pseudoneuroptera* (etc.), 1896.

Contains annotated list, with synonyms, East Greenland records and occurrence, distribution and biology, of the forty (then) known species, with a table summarizing East Greenland distribution and bibliography (72 items). *Copy seen:* DGS; DSI-M.

6540. HAMMER, MARIE SIGNE (JØRGENSEN) 1907-. The zoology of East Greenland, Oribatids. København, C. A. Reitzel, 1946. 39 p. 4 maps. (Meddelelser om Grønland. Bd. 122, nr. 1)

Based on published literature and the collections in the Copenhagen Zoological Museum. A systematic synopsis of the forty-one known East Greenland species of these mites, with synonyms, East Greenland records, distribution, and some biological notes; general remarks and tables on zoogeography, and a bibliography (42 items).

Copy seen: DSI-M; DGS.

6549. HANBURY, DAVID T. A journey from Chesterfield Inlet to Great Slave Lake, 1898-9. (Geographical journal, July 1900. v. 16, p. 63-77, fold. map)

Account of a private trip during June-Sept. 1899 (after a false start in '98) with one Eskimo companion, by dog sledge up the Hudson Bay coast to Chesterfield Inlet, thence by canoe to Baker, Schultz and Aberdeen Lakes and Ark-Eleenik, i.e., Thelon and Hanbury Rivers, to Great Slave Lake. Includes remarks about fish and game on which the travelers depended for food, also comment on the route, in parts hitherto unexplored.

Appendix: Geological data (daily journal entries on the rocks, gravels, signs of glaciation, etc.). Meteorological data (table of daily observations of pressure and temperature, with weather notes). *Copy seen:* DLC.

6550. HANBURY, DAVID T. Sport and travel in the northland of Canada. New York, Macmillan Co.; London, E. Arnold, 1904. xxxii, 319 p. col. front., illus., 36 plates (4 col.) 2 fold. maps.

Narrative of the experiences of the author and two companions, living and traveling in the Barren Grounds, 1901-02; the canoe trip eastward from Fort Resolution on Great Slave Lake via the Thelon River to Baker Lake; the wintering there; several trips from Baker Lake to Depot Island on Hudson Bay and into the country north of Chesterfield Inlet; the return overland to the Dubawnt River, northward from its mouth to the arctic coast, westward from Queen Maud's Gulf to Coppermine River, upstream to the Dease River, and downstream to Great Bear Lake. The author describes the customs of the Eskimos, whose life he shared during twenty months, and (in

less detail) the Indians of the Great Slave Lake region.

Appendices: 1. Geology of North Canada.

2. Flett, J. S. Rock specimens from the northern part of Canada.

3. Elwes, H. J. Lepidoptera from arctic America (fifteen species).

4. Rolfe, R. A. Flora of the arctic coast of North America: Ogden Bay to Coppermine River (100°-115°W.) (fifty-one species).

5. Meteorological observations (daily) Sept. 22, 1901-Sept. 23, 1902.

6. List of articles for trade sent in the whaling schooner, *Frances Allyn*.

7-8. Measurements of Hudson Bay and arctic coast Eskimos.

9. Eskimo words and phrases.

Tabular list of the annelid worms collected during this expedition in Greenland Sea. Indicates location, depth, bottom temperature, bottom sediments and geographical distribu-

tion; also describes twenty-nine new species.

Copy seen: DLC.

6582. HANSEN, GERHARD HENRIK ARMAUER, 1841-1912. Annelider fra den norske Nordhavsexpedition i 1876. (Nytt magasin for naturvidenskapene, 1879, *pub.* 1878. Bd. 24, hefte 1, p. 1-17, plates 1-10) *Title tr.*: Annelida from the Norwegian Northern Sea Expedition in 1876.

Contains critical notes on thirty-five species of annelid worms (Annelida) including descriptions of fifteen new species, collected in 1876 by this Norwegian expedition mostly in Iceland waters, but including three forms from the Svalbard area and some from Greenland Sea.

Copy seen: MH-Z.

6583. HANSEN, GERHARD HENRIK ARMAUER, 1841-1912. Annelider fra den norske Nordhavsexpedition i 1877. (Nytt magasin for naturvidenskapene, 1879, *pub.* 1878. Bd. 24, hefte 3, p. 267-72, 2 plates) *Title tr.*: Annelida from the Norwegian Northern Sea Expedition in 1877.

Contains a list of forty-seven species of annelid worms (Annelida) with descriptions of three new species, collected in 1877 in northern Norwegian waters, Greenland Sea and Jan Mayen waters.

Copy seen: MH-Z.

6584. HANSEN, GERHARD HENRIK ARMAUER, 1841-1912. Annelider fra den norske Nordhavsexpedition i 1878. (Nytt magasin for naturvidenskapene, 1880. Bd. 25, hefte 3, p. 224-34, plate 2) *Title tr.*: Annelida from the Norwegian Northern Sea Expedition in 1878.

Contains an enumeration of fifty-five species of annelid worms (Annelida) collected by this Norwegian expedition in 1878, with descriptions of nine new species and critical notes on some noteworthy forms; includes many native to Greenland and Svalbard waters.

Copy seen: MH-Z.

6585. HANSEN, GERHARD HENRIK ARMAUER, 1841-1912. Spongiadae. Christiania, Grøndahl & Søn, 1885. 2 p. l., 25 p., 1 l. 7 plates, map. (Den Norske Nordhavs-expedition 1876-1878. Bd. 3, Zoology, hefte 3)

A list, with descriptions, of forty-six (including thirty new) species of sponges, and a table of information on the position, depths, bottom tempera-

ture and bottom sediments of this expedition's stations in Greenland Sea.

Copy seen: DLC.

6586. HANSEN, GODFRED, 1876-1927. Roald Amundsen. (Geografisk tidsskrift, København, 1928. Bd. 31, p. 194-98)

Remarks on Roald Amundsen's fatal attempt (in the French flying boat *Latham*) to rescue the *Nobile Italia* Expedition, 1928, and evaluation of Amundsen as geographer and explorer.

Copy seen: DLC.

6587. HANSEN, GODFRED, 1876-1927. Roald Amundsen og Nordpolen. (Geografisk tidsskrift, København, 1925. Bd. 28, p. 77-88) *Title tr.*: Roald Amundsen and the North Pole.

Describes Amundsen's attempts to reach the North Pole by ship and preparations for his new expedition to reach it by plane. Summary in English.

Copy seen: DLC.

6588. HANSEN, GODFRED, 1876-1927. Den tredje Thule-expedition; Norges depot-expedition til kaptajn Roald Amundsen. (Geografisk tidsskrift, 1921-22, København, 1922. Bd. 26, p. 24-30, illus.) *Title tr.*: The Third Thule Expedition; Norway's Depot Expedition for Captain Roald Amundsen.

Account of the Third Thule Expedition, 1919, under Godfred Hansen (planned by Knud Rasmussen and financed by the Norwegian government) to place depots for Roald Amundsen in northern Greenland and on Ellesmere Island. Describes the journey from Copenhagen to Thule, the author's sojourn there, his sledge trip to Cape Columbia on the northern coast of Ellesmere Island and the return trip home.

Copy seen: DLC.

6589. HANSEN, GODFRED, 1876-1927. Den tredje Thuleekspedition; Norges depotekspedition til Roald Amundsen. (In: Amundsen, R. E. G. Nordostpassagen, 1921, p. 437-62, plates, sketch map) *Title tr.*: The Third Thule Expedition; Norway's Depot Expedition for Roald Amundsen.

Report of the Third Thule Expedition, 1919 (planned by Knud Rasmussen and financed by the Norwegian government), to place depots in northern Ellesmere Island for the return trip of Roald Amundsen's proposed sledge journey (which never material-

ized) to the Pole during the *Maud* Expedition. Gives an account of the author's trip from Copenhagen via Upernavik to Thule, his preparations there for the expedition, Aug. 1919-March, 1920, the sledge trip along Greenland's west coast, across Kennedy Channel, along the coast of northeast Ellesmere Island, and the placing of depots of supplies at Cape Columbia (83°N. 70°W.) and other locations.

6592. HANSEN, HANS JACOB, 1855-1936. Crustacea Copepoda. II. Copepoda parasita and hemiparasita. Copenhagen, B. Luno, 1923. 2 p. l., 92 p. 5 plates, table. (Ingolf-expedition, 1895-1896. [Reports] v. 3, pt. 7)

Based on collections made by the

cruiser *Ingolf*, and other Danish museum collections, from Davis and Denmark Straits and Greenland Sea between Jan Mayen and Iceland. Contains a classified list, with synonyms, locations and distribution, of one hundred one (including with descriptions, twenty-nine new) species of parasitic crustaceans from fish, crustacean, and annelid hosts, and semiparasites and commensal forms. *Copy seen:* DSI-M.

6593. HANSEN, HANS JACOB, 1855-1936. Crustacea Malacostraca. I. Copenhagen, B. Luno, 1908. 1 p. l., 120 p. illus., 5 plates, table, chart. (Ingolf-expedition, 1895-1896. [Reports] v. 3, pt. 2)

Based on collections of the cruiser *Ingolf*, and other collections from Davis and Denmark Straits and Greenland Sea between Iceland and Jan Mayen. Contains remarks on the classification of the subclass, and lists, with synonyms, references, localities, and distribution (geographic and bathymetric) of seventy-nine (including with descriptions, three new) species of decapods, of ten (one new) species of Euphausiacea, and thirty-five (four new) species of Mysidacea.

Copy seen: DSI-M.

6594. HANSEN, HANS JACOB, 1855-1936. Crustacea Malacostraca. II. Copenhagen, B. Luno, 1913. 2 p. l., 145 p. 12 plates. (Ingolf-expedition, 1895-1896. [Reports] v. 3, pt. 3)

Based on collections of the cruiser *Ingolf*, and on other collections from Davis and Denmark Straits, and Greenland Sea between Iceland and Jan Mayen. Contains remarks on the literature, geographical and bathymetric distribution, sexual differences, and taxonomic questions of the order Tanaidacea; and a list, with descriptions, localities, and distribution, of seventy-eight (including fifty-two new) species.

Copy seen: DSI-M.

6595. HANSEN, HANS JACOB, 1855-1936. Crustacea Malacostraca. III. Copenhagen, B. Luno, 1916. 3 p. l., 262 p. 16 plates. (Ingolf-expedition, 1895-1896. [Reports] v. 3, pt. 5)

Based on collections of the cruiser *Ingolf* in Davis and Denmark Straits, and Greenland Sea between Jan Mayen and Iceland, and on other Danish collections. Contains remarks on classification and morphology, and on geo-

graphic and bathymetric distribution of the order Isopoda; and a list, with synonyms, references, descriptions, locations and general distribution, of one hundred sixty-four (including seventy new) species. *Copy seen:* DSI-M.

6596. HANSEN, HANS JACOB, 1855-1936. Crustacea Malacostraca. IV. Copenhagen, B. Luno, 1920. 2 p. l., 86 p. 4 plates, table. (Ingolf-expedition, 1895-1896. [Reports] v. 3, pt. 6)

Based on collections of the cruiser *Ingolf* in Davis and Denmark Straits, and Greenland Sea between Jan Mayen and Iceland, and on other Danish collections. Contains lists, with synonyms, localities, and data on general distribution, of sixty-six (including with descriptions, twenty-four new) species of Cumacea, and of two species of Nebaliacea. *Copy seen:* DSI-M.

6597. HANSEN, HANS JACOB, 1855-1936. Kara-havets pycnogonider. (In: Lütken, C. F. Dijnphna-togtets zoologiske-botaniske udbytte, 1887, p. 155-81, plates 18-19) *Title tr.:* Pycnogonids of the Kara Sea.

List, with references to literature, descriptions and occurrence, of thirteen (including one new) species of sea spiders. Summary in French, p. 507-508. *Copy seen:* DLC.

6598. HANSEN, HANS JACOB, 1855-1936. Malacostraca marina Grønlandiae occidentalis. Oversigt over det vestlige Grønlands fauna af malakostrike havkrebsdyr. (Dansk naturhistorisk forening. Videnskabelige meddelelser, 1887, pub. 1888. Aarg. 39, p. 5-226, plate II-VII, col. fold. map) *Title tr.:* Survey of West Greenland's malacostracan marine fauna.

Contains survey of previous literature; general remarks on investigations of this subclass of crustaceans off the west coast of Greenland, with record of localities where work was done. Systematic enumeration, with references to literature, occurrence and locations of collecting stations, some Latin diagnoses, notes, etc., of more than two hundred species, represented by specimens in collections in the natural history museums of Stockholm and Copenhagen. *Copy seen:* DLC.

6603. HANSEN, K. Om mulighed for landbrug i Grønland. (Grønlandske selskab. Aarsskrift, 1925-26, p. 70-88, table) *Title tr.:* Concerning the possibilities for farming in Greenland.

Discusses geographic position, area, fertility, climate, farming by early colonists, vegetation, soil, climatic changes through the ages, sheep and cattle raising, etc., distribution of farming places in southern and western Greenland; with statistics.

Copy seen: NNNStef.

6604. HANSEN, PAUL M. The age-composition of the stock of cod in West Greenland waters in the years 1924 to 1938. (International Council for the Study of the Sea. Rapports et procès-verbaux, 1938-39, *pub.* 1939. v. 109, pt. 3, p. 60-65, diags.)

The age determinations were made by otoliths (calcareous concretions from the ear, which show the winter zones more distinctly than do the fish's scales). Material was collected at fishing stations and on offshore banks as far north as Sukkertoppen.

Copy seen: DF.

6605. HANSEN, PAUL M., and others. Cod marking experiments in the waters of Greenland, 1924-1933. København, C. A. Reitzel, 1935. 119 p. incl. 25 sketch charts, tables. (Denmark. Kommissionen for Danmarks fiskeri og havundersøgelser. Meddelelser; ser. fiskeri. Bd. 10, nr. 1) *Other authors:* Ad. S. Jensen and Å. Vedel Tåning.

Contains (section 1) a review of experiments, methods, etc., conditions affecting results, and notes on evidence of periodic alterations in the marine fauna of Greenland; (section 2) the migrations and age and size of cod, direction and extent, time in sea and rate of migration for West Greenland and East Greenland (between Angmagssalik and Iceland); and (section 3) general survey of the marking experiments; with a bibliography.

Copy seen: DF.

6606. HANSEN, PAUL M. Greenland. (International Council for the Study of the Sea. Annales biologiques, 1939-41, *pub.* 1943. v. 1, p. 106-124, incl. 12 p. of tables, diags.)

A survey of the area of offshore banks between 62°N. and 68°15'N., and on the west coastal waters from Cape

Farewell to Umának, carried out as part of routine work, on the "north-western area", by the Council. Includes statistics on age groups, size, marking experiments, etc. of the cod, the small cod (ovak), halibut, Greenland halibut, and capelin. *Copy seen: DF.*

Contains a general description of the Loucheux (or Kutchin) Indians, as the author observed them, their customs, legends and beliefs.

Copy seen: DLC.

6652. HARDY, A. C., and others. The arctic plankton collected by the *Nautilus* Expedition, 1931. Parts I-III. (Linnean Society of London. Journal; Zoology, Apr. 1936. v. 39, p. 391-412, illus.)

During the voyage, Aug. 30-Sept. 5, the submarine *Nautilus*' scientific staff collected ten samples of plankton at five stations north of Spitsbergen, between 81°01'N. and 81°50'N., the most northerly open water plankton samples (then) collected by an expedition. These papers form a partial report on the results.

Contents: 1. Hardy, A. C. General account.

2. Farran, G. P. Report on the Copepoda.

3. Garstand, W., and E. Georgeson. Report on the appendicularians.

Copy seen: DSI-M.

6653. HARDY, ROBERT MacDONALD, 1906- . Research on frost action in soils. Why thousands of miles of

highways are severely damaged by frost every year; how to build runways and buildings on permafrost foundations. (Roads and bridges, Sept. 1946. v. 84, no. 9, p. 74-76, 102, illus.)

Paper read at "the first refresher course on soil mechanics and concrete," University of Alberta. Contains a review of the research of Taber, Beskow and Casagrande; discussion of methods for combating frost heaving and for building on permafrost ground.

Copy seen: DLC.

6654. HARDY, ROBERT MacDONALD, 1906- , and E. D'APPOLONIA. Permanently frozen ground and foundation design. (Engineering journal, Jan. 1946. v. 29, no. 1, p. 4-11, illus., diagrs.)

Pt. 1, by R. M. Hardy, "deals with the theory of frost action in soils and presents results of tests . . . run on samples of frozen soil from Alaska and the Yukon area".

Pt. 2, by E. d'Appolonia, "deals with problems encountered with foundations of structures and aircraft runways" in permafrost areas. **Copy seen:** DLC.

6655. HARE, F. KENNETH, and M. R. MONTGOMERY. Ice, open water, and winter climate in the eastern Arctic of North America: Part I-II. (Arctic, Sept.-Dec. 1949. v. 2, p. 79-89, 149-64, illus., 3 sketch maps, diagrs.)

Results of part of the research done by a group working at McGill University on the climatology of eastern Canada.

Contents: Pt. 1. Hare, F. K. Distribution of winter temperature over the eastern Arctic and sub-Arctic.

From climatic data for Canadian and Greenland Arctic, 1940-48, the author presents new air temperature maps, and evidence of the freezing over of Hudson Bay after January; discusses the open water bodies as "gulf of warmth" in Davis Strait-Baffin Bay, Hudson Strait and Hudson Bay.

Pt. 2. Montgomery, M. R. The pattern of winter ice.

The author summarizes present knowledge of winter conditions in each of the "gulfs of warmth", based on records of observers on land and sea in earlier years, and on flight observations 1927-28 (Hudson Strait), also winters of 1948-49 (Hudson Bay). Indicates that in late winter and early

spring Hudson Bay was completely ice-covered (1947-48, 1948-49) and that further observations are planned for 1949-50. **Copy seen:** CaMAI; DLC.

6667. HARPER, FRANCIS, 1886-. Amphibians and reptiles of the Athabasca and Great Slave Lakes region. (Canadian field naturalist, Mar. 1931. v. 45, p. 68-70)

Annotated record, of frogs heard and seen in the region south and east of Great Slave Lake, during a Canadian Geological Survey trip in 1914.

Copy seen: DLC.

6668. HARPER, FRANCIS, 1886-. The Athabasca-Great Slave Lake Expedition, 1914. (Canada. Geological Survey. Summary report, 1914, pub. 1915. p. 159-63)

Report of the field naturalist, on the trees, mammals and birds, (including a special section on the wood buffalo) in the basin of the Taltson River flow-

ing north into Great Slave Lake, 61°22' N. 112°45' W. *Copy seen:* DLC.

6669. HARPER, FRANCIS, 1886-. Fishes of the Nueltin Lake Expedition, Keewatin, 1947. Part 2—Historical and field notes. (Academy of Natural Sciences, Philadelphia. Proceedings, 1948. v. 100, p. 153-84, 2 plates)

During the Nueltin Lake Expedition, financed by the U. S. Office of Naval Research and administered by the Arctic Institute of North America, Francis Harper made intensive biological studies about Windy River and Windy Bay, at the northwestern side of the lake (about 60°50'N. 99°35'W.). This "paper is one of a contemplated series of reports on the fauna and flora collected and observed during the course of this expedition." It includes a fully annotated list of the sixteen species of fresh-water fishes, all, apparently, that were previously known from Keewatin; a simple list with localities of twelve marine species recorded from Keewatin waters; and a bibliography (40 items). *Copy seen:* CaMAI; DSI-M.

6670. HARPER, FRANCIS, 1886-. In caribou land; exploration in one of the least-known sections of Canada, where timber meets tundra. (Natural history, May 1949. v. 58, p. 224-31, 239-40, illus., incl. 2 sketch maps)

Account of the Nueltin Lake Expedition, 1947, to an area just north of the Keewatin-Manitoba boundary at about 100°W., with description of the behavior of caribou, as observed during their migration, and notes on their present status in the Keewatin regions visited. *Copy seen:* DLC.

6671. HARPER, FRANCIS, 1886-. Mammals of the Athabasca and Great Slave Lakes region. (Journal of mammalogy, Feb. 1932. v. 13, p. 19-36, 3 plates)

Based on observations and collections of a Canadian Geological Survey exploration in 1914, a brief account of the trip, and an annotated list of twenty-nine species, with a bibliography (14 items). *Copy seen:* DSI-M.

6672. HARPER, FRANCIS, 1886-. Physiographic and faunal areas in the Athabasca and Great Slave Lakes region. (Ecology, Jan. 1931. v. 12, p. 18-32, illus., sketch map)

Contains a study of Tazin Highlands, a part of the Canadian zone, with temperature practically the sole factor differentiating the vegetation and fauna between it and adjoining Hudsonian zone. *Copy seen:* DA.

6673. HARPER, FRANCIS, 1886-. Some plants of the Athabasca and Great Slave Lake region. (Canadian field naturalist, May 1931. v. 45, p. 97-107)

List, with notes on occurrence and localities, of over one hundred fifty plants, including lichens, mosses, ferns, trees and flowering plants, observed by the author in the region south and east of Great Slave Lake, during a Canadian Geological Survey trip, 1914.

Copy seen: DLC.

6676. HARRIMAN ALASKA EXPEDITION. 1899. Harriman Alaska series. vol. I-V, VIII-XIV. Washington, Smithsonian Institution, 1910-14. 12 v. in 13. fronts. (v. 1-5, 8-9) illus., plates (part col.) maps. Edited by C. H. Merriam.

A series of volumes containing fifty-six papers, twenty-one of which were originally published in the Proceedings of the Washington Academy of Sciences, 1900-02, and later privately reprinted, with additional papers, as Harriman Alaska Expedition, Alaska, v. 1-5, 8-13, through Doubleday Page & Co., New York, 1902-05. The publication of the series was transferred to the Smithsonian Institution in 1910, and became the Harriman Alaska

Series, the "remainder" of the edition (v. 1-5, 8-13 already published) and any further volumes (e.g. v. 14 *pub.* 1914) becoming publications of the Smithsonian Institution, and bearing special Smithsonian title pages.

The expedition was organized and financed by Edward H. Harriman, and included twenty-five scientists. During the summer of 1899, it cruised the waters off southeastern and southern Alaska and the eastern Aleutians, and Bering Sea, making stops for scientific investigations and collecting at many places, among others, Wrangell, Sitka, Lynn Canal, Glacier Bay, Yakutat, Prince William Sound, Cook Inlet, Seldovia, Kukak Bay, Kodiak and Popoff Islands, Dutch Harbor, the islands of Bering Sea, Port Clarence, Alaska, also Plover Bay on Chukotsk Peninsula.

Contents: v. 1. Burroughs, John, and others. *Narrative, glaciers, natives.* 1902. xxxix, 183 p. illus., 59 plates, fold. map.

6684. HARRIS, ROLLIN ARTHUR, 1863-1918. Arctic tides. Washington, U. S. Govt. Print. Off., 1911. 103 p. 3 charts (1 fold.)

Contents: 1. Observations taken on the northern coasts of Grant Land, Greenland, and Alaska. (From Peary Expedition, 1908-09).

2. Harmonic constants for arctic seas.

3. Nonharmonic tidal quantities, and the set of the currents.

4. Discussion and signification of results.

This paper aims "to bring together in one form or another practically all available results pertaining to tides in arctic waters." In chapter 4 appears the statement of the author's much discussed theory (later disproved) on "the necessity of a tract of land, archipelago, or an area of shallow water in the Arctic Ocean" to explain the tidal action.

Maps: 1. Arctic currents and land according to A. Petermann, 1865.

2. Reproduction of Nansen's bathymetrical chart.

3. Cotidal lines for the arctic regions.

Copy seen: DLC.

6685. HARRIS, ROLLIN ARTHUR, 1863-1918. Some indications of land in the vicinity of the North Pole. (National geographic magazine, June 1904. v. 15, p. 255-61, sketch chart)

Discussion of currents and tides in the Arctic Basin and North American arctic seas, and the author's explanation of these phenomena in his theory of land near the Pole.

Copy seen: DLC.

6686. HARRIS, THOMAS MAXWELL, 1903-. The fossil flora of Scoresby Sound, East Greenland. Part 1. Cryptogams (exclusive of Lycopodiales). København, C. A. Reitzel, 1931. 102 p. illus., 18 plates. (Meddelelser om Grønland. Bd. 85, nr. 2)

List, with synonymy, localities, descriptions and comparisons, of about thirty species of ferns and other cryptogams, collected during the Danish Expedition to East Greenland, 1926-27. Bibliography, p. 99-102.

Copy seen: DLC.

6687. HARRIS, THOMAS MAXWELL, 1903-. The fossil flora of Scoresby Sound, East Greenland. Part 2. Description of seed plants, Incertae sedis, together with a discussion of certain cycadophyte cuticles. København, C. A. Reitzel, 1932. 112 p. illus., 9 plates. (Meddelelser om Grønland. Bd. 85, nr. 3)

Based on material collected during the Danish Expedition to East Greenland, 1926-1927. Contains (1) descriptions of twenty-six (including eleven new) species of leaves, believed to belong to the seed plants; (2) discussion of the stomata of fossil cycads. Bibliography, p. 110-12.

Copy seen: DLC.

6688. HARRIS, THOMAS MAXWELL, 1903-. The fossil flora of Scoresby Sound, East Greenland. Part 3. Caytoniales and Bennettitales. København, C. A. Reitzel, 1932. 133 p. illus., 19 plates. (Meddelelser om Grønland. Bd. 85, nr. 5)

Based on material collected during the Danish Expedition to East Greenland, 1926-1927. Contains (1) list, with synonymy, localities and discussions of six (including five new) species of seed plants and nineteen species of leaves; (2) descriptions (including morphological discussions) of leaves and seed plants. Bibliography, p. 131-33.

Copy seen: DLC.

6689. HARRIS, THOMAS MAXWELL, 1903-. The fossil flora of Scoresby Sound, East Greenland. Part 4. Ginkgoales, Coniferales, Lycopodiales and isolated fructifications. København, C. A. Reitzel, 1935. 176 p. illus., 29 plates. (Meddelelser om Grønland. Bd. 112, nr. 1)

Based on materials collected during the Danish Expedition to East Greenland, 1926-27. Contains (1) record (with diagnoses, synonymy, occurrence in Greenland and discussion), of leaves of fourteen species of the family Ginkgoales; (2) the foliage of twenty-eight species of the family Coniferales; (3) male and female cones; (4) spores of fourteen species of club moss. Bibliography, p. 173-76.

Copy seen: DLC.

6690. HARRIS, THOMAS MAXWELL, 1903-. The fossil flora of Scoresby Sound. Part 5. Stratigraphic relations of the plant beds. København, C. A. Reitzel, 1937. 114 p. illus., 1 plate, fold. table. (Meddelelser om Grønland. Bd. 112, nr. 2)

Contains review of one hundred ninety-seven fossil species collected during the Danish Expedition to East Greenland, 1926-27 and described by the author in pt. 1-4 of this series; (2) discussion of the plant beds, coal, fossil animals, horizontal and vertical distribution Scoresby Sound Liasso-Rhaetic; (3) discussion of the stratigraphy of comparable areas in Europe; (4) comparison of the floras of Germany, Sweden and Greenland; and (5) discussion of other floras of Upper Triassic to Lower Liassic age. Bibliography, p. 107-112.

Copy seen: DLC.

6691. HARRIS, THOMAS MAXWELL, 1903-. Liassic and Rhaetic plants collected in 1936-38 from East Greenland. København, C. A. Reitzel, 1946. 38 p. illus. (Meddelelser om Grønland. Bd. 114, nr. 9).

Results of the Danish Geological Expedition to East Greenland, 1936-38. Description of fossil specimens from northern and western Jameson Land and Traill Island, belonging to twenty-three species, a few of which are new to Greenland, and one of which is described as new; with remarks on their relation to nearby occurrences of Liasso-Rhaetic floras, and on the leaf structure of some Mesozoic ferns about which little was known before this collection was made. Bibliography (35 items). *Copy seen: DLC.*

6692. HARRIS, THOMAS MAXWELL, 1903- . The Rhaetic flora of Scoresby Sound, East Greenland. (Meddelelser om Grønland, 1926. Bd. 68, p. 43-148, illus., 13 plates)

Descriptions, with synonymy and references to literature, of fossil species collected in the Scoresby Sound region during the Carlsberg Fund Expedition to East Greenland, 1898-1900; with a critical review of the value of the previous identifications and discussion of climatic conditions in this area in the Rhaetic period.

6693. HARRISON, ALFRED H. In search of a polar continent, 1905-07. London, E. Arnold, 1908. xx, 292 p. 32 plates, incl. ports., fold map.

Account of the author's exploration and mapping of part of the Mackenzie delta, his sledge trips in the region, from Herschel Island east to Cape Bathurst, and a boat trip to southern Banks Island. Includes descriptions of the Eskimos among whom he lived, of travel conditions; the plight of Beaufort Sea whalers; food for dogs and sledging rations.

Map: Survey of part of Mackenzie delta and adjacent region; Baillie and Herschel Islands (as insets).

Copy seen: DLC; NNStef.

6694. HARRISON, ALFRED H. In search of an arctic continent. (Geographical journal, Mar. 1908, v. 31, p. 277-87, fold. map)

Paper read before the Royal Geographical Society, Dec. 1907, giving an account of the author's trip down the Mackenzie River and his sojourn in the

delta region 1905-07, while he surveyed the area; includes descriptions of the country, and remarks on drifts in the polar sea. *Copy seen: DLC.*

6695. HARRISON, ALFRED H. Proposed sledge expedition across the north polar region. (Geographical journal, June 1909. v. 33, p. 689-97)

Paper read before the Research Department of the Royal Geographical Society, stating the author's plan to cross the polar basin by sledge, and indicating the rations and equipment proposed for the trip. Following the paper is extended discussion (in which the impracticability of the plan is represented) by Dr. Strahan, Col. Feilden, Major Darwin, and Sir Lewis Beaumont.

6700. HARSHBERGER, JOHN WILLIAM, 1869-1929. The gardens of The Faeroes, Iceland, and Greenland. Geographical review, July 1924, v. 14, p. 404-15)

Contents include: Greenland, p. 411-15, describing the vegetable gardens and uncultivated useful plants on West Greenland shores. *Copy seen:* DLC.

6701. HARSHBERGER, JOHN WILLIAM, 1869-1929. Tundra vegetation of central Alaska directly under the Arctic Circle. (American Philosophical Society. Proceedings, 1928. v. 67, p. 215-34, illus.)

Description of the tundra of Alaska in general and of the Tanana Hills in detail, including tundra soil, facies of vegetation, and plant associations, with list of lichens and notes on mosses, flowering plants, trees and shrubs, herbs, and a single fern.

Copy seen: DLC.

6702. HARSHBERGER, JOHN WILLIAM, 1869-1929. Unsolved problems in arctic plant geography. (In: American Geographical Society, N. Y. Problems of polar research, 1928. p. 142-53)

Suggestions concerning research on plants of Vinland, dispersal of circum-polar plants, survival of the ice age, plant ecology of solifluction surfaces, frozen ground, etc., and the tundra as reindeer pasture. *Copy seen:* DLC.

6703. HART, HENRY CHICHESTER. On the botany of the British Polar Ex-

pedition of 1875-6. (Journal of botany, 1880. v. 9, p. 52-56, 70-79, 111-15, 141-45, 177-82, 204-208, 235-42, 303-306)

The author accompanied the *Discovery*, making collections and field notes along the coasts of West Greenland and eastern Ellesmere Island from Egedesminde (68°42'N.) to Cape Columbia (83°08'N.). He reports here fully on his notes concerning local distribution, circumstances of growth and habitat; gives a table of one hundred thirty-nine species arranged by order of highest latitude in which specimens were found, also annotated list, with localities of the species.

This paper amplifies the brief report published in appendix to G. S. Nares' *Voyage to the Polar Sea*, 1878, on collections made north of 80°N.

6708. HARTLAUB, CLEMENS CORNELIUS, 1858- . Einleitung. Zoologische Ergebnisse einer Untersuchungsfahrt (etc.) nach der Bäreninsel und Westspitzbergen im Sommer 1898 auf S.M.S. "Olga". (Wissenschaftliche Meeresuntersuchungen, 1900. Neue Folge, Bd. 4, Abt. Helgoland, p. 171-93, illus., tables, fold. chart) *Title tr.:* Introduction. Zoological results of a research expedition (etc.) to Bear Island and West Spitsbergen, summer 1898, on H.M.S. *Olga*. I.

The ship made two voyages, one from Tromsø, Norway, to Bear Island and to Bell Sound, Ice Fiord, King's Bay, Magdalena Bay in West Spitsbergen, and Amsterdam Island, and return, July 1-30; the second from Hammerfest, Norway, into the sea south of West Spitsbergen and eastward to about 22°E., and return, Aug. 3-15.

This paper gives a brief narrative of the two cruises, notes on special features of the vessel, discussion of the marine fauna, and tables showing zoological records of net and dredge hauls, their position, depth, character of bottom, surface temperature and salinity, and remarks.

Contains a list of sixty-five mosses and liverworts, collected in Sweden and Norway by various collectors, with data on distribution and habitat; includes some native to Swedish Lapland and arctic Norway.

Copy seen: MH-A.

6717. HARTMAN, CARL JOHAN, 1790-1849. Anmärkningar vid Prof. Fries "Reservation mot en del antagna åtsigter öfver åtskilliga Svenska vexter." (Botaniska notiser, 1845, no. 9-10, p. 137-65) *Title tr.*: Comments on Prof. Fries' "Reservation on forming a fixed opinion about certain Swedish plants."

Contains some critical notes and additional data on sixty species of flowering plants and vascular cryptogams discussed in Fries, E. M., Reservation mot, etc., 1844, q.v.; refers to some species native to Swedish Lapland.

Copy seen: MH-A.

6718. HARTMAN, CARL JOHAN, 1790-1849. Motiver för behandlingen af en del vexter i undertecknads Svensk och norsk excursions-flora, Stockholm 1846. (Botaniska notiser, 1846, no. 11-12, p. 161-80) *Title tr.*: Reason for the identification of plants in the author's "Svensk och norsk excursions-flora," Stockholm, 1846.

Contains a taxonomic discussion giving explanations and justification of the author's determination of about one hundred plants described in his Svensk och norsk excursions-flora, Stockholm, 1846; includes references to some species native to Swedish Lapland and northern Norway.

Copy seen: MH-A.

6719. HARTMAN, OLGA, 1900- . The polychaetous annelids of Alaska. (Pacific science, Jan. 1948. v. 2, p. 3-58, illus., 2 maps)

A résumé of early research on these worms, and a classified list of species known from Alaska. Discussion of over one hundred (including, with descriptions, six new) species collected during the Alaska King Crab Investigation of the U. S. Fish and Wild Life Service in 1940-41, from shallow coastal waters of southwestern Alaska (in Prince William Sound region, off the coasts of Alaska Peninsula) and in Bering Sea northwest of St. Lawrence Island (three stations in deeper waters, 100-150 meters). Includes a station list, showing location, depth or tide; and a bibliography (124 items).

Copy seen: DLC.

6720. HARTMAN, OLGA, 1900- . Review of the annelid worms of the family Nephtyidae from the northeast Pacific, with descriptions of five new species. (U. S. National Museum. Proceedings, 1938, pub. 1940. v. 85, p. 143-58, illus.)

Review and descriptions based on several collections containing specimens from various localities, including the waters south and east of Alaska Peninsula. Bibliography, p. 157-58.

Copy seen: DLC.

6721. HARTMAN, ROBERT. De svenska arterna af släktet *Utricularia*. (Botaniska notiser, 1857, no. 2, p. 25-32) *Title tr.:* On Swedish species of the genus *Utricularia*.

Contains Latin descriptions of six Swedish species of herbaceous genus *Utricularia*, including *U. vulgaris*, *U. intermedia* and *U. minor*, native to Lule and Torne Lappmark.

Copy seen: MH-A.

6722. HARTMAN, GEORG. Der Einfluss des Treibeises auf die Bodengestalt der Polargebiete. (Verein für Erdkunde zu Leipzig. Beiträge zur Geographie des festen Wassers. No. 3. Pub. in its: Wissenschaftliche Veröffentlichungen, 1891. Bd. 1, p. 173-286, 2 fold. charts) *Title tr.:* The influence of drift ice on the physiography of the Polar region.

Contains in pt. 1 a discussion of drift ice as an erosive agent in the form of an ice foot along shore, grounded ice, or icebergs.

Pt. 2. Drift ice as an agent in building shores, strand walls, islands and sandbanks with material dug out of the ocean bottom; also in building lagoons and terraces; with a theory of shore lines.

Pt. 3. Drift ice as an agent of transportation. (1) The role of ice erosion in the lading of ice by wind-borne, stream-borne and volcanic materials, or matter which drops from a coast to the ice. (2) Summary of materials transported by the ice of individual regions. (3) The new land forms created by the transport: erratic boulders, banks, shoals, etc., the levelling of the sea bottom; and (4) drift ice as a distributing and transporting agent for plants and animals.

Pt. 4. Other mechanical effects of drift ice, on swell, tides, wind, salinity, sea level, currents, and on the organic life in the sea.

6723. HARTMEYER, ROBERT, 1874-1923. Ascidiacea. (Part 1-II). Zugleich eine Übersicht über die arktische und boreale Ascidiendfauna auf tiergeographischer Grundlage. Copenhagen, B. Luno, 1923-24. 2 pts. (365, 275 p.) illus., plate, table. (Ingolf-expedition, 1895-1896. [Reports] v. 2, pts. 6-7)

Based on the collections made from the cruiser *Ingolf* in Davis and Denmark Straits and Greenland Sea between Jan Mayen and Iceland, and on collections of several Danish expeditions in the same waters (notably the *Fylla*, 1884, 1886, 1889-91, and the *Tjalfe* 1908-09)

Contains a list of expeditions and stations where material was collected; a classified list, with synonymy, descriptions, locations and northern hemispheric distribution, of one hundred seventy-eight (including three new) species of tunicates; with a bibliography (about 685 items).

Copy seen: DSI-M.

6724. HARTMEYER, ROBERT, 1874-1923. Die Ascidien. Zoologische Ergebnisse einer Untersuchungsfahrt (etc.) nach der Bäreninsel und Westspitzbergen, ausgeführt im Sommer 1898 auf S.M.S. "Olga". V. (Wissenschaftliche Meeresuntersuchungen, 1904. Neue Folge, Bd. 5, Abt. Helgoland, p. 85-95) *Title tr.:* The ascidians. Zoological results of a research expedition (etc.) to Bear Island and West Spits-

bergen in the summer of 1898 on S.M.S. "Olga". V.

Contains a list, with synonymy, locations, and arctic distribution, of eighteen species of tunicates, five of which are new to West Spitsbergen waters; and an arrangement of data by station number, showing position, depth and type of bottom.

Copy seen: DF.

6725. HARTMEYER, ROBERT, 1874-1923. Die Ascidien der Arktis. (*In*: Fauna arctica, 1903. Bd. 3, p. 91-412, illus., 11 plates, tables) *Title tr.*: Ascidiens (tunicates) of the Arctic.

Contains a chronological (and lengthy) discussion of the literature; a list of thirty-eight species collected by the German Expedition to the Arctic Ocean in 1898, with a table of stations showing depth and type of bottom where these were collected.

Nine other lists from various expeditions and museum collections, representing Gulf of Alaska, Bering Sea, Aleutian waters, Baffin Bay-Davis Strait, Barents Sea, Kara Sea, and the coastal waters of Norway.

A systematic list, with full notes on geographic and vertical distribution, synonymy, references, and morphology, of ninety-one species of arctic tunicates.

Full discussion and tabular representation of geographic and vertical distribution, including Svalbard waters, Barents and White Seas, the Siberian seas, Bering Sea, Canadian Arctic waters, Baffin Bay-Davis Strait, Labrador and Greenland Seas. Bibliography (228 items).

Copy seen: DA.

6726. HARTMEYER, ROBERT, 1874-1923. Die Ascidien der Danmark Expedition. Danmark-ekspeditionen til Grønlands nordøstkyst, 1906-1908. Bd. 5, nr. 3. (Meddelelser om Grønland, 1912. Bd. 45, p. 225-36) *Title tr.*: Ascidiens of the Danmark expedition.

Contains list, with synonymy, localities, and discussion, of seven species of tunicates from Danmarks Havn, (76° 46'N. 18° 45'W.) and Dove Bay waters of East Greenland, with a bibliography.

Copy seen: DLC.

6727. HARTMEYER, ROBERT, 1874-1923. Ascidiæ. (*In*: Conspectus faunae groenlandicæ 3. del, nr. 10. *Pub.* in:

Meddelelser om Grønland. 1914. 23. hefte, p. 1081-1117)

Summary of earlier research, and list, with synonymy, references to literature, localities and remarks, of twenty-nine species of tunicates from the west and east coasts of Greenland; bibliography, p. 1115-17)

Copy seen: DLC.

6728. HARTMEYER, ROBERT, 1874-1923. Studien an westgrönländischen Ascidien (Ergebnisse der Einsammlungen von Dr. V. Nordmann im Nordre Strømfjord, Sommer 1911, und Dr. K. Stephensen im Kvanefjord, Bredefjord und Skovfjord, Sommer 1912). (Meddelelser om Grønland, 1923. Bd. 62, p. 1-137, illus., 2 sketch maps) *Title tr.*: Studies on West Greenland Ascidiens (reports of the collections of Dr. V. Nordmann in Nordre Strømfjord during the summer of 1911 and Dr. K. Stephensen in Kvanefjord, Bredefjord and Skovfjord during the summer of 1912.

List, with synonymy, localities and discussions, of twenty-seven (including one new) species of tunicates; with list of stations and discussion of distribution in the fiords investigated.

Copy seen: DLC.

6729. HARTMEYER, ROBERT, 1874-1923, and W. MIELCK. Ascidien aus dem Barentsmeer. (Untersuchungsfahrt Reichsforschungsdampfers "Poseidon" in das Barentsmeer im Juni und Juli 1913). (Wissenschaftliche Meeresuntersuchungen, 1919. Neue Folge, Bd. 13, Abt. Helgoland, p. 125-36, sketch chart) *Title tr.*: Ascidiens from Barents Sea. (Research expedition of the research steamer *Poseidon* in Barents Sea, June and July 1913).

Contains a list, with synonymy, localities and distribution, of eleven species of tunicates.

Appendix: Mielck, W. Distribution and ecology of ascidiens on the fishing grounds in Barents Sea. (With a chart showing rich ascidian communities, currents, and depths). *Copy seen:* DF.

6730. HARTWIG, GEORG LUDWIG, 1813-1880. Dwellers in the arctic regions; a popular account of the men who

live in polar regions. London, Longmans, Green & Co., 1887. x, 11-158 p. incl. plates, illus.

Excerpts from his, *Polar world*, 1869, on the Eskimos, Lapps, Samoyeds, Ostyaks, Yakuts, the Greenlanders (and others), and a section on Alaska.

Copy seen: NNNStef.

6731. HARTWIG, GEORG LUDWIG, 1813-1880. Heroes of the polar world. London, Longmans, Green & Co., 1892. ix, 11-128 incl. front. illus.

Excerpts from his, *Polar world*, 1869, concerning the arctic lands, Wrangel, Steller, and arctic voyages of discovery.

Copy seen: NNNStef.

6732. HARTWIG, GEORG LUDWIG, 1813-1880. The polar and tropical worlds: a description of man and nature in the polar and equatorial regions of the globe. By Dr. G. Hartwig . . . Ed., with additional chapters, by Dr. A. H. Guernsey. Springfield, Mass., Bill, Nichols & Co., [1871] xx [17]-761 p. incl. front., illus.

A combination of the author's *Polar world*, 1869, q.v., and his *Tropical world*. The first part includes new information on the acquisition of Alaska, and on C. F. Hall's expedition, 1860-62.

Another edition: Springfield, Mass., C. A. Nichols & Co., 1874, 811 p. with three additional chapters on: summary of arctic explorations, Hall's last journey, and fate of the *Polaris*; with 5 maps.

Copy seen: DLC; NNNStef.

6733. HARTWIG, GEORG LUDWIG, 1813-1880. The polar world: a popular description of man and nature in the arctic and antarctic regions of the globe. By Dr. G. Hartwig. With additional chapters. New York, Harper & Brothers, 1869. xvi, [17]-486 p. incl. front., illus.

First published in German as *Der hohe Norden im Natur- und Menschenleben dargestellt*, Wiesbaden, 1858, and translated subsequently into various European languages (see Chavanne). English translation was also published in London by Longmans, 1869, 1874, 1886.

Contains a characterization (based on literature) of arctic lands, the various zones, climate and vegetation, the land mammals and birds, the seas and marine animals; regional sketches of exploration and general information (Iceland, Spitzbergen, Jan Mayen, Bear

Island, Novaya Zemlya); chapters on the peoples (Lapps, Samoyeds, Ostyaks, Yakuts, Tungus, Kamchadals, Chukchis, Eskimos, and Indians), the Russians' conquest of Siberia, their fur trade and explorations, on the work of Wrangel and Steller; Kamchatka Peninsula, Bering Sea, Alaska; the Hudson's Bay Company's fur trade; arctic exploration from the time of the Norsemen to Hayes, 1860; and a section on Greenland.

Copy seen: DLC (1869); NNNStef (1886).

6740. HARVIE-BROWN, JOHN ALEXANDER, 1844-1916. On the distribution of birds in North Russia, I-III, and Appendix. (Annals and magazine of natural history, 1877. Ser. 4, v. 19, p. 277-90; v. 20, p. 1-30, 180-212, 494-99)

Contents: 1. On the distribution of birds in the lower Petchora, in North-east Russia (latitudinal distribution from 65°26'N. to the Golayevskaya Islands in Pechora Gulf). 2. Longitudinal distribution of species north of 64°30'N. lat., or the northern division (1st division: Kola Peninsula and all west of White Sea to Russian Finland; 2d division: 40°-50°E. or the delta of the Dvina River and east of White Sea, including Kolguyev Island; 3d division: 50°-65°E. or from the Zylma headwaters to the Urals and including Vaygach Island). 3, and Appendix. Southern region.

These papers form a descriptive list of collecting localities, with discussion

and tables showing actual records, probable occurrences, and abundance or scarcity. Part 1 is a companion paper to H. Seebohm and J. A. Harvie-Brown's *Notes on birds of the lower Pechora*, 1876. q.v.

Copy seen: DSI-M.

6741. HARVIE-BROWN, JOHN ALEXANDER, 1844-1916. *Travels of a naturalist in northern Europe, Norway, 1871, Archangel, 1872, Petchora, 1875. London, T. F. Unwin, 1905. 2 v. (xiv, viii, 541 p.) 24 plates (part col.) incl. ports., 4 maps (3 fold.)*

Contents include full day-to-day notes of this British ornithologist's trips in the Archangel region, June 1-Aug. 10, 1872, and along the Mezen and Pechora Rivers, Mar. 3-Aug. 8, 1875; with comment on travel conditions, Samoyeds of the region, fieldwork, wildlife, ornithological collecting, etc.

Appendices include: v. 1, A. Full list of seventy-two species of birds collected around Archangel. B. Full list of eggs. List of birds collected with young, nests and eggs. D. List of rarer birds in the museum at Archangel. v. 2. B. List of birds' eggs collected on the Great River Petchora (two hundred thirty-eight species). D. The Samoyèdes.

6755. HATT, GUDMUND, 1884-. Arktiske skindragter i Eurasien og

amerika; en etnografisk studie. København, J. H. Schultz, 1914. 4 p. l., 255 p. illus., 16 plates on 4 l. *Title tr.*: Arctic fur apparel in Eurasia and America. An ethnographic study. Author's thesis, University of Copenhagen.

Contains a description of hide and fur clothing, shirts, footwear, etc., used by the Eskimos, Lapps, and the Asiatic nomads and tribes, together with ethnographic and other data; includes notes on the origin of complex wearing apparel by these tribes; bibliography, p. 243-49. *Copy seen*: NN.

6756. HATT, GUDMUND, 1884-. Asiatic influences in American folklore. København, E. Munksgaard, 1949. 122 p. (Danske videnskabernes selskab. Historisk-filologiske meddelelser. Bd. 31, nr. 6)

Introductory discussion of cultural connection between peoples of north-eastern Asia and northwestern America, and detailed analysis of folklore motifs; with a bibliography (about 280 items). *Copy seen*: DSI-E.

6757. HATT, GUDMUND, 1884-. Kyst- og indlandskultur i det arktiske. (Geografisk tidsskrift, 1915-16. Kjøbenhavn, 1916. Bd. 23, p. 284-90) *Title tr.*: Coastal and inland culture in arctic regions.

Discussion, based chiefly on study of clothing and means of transportation, of two arctic culture types, varying in origin and age: the inland culture and the coastal culture. Discussion includes Eskimos, Chukchis, Lapps, Indians, etc. *Copy seen*: DLC.

6758. HATT, GUDMUND, 1884-. Moccasins and their relation to arctic footwear. (American Anthropological Association. Memoirs, 1916. v. 3, no. 3, p. 149-250, 89 illus.)

Based on specimens in eight museums; an analysis of style and structure of North American, Asiatic and European moccasins and Eskimo footwear; with views on their origin. Discusses role of moccasin and snowshoe in relation to author's theory of two stages of culture development in the boreal regions, one an early "coast" culture now best represented by the Eskimo, and the other a more recent "inland" culture, typified by the Tungusians and northern Indians. *Copy seen*: DLC.

6759. HATT, GUDMUND, 1884-. North American and Eurasian culture connections. (Pacific Science Congress. 5th, Victoria and Vancouver, B. C., 1933. Proceedings, pub. Toronto, 1934. v. 4, p. 2755-65)

A discussion of hypotheses of prehistoric cultural connections, largely on the basis of distribution of material culture traits. Includes discussion of the connections of the supposed older, largely Eskimo, coastal culture and the later, Indian, inland culture. Bibliographic footnotes. *Copy seen*: DLC.

6760. HATT, GUDMUND, 1884-. Notes on reindeer nomadism. (American Anthropological Association. Memoirs, 1919. v. 6, no. 2, p. 75-133, illus.)

Practices and customs in connection with reindeer among various nomad peoples (Finns, Lapps, Samoyeds, Yakuts, Tungus, Chukchis, Kamchadals, Yukaghirs, Gilyaks, Koryaks, etc.) of northern Europe and Asia, and the effect of the reindeer on their cultures.

Discussion by B. Laufer, in American anthropologist, 1920. New ser., v. 22, p. 192-97; and by G. Hatt, in *ibid.*, 1921. New ser., v. 23, p. 97-101.

6763. HAUG, ÉMILE. Fossiles du Lias moyen recueillis par la mission Charcot au cap Stewart (terre de Jameson, Groenland oriental). (Academie des sciences, Paris. Comptes rendus, 8 fév. 1926. T. 182, p. 353-55, 548) *Title tr.*: Middle Liassic fossils collected by the Charcot Expedition on Cape Stewart (Jameson Land, East Greenland).

Result of the *Pourquoi-Pas?*'s visit in Aug. 1925, in Hurry Inlet, where a party went ashore on Cape Stewart (70°30'N.) for a geologic investigation. The author lists some twenty-four species of fossil lamellibranchs, ammonites, and brachiopods found, and discusses correlation with deposits elsewhere in Europe. **Copy seen:** DLC.

6764. HAUGE, C. N. Administrationen af Grønland. Statens monopolhandel paa Grønland afløses af privathandel? (Grønlandske selskab. Aarsskrift, 1926-27. p. 40-70, table) **Title tr.:** The administration of Greenland. Should the government trade monopoly be replaced by private trade?

Reviews and analyzes laws, pertaining to the administration of Greenland from 1776; discusses trade monopoly and emphasizes its advantages. Includes statistics. **Copy seen:** NN.

6765. HAUGE, HALVOR VEGARD. Botanisk litteratur om norske innsjøer. (Nytt magasin for naturvidenskapene, 1941. Bd. 82, p. 69-82) **Title tr.:** Botanical literature on Norwegian lakes.

Contains a critical review of literature on Norwegian lakes, with a list of lakes arranged by regions and a bibliography of 70 items, including some works on limnology, fresh-water vegetation and plankton.

Copy seen: MH-A; MH-Z.

6766. HAUGE-JOHANNESSEN, BETTY. Som veiviser for Nordenskiöld, gjennom nordostpassasjens første del. (Polar-årboken, 1933. p. 80-94, illus.) **Title tr.:** As pilot for Nordenskiöld on the first stretch of the Northeast Passage.

Biographical sketch of Hans Christian Johannesen, 1846-1920, and notes on his participation in the *Vega*, *Gjøa* and other expeditions, etc.

Copy seen: NN.

6768. HAUSEN, HANS. Quatärgeologische Beobachtungen im nördlichen Teil des Petsamo-Gebietes (Finnländische Eismeerküste). Helsingfors, 1925. 29 p., 8 illus. incl. map, fold. map. (Fennia. Hefte 45, no. 7) **Title tr.:** Quaternary geological observations in the northern part of the Petsamo region (arctic coast of Finland).

A study of the Quaternary geomorphology of the Pechenga area of northern Finland (northwestern U.S.S.R.) north of about 69°N. Observations on distribution and origin of (1) physiographic regions, (2) glacial erosion features, moraines, and glacio-fluvial deposits, (3) hydrographic and other features related to late uplift of the land, (4) clay deposits in regions of land subsidence, (5) uplifted shell deposits, (6) postglacial weathering and erosion. Includes notes on moor development in the far North and on the latitudinal and altitudinal distribution of birch, pine, and spruce forests.

Maps: 1. Lower Petsamo River valley, scale 1:200,000.

2. Fold. map, scale 1:500,000, showing distribution of Quaternary land

forms and limits of vegetation of the Pechenga area. *Copy seen:* DLC.

6769. HAUSEN, HANS. Über die Präquartäre Geologie des Petsamo-Gebietes am Eismeere. Helsinki-Helsingfors, Imprimerie de l'état, 1926. 100 [1] p. 13 illus. (incl. map), 2 plates, fold. col. map. (Finland. Geologiska kommissionen. Bull. 76) *Title tr.:* On the pre-Quaternary geology of the Petsamo region on the Arctic Ocean.

Contains description of the regional, structural, and stratigraphic geology and petrology. Includes notes on the Rybachiy Peninsula, and detailed study of geology of the mountain range Petsamontunturit, with a schematic geologic cross-section and a discussion of the occurrence of nickel and other ores. Bibliography, p. 10-13.

Maps: 1. Geologic sketch map of northern Fennoscandia, scale 1:6,000,000; 2. General geologic map of the Petsamo area and vicinity, scale 1:400,000, showing distribution of rock formations and economic minerals.

Copy seen: DLC.

6770. HAUSLAB, FRANZ, 1798-1883. Inference applied to geography, with special reference to ocean currents and the arctic regions. (Royal Geographical Society. Journal, 1875. v. 45, p. 34-45, 2 fold. maps)

Theoretical discussion of ocean currents in general, and those of the Arctic in particular. Gives the author's view about the effect upon currents of the earth's configuration and rotation; a contribution to the then flourishing discussion of the best route to the North Pole.

Copy seen: DLC.

6771. HAUSSKNECHT, HEINRICH KARL, 1838-1903. Monographie der Gattung *Epilobium*. Jena, J. Fischer, 1884. 318 p. 23 plates, 3 tables. *Title tr.:* Monography of the genus *Epilobium*.

Contains a monographic treatment of about one hundred seventy species and many forms and hybrids of herbaceous genus *Epilobium*, arranged in five sections: (1) Europe, (2) Asia, (3) Africa, (4) America, (5) Oceania; with a morphological sketch, a survey of geographic distribution (including eight species in arctic regions), keys to the sections and species, Latin de-

scriptions, synonymy, critical notes, lists of illustrations, exsiccata, localities and vernacular names in various languages; a table of hybrids, two tables of distribution in various geographic regions and indices. Includes many native to the Arctic. A review and descriptions in Swedish of the Scandinavian species were published in Botaniska notiser, 1884, p. 189-99, by S. Murbeck. *Copy seen:* MH-G.

Copy seen: DSI-M.

6774. HAWKE, ERIC LUDLOW. Summer at the North Pole. (London. Royal Meteorological Society. Quarterly Journal, Oct. 1937. v. 63, p. 491-93)

A résumé of meteorological observations made from the Soviet Drifting Ice-floe Station "North Pole" during the period May 23-Aug. 29, 1937.

Copy seen: DLC.

6775. HAWKES, ERNEST WILLIAM, 1883- . The dance festivals of the Alaskan Eskimo. Philadelphia, University Museum, 1914. 41, [1] p. 5 plates. (University of Pennsylvania. The University Museum. Anthropological Publications. v. 6, no. 2)

Based on the author's observations during two years spent on Diomed Islands and one year at St. Michael. Contains a phonetic key, general notes on the dance, and description of the dance house and paraphernalia, the festivals, annual feast, great feast and inviting-in festival.

Copy seen: DLC; NNSf.

6776. HAWKES, ERNEST WILLIAM, 1883- . The "Inviting-in" feast of the Alaskan Eskimo. Ottawa, Govt. Print.

Bureau, 1913. 2 p. l., 20 p. illus., 13 plates. (Canada. Geological Survey. Memoir 45. Anthropological series, no. 3)

Describes the dance house, songs, jances, masks, etc., used in connection with this festival; as observed by the author while stationed at St. Michael, 1911-12, as government teacher to Eskimos of the region, also p. 19-20, comment on the borrowing of Eskimo customs noted by J. W. Chapman in his *Notes on the Tinneh tribe*, 1907, q.v.

Copy seen: DLC.

6777. HAWKES, ERNEST WILLIAM, 1883- . The Labrador Eskimo. Ottawa, Govt. Print. Bureau, 1916. 1 p. l., x, 235 p. incl. illus., 35 plates, fold. map (in pocket). (Canada. Geological Survey. Memoir 91. Anthropological series no. 14)

Contains chapters on history and distribution, food, clothing, houses, transportation, hunting and fishing, utensils and art; on social organization and customs, games, music, religion and mythology, with twenty-four tales including legends on ancestral migration to Labrador and on the Tunnit.

Copy seen: DLC.

6778. HAWKES, ERNEST WILLIAM, 1883- , and W. D. WALLIS. A note on the glenoid fossa. (American anthropologist, 1916. New ser., v. 18, p. 440-44)

Discussion of Knowles, F. H. S., *The glenoid fossa in the skull of the Eskimo*, 1915, q.v.

Copy seen: DLC.

6779. HAWKES, ERNEST WILLIAM, 1883- . Skeletal measurements and observations of the Point Barrow Eskimo, with comparisons with other Eskimo groups. (American anthropologist, 1917. New ser., v. 18, p. 203-244, illus. 7 plates, tables) Also issued as Ph.D. thesis to Univ. of Pennsylvania, 1916.

Tables of data and discussion based on specimens in Wistar Institute of Anatomy, Philadelphia, and on author's observations in Labrador and Alaska.

Copy seen: DLC.

6780. HAWKES, ERNEST WILLIAM, 1883- . Transforming the Eskimo into a herder. An account of the reindeer industry in Alaska. (Anthropos. Ephemeris, 1913. Bd. 8, p. 359-62, 3 plates)

Brief description of the origin, or-

ganization, and incidents of the reindeer industry of Alaska.

6781. HAWLEY, JAMES EDWIN, 1897- . The association of gold, tungsten, and tin at Outpost Islands, Great Slave Lake. (*In:* Contributions to Canadian mineralogy, 1939. Toronto. University. Studies, 1939. Geol. ser. no. 42, p. 53-66, plate)

Results of field and laboratory studies on quartzites, with remarks on possible origin.

Copy seen: DGS.

6782. HAWLEY, JAMES EDWIN, 1897- . Geology and economic possibilities of Sutton Lake area, District of Patricia. Printed by order of the Legislative Assembly of Ontario. Toronto, Printed and Published by C. W. James, 1926. v, 56 p. illus., maps (1 fold.) tables, diagrs. (Ontario. Dept. of Mines. Annual report, pt. 7, 1925)

Contents include: Introduction (including routes). Physiography (Washigami River and Lakes, Trout (later named Sutton) River, Sutton Lake, and Trout Creek, Aquatuk River and Lake, Little Ekwan River). Stratigraphic geology (including iron formation, iron ores, origin of iron, igneous rocks). Veins (quartz). Economic possibilities (silver and iron). Routes and transportation facilities to James Bay and along its west coast (routes to Moose Factory and to Fort Albany, local sailing vessels, canoes, power boats, detachable engines, and sails).

HAYCOCK, M. H., *see* Kidd, D. F., & M. H. Haycock. Mineragraphy of ores Great Bear L. 1935.

6785. HAYES, CHARLES WILLARD, 1859-1916. Copper River as a route to Yukon Basin. (American Geographical Society, N. Y. Journal (Bulletin) 1898. v. 30, p. 127-34, map)

The author was a member of the Schwatka expedition, 1891, and at that time covered the east branch and lower portion of the Copper River. He describes the river here, especially the obstacles to navigation, and discusses its use as a route. *Copy seen: DLC.*

6786. HAYES, CHARLES WILLARD, 1859-1916. An expedition through the Yukon district. (National geographic magazine, May, 1892. v. 4, p. 117-62, 3 maps)

Contains the narrative of the Schwatka Yukon basin expedition, 1891, via the Taku, Teslin, Lewes, White, and Copper Rivers; a description of the topography, vegetation, rocks, gold and copper, volcanic phenomena, and glacial phenomena.

Appendix: CUMMINGS, C. E. Cryptogams collected by Dr. C. Willard Hayes in Alaska, 1891. (This paper appears in this Bibliography under its author's name) *Copy seen: DGS.*

6787. HAYES, ERNEST HENRY. Forty years on the Labrador; the life-story of Sir Wilfred Grenfell. New York, Chicago [etc.] Fleming H. Revell Co. [1930] 128 p. front. (port.) 2 plates. *Copy seen: DLC; NNSf.*

6788. HAYES, ISAAC ISRAEL, 1832-1881. Address on arctic exploration. (American Geographical Society. Journal, 1870. v. 2, pt. 2, p. 1-31, map)

A paper read before the Society, Nov. 12, 1868. Remarks on the course of exploration from antiquity to the author's own efforts in 1860-61, with emphasis on the route to the Pole by way of Smith Sound, and the currents of the polar sea. *Copy seen: DLC.*

6789. HAYES, ISAAC ISRAEL, 1832-1881. An arctic boat-journey in the autumn of 1854, by Isaac I. Hayes. London, R. Bentley, 1860. xliii, 379, [1] p. fold. map.

London edition, with the addition of Introductory notice by Dr. Norton Shaw, commenting on results of the

Franklin search, with a list of arctic expeditions and publications 1845-60. This edition lacks the map of arctic regions in the Boston 1860 edition, and has the chart of Baffin Island reduced.

6790. HAYES, ISAAC ISRAEL, 1832-1881. An arctic boat journey, in the autumn of 1854. Boston, Brown, Taggard and Chase; New York, Sheldon & Co., 1860. 3 p. l., [vii]-xvii, 375 p. 2 fold. maps (incl. front.)

Contains a brief outline of the Second Grinnell Expedition, which the author accompanied as surgeon; and (in detail) his account of a four-month journey, in the autumn 1854, of a party from the expedition's winter quarters, Rensselaer Harbor, towards Upernavik and return; their boating and sledging along Smith Sound and the Greenland west coast (between 78°45'-76°30'N.); comments on the physical features, botany, the hunting and the Eskimos of the region.

Appendix contains Proceedings of scientific societies relative to Dr. Hayes' proposed arctic expedition (to north-west Greenland, 1860-61).

Maps: 1. Chart of the upper limit of Baffin Bay illustrating Hayes' boat journey; 2. Arctic regions showing proposed track of Hayes' 1860-61 expedition. *Copy seen: DLC.*

6791. HAYES, ISAAC ISRAEL, 1832-1881. An arctic boat journey, in the autumn of 1854. New ed., enl. and illustrated. Boston, Ticknor and Fields, 1867. xxiii p., 1 l., 387 p. incl. front. plates, 2 maps.

A reprint of the *Arctic boat journey*, with the addition of the author's prefatory note. Also Notes to the new edition, p. 376-87, (comments resulting from Hayes' 1860-61 expedition); and without the fold. maps of the 1860 edition. This edition was republished (with some pagination, etc.) in Boston by J. R. Osgood & Co., 1871.

6792. HAYES, ISAAC ISRAEL, 1832-1881. The land of desolation: being a personal narrative of observation and adventure in Greenland. New York, Harper & Bros., 1872. 357 p. incl. front., illus., 20 plates, ports., plan.

Narrative of a visit to Greenland in the steam yacht of the artist Wil-

liam Bradford, 1869, giving an account of the trip along the coast, from Julianehaab to Melville Bay, with chapters on the Norse ruins, on the settlement of Julianehaab, glaciers, icebergs, fiords, polar bear hunting, Melville Bay, Upernavik, Disko Island, Godhavn, etc., with numerous illustrations of local scenes and customs.

Copy seen: DLC; NNS Stef.

6793. HAYES, ISAAC ISRAEL, 1832-1881. Lecture on arctic explorations. (Smithsonian Institution. Annual report, 1861, *pub.* 1862, p. 149-60).

Summary account of the author's expedition to the Smith Sound region, 1860-61, the wintering at Port Foulke on northwest Greenland, the trip to Grinnell Land, the meteorological observations, explorations, and surveys made.

Copy seen: DLC.

6794. HAYES, ISAAC ISRAEL, 1832-1881. Observations upon the practicability of reaching the North Pole. (American journal of science, Nov. 1858. Ser. 2, v. 26, p. 305-23; also *pub.* in: American Association for the Advancement of Science. Proceedings, 1858, v. 12, p. 234-54)

Paper read before the American Association for the Advancement of Science, May 3, 1858, discussing the various attempts to reach the Pole by other routes, and analysing the Baffin Bay-Smith Sound route. Includes remarks on its birds, plants, climate, Eskimo inhabitants, and (throughout) the ice conditions.
